THIS AGREEMENT is made on 19 January 2024

BETWEEN:

- (1) **ABC Management Group Pty Ltd** ABN 52 005 000 895 whose registered office is at Level 9,180 Ann Street, Brisbane 4000 (**ABCD**); and
- (2) **XYZ Global Services (UK) International Limited** Acre House, 11-15 William Road, London NW1 3ER, United Kingdom (the **Supplier**).

RECITALS:

- (A) ABCD intends to undertake a modernisation of its core capabilities and legacy systems that underpin its operations to improve how ABCD delivers services to its customers and to enable ABCD to achieve its strategic objectives at pace (**the Project**).
- (B) ABCD wishes to engage a service provider as the principal contractor responsible for the provision to ABCD of certain ICT and Business Process Management services which are currently provided in-house or by third parties and to assist ABCD in the achievement of ABCD objectives in relation to these services, hardware and architecture.
- (C) As part of the Project, ABCD is seeking to partner with a service provider to implement the Solution and establish a framework under which ABCD and the Supplier may enter into statements of work from time to time for the provision of Supplies in connection with the Project.
- (D) On 15 August 2023 2023, ABCD issued the RFP, and the Supplier subsequently responded to the RFP with the RFP Response.
- (E) The Supplier has represented to ABCD that it has the capability to deliver the Solution in the manner and in the timeframe required by ABCD.
- (F) ABCD has, in reliance on the representation in Recital E, agreed to engage the Supplier to provide the Supplies, implement the Solution and be the prime contractor for the Project, on the terms and conditions of this Agreement. The Supplier will supply, and ABCD will receive, a fully integrated Solution, together with management, training, support and other services as agreed in the scope of work to commission and operate the Solution on the terms and conditions of this Agreement.

STANDARD TERMS

Part A: Getting Started

1. Interpretation

1.1 Definitions

The following definitions apply in this Agreement:

Acceptance Certificate means a written certificate issued by ABCD confirming that ABCD is satisfied that the Deliverable listed or described in that certification meets the Acceptance Criteria.

Acceptance Criteria means the acceptance criteria set out in the relevant Test Plan or Statement of Work or otherwise agreed between the parties.

Acceptance Date means the date on which ABCD issues the Supplier with an Acceptance Certificate for the relevant Deliverable.

Acceptance Period means:

- (a) in respect of a Documentary Deliverable, a period of 10 Business Days (or such other period as may be agreed); and
- (b) in respect of a Non-Documentary Deliverable, the relevant period set out in the Test Plan or Statement of Work or otherwise agreed,

commencing from the date ABCD receives the relevant Deliverable and which may be extended in accordance with the procedure set out in clause 25.7(a).

Acceptance Process means the process by which Deliverables are accepted by ABCD, as set out in clause 26.

Acceptance Tests means the tests agreed by the parties and set out in the relevant Test Plan to determine whether a Non-Documentary Deliverable meets the requirements set out in the relevant Statement of Work.

ACICA Arbitration Rules mean the arbitration rules of the Australian Centre for International Commercial Arbitration,

Additional Amount has the meaning given in clause 24.1(b).

Additional Services has the meaning in clause 14.1(a).

Agreement means this agreement as described in clause 4.

Agreement Details means the details set out in Schedule 1 (Agreement Details).

Anti-Corruption Law means:

- (a) the *Australian Criminal Code Act 1995* (Cth);
- (b) the *United States of America Foreign Corrupt Practices Act of 1977*;
- (c) the United Kingdom *Bribery Act 2010*; and
- (d) any other applicable Law including any:
 - (i) statute, ordinance, rule or regulation;
 - (ii) order of any court, tribunal or any other judicial body;
 - (iii) rule, regulation, guideline or order of any public body, or any other administrative requirement; and
 - (iv) similar instrument,

which has as its objective the prevention of corruption.

Associated Party means a person or entity (including, without limitation, all officers, employees, agents, contractors, and any person, including any subsidiaries or controlled entities) who performs (or has performed) services for or on behalf of the Supplier.

Attestation of Compliance means a document prepared by a PCI Qualified Security Assessor (QSA) declaring the status of the Supplier's compliance with the PCI Standard.

Australian Modern Slavery Laws means any statutes, regulations, rules, or other instruments of the Commonwealth of Australia, or any state or territory of the Commonwealth of Australia, which relate to Modern Slavery.

Authorisation means an authorisation, consent, declaration, exemption, notarisation or waiver, however it is described, including any renewal or amendment.

Business Day means a day that is not a Saturday, Sunday or public holiday in the capital city of the State or Territory where the Site is located (or if no Site is specified, in Brisbane, Queensland).

Business Hours Period has the meaning given in clause 55(b) or as otherwise specified for Services in a SOW as stated in the relevant SOW.

Change Management Procedure means the change management procedure set out in Schedule 9 (Change Management).

Change of Control means for a corporation, a change in the Control of that corporation including by any of the following means:

- (a) control of a majority of the composition of the board of directors of the corporation;
- (b) control of more than half the voting rights attaching to shares in the corporation; or
- (c) control of more than half the issued shares of the corporation (not counting any share which carries no right to participate beyond a specified amount in the distribution of either profit or capital).

Change Request means a document specifying the details of a proposed variation to this Agreement from a party, in the form agreed by the parties from time to time.

Claim means any claim, action, demand, order, notice, declaration or proceedings of any nature whatsoever, whether actual or threatened.

Commencement Date means the commencement date of this Agreement as specified in the Agreement Details.

Conditional Acceptance Certificate means a written certificate issued by ABCD that, subject to specified Defects being rectified, ABCD is satisfied that the Deliverable listed or described in that certification meets the Acceptance Criteria.

Confidential Information means any information (in any form) which is disclosed or made accessible by or on behalf of a party to another party during or in connection with the negotiation or performance of this Agreement that:

- (a) is expressly stated to be or marked confidential;
- (b) by its nature is confidential;
- (c) relates to the operation, finances, business or customers of a party (but excluding ABCD in the case of the Supplier) and includes information or a document that relates to the affairs or personal particulars of another person (such as a company or a business); or

(d) could reasonably be expected to be confidential in nature,

and in the case of ABCD, includes:

- (e) ABCD Data;
- (f) the existence and terms of this Agreement;
- (g) any information which relates to the business, assets, customers, strategies, concepts or affairs of any member of the ABCD Group; and
- (h) any information that is developed by the Supplier in the course of providing the Supplies, to the extent such development is based on ABCD information or content,

but excluding information which is:

- (i) in the public domain, other than due to a breach of confidentiality;
- (j) became part of the public domain after its provision by the disclosing party otherwise than through a disclosure by the receiving party or any person to whom the receiving party has disclosed that information;
- (k) lawfully obtained by the receiving party from a different source in circumstances which do not impose a duty of confidence; or
- (l) was independently developed by the receiving party without reference to any disclosing party's Confidential Information.

Conflict of Interest means any actual or potential:

- (a) obligation, direct or indirect financial or other interest; or
- (b) connection to immediate relatives or close friends with a direct or indirect financial or other interest; or
- (c) personal bias, personal obligation, alliance, loyalty,

which may in any way affect decisions in connection with this Agreement or create a conflict with the Supplier's obligations under this Agreement.

Contract Details means the section of this Agreement entitled "Contract Details".

Control means the capacity of a person to control decision making, directly or indirectly, in relation to the financial and operating policies of another person so as to enable that other person to operate with it in pursuing the objectives of the controlling entity.

Corporations Act means the *Corporations Act 2001* (Cth).

ABCD Data means all Material relating to ABCD and its respective operations, facilities, customers, Personnel, assets, products, sales and transactions in whatever form such information may exist, or containing ABCD Confidential Information or Personal Information which the Supplier has access to under this Agreement and includes any Material generated by or processed in connection with the Supplies.

ABCD Delay means an actual or impending delay by ABCD in the provision of a ABCD Input, a failure by ABCD to perform its obligations under this Agreement or suspension by ABCD of any or all aspects of this Agreement under clause 46.

ABCD Facilities and Other Resources means the facilities and services identified in Schedule 4 (ABCD Inputs) or the relevant Statement of Work (As applicable).

ABCD Group means:

- (a) Wealthy Aim Investments Limited (BVI);
- (b) ABC Management (UK) Limited (UK); and
- (c) ████████ Holdings Limited (USA),

and their respective Related Bodies Corporate.

ABCD Group Loss has the meaning given in clause 8.5(b).

ABCD Information Security Requirements means the information security requirements set out in Schedule 7 (ABCD Information Security Requirements) and as amended by ABCD from time to time.

ABCD Inputs means the goods, services and other resources to be provided by ABCD under this Agreement or any Statement of Work, as described in Schedule 4 (ABCD Inputs) or the relevant Statement of Work (as applicable), and includes the ABCD Facilities and Other Resources, ABCD Systems and ABCD Interoperable Systems.

ABCD Interoperable Systems means ABCD systems that the Supplier will integrate with the Solution as set out in Schedule 4 (ABCD Inputs) or the relevant Statement of Work (as applicable).

ABCD Material means Material provided to the Supplier by ABCD under or in connection with this Agreement.

ABCD Personal Information means all Personal Information of ABCD handled or processed by the Supplier in accordance with this Agreement.

ABCD Personnel means the Personnel of a ABCD Group member (excluding the Supplier and all Supplier Personnel).

ABCD Policies means all of ABCD written policies, guidelines, procedures and standards which are notified to the Supplier by ABCD from time to time, the Supplier Code of Conduct and those as to quality, the environment or occupational health and safety.

ABCD Representative means the person set out the Agreement Details, or as notified by ABCD to the Supplier from time to time.

ABCD System means any computer or other system owned, licensed or operated by ABCD and/or a member of the ABCD Group, including any inputs identified in Schedule 4 (ABCD Inputs) or the relevant Statement of Work (as applicable).

Cyber Liability Insurance has the meaning given in the Agreement Details.

Data Breach means any:

- (a) breach of clause 21 by the Supplier;
- (b) breach of Privacy Laws;

- (c) actual or potential unauthorised processing, disclosure, use, modification or access, or attempted unauthorised disclosure, use, modification or access, or misuse or loss of, ABCD Data; or
- (d) engaging a subcontractor to process ABCD Personal Information without ██████ approval.

Data Security Incident has the meaning given in clause 36.6

Defect means:

- (a) any fault, failure, degradation, deficiency or error in a Supply;
- (b) any non-conformance of a Supply with the Specification or Documentation for that Supply;
- (c) any functionality or performance of a Supply below or not in accordance with the Specification or Documentation for that Supply; or
- (d) any partial performance or non-performance of a Supply.

Deliverable means any Material or other item to be supplied by the Supplier in the provision of the Services, as described in this Agreement including in the Specifications, the Solution Implementation Plan or a Statement of Work (as applicable). Unless expressly provided otherwise, a Deliverable that is Software includes all relevant Documentation for that Software.

Delivery Date means, in respect of a Supply, the delivery date set out in the relevant Solution Implementation Plan or otherwise agreed by the parties in writing for that Supply.

Developed Material means all Material brought or required to be brought into existence by or on behalf of the Supplier (including without limitation by the Supplier's subcontractors) specifically for ABCD under this Agreement but excluding any Supplier Material.

Disaster means an event (which may include a Force Majeure Event) that causes, or is likely to cause, a material adverse effect on the performance of the Supplier's obligations under this agreement that cannot be managed within the context of normal operating procedures including interruption, destruction or other loss of operational capacity.

Disaster Recovery Plan has the meaning given in clause 41(a).

Disengagement Assistance means the services described in clause 49.8 and Schedule 10 (Disengagement).

Documentary Deliverable means a Deliverable which consists of Documentation and which is subject to the Acceptance Process as set out in a Solution Implementation Plan.

Documentation means documentation to be provided as a Deliverable or in connection with a Deliverable as specified in a Statement of Work whether in hard copy or soft copy form.

DSI Response Plan has the meaning given in clause 35.5(b)(iv).

Encumbrance means:

- (a) a PPS Security Interest;
- (b) any other mortgage, pledge, lien or charge;
- (c) an easement, restrictive covenant, caveat or similar restriction over property; or

any other interest or arrangement of any kind that in substance secures the payment of money or the performance of an obligation, or that gives a creditor priority over unsecured creditors in relation to any property.

Environment in relation to a party means the equipment, software, network and services (regardless of ownership) that comprise that party's information technology infrastructure.

Excluded Loss means any Loss which does not arise naturally from and in the usual course of a breach of contract or other wrongful act or omission of the Supplier and includes indirect or consequential loss or damage, or loss of actual or anticipated revenues, profits or goodwill (direct or otherwise and whether caused by negligence or otherwise), but excluding without limitation any Losses of the following kinds:

- (a) additional operational and administrative costs and expenses;
- (b) additional time and costs of procuring or performing replacement Supplies (including the costs of re-tendering);
- (c) costs of resupply of services;
- (d) internal costs of a party to mitigate or remedy a breach;
- (e) third party costs incurred to mitigate or remedy a breach;
- (f) costs related to loss or degradation of, or damage to, any ABCD Data, including the costs of recreating or reloading lost or damaged data;
- (g) fines or penalties resulting from a breach of Law or this Agreement; or
- (h) claims by a third party for liquidated sums, penalties or damages under any agreement.

Fees means the amount payable by ABCD under this Agreement for the provision of the Supplies (other than Additional Services), as set out in Schedule 6 (Fees and Standard Rates) and/or the applicable Statement of Work.

Finish Date means the date indicated as such in a Statement of Work.

Force Majeure Event means the following events or circumstances:

- (a) acts of God, including landslide, cyclones, flood, earthquake, hurricanes, typhoons, lightning and induction caused by lightning, tornadoes, hailstorms, ice or ice storms and tsunami;
- (b) fire or explosion;
- (c) epidemic/pandemic or quarantine;
- (d) war, invasion, act of foreign enemies, hostilities (whether war is declared or not), civil war, act of terrorism, rebellion, riot, revolution, insurrection or military or usurped power, martial law or confiscation by order of any Government Agency;

- (e) ionising radiations or contamination by radioactivity from nuclear fuel or nuclear waste resulting from the combustion of nuclear fuel;
- (f) industrial action or dispute which affects the State or Territory where the Site is located or Australia generally and is not directed at the affected party or any of its Personnel;
- (g) pressure waves caused by aircraft or other aerial devices travelling at sonic or supersonic speeds;
- (h) accidents in shipping or transportation; or
- (i) closing of any harbour, dock, port or canal,

but only where such events or circumstances:

- (j) are not caused by an act or omission of the affected party or any of its Personnel;
- (k) are beyond the reasonable control of the affected party or its Personnel; and
- (l) could not have been avoided or overcome by the affected party or any of its Personnel taking reasonable precautions or steps.

Foreign Modern Slavery Laws means any statutes, regulations, rules, or other instruments of any foreign jurisdiction which relate to Modern Slavery.

Goods and Services Tax or GST means goods and services tax or similar value added tax levied or imposed by the GST Law or otherwise on a supply.

Governance Forum means a governance forum as further described in Schedule 9 (Governance and Risk Management).

Government Agency means any government or governmental, administrative, monetary, fiscal or judicial body, department, commission, authority, tribunal, agency or entity in Australia.

Government Authority means any :

- (a) government department;
- (b) local government;
- (c) governmental or statutory authority; or
- (d) other party which has a right under a Law to impose a requirement or whose consent is required in relation to this Agreement.

Group's Anti-Bribery and Corruption Policy means the Anti-Bribery and Corruption Policy provided by ABCD to the Supplier at the time of entering the Agreement. For the avoidance of doubt, this includes all updates provided to the Supplier by ABCD which replace or amend that Policy.

GST Law means *A New Tax System (Goods and Services Tax) Act 1999* (Cth).

Harmful Code means any computer virus or other code which is intended to or would have the effect of intercepting, accessing, copying, disrupting, impairing, denying or otherwise adversely affecting security, performance, integrity, reliability, access to or use of any information technology, data or telecommunications system, equipment or

network, including worms, spyware, adware, keyloggers, trojans and any new types of programmed threats that may be classified.

Incident means an unplanned interruption or reduction in quality of a Supply or ABCD Environment, or any other event which is not part of the standard operation of the relevant Supply or ABCD Environment.

Indemnified Parties means ABCD and its Personnel.

Industry Best Practice means the proven best practice in relation to a Supply or any activity, function or work under this Agreement adopted by the leading providers of services similar to the Supplies.

Information means all Personal Information and all other information and know how, regardless of form, relating to or developed in connection with:

- (a) this Agreement;
- (b) any business, affairs, finances, markets, promotions, strategies, plans, customers, suppliers, Related Bodies Corporate, employees, industrial relations of a party;
- (c) any systems, technology (including, without limitation, computer software, manufacturing processes or other information embodied in drawings or specifications) or things or items in which Intellectual Property Rights are owned or used by a party or licensed to a party subsist;
- (d) product specifications;
- (e) product pricing; and/or
- (f) business methods, Tools and methodologies.

Information Asset means Information and information technology, including software, hardware and data.

Information Security means the preservation of the confidentiality, integrity and availability of ABCD Data.

Information Security Incident means an actual or potential compromise of Information Security.

Information Security Control means a prevention, detection or response measure to reduce the likelihood or impact of an Information Security Incident commensurate with the:

- (a) vulnerabilities and threats to ABCD Data;
- (b) the criticality and sensitivity of ABCD Data;
- (c) the potential consequences of an Information Security Incident.

Infringement Claim means any dispute, claim, demand, suit or action or proceeding (actual, threatened or potential) made by a third party against:

- (a) ABCD or any other ABCD Group member, including ABCD Personnel, alleging that the whole or a part of any Supplies, Developed Material or Supplier Material or their provision, license or use as authorised by this Agreement, infringes (or

would infringe) another person's Intellectual Property Rights (in the case where the Supplier is indemnifying ABCD under clause 20.6); and

- (b) the Supplier, including Supplier Personnel, alleging that the whole or a part of any ABCD Inputs or their provision, license or use as authorised by this Agreement, infringes (or would infringe) another person's Intellectual Property Rights (in the case where the ABCD is indemnifying the Supplier under clause 20.6).

Initial Statement of Work means a Statement of Work to be agreed by the parties in accordance with clause 6 a list of which is identified in the PD as at the Commencement Date.

Initial Term means the period specified as such in the Agreement Details.

Insolvency Event means:

- (a) a "controller" (as defined in the Corporations Act), manager, trustee, receiver, receiver and manager, administrator or similar officer is appointed in respect of a body corporate or any asset of a body corporate;
- (b) a liquidator or provisional liquidator is appointed in respect of a body corporate;
- (c) any application is made to a court for an order, a court makes an order, a meeting is convened or a resolution is passed, for the purpose of:
 - (i) appointing a person referred to in paragraph (a) or (b);
 - (ii) winding up or de-registering a body corporate; or
 - (iii) proposing or implementing a scheme of arrangement,
- (d) other than an application which is withdrawn, dismissed or set aside within 21 days after it is made;
- (e) a body corporate enters into, resolves to enter into or proposes a reorganisation, moratorium or other form of administration involving, an arrangement, composition or compromise with, or assignment for the benefit of, its creditors generally or any class of them, other than for the purposes of a reconstruction or amalgamation while solvent;
- (f) a body corporate becomes, states in writing that it is or is deemed under any Legislative Requirement to be, insolvent or unable to pay its debts as and when they fall due; or
- (g) any act is done or event occurs which, under any applicable Legislative Requirement from time to time in any jurisdiction, has an analogous or similar effect to any act or event described in paragraphs (a) to (e) of this definition (inclusive).

Interim Agreement means the interim agreement dated 9 January 2024 (with an effective date of 15 November 2023) for the Supplier to commence preliminary work in relation to the Project.

Intellectual Property Rights means all present and future rights conferred by statute, common law, equity or any corresponding Law in or in relation to any copyright, trade marks, designs, patents, circuit layouts, business and domain names, inventions and

other results of intellectual activity in the industrial, commercial, scientific, literary or artistic fields whether or not registrable, registered or patentable. These rights include:

- (a) all rights in all applications to register these rights;
- (b) all renewals and extensions of these rights; and
- (c) all rights in the nature of these rights, excluding Moral Rights.

Interim Manager has the meaning given in clause 28.1(a).

Law means any applicable:

- (a) Legislative Requirements;
- (b) common law and equity;
- (c) requirements of Government Agencies; and
- (d) guidelines of the Commonwealth, State and local governments and Government Agencies with which the Supplier is legally required to comply,

as in force from time to time.

Legislative Requirements means:

- (a) statutes, regulations, by-laws, ordinances and subordinate legislation; and
- (b) approvals, authorisations, consents, exceptions, licences, permits, determinations, certificates or registrations and the like of or from any Government Agency, including any renewal or variation,

in force from time to time.

Loss means any claim, damage, loss, cost, charge, expense, outgoing, payment or liability of any include (including legal costs and defence or settlement costs).

Material means material in any form, including documents, object libraries, frameworks, specifications, blueprints, reports, products, equipment, information, data, software (in source code and object code), software tools and software development methodologies and includes all Deliverables, releases, updates, enhancements, Modifications, improvements and amendments to such material made under this Agreement.

Milestone means a milestone set out in a Statement of Work.

Milestone Due Date means the due date for a Milestone, as set out in a Statement of Work.

Modification includes an alteration, enhancement, development. Modify and Modified have corresponding meanings.

Modern Slavery includes, but is not limited to, conduct which is defined as 'modern slavery' under section 4 of the Modern Slavery Act 2018 (Cth).

Moral Rights means rights of integrity of authorship, rights of attribution or authorship, rights not to have authorship falsely attributed, and rights of a similar nature conferred by statute in Australia that may now exist or that may come to exist in relation to the work.

New Release means software provided primarily to provide an extension, alteration, improvement or additional features, functions, technology or architecture updates of software.

Nominated Personnel means the persons specified as such in a Statement of Work.

Non-Documentary Deliverable means a Deliverable (other than a Documentary Deliverable) which is subject to the Acceptance Process as set out in a Solution Implementation Plan.

Notice has the meaning given in clause 55(a)

Notice of Late Submission has the meaning set out in clause 26.5(a).

Objectives has the meaning given in clause 3.1(a).

Open Source Software means software that, as a condition of its use, requires that such software, any developments to that software or any other software with which such software is combined or distributed be:

- (a) disclosed or distributed in source code or object code form;
- (b) licensed to the general public for development or other purposes; or
- (c) redistributable.

Ongoing Services mean the services specified as such in the PD.

Parent Company means the parent company of the Supplier as specified in the Agreement Details.

Parent Company Guarantee means the parent company guarantee described in clause 43 and in the form set out in Schedule 11 (Parent Company Guarantee).

PCI Qualified Security Assessor means a person who has been certified by the PCI Standards Council to audit merchants for PCI Standard compliance.

PCI Standard means the Payment Card Industry Data Security Standard.

PCI Standards Council means the body responsible for the development, management, education, and awareness of the PCI Standard.

PD means the "Process Document Report Out" document in Schedule 2 (PD).

Personal Information has the meaning given to it in the Privacy Act.

Personnel in relation to a party means the officers, employees, agents, contractors and consultants engaged by the party (but does not include the other party) and, in the case of:

- (a) ABCD, includes officers, employees, contractors, representatives, agents of a member of the ABCD Group; and
- (b) the Supplier, includes its Nominated Personnel, subcontractors and any officers, employees, agents, individuals and contractors of those subcontractors.

PPS Security Interest means a security interest that is subject to the PPSA.

PPSA means the Personal Property Securities Act 2009 (Cth).

Premises means any Supplier Service Location and any other premises owned or operated by the Supplier, or any other premises, from which any obligations under this Agreement are performed.

Privacy Act means the *Privacy Act 1988* (Cth).

Privacy Complaint means any complaint made by an individual to a ABCD Group member, the Supplier or to a Privacy Regulator in relation to the handling of their Personal Information.

Privacy Laws means the *Privacy Act*, the *General Data Protection Regulation*, the *Data Protection Act 2018 (UK)*, the *Spam Act 2003* (Cth) and any other legislation, principles, industry codes and policies relating to the handling of Personal Information by ABCD Group members or the Supplier.

Privacy Regulator means the Office of the Australian Information Commissioner, the Australian Communications and Media Authority and any government or statutory body having regulatory authority over the handling of Personal Information by the ABCD Group.

Project has the meaning given in Recital A.

Problem means the Root Cause of one or more Incidents, which may include defects related to or arising from human errors, or external events.

Public Official means:

- (a) an official, employee, agent, or representative of any branch or level of government (executive, legislative or judicial and whether national, state or local) or of any government department or agency (including an adviser to such an agency or branch);
- (b) a director, officer or employee of a state-owned or controlled company (including a consultant, adviser, agent or other representative);
- (c) a political party, party official, or candidate for office;
- (d) an official or employee of a public international organisation such as the [REDACTED] European Union or the United Nations (including a consultant, adviser, agent or other representative); or
- (e) any other person who by reason of domestic Law in any jurisdiction relevant to the Agreement is considered or deemed to be a Public Official.

Reasons for Rejection means the reasons specified in clause 26.4(e).

Records has the meaning given in clause 36.1.

Rejection Certificate means a written notice issued by ABCD stating that ABCD does not accept the Deliverable the subject of that notice because it fails to meet all or some of the Acceptance Criteria.

Regulator means any Government Agency having regulatory or supervisory authority over any part of the business or affairs of ABCD, including the Australian Securities and Investments Commission and any replacement of any such regulatory bodies.

Regulatory and Industry Requirements means any:

- (a) health, health insurance services or aged care industry-wide non-statutory rule or obligation;
- (b) other non-statutory rule or non-statutory mandatory code of conduct; and
- (c) industry-wide voluntary code, contract or arrangement,

applicable and in force in Australia from time to time or any other jurisdiction where the Supplies are provided, including but not limited to:

- (d) ISO 27001: Information Security Management Standard;
- (e) SOC 2: Systems and Organization Controls; and
- (f) ISO 31000: risk management.

Related Body Corporate has the meaning given in the Corporations Act.

Release means the implementation into production of a version release of the Solution (or a Modification or enhancement to the Solution) as described in the Specifications and Solution Implementation Plan. A Release may comprise a single enhancement to an application or multiple enhancements to multiple applications.

Repeated Breaches has the meaning given in clause 49.6(d).

Report of Compliance means a report containing details of the status of the Supplier's compliance with the PCI Standard.

Resources means Personnel, networks, facilities, systems, software, equipment, assets, procedures, processes, Materials, Tools, data, utilities and other services.

RFP means the request for proposal issued by ABCD on 15 August 2023.

RFP Response means the Supplier's response to the RFP including the original response dated 28 August 2023 and all clarifications, presentations and additional information provided by the Supplier (whether orally or in writing) in connection with the RFP.

Risk means any reasonably foreseeable internal or external event or issue (whether relating to Personnel, process, technology or otherwise) that is likely to or could adversely affect the delivery or performance of the Supplies or the reputation of the ABCD Group.

Root Cause means the underlying or original cause of an Incident or Problem, as identified in a Root Cause Analysis.

Root Cause Analysis means the process by which the underlying root causes of an Incident or Problem are identified. The removal or minimisation of root causes of Incidents and Problems is performed through permanent corrective actions.

Sanctions means any trade, economic or financial sanctions administered or enforced by the U.S. Department of Treasury's Office of Foreign Assets Control, the United Nations Security Council, the European Union, Her Majesty's Treasury, the Australian Department of Foreign Affairs and Trade, the New Zealand Ministry of Foreign Affairs and Trade, the Hong Kong Commerce, Industry and Tourism Branch of the Commerce and Economic Development Bureau, the Monetary Authority of Singapore, the Ministry of Finance Japan, or any other relevant sanctions authority.

Security Incident means any:

- (a) breach, incident, event or problem which does or could result in an actual or potential compromise of the confidentiality, integrity or availability of ABCD Data or the Supplies;
- (b) information security or data incident or breach that materially affects or has the potential to materially affect, financially or non-financially, any member of ABCD Group or the interests of depositors, policyholders, beneficiaries or other customers of any member of ABCD Group;
- (c) information security or data incident or breach that has been or is required to be notified (including by the Supplier or ABCD) to any regulatory or supervisory body in Australia or in any other jurisdiction anywhere in the world; or
- (d) material information security control weakness which will not be able to be remediated in a timely manner.

Security Measures includes all physical security, network security, logical access security, change and incident management security, computer operations security, business continuity planning security, communications security and Personnel security measures that are reasonable for a highly reputable provider of services similar to the Supplies.

Service Catalogue means the service catalogue set out in Schedule 6 (Fees and Standard Rates).

Service Level Failure means a failure by the Supplier to achieve a Service Level.

Service Levels means the service levels, performance standards and key performance indicators applicable to the performance of the Supplies, as set out in a Statement of Work.

Services means:

- (a) the services supplied (or to be supplied) by the Supplier to ABCD as described in this Agreement, including in the Specifications, the Solution Implementation Plan or a Statement of Work (as applicable); and
- (b) any services that ABCD may from time to time request from Supplier which are reasonably incidental to the provision of the services described in paragraph (a) above or which are reasonably necessary so that the Supplier is able to provide those services to the level required under this Agreement.

Service Credit means a rebate payable by the Supplier for a failure by the Supplier to achieve a Service Level, as set out in the relevant Statement of Work.

Site means the location or locations described in the relevant Statement of Work as the place for the performance and/or provision of the Supplies, as the case may be.

Software means any software program, interface, data, or databases (in any material form) supplied or licensed by the Supplier to any ABCD Group member under this Agreement and includes any and all Modifications, but excludes Third Party Software.

Solution means the fully integrated technology solution required to meet the Specifications. It includes:

- (a) Software;
- (b) Third Party Software;

- (c) Documentation;
- (d) the Supplies;
- (e) ABCD Systems;
- (f) integration to ABCD Interoperable Systems;
- (g) any other Developed Material (eg portals, reports, interfaces, conversions, enhancements, forms and workflows); and
- (h) ABCD Data, including the ABCD Data migrated from legacy systems,

to be performed or supplied by Supplier under this Agreement (as installed, integrated, configured and (if applicable) customised by Supplier in accordance with this Agreement), all as conforming with the requirements and as further described in the Specifications.

SOW Term has the meaning given in clause 7(d).

Specifications means:

- (a) the PD;
- (b) the specifications for the Supplies as set out in the relevant Statement of Work;
- (c) other specifications developed under this Agreement which have been approved or accepted by ABCD;
- (d) the published specifications for Third Party Software (including user documentation) to the extent they have not been modified to ensure compliance with applicable Law; and
- (e) the Documentation,

and to the extent of any inconsistency between these specifications:

- (f) the document imposing the higher standard, quality, level of service or quantum prevails; or
- (g) where paragraph (f) does not apply, the specifications listed earlier in this definition prevail over those listed later.

Where the parties do not agree about the application of paragraphs (f) and (g) to the Specifications, ABCD will determine which paragraph applies and notify the Supplier of its decision. For clarity, specifications include timeframes.

Standard Rates means the rates specified in Schedule 6 (Fees and Standard Rates).

Standard Terms means the section of this Agreement entitled "Standard Terms".

Start Date means the date indicated as such in a Statement of Work.

Statement of Work or **SOW** means a Statement of Work, substantially in the form set out at Schedule 3 (Template Statement of Work), which has been agreed and executed by the parties.

Step In has the meaning given in clause 27.1(a).

Step In Notice has the meaning given in clause 27.1(a).

Step In Party means the party exercising Step In rights under clause 27.

Step In Services has the meaning given in clause 27.1(b).

Step Out has the meaning given in clause 27.1(a).

Step Out Notice has the meaning given in clause 27.4(c).

Supplier Code of Conduct means ABCD supplier code of conduct set out at Schedule 12 as amended from time to time.

Supplier Material means Material existing prior to commencement of the Supplies, or developed outside the scope of the Supplies, that is proprietary to the Supplier or licensed to the Supplier by a third party (but does not include Third Party Software).

Supplier Personnel means the Personnel of the Supplier who perform the Supplies.

Supplier Representative means the person set out in the Agreement Details, or as notified by the Supplier to ABCD from time to time.

Supplier Service Locations means those locations from which the Supplier is authorised by ABCD to provide the Supplies, as set out in the Agreement Details.

Supplies means the Deliverables and Services provided or to be provided by the Supplier to ABCD under and in accordance with this Agreement, including in connection with a Stage.

Tax means any tax, levy, charge, impost, fee, deduction, goods and services tax, value added tax, use tax, sales tax, property tax, compulsory loan or withholding, which is assessed, levied, imposed or collected by any Tax Authority, not including any interest, fine, penalty, charge, fee or any other amount imposed on or in respect of any of the above and any Duty.

Tax Authority means the Commonwealth of Australia, any Government Agency and any federal, state, provincial, regional, territorial, local, quasi-governmental or other fiscal, revenue, customs or excise authority, body or official competent to impose, collect or assess taxes, levies, excises or similar charges, including such entities in countries other than Australia.

Tax Invoice includes any document or record treated by the Commissioner of Taxation as a tax invoice or as a document entitling a recipient to an input tax credit (or the corresponding documentation in a jurisdiction outside of Australia).

Term has the meaning given in clause 5(a).

Test Plan means the procedure for testing and testing requirements for a Non-Documentary Deliverable agreed in accordance with the Acceptance Process.

Third Party Supplier means a person who is engaged to provide goods or services to ABCD, other than the Supplier, any Supplier Personnel or any subcontractor of the Supplier.

Third Party Software means software, more particularly described in the Specifications, which is to be licensed to ABCD directly by a Third Party Supplier and incorporated within the Solution.

Transition Services mean the services specified as such in a Statement of Work.

Update means software which has been provided to overcome defects in software.

1.2 Rules for interpreting this Agreement

- (a) Headings are for convenience only, and do not affect interpretation. The following rules also apply in interpreting this Agreement, except where the context makes it clear that a rule is not intended to apply.
- (b) A reference to:
 - (i) a legislative provision or legislation (including subordinate legislation) is to that provision or legislation as amended, re-enacted or replaced, and includes any subordinate legislation issued under it;
 - (ii) a document or agreement, or a provision of a document or agreement, is to that document, agreement or provision as amended, supplemented, replaced or novated;
 - (iii) a party to this Agreement or to any other document or agreement includes a successor in title, permitted substitute or a permitted assign of that party;
 - (iv) a person includes any type of entity or body of persons, whether or not it is incorporated or has a separate legal identity, and any executor, administrator or successor in Law of the person; and
 - (v) anything (including a right, obligation or concept) includes each part of it.
- (c) A singular word includes the plural, and vice versa.
- (d) A word which suggests one gender includes the other genders.
- (e) If a word is defined, another part of speech for that word has a corresponding meaning.
- (f) If an example is given of anything (including a right, obligation or concept), such as by saying it includes something else, the example does not limit the scope of that thing.
- (g) The word agreement includes an undertaking or other binding arrangement or understanding, whether or not in writing.
- (h) A reference to dollars or \$ is to an amount in US dollars.
- (i) Words defined in the GST Law have the same meaning in clauses concerning GST.

1.3 Non Business Days

If the day on or by which a person must do something under this Agreement is not a Business Day, the person must do it on or by the next Business Day.

1.4 The rule about "contra proferentem"

This document is not to be interpreted against the interests of a party merely because that party proposed this Agreement or some provision in it or because that party relies on a provision of this Agreement to protect itself.

2. **Interim Agreement**

- (a) Subject to clause 2(a) (which survives the termination of the Interim Agreement), the Interim Agreement is terminated on the Commencement Date and all acts (including payment) and omissions of the parties in relation to the Interim Agreement are deemed to be acts and omissions in relation to this Agreement.
- (b) The Supplier may invoice ABCD for the amount in Annexure 1 – Charges, Table 1A (Process Discovery Charges) of the Interim Agreement for process discovery services (as defined in and provided under the Interim Agreement).

3. **Objectives**

3.1 Objectives of this Agreement

- (a) The key objective of this Agreement and the Project are to:
 - (i) reduce costs and drive efficiencies through business process simplification and standardisation, , automation of labour-intensive administrative activities; and
 - (ii) enhance the user experience of employees, providers, partners and customers,(collectively the "**Objectives**").
- (b) The Supplier must achieve the Objectives through the performance of this Agreement and each Statement of Work entered into under it.

3.2 **Effect of the Objectives**

- (a) The Objectives are intended to describe the intention of the parties in entering into this Agreement and are not intended to take precedence over any other express terms of this Agreement or any Statement of Work or to expand or reduce the scope of the parties' obligations under this Agreement or any Statement of Work.
- (b) To the extent that any terms of this Agreement or any Statement of Work do not address a particular circumstance, are unclear or ambiguous, those terms are to be interpreted, to the extent legally permissible, by reference to the Objectives.

4. **Structure of this Agreement**

- (a) The following documents constitute this Agreement and must be read in the following order of precedence (from highest to lowest):
 - (i) the Agreement Details;
 - (ii) the Standard Terms;
 - (iii) the Schedules to this Agreement;
 - (iv) each Statement of Work entered into by the parties from time to time in accordance with the Standard Terms; and
 - (v) any other document annexed to or incorporated by reference into this Agreement.

- (b) Notwithstanding clause 4(a), the parties may agree to alter, change or not apply any of the Agreement Details, Standard Terms or Schedules in a special condition set out in a Statement of Work, provided that special condition is expressly stated to have this effect, expressly noting the affected provision, in which case that special condition will take precedence.

5. **Term**

- (a) This Agreement commences on the Commencement Date and, unless terminated in accordance with its terms, will continue until the later of the:
 - (i) end of the Initial Term;
 - (ii) end of any extension period(s) (if extended under clause 5(b)); and
 - (iii) expiry of all Statements of Work,**(Term).**
- (b) ABCD may elect to extend this Agreement by two further periods of up to 24 months by giving the Supplier at least 180 calendar days notice in writing prior to the expiry of the then-current Term. The Supplier may provide notice that it does not wish to extend within 30 Business Days of receiving ABCD notice under this clause, in which case the Term will expire at the end of the then-current Term.

6. **Scope and Fees as at the Commencement Date**

The parties acknowledge and agree that:

- (a) as at the Commencement Date, the parties:
 - (i) have agreed the Transition Services to be provided for each Initial Statement of Work as set out in the PD and the timelines for delivery of the Transition Services, including Milestones and Milestone Due Dates, as set out in the PD; and
 - (ii) have not yet agreed the detailed scope of the Ongoing Services for each Initial Statement of Work that correspond to each of the Ongoing Services to be provided by the Supplier as described in the PD; and
 - (iii) agree that Schedule 7 (Fees and Standard Rates) contains pricing for the Transition Services and Ongoing Services as described in the PD as at the Commencement Date, as well as a rate card for Additional Services;
- (b) the Supplier must work diligently and in good faith with ABCD to negotiate:
 - (i) the terms of the Ongoing Services and pricing for each Initial Statement of Work; and
 - (ii) any amendments to the rate card in Schedule 6,

in accordance with the timeframes specified for the Transition Services in the PD:
 - (iii) such timeframes to be no later than 28 February 2024 or as otherwise agreed by the parties); and
 - (iv) such pricing to be no more than that in Schedule 6 as at the Commencement Date (unless otherwise agreed in a variation);

- (c) once the updates to the Ongoing Services and pricing are agreed by the parties:
 - (i) the parties will document that agreement in a Statement of Work; and
 - (ii) this Agreement will be deemed to be amended to incorporate the Statement of Work; and
- (d) for each Statement of Work, the Supplier is not required to commence provision of the Ongoing Services and ABCD is not required to make any payments for the Ongoing Services unless and until the Statement of Work is formally agreed by both parties at the relevant Governance Forum and signed by the parties.

7. **Statements of Work**

- (a) Statements of Work are the documents by which ABCD can order Supplies under this Agreement (including Supplies in connection with a Stage). They set out details including commercial terms about the Supplies to be provided by the Supplier.
- (b) ABCD is not liable for, nor required to pay any Fees in respect of, such Supplies, unless and until the parties have signed a Statement of Work in respect of the relevant Supplies.
- (c) Once a Statement of Work has been signed by both parties, the Statement of Work forms part of this Agreement.
- (d) Each Statement of Work commences on the Start Date specified in that Statement of Work and continues for the longer of:
 - (i) the period up until the Finish Date specified in that Statement of Work; and
 - (ii) the date on which all obligations of the parties relating to the Supplies to be provided under that Statement of Work have been performed in accordance with that Statement of Work,

(SOW Term).
- (e) There may be more than one Statement of Work, and the details in each Statement of Work only apply to the relevant Supplies to be provided under that Statement of Work.
- (f) Without limiting any other provision of this Agreement, the Supplier acknowledges and agrees that:
 - (i) ABCD is not bound to enter into any Statements of Work with the Supplier during the Term; and
 - (ii) this Agreement does not constitute any commitment by ABCD to enter into any Statements of Work to procure any Supplies from the Supplier during the Term.
- (g) A Statement of Work executed by the Supplier Representative and the ABCD Representative is binding on the parties.

8. **Relationship management**

8.1 **No exclusivity**

The parties agree that the Supplier is not the exclusive provider of any services to ABCD, and ABCD may, at any time, appoint another vendor or make its own arrangements with respect to supplies that are similar to or the same as the Supplies.

8.2 No minimum volume

ABCD is not obliged to purchase a minimum volume or value of any Supplies under this Agreement.

8.3 Volume flexibility

The Supplier must:

- (a) increase or decrease the volume of the Supplies in accordance with ABCD business requirements and demands from time to time as notified by ABCD to the Supplier in writing; and
- (b) structure its Fees under the applicable Statement of Work in order to provide the flexibility described in clause 8.3(a).

8.4 Due diligence

- (a) The Supplier warrants that in the analysis of the RFP it has done and will do everything that would be expected of a prudent, competent and experienced contractor in:
 - (i) assessing the nature of the information technology systems of ABCD; and
 - (ii) assessing the scope of the RFP.
- (b) The Supplier must:
 - (i) obtain sufficient knowledge of ABCD Environment to allow it to perform the Supplies; and
 - (ii) obtain all appropriate professional and technical advice on all matters and circumstances referred to in this clause 8.4.
- (c) The Supplier acknowledges that:
 - (i) while ABCD has made reasonable efforts to provide accurate information to the Supplier, ABCD does not warrant, guarantee or make any representation about the accuracy, completeness or adequacy of, or owes no duty of care with respect to, any information, data and documents made available to the Supplier; and
 - (ii) ABCD does not accept any liability for, and has not made any representation concerning, the accuracy, sufficiency and completeness of any information provided by ABCD in connection with this Agreement or any Statement of Work or the use of it by the Supplier.
- (d) As part of the Transition Services the Supplier will document the processes to be followed by it to provide the Ongoing Services to ABCD. To the extent that such processes utilise existing processes of ABCD, the Supplier will identify for ABCD any gaps or risks with continuing to adopt the ABCD existing process.
- (e) ABCD will approve the processes developed by the Supplier under clause 8.4(d) as a Documentary Deliverable. Once a process has been approved by ABCD in accordance with this Agreement (**Approved Process**), the Supplier will comply

with the Approved Process and in those circumstances will incur no liability to ABCD if ABCD suffers Loss as a result of the Supplier's compliance with the Approved Process except where the Loss is incurred as a result of the fraud, criminality, wilful default or wilful misconduct of the Supplier or Supplier Personnel.

- (f) Where ABCD suffers or incurs Loss as a result of the Supplier's failure to comply with an Approved Process:
 - (i) the issue giving risk to the Loss will be discussed at the relevant Governance Forum; and
 - (ii) the Supplier must take all steps required (at its cost) to recover the full amount of the Loss and where it cannot do so will reimburse ABCD for the full amount of the Loss.

8.5 Benefit of the Supplies

- (a) ABCD enters into this Agreement on its own behalf and also as trustee for each member of the ABCD Group, which are third party beneficiaries under this Agreement and are entitled to the benefit of the rights conferred and promises made under it.
- (b) ABCD will be entitled to recover all Loss suffered or incurred by another member of the ABCD Group in connection with this Agreement, as though that Loss was suffered or incurred by ABCD, where ABCD would have been entitled to recover that Loss from the Supplier under this Agreement had ABCD suffered or incurred that Loss itself (**ABCD Group Loss**).
- (c) ABCD will ensure that no other ABCD Group member brings a Claim against the Supplier in respect of any ABCD Group Loss.
- (d) The liability cap set out in clause 47.3(a) applies to all ABCD Group members in aggregate and is not a separate liability cap for liability of:
 - (i) the Supplier to each ABCD Group member; or
 - (ii) each ABCD Group member to the Supplier.

8.6 Former ABCD Group member

If any ABCD Group member ceases to be part of the ABCD Group, the Supplier must continue to provide the Supplies to such ABCD Group member for a period of 24 months after the date on which that ABCD Group member ceases to be a member of the ABCD Group or any shorter period notified by ABCD, and at ABCD election the Supplier must:

- (a) treat the former ABCD Group member as though they remained a member of ██████████ Group for the 24 month period (or such shorter period notified by ABCD); or
- (b) enter into a new agreement with the former ABCD Group member in respect of the receipt of the Supplies, on the same terms (including Fees) as this Agreement, for the 24 month period (or such shorter period notified by ABCD).

Part B: Provision of Services

9. Services

9.1 XYZ to provide the Services

- (a) XYZ or its affiliate will perform the Services as specified in the respective SOW. Unless otherwise specified, Services shall be carried out in the following two (2) phases:
 - (i) Phase 1 – Transition Services;
 - (ii) Phase 2 – On-going Services.
- (b) Each SOW will set forth in detail the Services to be provided by Supplier during each phase. The Supplier takes full responsibility for the delivery of the Services, and agrees and acknowledges that the description of Services set out in each SOW is non-exhaustive. The Supplier shall deliver (at no additional cost) any inherent, necessary or usual services or deliverables required for ABCD to obtain the full benefit of the Services.
- (c) The Supplier shall provide the Services to ABCD in accordance with:
 - (i) the terms and requirements of any relevant SOW, including but not limited to agreed timescales, Service Levels and Service Level rewards and penalties as described therein;
 - (ii) the terms of this Agreement; and
 - (iii) all due care and skill and in a proper and skilful manner using suitably qualified and experienced personnel and in compliance with best industry standards.
- (d) Each Party shall provide the other Party with all information reasonably required by that other Party, so that the other Party can perform its obligations under this Agreement.
- (e) The Supplier shall procure, install, manage, repair and keep updated the facilities, communications links, software and System as specified in the relevant SOW. The Supplier must proactively project manage the performance of each Statement of Work at its cost.
- (f) Supplier agrees to provide the Services at the rates and charges set forth in the relevant SOW.

9.2 Working with third parties

The Supplier must:

- (a) co-operate and work collaboratively with ABCD and its other providers to assist them to understand and make use of the Interfacing Information;
- (b) provide reasonable support to Third Party Suppliers who supply any systems, networks, equipment or services which interface, interwork or communicate with the Solution as requested by ABCD; and
- (c) where practical, reasonable and agreed to by ABCD, change the Solution to enable it to interface, interwork or communicate with systems, software, equipment or services of other suppliers.

9.3 ABCD failure to provide ABCD Inputs

- (a) If and to the extent that Supplier is unable to provide Services in accordance with the Service Levels ("Responsibilities") as a result of any breach by ABCD of an obligation of ABCD specified in this Agreement or a Statement of Work, where

such breach is a dependency on the Supplier's obligation to provide the Services, then the Supplier shall be deemed not to have failed to render Services in accordance with the Service Levels during such period that ABCD breach persists, provided that Supplier shall have notified ABCD in writing of such breach so as to give ABCD a sufficient opportunity to remedy the same (in any event, not less than 15 Business Days), and upon such cure, Supplier shall continue to be obligated to perform such Services in accordance with the Service Levels.

10. ABCD Inputs

10.1 ABCD obligation

- (a) ABCD will provide ABCD Inputs in accordance with the project plan and/or the relevant Statement of Work.
- (b) ABCD is open and expects the Supplier to recommend alternatives to [REDACTED] or their configuration that would improve performance, reduce cost or simplify the ABCD ICT environment. Any variation will be managed through the variation and change control process in clause 56.
- (c) The Supplier is not responsible for a failure to perform this Agreement to the extent that the Supplier can demonstrate that ABCD has failed to provide a ABCD Input in accordance with this Agreement.

10.2 Supplier to manage ABCD Inputs

- (a) As part of its overall project management responsibilities, the Supplier will [REDACTED] to manage the delivery of ABCD Inputs in accordance with the Solution Implementation Plan on behalf of ABCD. Without limiting this obligation, the Supplier will assist ABCD to:
 - (i) provide, manage and maintain sufficient resources, equipment and facilities;
 - (ii) identify and allocate Resources;
 - (iii) manage dependencies; and
 - (iv) co-ordinate functional outputs.
- (b) If at any time during the Term, the Supplier anticipates that ABCD will not or may not deliver a ABCD Input by its due date, the Supplier must notify ABCD in writing within 1 Business Day of the assumption, providing details of the relevant ABCD Input, the due date and the anticipated cause and nature of the delay. The Supplier must also suggest steps that will be undertaken by the Supplier to assist ABCD to overcome the anticipated delay (and with ABCD written approval undertake those steps).

10.3 Use of ABCD Inputs

- (a) The Supplier may only use ABCD Inputs for the sole purpose of performing its obligations under this Agreement.
- (b) The Supplier warrants that under no circumstance will the Supplier or its Personnel interrupt the business operations of ABCD unless it has the prior written consent of ABCD.

10.4 Remote access

Prior to granting a person remote access to a ABCD Environment, ABCD may require the Supplier to execute an access agreement in a form reasonably specified by ABCD.

Part C: Provision of Supplies

11. Supplier General Obligations

11.1 Provision of Supplies

The Supplier must provide the Supplies to ABCD in accordance with the terms of this Agreement and the relevant Statement of Work and specifically:

- (a) in accordance with the Specifications;
- (b) in accordance with all reasonable directions given to the Supplier by ABCD;
- (c) with the level of care, skill competence, diligence and judgment which may be expected of a professional organisation experienced in providing Services of the type and complexity of the Services;
- (d) in accordance with any applicable timeframes and so as to meet any applicable Milestone Due Date specified in this Agreement, and where no timeframes or Milestone Due Dates are specified, promptly and without delay;
- (e) from the Supplier Service Locations; and
- (f) in accordance with Industry Best Practice and in an ethical manner.

11.2 Supplier Personnel to perform Supplies

The Supplier must:

- (a) ensure that all Supplier Personnel are provisioned exclusively for ABCD except where ABCD is not paying any Fees for Supplier Personnel who are providing leadership, management or support roles or as otherwise agreed in a Statement of Work;
- (b) ensure that the Supplier Personnel do not represent themselves as being, or allow another person by act or omission to be under the misapprehension that any of them are, an employee, partner or agent of any ABCD Group member;
- (c) ensure that the Supplier Personnel comply with the terms and conditions of this Agreement;
- (d) ensure that it does not, and its Personnel do not, cause unnecessary detriment, inconvenience or damage to any ABCD Group member, ABCD Systems or third parties;
- (e) provide the software (and support for that software) in Schedule 5 which is identified in Schedule 5 as being provided by the Supplier with any cost of that software and support to ABCD to be agreed by the parties (**Supplier Software**). Any changes to the list of Supplier Software (to add or remove Supplier Software) will be agreed by the parties through the Change Request process in Schedule 9 (Change Management);
- (f) ensure that all Supplier Personnel, when dealing with persons, are courteous and polite and do nothing that is prejudicial to the goodwill, commercial reputation or overall public image of the ABCD Group.

12. **Allocation of Resources**

Without limiting any other provision of this Agreement, the Supplier agrees that if, in the provision of the Supplies, it is necessary for the Supplier to allocate scarce or limited Resources or Personnel (or both) between or among several customers, the Supplier must not give any other customer priority over ABCD in the marshalling and allocation of such Resources and Personnel.

13. **Training Services**

The Supplier must provide training in respect of the Solution, in accordance with the requirements set out in the relevant Statement of Work.

14. **Additional Services**

14.1 **Overview**

- (a) From time to time, ABCD may request the Supplier to perform additional ad-hoc services which do not form part of the then current scope of the Services. Such services must be agreed and set out in a Project Statement of Work (**Additional Services**).
- (b) The parties must follow the process set out in section 4 of Schedule 9 (Change Management) for any Additional Services. ABCD may terminate this process without liability at any time until the parties agree a Statement of Work in respect of those Additional Services in accordance with this clause 14.

15. **Continuous improvement**

- (a) Without limiting any of its obligations with respect to improvement, technology evolution and innovation as may be set out in a Statement of Work, the Supplier has an ongoing obligation during the Term to continually identify and bring to ABCD attention new or potential improvements to the Supplies.
- (b) As part of its obligation under clause 15(a), the Supplier must, at no additional cost to ABCD, monitor, identify and report to ABCD quarterly during the Term (or as otherwise agreed in a Governance Forum) on:
 - (i) the emergence of new and evolving technologies or trends globally for travel management services/industry which could improve any of Supplies;
 - (ii) new or potential improvements to any of the Supplies, including the quality, responsiveness, procedures and other performance mechanisms in relation to the Supplies;
 - (iii) new or potential improvements to the interfaces or integration of any of the Supplies with third party services or products or ABCD which might result in efficiency or productivity gains or in the reduction of operational risk;
 - (iv) changes to existing business processes and ways of working that would enable Supplies to be delivered at lower costs, or provide greater benefits to ABCD (or both); and
 - (v) ideas for innovation that the Supplier or ABCD could implement in order to:

- (A) further the Objectives or otherwise achieve the Objectives faster or more efficiently;
 - (B) improve the efficiency and effectiveness of the Supplies;
 - (C) result in cost savings to ABCD;
 - (D) enhance the ability of ABCD to conduct its operations; or
 - (E) by innovative use of existing or new technology (for example, by using existing technology in a new way), improve, enhance or add value to any other aspect of the business of ABCD.
- (c) If requested by ABCD:
- (i) the Supplier must, at no cost to ABCD, demonstrate how it would implement any of the technologies, improvements, changes or ideas identified under clause 15(b) as part of the Supplies, including any effect it would have on ABCD current technology strategy and environment; and
 - (ii) if ABCD wishes to implement any of the technologies, improvements, changes or ideas identified under clause 15(b) the parties must agree a new Statement of Work in relation to such implementation.

16. **Software**

16.1 **Software to Conform with Specifications**

- (a) The Supplier must ensure that all Software supplied, licensed or procured by the Supplier to or for a ABCD Group member under or in connection with this Agreement (including without limitation Third Party Software) and related Documentation conforms with the Specification at all times.
- (b) Support and maintenance for the Software and any software that is a ABCD Input will be provide by the Supplier in accordance with the PD and any agreed Statement of Work.

16.2 **Availability of Updates and New Releases**

- (a) The Supplier will offer ABCD all Updates and New Releases of the Software immediately as they become available. If requested to do so by ABCD, the Supplier will demonstrate the features of the Updates and New Releases and the effect of the Updates and New Releases on the performance of the Solution and ABCD Systems.
- (b) ABCD will notify the Supplier of all Updates and New Releases of the software that is a ABCD Input as they become available.

16.3 **No obligation to accept Updates or New Releases**

ABCD may at its option require that the Update or New Release be implemented by the Supplier. Notwithstanding the foregoing, ABCD will not be obliged to accept an Update or New Release.

16.4 **Implementation of Updates and New Releases**

Where an Update or New Release is implemented for the Software or any software which is a ABCD Input:

- (a) the Supplier will deliver the Update or New Release at no additional charge to ABCD subject to the third party license;
- (b) the Fees will not be increased;
- (c) this Agreement will continue to apply in all respects to the Update or New Release; and
- (d) the Updates or New Release will be deemed to form part of the Solution.

16.5 **Third Party Software**

Without prejudice to any other part of this Agreement, the Supplier will procure for the ABCD Group a perpetual, non-exclusive, non-transferable, irrevocable, royalty free and perpetual licence to use, copy, modify and sublicense to the ABCD Group the Third Party Software and related Documentation on terms which are:

- (a) acceptable to ABCD; and
- (b) except to the extent otherwise agreed by ABCD, consistent with the terms of this Agreement.

16.6 **Open Source Software**

- (a) The Supplier must not, without the prior express consent of ABCD:
 - (i) incorporate any Open Source Software into any ABCD Material or Developed Material; or
 - (ii) use any Open Source Software in creating or preparing any ABCD Material or Developed Material, or in creating or preparing any Supplier Material that is Incorporated into any ABCD Material or Developed Material.
- (b) If ABCD gives its consent in relation to the use of any Open Source Software under clause 16.6(a), then:
 - (i) the Supplier must ensure that the use of that Open Source Software will not result in an obligation to disclose, license or otherwise make available any part of ABCD environment, ABCD Data or Confidential Information to any third party; and
 - (ii) the use of that Open Source Software will not in any way diminish the Supplier's obligations under this Agreement, including in relation to any warranties, indemnities or support obligations, or any provisions dealing with the licensing or assignment of Intellectual Property Rights.

16.7 **Fees for the Software**

The Supplier must ensure that the Fees for all Software supplied, licensed or procured by the Supplier to or for ABCD under or in connection with this Agreement are charged to ABCD on a direct pass through basis.

17. **Documentation**

17.1 **Provision of Documentation**

- (a) All Documentation provided as a Deliverable is subject to the Acceptance Process. However, if ABCD issues an Acceptance Certificate in respect of any Documentation under this Agreement, this will not affect any rights which ABCD

would otherwise accrue, nor any obligations on the Supplier under this Agreement.

- (b) The Supplier must ensure that, in addition to any other requirements specified in this Agreement, the Documentation:
 - (i) will be sufficient to allow a reasonably competent professional in the respective professional field to understand, maintain, support and modify the Supplies;
 - (ii) will be sufficient to allow a typical end user to understand and use the Supplies;
 - (iii) is fit for its intended purpose;
 - (iv) is prepared in a professional manner; and
 - (v) adequately describes the meaning of all key terms, phrases and symbols.
- (c) The Supplier must deliver to the ABCD the most up to date Documentation relating to the Solution including:
 - (i) all of the documentation normally supplied with the Software and Supplies used in the Solution;
 - (ii) 1 electronic copy of a manual containing administration and maintenance procedures for the Software and Supplies used in the Solution (including backup and restore procedures); and
 - (iii) 1 electronic copy of a user manual detailing all of the functions that the Solution provides and a step by step guide to carrying them out.
- (d) If the Supplier makes any Modification to the Solution, it must promptly provide ABCD with updated Documentation to reflect the modified

17.2 Solution. **Maintaining Documentation**

- (a) Without limitation to the provisions of clause 17.1 above, the Supplier will develop and maintain all Documentation on a regular basis during the Term and any Disengagement period. Where the Documentation is inaccurate (for example, due to Defects, errors or obsolescence), the Supplier will correct such Documentation and deliver to ABCD the corrected Documentation within 10 Business Days of:
 - (i) ABCD making a request for correction; or
 - (ii) the Supplier making such a correction,whichever occurs first.
- (b) The Supplier will:
 - (i) maintain an inventory of all applications and databases comprising the Solution;
 - (ii) maintain an up to date list of all Documentation and other Deliverables supplied by it to the ABCD Group under this Agreement; and

- (iii) provide ABCD with a copy of the inventory referred to in clause 17.2(b)(i) or the list referred to in clause 17.2(b)(ii) on a quarterly basis throughout the Term.

18. Cooperation

- (a) Throughout the Term, the Supplier must co-operate with ABCD, its consultants and other suppliers so that all facets of their work can progress in an efficient and orderly manner.
- (b) At ABCD request, the Supplier will at no additional cost:
 - (i) attend meetings with ABCD and ABCD other suppliers; and
 - (ii) share any material or information reasonably requested by ABCD or ABCD other suppliers.
- (c) Without limiting clause 18(a), the Supplier must:
 - (i) when performing its obligations under this Agreement, co-operate with ABCD and Third Party Suppliers;
 - (ii) ensure that any tasks required to be performed by ABCD or any Third Party Suppliers are expressly specified in the relevant Statement of Work;
 - (iii) provide all assistance reasonably requested by ABCD or any Third Party Supplier; and
 - (iv) give ABCD and Third Party Suppliers access to (where relevant):
 - (A) architectural or design information and related data (including any interface specifications and data models) in respect of licensed software;
 - (B) information, documents and instructions regarding the operating environment, system constraints, protocols, interfaces and other operating parameters of the Supplier's Environment and/or Supplies as required by ABCD or Third Party Suppliers; and
 - (C) other resources of the Supplier,to the extent necessary to enable ABCD to exercise the rights granted to it under this Agreement;
 - (v) co-operate and work with ABCD and the Third Party Suppliers in an efficient and co-ordinated manner as reasonably required by ABCD;
 - (vi) participate in training and other familiarisation processes to permit the Supplier to obtain knowledge necessary to receive or operate goods or services provided by ABCD or Third Party Suppliers;
 - (vii) provide access to individual Supplier Personnel, upon reasonable notice from ABCD; and
 - (viii) not cause any detriment, inconvenience or damage to ABCD, the Third Party Suppliers or other third parties in the performance of any of its obligations under this Agreement.

19. **Personnel**

19.1 **General obligations**

The Supplier must:

- (a) use suitably qualified, skilled, knowledgeable, experienced and competent Supplier Personnel in the provision of the Supplies;
- (b) before any Personnel are involved in provision of the Supplies, or if ABCD requests at any time during the Term, conduct and provide ABCD with an original or certified copy of the result of:
 - (i) a criminal background check or equivalent in the relevant country in which the Services are being provided (subject to any requirement of individuals needing to provide their consent which is required by applicable Law), such checks to be provided at the Supplier's cost; and
 - (ii) other checks reasonably required by ABCD for such Personnel;
- (c) If there could be additional costs for the checks under clause 19.1(b)(ii) XYZ will advise ABCD of these amount of those additional costs at the time that ABCD requests those checks and if ABCD requires XYZ to proceed with the checks, then ABCD will pay the costs of those checks advised to it by XYZ;
- (d) ensure that any of the Supplier Personnel who ceases to perform the Supplies return to the Supplier or ABCD all ABCD Data, Confidential Information and other property of ABCD, in his or her possession, custody or control; and
- (e) ensure that at all times it has sufficient resources to provide the Supplies to the standards and within the timeframes required by this Agreement.

19.2 **Use of Nominated Personnel**

- (a) If specified in a Statement of Work, the Supplier must ensure that the Supplies are provided solely by the relevant Nominated Personnel and that such Nominated Personnel do not provide and are prohibited from acting in connection with the provision of the Supplies to a competitor of any ABCD Group businesses only to the extent the Nominated Personnel are deployed for the engagement.
- (b) The Supplier acknowledges that the Nominated Personnel are critical to the success of the Program. The Supplier must use the Nominated Personnel to perform the designated roles set out in a Statement of Work and must use best endeavours to ensure that the Nominated Personnel remain in their designated roles for the duration of the relevant Supplies.
- (c) If any Nominated Personnel become unavailable or refuse to provide the Supplies under this Agreement, the Supplier must within five Business Days appoint a suitably qualified and experienced replacement person or persons subject to ABCD approval.

19.3 **Nominated Personnel to be full time and suitably qualified**

The Supplier warrants that each of the Nominated Personnel:

- (a) are or will be for the duration of the relevant Supplies employed or contracted by it on a full time basis, unless otherwise specified in the applicable Statement of Work; and

- (b) are suitably qualified for the performance of the duties allotted to them in connection with this Agreement.

19.4 Qualifications of Nominated Personnel

The Supplier must provide ABCD, upon request in writing, with full particulars of the qualifications and relevant experience of any Nominated Personnel.

19.5 Change of Nominated Personnel

The Supplier must not remove or change a person nominated as Nominated Personnel unless:

- (a) the Supplier has a suitable replacement person available who is of an equivalent or higher level of skill, qualification and experience; and
- (b) the Supplier has obtained ABCD prior written approval.

19.6 Removal of Supplier Personnel for unsatisfactory performance or Conflict of Interest

If ABCD is of the reasonable opinion that any Supplier Personnel is not working in a satisfactory manner as per the agreed Scope of Work, has a Conflict of Interest or is causing or contributing to a breach of this Agreement, without limiting any other rights ABCD may have, ABCD may direct the Supplier to remove or replace the relevant Supplier Personnel or take other reasonable steps to address ABCD concerns and the Supplier must promptly comply with ABCD direction.

19.7 Replacement Supplier Personnel

If ABCD directs the Supplier to replace Supplier Personnel ABCD provides a reasonable request clarifying the need for the replacement, then the Supplier must:

- (a) offer replacement Supplier Personnel within the time specified by ABCD (provided such time is reasonable in the circumstances); and
- (b) ensure that any replacement personnel offered possesses the necessary level of skill as specified in this Agreement.

19.8 Employer requirements

The Supplier indemnifies ABCD against any Losses incurred as a result of the Supplier's failure to comply with:

- (a) any obligations imposed under the PAYG Withholding System;
- (b) any obligations in relation to Tax imposed by Law upon an employer which arise in respect of any amounts paid by the Supplier to its employees, contractors or subcontractors engaged in the provision of the Supplies; and
- (c) any obligations imposed on an employer under relevant Law to keep records, lodge returns and provide information.

20. Intellectual Property Rights

20.1 Supplier Material

- (a) The Supplier remains the owner of the Supplier Material, and all right, title and interest (including Intellectual Property Rights) in the Supplier Material.

- (b) The Supplier must not use or incorporate any Supplier Material in a supply without ABCD prior written consent (which will not be unreasonably withheld).
- (c) The Supplier grants ABCD a non-exclusive, irrevocable, perpetual, royalty-free, worldwide, assignable licence (including the right to sublicense) to use, copy, adapt, Modify, develop, distribute and exercise Intellectual Property Rights in the Supplier Material:
 - (i) to the extent necessary for ABCD to obtain the full benefit of the Supplies;
 - (ii) to make full use of and exploit the Supplies; and
 - (iii) otherwise for ABCD business purposes.
- (d) The Supplier must use best endeavours to ensure it is able to grant the licence referred to in clause 20.1(c) in relation to any Supplier Material which is licensed to the Supplier by a third party.
- (e) If the Supplier is unable to grant the licence referred to in clause 20.1(c) in respect of such Supplier Material the Supplier must not incorporate that Supplier Material in any Supply unless or until ABCD has agreed to an alternative licence scope. The failure by the Supplier to obtain a broad enough licence from a third party will not excuse the Supplier from any of its obligations under this Agreement.

20.2 **ABCD Material**

- (a) All ABCD Material remains the property of ABCD.
- (b) ABCD grants to the Supplier during the Term a non-exclusive, revocable, non-transferable, royalty free licence to use, reproduce, Modify and adapt ABCD Materials (and to sublicense its authorised subcontractors to use, reproduce, Modify and adapt ABCD Materials) solely to the extent necessary to meet its obligations under this Agreement.
- (c) The Supplier must maintain and keep secure and separate all ABCD Material in its power, possession or control, and will not do or cause to be done anything which will prejudice the subsistence of ABCD right, title and interest in ABCD Material.

20.3 **Intellectual Property in Developed Material**

- (a) All Intellectual Property Rights in the Developed Material will immediately be assigned to and vest in ABCD as such rights are created. If necessary, the Supplier will execute all documents and do all acts and things required by ABCD for the purpose of giving effect to this clause 20.3.
- (b) ABCD grants to the Supplier during the Term a non-exclusive, revocable, non-transferable, royalty free licence to use, copy and Modify Developed Material (and to sublicense its authorised subcontractors to use, copy and Modify Developed Materials) solely to the extent necessary to meet its obligations under this Agreement.
- (c) At ABCD request, the Supplier must promptly:
 - (i) provide to ABCD an itemised list of all Developed Material, including details of the applicable Fees payable by ABCD under this Agreement for each item of Developed Material;

- (ii) issue separate invoices for each item of Developed Material; and
- (iii) provide all reasonable assistance to enable ABCD to capitalise each item of the Developed Material in accordance with relevant accounting standards.

20.4 **Register of Developed Material**

- (a) The Supplier must keep a register (in the format and at the level of detail required by ABCD from time to time) of all Developed Material and all:
 - (i) Open Source Software; and
 - (ii) other third party software,

that is incorporated into any ABCD Material or Developed Material or incorporated into any Supplier Material that is incorporated into any ABCD Material or Developed Material, together with a copy of the terms under which the Open Source Software and other third party software is licensed.
- (b) The Supplier must maintain a complete archive (including copies) of the Developed Material, the software described in clause 20.4(a) and the Documentation and give ABCD access to the archive on request.
- (c) For clarification, nothing in this clause 20.4 affects the operation of clause 16.6.

20.5 **Warranties**

- (a) The Supplier warrants to ABCD on a continuing basis that:
 - (i) each Supply;
 - (ii) the provision of the Supplies by the Supplier;
 - (iii) the use and enjoyment of the Supplies by or on behalf of ABCD Group members as contemplated under this Agreement; and/or
 - (iv) the combination of the Supplies with any other material, system, service, item or process contemplated under this Agreement;

does not and will not infringe the Intellectual Property Rights of any person or breach any trade secret or any obligations of confidence owed to any third party.
- (b) The Supplier also represents and warrants to ABCD on a continuing basis that the Supplier has the right to license the Supplier Material to ABCD in accordance with this Agreement.

20.6 **Indemnity from and against Infringement Claims**

- (a) Each Party indemnifies the other Party against any Loss suffered or incurred by any of them in connection with any Infringement Claim.
- (b) The indemnity in this clause 20.6 applies whether or not legal proceedings are instituted and, if such proceedings are instituted, irrespective of the means, manner or nature of any settlement, compromise or determination.

20.7 **Process for Infringement Claims**

In the event of an Infringement Claim:

- (a) the non-indemnifying party will promptly notify the indemnifying party of any such Infringement Claim;
- (b) the non-indemnifying party may choose at its sole and absolute discretion which party will conduct and have control of the defence and settlement of the Infringement Claim (at the indemnifying party's expense); and
- (c) if the non-indemnifying party directs that the indemnifying party will have conduct and have control of the defence and settlement of the Infringement Claim (at the indemnifying party's expense), the indemnifying party must:
 - (i) observe all reasonable directions given by the non-indemnifying party in relation to that defence or to negotiations for settlement of the Infringement Claim;
 - (ii) promptly and diligently defend the Infringement Claim; and
 - (iii) not unnecessarily or unreasonably take any action or fail to take any action in that defence that would damage the reputation of the non-indemnifying party.
- (d) Each The non-indemnifying party:
 - (i) will not make any admissions whatsoever without the other party's prior consent in writing;
 - (ii) will give the indemnifying party all reasonable assistance required by it with such Infringement Claim; and
- (e) The indemnification specified under this clause 20 shall not apply to the extent that the Infringement Claim arises out of or from:
 - (i) a modification of the material the subject of the Infringement Claim by the non-indemnifying party that has not been approved by the indemnifying party in writing; or
 - (ii) use by the non-indemnifying party of the material the subject of the Infringement Claim or portion thereof in combination with any third party service/work product not furnished by the indemnifying party and the infringement would not have occurred but for such combination.

20.8 **Successful Claims**

In the event that an Infringement Claim is successful (including by agreement between the parties to that Infringement Claim) or an (interim or permanent) injunction is obtained restraining any ABCD Group member's use of any Material or Supply (or part of a Supply), the Supplier must immediately at its own expense either:

- (a) replace or Modify the infringing Material (without adversely affecting its functionality or performance) to render it non-infringing; or
- (b) procure for the ABCD Group a valid written licence or assignment of all the Intellectual Property Rights in the relevant Material so as to give effect to clause 20.1.

If the Supplier is not able to achieve either of these solutions within a reasonable period of time (as determined by ABCD acting reasonably), ABCD may immediately terminate this

Agreement under clause 49.6(f) and pursue any remedies available to it under this Agreement or at Law.

20.9 Supplier to notify potential Infringement Claims

In addition to its obligations under clause 20.6, the Supplier must immediately notify ABCD if it becomes aware of any potential infringement of any Intellectual Property Rights or breach of any trade secret or obligations of confidence relating to the Supplies.

20.10 Moral Rights

- (a) To the extent permitted by applicable Law:
 - (i) the Supplier unconditionally and irrevocably consents, and will obtain all other necessary unconditional and irrevocable written consents, to any act or omission that would otherwise infringe any Moral Rights in any work which is included in a Supply, whether occurring before or after a consent is given; and
 - (ii) the Supplier unconditionally and irrevocably waives, and will obtain all other necessary unconditional and irrevocable written waivers of, all Moral Rights,

for the benefit of ABCD, its licensees, successors in title and anyone authorised by any of them to do acts comprised in the copyright.

- (b) The Supplier will not institute, maintain or support any claim or proceeding for infringement of Moral Rights in any work included in a Supply and must use its best endeavours to ensure that no one else does so.
- (c) If reasonably requested by ABCD, the Supplier will provide ABCD with copies of each written consent and waiver required under this clause within ten (10) Business Days of ABCD request.

21. Title and risk

- (a) Title to each tangible Deliverable passes to ABCD (unless otherwise notified to the Supplier in ABCD delivery instructions) on its delivery.
- (b) Risk of loss of, or damage to, each tangible Deliverable passes to ABCD [REDACTED] acceptance of the relevant Deliverable in accordance with clause 26.

Part D: Pricing and Payments

22. Fees and charges

22.1 Fees

- (a) Subject to the terms of this Agreement, the Fees are fixed and represent the maximum amount payable by ABCD under or in connection with this Agreement for all Supplies.
- (b) The Supplier agrees that no additional charges will be payable by ABCD on account of government levies or taxes including customs duties and sales tax, freight handling and clearing costs or export licences or any increases in them.

22.2 Supplier's commitment to delivering value

- (a) The Supplier is committed to delivering value to ABCD. Accordingly, the Supplier must not charge ABCD more for goods and services under this Agreement than it charges its other customers for equivalent goods and services, having regard to relevant differences in volume, geography and Supplier's costs.
- (b) The Supplier must make available to ABCD and any Related Body Corporate ■■■ (including any entity that becomes a Related Body Corporate of ABCD as a result of any merger or acquisition during the Term), prices and rates equal to the lowest price or rates charged by any member of the Supplier group to ABCD or any Related Body Corporate of ABCD who engages the Supplier in respect of substantially similar products and/or services provided on substantially similar terms.
- (c) If the Supplier breaches this clause, the parties will adjust the Fees and/or the Standard Rates and the Supplier must refund any amount overpaid to ABCD.

23. **Invoicing and payment**

23.1 **Payment of Fees**

In consideration of the Supplier supplying the Supplies in accordance with this Agreement (other than Additional Services), ABCD will pay the Supplier the Fees in accordance with this clause 23 and the payment milestones in Schedule 6 (Fees and Standard Rates) and/or the relevant SOW (as applicable).

23.2 **Payment of fee for Additional Services**

In consideration of the Supplier providing the Additional Services in accordance with this Agreement, ABCD will pay the Supplier the fee for the Additional Services set out in the relevant Statement of Work in accordance with this clause 23 and the payment milestones in the relevant Statement of Work.

23.3 **Invoices**

The Supplier must not issue an invoice in respect of a payment milestone under this Agreement unless or until ABCD has issued an Acceptance Certificate or Conditional Acceptance Certificate in respect of all Supplies comprising that payment milestone. The Supplier acknowledges that any milestone payment dates in Schedule 6 (Fees and Standard Rates) or any Statement of Work are provided as an estimate only and do not affect this clause.

23.4 **Correctly rendered invoice**

ABCD is not obliged to make a payment under this Agreement unless and until it receives a correctly rendered invoice. An invoice is correctly rendered if:

- (a) it references this Agreement (by name, date and contract number);
- (b) it references the applicable ABCD purchase order number;
- (c) the payment amount specified is correctly calculated and due for payment;
- (d) the invoice is set out in a manner that enables ABCD to ascertain the particular Supplies to which the invoice relates by tower and the amount payable in respect of each Supply under each tower;

- (e) the invoice is accompanied (where necessary or where reasonably requested by ABCD) by substantiating documentation such as timesheets, receipts and/or expense records; and
- (f) the invoice is addressed as specified in the Agreement Details.

23.5 Payment of invoices

ABCD will pay any correctly rendered invoice within 30 calendar days after it is received by ABCD. The Supplier shall be entitled to charge interest on all undisputed sums overdue from ABCD at a rate of 0.75% per Month from the date the amount becomes due under this Agreement till the date of actual payment.

23.6 Payment disputes

- (a) ABCD may withhold payment of:
 - (i) all of an invoice if ABCD believes that all of the invoice; or
 - (ii) part of an invoice if ABCD believes that part of the invoice, is not correctly rendered in accordance with clause 23.4 (for example if ABCD believes that an amount has not been correctly calculated or the Supplies not been properly provided in accordance with this Agreement).
- (b) ABCD is not required to make any payment of such withheld amounts until the dispute has been resolved in accordance with clause 51 or the parties agree otherwise.
- (c) Notwithstanding anything contrary in this Agreement, if ABCD fails to make payment of an undisputed invoice in accordance with clause 23.5, the Supplier must notify ABCD in writing of this failure and escalate this immediately to the participants of the annual Executive Review Committee Governance Forum.
- (d) If ABCD has not paid an undisputed invoice within fifteen (15) days of the written notice under clause 23.6(c), the Supplier may suspend the Services and if ABCD has not paid the undisputed invoice within a further fifteen (15) days the Supplier may terminate this Agreement or the applicable SOW in writing by notice to ABCD.

23.7 Set off

Subject to prior escalation to the participants of the annual Executive Review Committee Governance Forum, ABCD may, with notice to the Supplier, set-off any amount that is or may become owing by the Supplier to ABCD under this Agreement or any other agreement between the parties, against any amount owing by ABCD to the Supplier under this Agreement or any other agreement between the parties.

23.8 Effect of Payment

Payment by ABCD does not imply or constitute an admission on the part of ABCD that the relevant Supply has been properly supplied or performed in accordance with this Agreement or a waiver or release of the Supplier's obligations under this Agreement.

24. **Taxes**

24.1 **GST**

- (a) Unless otherwise stated, all amounts payable, or consideration to be provided under or in connection with this Agreement are exclusive of GST.
- (b) If GST is or becomes payable on a Supply made under or in connection with this Agreement, an additional amount (an Additional Amount) is payable by the party providing consideration for the Supply (in this clause 24.1 only, the Recipient) equal to the amount of GST payable on that Supply as calculated by the party making the Supply (in this clause 24.1 only, the Supplier) in accordance with the GST Law.
- (c) The Additional Amount payable under clause 24.1(b) is payable at the same time and in the same manner as the consideration for the Supply, and the Supplier must provide the Recipient with a Tax Invoice immediately after the time of payment of the Additional Amount if a Tax Invoice has not already been provided under this Agreement.
- (d) A party making a Supply under this Agreement must provide a Tax Invoice, Adjustment Note or other required form to the Recipient of the Supply as required by the GST Law.
- (e) If for any reason (including the occurrence of an Adjustment Event) the amount of GST payable on a Supply (taking into account any Decreasing or Increasing Adjustments in relation to the Supply) varies from the Additional Amount payable by the Recipient under clause 24.1(b):
 - (i) the Supplier must provide a refund or credit to the Recipient, or the Recipient must pay a further amount to the Supplier, as appropriate;
 - (ii) the refund, credit or further amount (as the case may be) will be calculated by the Supplier in accordance with the GST Law; and
 - (iii) the Supplier must notify the Recipient of the refund, credit or further amount within 10 Business Days after becoming aware of the variation to the amount of GST payable. If there is an Adjustment Event in relation to the Supply, the requirement for the Supplier to notify the Recipient will be satisfied by the Supplier issuing to the Recipient an Adjustment Note within 10 Business Days after becoming aware of the occurrence of the Adjustment Event.
- (f) If either party is entitled under this Agreement to be paid, reimbursed or indemnified by the other party for a loss, cost or expense, the payment, reimbursement or indemnity payment will be reduced by an amount equal to any Input Tax Credit which may be claimed by the party entitled to be paid, reimbursed or indemnified (or by its Representative Member if that party is in a GST Group) in respect of that loss, cost or expense.

24.2 **Taxes generally**

Except as specified in clause 24.1, the Supplier will bear and be liable for all Taxes applied in respect of the provision of the Supplies under this Agreement.

Part E: Performance Management

25. Service Levels

25.1 Service Levels to be agreed

- (a) Within 6 months of the final "go live date" for the Ongoing Services in the Initial Statements of Work , the Supplier will deliver a draft of the Service Levels for the Ongoing Services in the respective Statement of Work for ABCD review and approval as a Documentary Deliverable.
- (b) The parties will meet to discuss the draft Service Levels as part of the appropriate Governance Forum. This would include (but not limited to) timeline from when the relevant Service Level will be applicable, availability of benchmark data from ABCD systems, the criticality and associated weightage for such Service Level, the stabilisation period and the effective date of the relevant Service Level.
- (c) The parties will meet to discuss as part of the appropriate Governance Forum the limited circumstances in which a Service Level Failure qualifies as a material breach (for example service outage) or repeated breach for the purposes of termination under the Agreement.
- (d) The construct of Service Level Methodology under each Statement of Work will include each Service Level having a weightage assigned to it, and such weightage for the Service Level will not exceed 20% unless otherwise agreed in writing by the parties as part of the construct of the Service Level Methodology. The Total Weightage of all Service Levels under the Statement of Work will be 100%.

25.2 Compliance with Service Levels

- (a) The Supplier must provide the Supplies so as to meet or exceed the Service Levels, and notwithstanding any obligation of ABCD or third parties to perform components of the supply chain of the Supplies.
- (b) On each anniversary of the Commencement Date, the parties will meet to discuss the framework which applies to Service Levels and Service Credits, subject to there being no overall change in the Service Credit "at risk" amount.

25.3 Service Credits

- (a) If a Service Level Failure has occurred and the Supplier's performance has not been excused in accordance with clause 25.6, the applicable Service Credit for that failure under the applicable Statement of Work will be deducted by ABCD from the next month's invoice and the Supplier will not be paid or have any entitlement or claim to the Service Credit amount.
- (b) Unless otherwise agreed in a Statement of Work, the total amount of Service Credits "at risk" on a monthly basis under a Statement of Work is capped at 10% of the monthly fees paid or payable under that Statement of Work.
- (c) If, at any time, the Supplier or ABCD becomes aware that the Supplier has incorrectly calculated or made an error in determining the amount of any Service Credits, the Supplier must promptly remedy the discrepancy. Where the Supplier had paid in excess the Service Credit amounts then such excess amounts will be paid back by ABCD to the Supplier within thirty (30) days of Supplier notifying ABCD of such discrepancy.

- (d) The amount of any Service Credits will count towards the calculation of the Supplier's liability cap under clause 47.2.

No limitation on remedies

- (e) The parties acknowledge and agree that the Service Credits:
 - (i) are a price adjustment to reflect the Supplies not being provided as a result of the Service Level Failure and are not an estimate of the Loss that ABCD may suffer or incur as a result of that Service Level Failure; and
 - (ii) do not limit any other rights or remedies of ABCD under this Agreement or at Law

- (f) Calculation of Service Credits

- (a) For each Service Level Default, the Supplier must pay ABCD a Service Credit calculated in accordance with the following formula:

$$\text{Service Credit} = A \times B$$

Where:

A = The Service Level Weighting specified for the Service Level that is the subject of the applicable service level failure.

B = The Amount at Risk for the month in which the service level failure occurred.

- (b) By way of worked example only, where the Supplier fails to meet the Service Level and:

- (i) the Monthly Service Fee for the month in which the Service Level Default occurred is \$ 100,000 and the Amount at Risk is 10% of the Monthly Service Fee;

The Service Level Weighting for the Service Level is 15%; and

The Service Credit due to ABCD for such Service Level Default would be calculated as follows:

A = 15% (the Service Level Weighting)

multiplied by

B = \$10,000 (being 10% of \$ 100,000, the Amount at Risk for the month in which the Service Level Default occurred)

= \$ 1,500 (the amount of the Service Credit).

25.4 Service Level management

- (a) In addition to the payment of any Service Credits and development of any Remediation Plan (if applicable) and without limiting any rights or remedies ABCD may have, if a Service Level Failure occurs the Supplier must (at no additional charge to ABCD):
 - (i) advise ABCD when it becomes aware of the same and also report as part of the Service Level report;

- (ii) begin meeting the affected Service Level as soon as reasonably practicable;
- (iii) if requested by ABCD, re-perform those Supplies which gave rise to the Service Level Failure;
- (iv) investigate the Root Cause of the Service Level Failure and report to ABCD on the same;
- (v) correct the fault which caused the Service Level Failure;
- (vi) take all reasonable steps to mitigate the effect of the Service Level Failure and report to ABCD on the same; and
- (vii) take appropriate preventive measures to ensure that the relevant Service Levels are met for the balance of the Term.

25.5 Remediation Plan

- (a) If a Service Level Failure occurs then the Supplier must develop and implement a Remediation Plan at its cost in accordance with this clause 25.5.
- (b) The development of a remediation plan (or any related obligations such as the timing by when such a plan needs to be developed), operates to waive or limit any right or remedy ABCD has in relation to the circumstances which gave rise to the Service Level Failure. Further, where any circumstances gave rise to a Service Level Failure and these have an adverse impact on ABCD, Supplier must immediately advise ABCD of the impact of those circumstances and undertake such reasonable mitigation activities as are necessary to eliminate or reduce the impact of those circumstances in addition to any specific activities required by this clause 25.5
- (c) If:
 - (i) a Service Level Failure occurs;
 - (ii) the Supplier breaches any of its obligations under this Agreement;

the Supplier commits any other significant or persistent breach of this Agreement; then the Supplier must develop and implement a Remediation Plan in accordance with this clause 25.5.
- (d) A Remediation Plan must specify (in detail satisfactory to ABCD, acting reasonably):
 - (i) the process for identifying, and where applicable must identify, the cause of the failure, deficiency in the quality of the Services and/or Deliverables, problem or concern (**Failure**) the Remediation Plan is intended to remedy or prevent;
 - (ii) the actions that will be implemented by Supplier to effect that remedy;
 - (iii) the actions that will be implemented by Supplier to prevent the same or a substantially similar Failure from occurring in the future; and
 - (iv) a timeline for the implementation of the Remediation Plan, which must provide for the implementation of remedial and preventative actions as soon as possible so as to minimise the overall impact to ABCD.

- (e) If the Supplier is required to develop and implement a Remediation Plan under this Agreement, it must develop and give to ABCD a draft Remediation Plan as soon as practicable and in any case within 15 Business Days of becoming aware of the relevant Failure.
- (f) Once a Remediation Plan is accepted by ABCD, the Supplier must implement that Remediation Plan at no cost to ABCD in accordance with the timeframes and other terms specified in that Remediation Plan and without adversely affecting any other Services under this Agreement.

25.6 **Service Level exceptions**

The Supplier will not be responsible for a Service Level Failure to the extent that the failure is directly attributable to any:

- (a) failure by ABCD or any third party supplier engaged by ABCD (other than the Supplier) to perform an obligation under the Agreement, where such obligation is a dependency on the Supplier's ability to meet the relevant Service Level;
- (b) Force Majeure Event;
- (c) service or resource reduction directed and approved in writing by ABCD, despite written notice from the Supplier that such reductions would result in that failure; and
- (d) any planned maintenance of the Supplies in accordance with the relevant Statement of Work.

25.7 **Disputes as to Service Levels**

- (a) Clause 50 applies to a dispute as to whether a Service Level has been met, or whether ABCD is entitled to a Service Credit.
- (b) Until such time as the dispute has been resolved, the relevant Service Levels will be treated by the parties as having not been met and the Service Credits as being due and payable, and the Supplier must continue to provide the Supplies until resolution of the dispute.

26. **Acceptance process**

26.1 **Acceptance of Supplies**

- (a) ABCD will not be regarded as accepting a Supply under this Agreement until it has issued an Acceptance Certificate in respect of that Supply.
- (b) The Acceptance Process set out in this clause 26 only applies to a Deliverable if specified in the applicable SOW.

26.2 **Before Supplier submits a Deliverable to Acceptance Process**

- (a) Before the Supplier submits a Non-Documentary Deliverable to the Acceptance Process, the Supplier must conduct extensive pre-delivery testing in order to limit the number of Defects detected during the Acceptance Tests.
- (b) Before the Supplier submits a Documentary Deliverable to the Acceptance Process the Supplier must have delivered where necessary at least 1 draft of the Documentary Deliverable to ABCD and have received ABCD input on that draft.

26.3 Acceptance Process for Non-Documentary Deliverables

- (a) To commence the Acceptance Process, the Supplier must submit the Non-Documentary Deliverable to ABCD together with a written certification that the Deliverable is ready for the Acceptance Process.
- (b) Following receipt of the Deliverable and the certification under clause 26.3(a), ABCD (unless and to the extent agreed otherwise), will undertake the Acceptance Tests in relation to the Deliverable in accordance with the relevant Test Plan to verify that the Deliverable meets the Acceptance Criteria. The Supplier will provide such assistance as is reasonably stipulated by ABCD in respect of the Acceptance Process.
- (c) By the end of the relevant Acceptance Period, ABCD must issue either:
 - (i) an Acceptance Certificate;
 - (ii) a Conditional Acceptance Certificate;
 - (iii) a Notice of Late Submission;
 - (iv) a Rejection Certificate; or
 - (v) a request for a reasonable extension of time to complete the Acceptance Tests.
- (d) If ABCD fails to comply with clause 26.3(c) within 10 Business Days of the end of the relevant Acceptance Period, the Supplier may escalate the issue to the appropriate Governance Forum.
- (e) If ABCD issues a Rejection Certificate, the Supplier must immediately commence rectifying the Deliverable and must re-submit the rectified Deliverable to the Acceptance Process by the date specified on the Rejection Certificate or such other date as may be agreed in writing by the parties, following which, the procedure set out in this clause 26.3 will apply again in relation to the Deliverable.
- (f) If ABCD issues a Conditional Acceptance Certificate, the Conditional Acceptance Certificate will stipulate:
 - (i) the reasons why an Acceptance Certificate has not been granted;
 - (ii) Defects that must be rectified and/or any remaining tests or activities that must be performed before an Acceptance Certificate can be issued in relation to that Deliverable; and
 - (iii) the Delivery Date for re-submission of the Deliverable and the schedule according to which remaining tests will be performed.
- (g) If ABCD issues a Conditional Acceptance Certificate, the Supplier must:
 - (i) immediately commence rectifying the Deliverable (including by rectifying the identified Defects and performing any remaining tests or activities in relation to that Deliverable); and
 - (ii) re-submit the rectified Deliverable to the Acceptance Process by the date specified in the Conditional Acceptance Certificate or such other date as may be agreed in writing by the parties, following which, the procedure set out in this clause 26.3 will apply again in relation to that Deliverable.

26.4 Acceptance Process for Documentary Deliverables

- (a) To commence the Acceptance Process, the Supplier must submit the Documentary Deliverable to ABCD together with a written certification that the Deliverable is ready for the Acceptance Process.
- (b) Following receipt of the Deliverable and the certification, ABCD will review the Deliverable to verify that the Deliverable meets ABCD requirements.
- (c) By the end of the relevant Acceptance Period, ABCD must issue either:
 - (i) an Acceptance Certificate;
 - (ii) a Conditional Acceptance Certificate;
 - (iii) a Rejection Certificate; or
 - (iv) a request for a reasonable extension of time to review the Deliverable.
- (d) If ABCD fails to comply with clause 26.4(c) within 10 Business Days of the end of the relevant Acceptance Period, the Supplier may escalate the issue by notice to the appropriate Governance Forum.
- (e) If ABCD issues a Rejection Certificate in relation to a Documentary Deliverable, ABCD will give reasons for why it rejects the Deliverable and give directions to amend the Deliverable and a date for resubmission of the amended Deliverable (**Reasons for Rejection**).
- (f) Following receipt of the Reasons for Rejection, the Supplier must immediately commence amending the Deliverable to address the Reasons for Rejection and re-submit the amended Deliverable to the Acceptance Process by the date specified on the Rejection Certificate or such other date as may be agreed in writing by the parties, following which the procedure in this clause 26.4 will apply again in relation to the Deliverable.
- (g) If ABCD issues a Conditional Acceptance Certificate the Certificate will stipulate:
 - (i) the reason why an Acceptance certificate cannot be granted;
 - (ii) defects that must be rectified before an Acceptance Certificate can be issued in relation to that Deliverable; and
 - (iii) the Delivery Date and Acceptance Period for re-submission of the Deliverable
- (h) If ABCD issues a Conditional Acceptance Certificate, the Supplier must:
 - (i) immediately commence rectifying the Deliverable (including by rectifying the identified Defects and performing any remaining tests or activities); and
 - (i) re-submit the rectified Deliverable to the Acceptance Process by the date specified in the Conditional Acceptance Certificate or such other date as may be agreed in writing by the parties, following which, the procedure set out in this clause 26.4 will apply again in relation to that Deliverable.

26.5 Late Submission of a Deliverable

- (a) Where a Deliverable is submitted after the scheduled Delivery Date without the prior written approval of ABCD may issue a notice that the Deliverable has been submitted late (Notice of Late Submission).
- (b) In the event that ABCD issues two Notices of Late Submission in relation to a single Deliverable, ABCD may issue a Rejection Certificate in relation to that Deliverable.

26.6 Early Submission of a Deliverable

- (a) A Deliverable may only be submitted before the scheduled Delivery Date with the prior written approval of ABCD.
- (b) If such written approval has not been granted prior to the early submission of the Deliverable, the Delivery Date for the purposes of determining the Acceptance Period will be deemed to be the scheduled Delivery Date of that Deliverable.

26.7 Termination and other action

If any Deliverable fails to pass the Acceptance Process 2 or more times, that failure will be deemed a material breach by the Supplier entitling ABCD to terminate the relevant SOW under clause 49.6(f) and obtain a refund of any advanced Fees paid in respect of that Deliverable and any other dependent Deliverable which cannot be used, or the functionality or utility of which is reduced, because of the rejection of the first Deliverable.

27. Step In

27.1 Step In right

- (a) If ABCD reasonably believes that:
 - (i) the Supplier has committed, or is likely to commit, a material breach of the Agreement;
 - (ii) the Supplier is not remedying any breach of the Agreement; or
 - (iii) a Force Majeure Event has occurred and the Supplier is the affected party,

then ABCD or a third party appointed by ABCD to Step In (**Interim Manager**) may step in and perform certain Services (**Step In**) by issuing a notice in writing to the Supplier (**Step In Notice**).

- (b) Any Step In Notice must include the following details:
 - (i) ABCD intention to Step In;
 - (ii) the reason for the Step In;
 - (iii) the effective date of the Step In;
 - (iv) the expected duration of the Step In;
 - (v) the Services in respect of which the Step In will apply (Step In Services); and

- (vi) the identity of the Interim Manager (if applicable).
- (c) In this clause 28, the Step In Party is ABCD or, if it appoints an Interim Manager under clause 27.1(b)(vi), the Interim Manager.

27.2 Disputed Step In

- (a) If the Supplier disputes a Step In, it must give ABCD written notice of that fact within five Business Days after receiving the Step In Notice. The Supplier's notice under this clause 27.2 will be treated as a dispute under clause 50.
- (b) Unless the Supplier has obtained urgent injunctive relief in respect of the relevant dispute in accordance with clause 50.1(b), ABCD Step In rights will immediately take effect, notwithstanding any dispute that may be on foot.

27.3 Supplier obligations on Step In

ABCD Steps In, the Supplier must:

- (a) as soon as practicable, suspend the performance of the Step In Services;
- (b) make available to the Step In Party all of the Supplier's Resources and Personnel required for the proper performance of the Step In Services;
- (c) provide to the Step In Party other assistance as is reasonably required by the Step In Party; and
- (d) obtain all third party Authorisations necessary to enable the Step In Party to exercise its rights in relation to Step In.

27.4 Step Out

- (a) The Step In Party must step out and cease performing the Step In Services (Step Out) on the earlier of:
 - (i) the breach which gave rise to the Step In is remedied to ABCD satisfaction and ABCD is satisfied of the Supplier's ability and willingness to provide the Step In Services in accordance with the requirements of the Agreement; or
 - (ii) three (3) months after the Step In Party started performing the Step In Services.
- (b) The Step In Party may Step Out at any time.
- (c) To Step Out, ABCD must procure that the Step In Party issues a notice to the Supplier stating its intention to Step Out and the effective date of that Step Out (**Step Out Notice**) and provide details of any Step In Services which may impact the ability of the Supplier to resume performance of the Step In Services.
- (d) If the Step In Party issues a Step Out Notice:
 - (i) the Supplier must resume performance of the Step In Services on the date specified in the Step Out Notice; and
 - (ii) the Step In Party must relinquish to the Supplier the control and possession of any of the Supplier's Resources and Personnel made available to the Step In Party in accordance with clause 27.3(b).

27.5 **Liability**

- (a) The Supplier is not liable to ABCD for the Interim Manager's acts, errors or omissions.
- (b) ABCD will not pay the Supplier the fees for any Services which are part of the Step in Services. ABCD rights to Step In do not limit any of ABCD other rights under this Agreement and do not prevent ABCD from pursuing any other remedy available to ABCD under this Agreement or at Law.
- (c) The Supplier shall be liable for, and pay on demand to ABCD, ABCD costs in undertaking the Step In capped each month during the Step In at a maximum amount of fifty (50) percent of the monthly Fees for any Services which are part of the Step in Services which would otherwise have been payable to the Supplier for each month that the Step In remains in force.

28. **Delays**

28.1 **Supplier must notify delays**

If the Supplier cannot deliver, or reasonably anticipates that it cannot deliver, any of the Supplies by their due date, the Supplier must notify ABCD of the delay in writing within 4 hours of the delay or anticipated delay being identified (and in any event before the due date for the relevant Supply). The notice must specify:

- (a) the nature of the delay;
- (b) whether the Supplier believes it is a Supplier delay or a ABCD Delay;
- (c) the affected Supply;
- (d) the cause of the delay (if known); and
- (e) the date from which such ABCD Delay will have a material effect on the Supplier being able to deliver any of the Supplies.

28.2 **ABCD Delays**

If the Supplier is prevented from delivering any Supply by its due date solely by reason of a ABCD Delay (such delay having been confirmed as a genuine ABCD Delay by ABCD in writing), ABCD will extend the applicable Delivery Date and/or Milestones for the relevant Supply by a reasonable period determined by ABCD, provided that the Supplier has adequately performed its project management and other obligations under this Agreement, including notifying ABCD of the relevant ABCD Delay pursuant to clause 28.1.

28.3

Supplier delays

If the Supplier fails to deliver all or any of the Supplies due by the relevant Delivery Date for any reason other than a ABCD Delay or a Force Majeure Event, the Supplier will immediately and at no additional cost to ABCD, commit such additional Resources (including suitably qualified and experienced Personnel) as are required in order to:

- (a) accelerate work to ensure completion and the delivery of the late Supplies as soon as reasonably possible (and in any event on or before the Delivery Date for any subsequent Supply); and

- (b) minimise the impact of the delay on the Solution Implementation Plan.

Part F: Regulatory, compliance and quality assurance

29. Compliance and Quality Assurance

29.1 Compliance with Laws and Regulatory and Industry Requirements

- (a) Without limiting any other part of this Agreement, the Supplier must perform its obligations under this Agreement in a manner that complies with all applicable Laws and Regulatory and Industry Requirements:
 - (i) applicable to the Supplier, the Supplies and the performance of its obligations under this Agreement; and
 - (ii) relevant to the Supplies.
- (b) Without limiting clause 29.1(a), the Supplier must:
 - (i) ensure that all Supplies are and remain compliant with all applicable Laws and Regulatory and Industry Requirements and the terms of this Agreement; and
 - (ii) ensure that the Supplies are provided in such a way as to enable ABCD to comply with, or if relevant, take advantage of the benefit of:
 - (A) any applicable Laws and Regulatory and Industry Requirements of which the Supplier is, or ought reasonably to be, aware (including because of its warranted status as a world class services and solutions organisation providing services to customers in the industries in which ABCD operates); or
 - (B) any applicable Laws and Regulatory and Industry Requirements notified by ABCD.
- (c) The Supplier must provide ABCD with reasonable assistance to enable ABCD to comply with its obligations under applicable Laws that relate to the Supplies provided under this Agreement, including by:
 - (i) complying with ABCD reasonable directions that relate to ABCD and/or the Supplier's compliance with such Laws; and
 - (ii) notifying ABCD if the Supplier has failed to comply with any applicable Law.
- (d) The Supplier will not be relieved of its obligations under this Agreement in the event of a change in any Law, Regulatory and Industry Requirements. If a change in a Law, Regulatory and Industry Requirements occurs, or is likely to occur, then the Supplier must:
 - (i) continue to provide the Supplies in accordance with the relevant Law, Regulatory and Industry Requirements; and
 - (ii) notify ABCD of the likely impact (if any) of that change on this Agreement.
- (e) The Supplier will provide reasonable assistance to ABCD to comply with all applicable Laws and Regulatory and Industry Requirements which apply to ABCD and its business where ABCD has notified the Supplier in writing of those applicable Laws and Regulatory and Industry Requirements.

29.2 Responsibility for obtaining Authorisations

- (a) The Supplier must obtain and maintain, and must bear all costs and expenses associated with obtaining and maintaining, all relevant Authorisations, approvals, permits and licences required by Law and Industry Best Practice to perform the Supplies and deliver the Solution.
- (b) At ABCD request, the Supplier must promptly produce evidence of any Authorisation, approval, permit or licence to

29.3 ABCD. Health, safety and the environment

- (a) The Supplier acknowledges the extreme importance that ABCD places on establishing and maintaining high standards in relation to workplace health and safety and the protection of the environment.
- (b) In performing its obligations under this Agreement, the Supplier must comply with all directions given by a ABCD Group member at any time in connection with health, safety and the environment.
- (c) The Supplier must immediately inform ABCD of any of the Supplier's activities that may have an impact on health and safety of people at a ABCD

29.4 Site. Access to ABCD Sites and Materials

- (a) The Supplier must:
 - (i) only access ABCD Sites and systems for a purpose approved in advance by ABCD and then only within the scope of that approval;
 - (ii) comply with ABCD policies and procedures relevant to the Supplier's or the Supplier Personnel's access to ABCD Sites or use of ABCD Data and ABCD Materials as provided to the Supplier in writing; and
 - (iii) comply with directions given by ABCD or ABCD Personnel regarding access to ABCD Sites and use of ABCD data, information and materials.
- (b) To the extent permitted by Law, the Supplier is solely responsible for Supplier Personnel and the acts and omissions of Supplier Personnel when accessing ABCD premises, ABCD Data and ABCD Materials or ABCD Systems.

29.5 Standards and certifications

Without limiting any of the Supplier's other obligations under this Agreement, the Supplier must comply with all standards and certifications specified in the Specifications or any Statement of Work.

29.6 Compliance with Supplier Code of Conduct and ABCD Policies

- (a) The Supplier must comply, and must ensure that all Supplier Personnel are aware of and comply, with:
 - (i) ABCD Policies as provided in writing and Supplier Code of Conduct; and
 - (ii) when performing Services at or attending a ABCD Site, any additional policies and procedures provided and notified in writing by ABCD to the Supplier or the Supplier Personnel that apply in connection with the performance of services at that Site, and all reasonable directions of ABCD given in connection with such policies or procedures.

- (b) If a change in a ABCD Policy results in the Supplier incurring materially increased costs in providing the Supplies, then:
 - (i) the parties will discuss and agree any ways in which the Supplier can mitigate the effect of the change; and
 - (ii) the Supplier may request ABCD to propose a variation in accordance with Schedule 10 (Change Management).

29.7 Quality assurance and accreditation

- (a) The Supplier must, at no additional cost to ABCD, provide continuous quality assurance and quality improvement through:
 - (i) the identification and implementation of proven techniques and tools for example, a data quality plan, from other installations within the Supplier's operations; and
 - (ii) the identification and application of fast-path implementation and detailed timelines for implementation of the Supplies.
- (b) The Supplier must, at ABCD request, procure the right for ABCD to use the techniques and tools referred to in clause 29.7(a)(i).
- (c) The Supplier must include checkpoint reviews, testing, acceptance, and other procedures for ABCD to confirm the quality of the Supplier's

29.8 performance. Obligation to notify breaches

- (a) The Supplier must notify ABCD of any actual, alleged or suspected breach of any Laws, ABCD Policies or Regulatory and Industry Requirements immediately after the Supplier has become aware of the actual, alleged or suspected breach (as the case may be).
- (b) Without limiting any other obligation of the Supplier under this Agreement, immediately after the Supplier has become aware of an actual, alleged or suspected breach of any applicable Laws, ABCD Policies or Regulatory and Industry Requirements, the Supplier must:
 - (i) rectify any actual breach caused by Supplier;
 - (ii) investigate any alleged or suspected breach and implement rectification measures if an actual breach has occurred or a breach is likely to occur; and
 - (iii) keep ABCD updated of its rectification activities.

30. Payment card industry (PCI) compliance

- (a) This clause 30 applies where specified in the relevant Statement of Work.
- (b) The Supplier is aware of the PCI Standard and that the Supplies will comply with the PCI Standard and any requirements related to the PCI Standard set out in this Agreement.
- (c) Upon the Supplier becoming aware that it may not comply with its obligations under clause 30(b), it must:

- (i) immediately notify ABCD in writing of the details of the non-compliance and the steps it will undertake to become compliant;
- (ii) notify ABCD when the Supplies are compliant; and
- (iii) on request and at its own cost, promptly provide ABCD with all information reasonably required to demonstrate such compliance. This may include, amongst other things, the provision of an Attestation of Compliance and Certificate of Compliance prepared by an independent PCI Qualified Security Assessor accredited by the PCI Standards Council.

31. **Financial crime**

31.1 **Anti-bribery and Corruption**

- (a) The Supplier must comply, and at all times maintain and enforce adequate policies and procedures designed to ensure compliance, with any applicable Laws, including but not limited to the Anti-Corruption Law.
- (b) The Supplier must comply, and at all times maintain and enforce adequate policies and procedures designed to ensure compliance with the Group's Anti-Bribery and Corruption Policy.
- (c) The Supplier represents and warrants that:
 - (i) no undue financial or other advantage of any kind has been or will be given or received by the Supplier or on its behalf in connection with the negotiation, conclusion or performance of any of this Agreement; and
 - (ii) no foreign public official is an officer or employee of the Supplier or has a direct or indirect interest in the Supplier.
- (d) The Supplier must notify ABCD:
 - (i) promptly if it becomes aware, or has any suspicion, of any request or demand for any undue financial or other advantage of any kind received by the Supplier or on its behalf in connection with the negotiation, conclusion or performance of any of this Agreement; or
 - (ii) immediately if a foreign public official becomes an officer or employee of the Supplier or acquires a direct or indirect interest in the Supplier.
- (e) On ABCD request, the Supplier must certify in writing, signed by an officer of the Supplier, that it remains in compliance with this clause 31.1, providing such supporting evidence as ABCD may reasonably request.

31.2 **Economic Sanctions**

The Supplier will not do, or omit to do, anything that would cause ABCD to breach Australian Sanctions Laws or International Sanctions Laws that is applicable to the Supplier for the provision of Services. The Supplier acknowledges that ABCD may delay, block or refuse to make a payment or take any other action where ABCD reasonably considers it necessary to do so in order to avoid a breach of Australian Sanctions Law or International Sanctions Laws.

31.3 **Anti-fraud**

- (a) ABCD has the right, where appropriate, to check any details the Supplier provides to ABCD with fraud prevention agencies, other insurers and other relevant third parties for the purpose of preventing and detecting false information or fraudulent activity. If the Supplier gives ABCD false or inaccurate information and ABCD suspects fraud, ABCD may record this with a fraud prevention agency.
- (b) The Supplier agrees to co-operate with ABCD and provide all reasonable assistance in any investigation, where ABCD suspects that any member or sponsor has:
 - (i) made a fraudulent or exaggerated claim under any insurance product;
 - (ii) sent ABCD fake or forged documents or other false evidence, or made a false statement in support of a claim under any insurance product; and/or
 - (iii) provided ABCD with information which they know would otherwise enable █████ to refuse to pay a claim under any insurance product.

32. **Modern slavery**

32.1 **Slavery and human trafficking**

- (a) The Supplier warrants that neither the Supplier nor any of its Personnel associated with it:
 - (i) has been convicted of any offence involving slavery and human trafficking; and
 - (ii) having made reasonable enquiries, to the best of its knowledge, has been or is the subject of any investigation, inquiry, or enforcement proceedings by any governmental, administrative or regulatory body regarding any offence of, or in connection with, slavery and human trafficking.
- (b) The Supplier must notify ABCD as soon as it becomes aware of any actual or suspected slavery or human trafficking in a supply chain which has a connection with this Agreement.

32.2 **Compliance with Modern Slavery Laws**

The Supplier must:

- (a) adopt policies and procedures which are designed to:
 - (i) ensure that any Associated Parties which in any way contribute to the performance of the Supplier's obligations to ABCD, or all things necessary or convenient for, or otherwise directly or indirectly related to, the performance of such obligations, will comply where applicable with:
 - (A) Australian Modern Slavery Laws; and
 - (B) Foreign Modern Slavery Laws applying in the location or locations in which such acts or omissions are, or are to be, performed; and
 - (ii) monitor Associated Parties' compliance with all:
 - (A) Australian Modern Slavery Laws; and
 - (B) Foreign Modern Slavery Laws applying in the location or locations in which such acts or omissions are, or are to be, performed;

- (b) terminate relationships with any Associated Parties which refuse or are unable to comply with:
 - (i) Australian Modern Slavery Laws; or
 - (ii) Foreign Modern Slavery Laws applying in the location or locations in which such acts or omissions are, or are to be, performed; and
- (c) include in all contracts with Associated Parties terms which are at least as similar in effect to those in this clause 32.2.

32.3 **Records and audit**

- (a) The Supplier must maintain complete and accurate records which, to the extent possible, trace all stages of the supply chain of all goods and services provided to ABCD in connection with this Agreement and any Statement of Work.
- (b) The Supplier must maintain complete and accurate records which, to the extent possible, set out the steps that the Supplier has taken, at all stages in its supply chain, and all areas of its operations, to:
 - (i) identify and assess the risk of Modern Slavery;
 - (ii) report on the risks of Modern Slavery; and
 - (iii) address the risk of Modern Slavery.
- (c) The records referred to in clauses 32.3(a) and 32.3(b) must be made available to [REDACTED] inspection once per calendar year within 20 Business Days of having received in writing a request from ABCD for access to the records. If an inspection under this clause reveals a breach of the Agreement, ABCD may conduct a further inspection in that calendar year.
- (d) ABCD acknowledges and agrees that any inspection performed by ABCD pursuant to this clause shall not entitle ABCD to inspect any data, information or records to the extent that such materials relate to any other customer or any other sub-contractor of the Supplier nor to inspect the employment contracts, costings, margins or other internal data of Supplier or any sub-contractor.
- (e) Where an inspection is required by ABCD shall ensure that ABCD auditors comply with Supplier's security (including Information Security), safety and other site-specific regulations and procedures whilst on the Supplier Sites and the auditors / inspectors shall be escorted at all times by Supplier Personnel.
- (f) The Supplier agrees to include in all contracts with Associated Parties terms requiring the auditing of supply chains and operations for Modern Slavery which impose, at least, the same requirements as clauses 32.3(a) and 32.3(b).

33. **Harmful code**

33.1 **No Harmful Code to be introduced**

The Supplier must ensure that no Harmful Code is introduced as a result of:

- (a) the provision of any Supplies;
- (b) the performance of any of other obligations of the Supplier under this Agreement;
or

- (c) any wrongful or negligent act or omission of the Supplier or any Supplier Personnel.

33.2 Harmful Code responsibilities

The Supplier's responsibilities include:

- (a) using at all times the most appropriate, sophisticated and up-to-date pro-active security prevention software, including virus detection systems, firewalls, content filtering and intrusion detection systems for preventing and detecting Harmful Code;
- (b) ensuring that any new security procedures, software patches and virus definitions, etc, are applied within a reasonable time after successful UAT testing; and
- (c) implementing practices and procedures for the prevention and mitigation of the effects of Harmful Code that are consistent with Industry Best Practice and industry standards.

33.3 Combating effects of Harmful Code

- (a) If the Supplier becomes aware that any Harmful Code is found to have been installed, released or otherwise introduced into any Supply or any ABCD System or other system on which ABCD Data is stored, whether or not in contravention of clause 33.1, then the Supplier must:
 - (i) notify ABCD immediately, provide all information requested by ABCD in relation to the Harmful Code, including its manner of introduction and the effect the Harmful Code has had or is likely to have;
 - (ii) take all necessary or desirable remedial action to entirely eliminate the Harmful Code and prevent re-occurrence and rectify any consequences, including the preparation of a risk assessment and mitigation plan if requested by ABCD;
 - (iii) without limiting any other provisions of this Agreement, if the Harmful Code causes a loss, corruption or destruction of any ABCD Data, assist ABCD to mitigate such loss, corruption or destruction and restore ABCD Data; and
 - (iv) retain evidence and logs regarding the occurrence to help in determining cause, damage and likely source.
- (b) To the extent that the introduction of the Harmful Code is the result of a breach by the Supplier of its obligations under clause 33.1, the remedial efforts described in this clause 33 will be at the Supplier's cost.

34. Confidential Information and publicity

34.1 Mutual confidentiality obligations

Each party must:

- (a) take all action reasonably necessary to maintain the confidentiality of the other party's Confidential Information;

- (b) not disclose the other party's Confidential Information to any person except as permitted by this Agreement;
- (c) only use or reproduce the other party's Confidential Information for the purposes of performing its obligations or exercising its rights under this Agreement;
- (d) not make, assist or permit any person to make any unauthorised use, disclosure or reproduction of the Confidential Information of the other party;
- (e) take all steps reasonably necessary, prudent or desirable in order to secure each other's Confidential Information against theft, loss or unauthorised disclosure;
- (f) take reasonable steps to ensure that any person who has access to Confidential Information of the other party through it or on its behalf does not use, reproduce or disclose that Confidential Information other than in accordance with this Agreement; and
- (g) take reasonable steps to enforce the confidentiality obligations imposed or required to be imposed by this Agreement including, diligently prosecuting at its cost, any breach or threatened breach of such confidentiality obligations by a person to whom it has disclosed Confidential Information of the other party.

34.2 Supplier confidentiality obligations

The Supplier must ensure that:

- (a) Confidential Information of ABCD is, to the extent practicable, identified as the property of ABCD; and
- (b) ABCD has access at all times and in any reasonable manner to the Confidential Information of ABCD while in the possession or under the control of the Supplier and that such access is available to ABCD unconditionally, without the need for prior notice and at no additional charge.

34.3 Exclusions

Except to the extent that they may also be required by clause 34.4, the obligations of confidence in clause 34.1 do not apply to Confidential Information that is required to be disclosed by applicable Law or the rules of any stock exchange (or where the recipient is ABCD, a ABCD Group member's) securities are listed or quoted, provided that:

- (a) the recipient discloses the minimum amount of Confidential Information required to satisfy the Law or rules; and
- (b) before disclosing any information, the recipient provides a reasonable amount of notice to the discloser and exhausts all reasonable steps (whether required by the discloser or not) to maintain such Confidential Information in confidence.

34.4 Permitted disclosures

Notwithstanding anything contained in this Agreement, a recipient of Confidential Information may disclose Confidential Information of the discloser:

- (a) to one or more of its Personnel and its affiliates, directors who needs to know that information for the purposes of this Agreement, provided that such disclosure is under conditions of confidentiality substantially similar to this clause 34;

- (b) as required by Law or by the listing rules of any stock exchange where the recipient's (or where the recipient is ABCD, a ABCD Group member's) securities are listed or quoted;
- (c) if the discloser has given its written consent to the disclosure, provided that such disclosure is under conditions of confidentiality substantially similar to this clause 34; or
- (d) in the case of ABCD, to:
 - (i) a member of the ABCD Group;
 - (ii) a Government Agency having regulatory or supervisory authority over any part of ABCD business or affairs; or
 - (iii) to one or more of its Personnel who are providing services to ABCD in connection with the Supplies.

34.5 **Notification of disclosure**

The recipient must:

- (a) so far as the Law permits, immediately notify the discloser if Confidential Information is to be disclosed under clause 34.4(b) to enable the discloser to take any action to prevent such disclosure; and
- (b) immediately notify the discloser of any actual or potential disclosure or use of Confidential Information of the discloser other than in accordance with this clause 34 that comes to its attention.

34.6 **Security of ABCD Confidential Information**

- (a) Without limiting any other obligation under this Agreement, the Supplier must:
 - (i) ensure that third parties do not gain online or physical access to [REDACTED] Data without the prior written consent of ABCD;
 - (ii) to the extent the Supplier deals with ABCD Confidential Information, comply with ABCD information management procedures, policies, safeguards and directions as notified to the Supplier in writing from time to time by ABCD, including ABCD Security Policy and any other policies and procedures concerning the security of ABCD Confidential Information;
 - (iii) take all reasonable measures to ensure that all ABCD Confidential Information that is in the Supplier's possession or to which the Supplier has access is protected at all times from access, modification, deletion, copying, use or damage by any unauthorised person or entity;
 - (iv) maintain and enforce safety and security procedures, including the maintenance and enforcement of adequate Security Measures to protect ABCD Confidential Information from any Data Breach and otherwise in accordance with Industry Best Practice;
 - (v) regularly back-up all ABCD Confidential Information in the Supplier's possession or control in accordance with industry practice;
 - (vi) without limiting clause 34.6(a)(iii), where the Supplier is required to migrate, transfer, separate or copy ABCD Confidential Information from ABCD Systems or networks, take all reasonable measures to ensure that

the ABCD Confidential Information is migrated, transferred, separated or copied without loss, corruption or any reduction in its accessibility or useability;

- (vii) in the event of any loss, corruption or reduction in the accessibility or usability of any ABCD Confidential Information, restore such ABCD Confidential Information in accordance with Industry Best Practice data restoration techniques;
 - (viii) not store or process any ABCD Confidential Information outside Australia without ABCD prior written consent; and
 - (ix) only access, use, process and store ABCD Confidential Information solely for the purpose of performing its obligations under this Agreement and providing the Supplies to ABCD and the ABCD Group.
- (b) The Supplier must, at ABCD request, provide evidence of its compliance with clause 34.6(a) and must implement any additional Security Measures reasonably requested by ABCD from time to time.

34.7 Additional responsibilities

On written request from ABCD at any time (including on termination, expiration or otherwise), the Supplier must promptly:

- (a) provide to ABCD all ABCD Confidential Information held, stored or processed by or on behalf of the Supplier (in the format requested by ABCD) and all other materials incorporating ABCD Confidential Information; or
- (b) delete and permanently remove all ABCD Confidential Information held, stored or processed by or on behalf of the Supplier and all other materials incorporating ABCD Confidential Information and certify such deletion and removal (or both), at no cost to ABCD,

provided that the Supplier may retain a copy of such ABCD Confidential Information to the limited extent required to enable the Supplier to comply with its record keeping obligations under any insurance policy or applicable Law.

34.8 General obligations of the Supplier

Without limiting any other obligation under this Agreement, the Supplier must:

- (a) ensure that its employees, officers, contractors and agents who collect, use, disclose, store or handle ABCD Confidential Information are aware of the Supplier's obligations under this Agreement in relation to such activities or practices; and
- (b) immediately notify ABCD if the Supplier becomes aware of any breach or possible breach of its obligations in relation to the collection, use, disclosure, storage or handling ABCD Confidential Information under this Agreement.

34.9 Return of Confidential Information

Except as expressly permitted under this Agreement, a party who has received Confidential Information from the other party under this Agreement must, on the request of the other party and as directed by that party, immediately:

- (a) deliver all Confidential Information to that party; or

- (b) destroy all Confidential Information (and certify the destruction to that party),

provided that the receiving party may retain a copy of the Confidential Information to the limited extent required to enable it to comply with its record keeping obligations under any insurance policy or applicable Law.

34.10 Remedies

Each party acknowledges that:

- (a) the other party, or its Related Bodies Corporate, may suffer financial and other loss and damage if any unauthorised act occurs in relation to Confidential Information, and that monetary damages would be an insufficient remedy; and
- (b) in addition to any other remedy available at Law or in equity, the other party or its Related Bodies Corporate are entitled to injunctive relief to prevent a breach of, and to compel specific performance of, this clause 34.

34.11 Other Rights

- (a) The rights arising under this clause 34 do not exclude any other rights of either party.
- (b) Each party must bear its own costs of complying with this clause 34.

35. Privacy

35.1 Compliance with Privacy Laws

- (a) The Supplier must, when it collects, receives, uses, discloses, transfers or otherwise handles ABCD Personal Information in the course of performing its obligations under this Agreement:
 - (i) comply with:
 - (A) all applicable Privacy Laws in relation to Personal Information, whether or not the Supplier is an organisation bound by the Privacy Act; and
 - (B) any ABCD Policies in relation to any ABCD Personal Information.
 - (ii) not do anything or omit to do anything with ABCD Personal Information that will cause a ABCD Group member to breach its obligations under a Privacy Law; and
 - (iii) provide all assistance as required by ABCD to assist ABCD in complying with its obligations under any Privacy Law, including in relation to the security of ABCD Personal Information.
- (b) ABCD must ensure that wherever ABCD Personal Information is provided to the Supplier by ABCD for the purposes of the performance of the Supplier's obligations under this Agreement, ABCD has complied with any applicable requirements of the Privacy Laws to ensure that the Supplier is not, for that reason alone, in breach of clause 35.1(a)(i).
- (c) Without limiting the generality of clause 35.1(a), the Supplier must:
 - (i) not collect and use any Personal Information other than for the purpose of performing the Supplies;

- (ii) not disclose any Personal Information other than to its employees on a need to know basis, and to employees of subcontractors approved by ABCD in writing, for the purpose of performing the Supplies;
- (iii) ensure that access to the Personal Information is given only to Supplier Personnel who reasonably require access for the purpose of the Supplier carrying out its obligations under this Agreement;
- (iv) immediately notify ABCD if the Supplier becomes aware of an actual or potential breach of the Privacy Laws by itself or any of its personnel or receives a Privacy Complaint;
- (v) promptly provide ABCD with any information or assistance reasonably requested by ABCD for the purposes of investigating an actual or potential breach of Privacy Laws or a Privacy Complaint;
- (vi) comply with all directions given by ABCD to rectify or minimise any breach of Privacy Laws or any Privacy Complaint;
- (vii) cooperate, and provide ABCD with assistance in cooperating, with any investigations or recommendations made by a Privacy Regulator in connection with the handling of Personal Information in the course of complying with its obligations under this Agreement; and
- (viii) provide ABCD with any assistance reasonably requested by ABCD for the purposes of ABCD complying with any Privacy Laws, including without limitation responding to a request by any individual for access to their Personal Information.

35.2 **No offshoring**

- (a) The Supplier must not disclose (including to its Related Bodies Corporate), transfer, store or process any ABCD Data under this Agreement in a jurisdiction which is:
 - (i) outside Australia; or
 - (ii) in the case of Personal Information, outside the State or Territory in which ABCD is located (if ABCD is subject to a Privacy Law which prohibits or restricts the transmission or processing of Personal Information outside that State or Territory),

without the prior written consent of ABCD.
- (b) In the event that ABCD provides consent for Personal Information to be transferred or stored offshore pursuant to this clause, the Supplier must ensure that any offshore recipient of the Personal Information complies with all applicable Privacy Laws in relation to that Personal Information. The Supplier remains fully liable for any acts or omissions of the offshore recipient.

35.3 **No transfer of Personal Information**

The Supplier will not authorise or enable any third party or subcontractor to access or process Personal Information unless ABCD has given its prior written consent.

35.4 **Security of Personal Information**

The Supplier must:

- (a) ensure that all Personal Information is protected from Data Breaches in accordance with clause 34.6; and
- (b) maintain appropriate mechanisms, in accordance with Industry Best Practice, for detecting the occurrence of Data Breaches and potential Data Breaches.

35.5 **Notification of Data Security Incident**

- (a) The Supplier must notify ABCD as soon as possible in accordance with clause 35.6, and in any event within 24 hours of becoming aware of a:
 - (i) Security Incident;
 - (ii) Data Breach; or
 - (iii) material Information Security Control weakness,(each a **Data Security Incident**).
- (b) The Supplier must:
 - (i) promptly identify the cause of the Data Security Incident or potential Data Security Incident;
 - (ii) use its reasonable endeavours to ensure that any potential Data Security Incident does not become an actual Data Security Incident;
 - (iii) for any actual Data Security Incident, promptly do all within its power to remedy it and its consequences;
 - (iv) promptly (and no later than 5 calendar days after occurrence of the Data Security Incident) provide for ABCD approval a written plan detailing the cause of, and procedures the Supplier must take for responding to and rectifying, the Data Security Incident or possible Data Security Incident and its consequences (**DSI Response Plan**);
 - (v) comply with the approved DSI Response Plan and any relevant requirements, and follow any relevant procedures, in the ABCD Information Security Requirements and any other applicable procedures or policies provided by ABCD to the Supplier;
 - (vi) take all necessary action to prevent any recurrence of the Data Security Incident or potential Data Security Incident;
 - (vii) not, except with ABCD prior written consent or where required by applicable Law, notify any person including a Regulator of the existence or any details of the Data Security Incident or potential Data Security Incident (such information to be considered ABCD Confidential Information in accordance with clause 34);
 - (viii) agrees that ABCD will be solely responsible for determining whether a Data Security Incident would be likely to result in serious harm to any of the individuals to whom any ABCD Personal Information the subject of the Data Security Incident relates; and

- (ix) cooperate with ABCD to assist ABCD in making the determination referred to in clause 35.5(b)(viii).

35.6 Notification obligations

- (a) The Supplier's notification to ABCD under clause 35.6(a) must include:
 - (i) a description of the Data Security Incident or potential Data Security Incident;
 - (ii) the kind or kinds of information concerned; and
 - (iii) details of the steps that the Supplier must take, and steps that ABCD or the individuals affected by the Data Security Incident or potential Data Security Incident may take, in response to that incident or potential incident (as applicable),

and promptly provide any other information requested by ABCD in relation to the Data Security Incident or potential Data Security Incident (as applicable).

- (b) The Supplier must provide this notification to the ABCD Representative, or if the Supplier is unable to contact the ABCD Representative, it must contact the ABCD Service Desk on +61 7 3239 4999.
- (c) The Supplier acknowledges that ABCD may provide information about the Data Security Incident or potential Data Security Incident to third parties including the Privacy Regulator and affected individuals, including the identity of the Supplier or other details as considered reasonably necessary by ABCD or required by applicable Law or a Privacy Regulator. The Supplier will notify the Privacy Regulator of the Data Security Incident or potential Data Security Incident if required to do so by ABCD.

35.7 ABCD requests

Without limiting clauses 35.1 or 35.2, the Supplier must comply with any reasonable request by ABCD made for the purpose of ensuring either party's compliance with:

- (a) obligations arising under the applicable Privacy Laws; or
- (b) any applicable guideline, recommendation, direction or determination issued by the Office of the Australian Information Commissioner (or such other Privacy Regulator with jurisdiction over either party).

35.8 Return of ABCD Personal Information

Except as otherwise required by any applicable Law or as otherwise agreed between the parties, the Supplier must:

- (a) if directed by ABCD, implement data retention and/or data destruction mechanisms in relation to ABCD Personal Information that are required under Laws (including the Privacy Laws) or any ABCD Policy; and
- (b) return to ABCD all materials in the Supplier's possession, custody or control containing ABCD Personal Information handled in connection with this Agreement in the following circumstances:
 - (i) when ABCD Personal Information is no longer required by the Supplier for the purposes of this Agreement;

- (ii) upon termination or expiry of this Agreement;
- (iii) upon demand by ABCD; or
- (iv) if required by Law.

36. **Records and audit**

36.1 **Supplier to keep proper records**

The Supplier must keep full and proper books of accounts and records relating to the performance of this Agreement during the term (Records) and retain such records safely and securely for the duration of the Term and as otherwise required by Law.

36.2 **Audit**

On notice by ABCD, the Supplier must provide ABCD, or any auditor appointed by ABCD

(who shall not be competitor of Supplier), with access to:

- (a) the Resources and Personnel used by either or both of the Supplier and any subcontractor in connection with the supply of the Supplies;
- (b) any agreements, arrangements or undertakings relating to this Agreement between the Supplier and any third party, including a subcontractor;
- (c) any financial or operational books and records of either or both of the Supplier and any subcontractor relating to this Agreement;
- (d) any practices or procedures of the Supplier or any subcontractors relating to this Agreement;
- (e) any ABCD Data and records in the possession, custody or control of either or both of the Supplier and any subcontractor;
- (f) any Premises of the Supplier from which the whole or any part of the Supplies are being provided; and
- (g) such other premises, documents, records, practices, data and matters as ABCD may from time to time wish to audit and inspect in connection with this Agreement,

to enable ABCD or auditor (as applicable) to carry out audits and inspections for such purposes as determined by it from time to time. The inspection of books and records and/or audit may take place by attendance at any premises used or occupied by the Supplier or by any other means.

36.3 **Frequency**

- (a) The frequency of an audit by ABCD under clause 36 shall not be more than once per year unless an audit reveals a breach or clause 36.5 applies.
- (b) ABCD acknowledges and agrees that any audit performed by ABCD pursuant to this clause shall not entitle ABCD to inspect any data, information or records to the extent that such materials relate to any other customer or any other sub-contractor of the Supplier nor to inspect the employment contracts, costings, margins or other internal data of Supplier or any sub-contractor.
- (c) Where an audit is required by ABCD shall ensure that ABCD auditors comply with Supplier's security (including Information Security), safety and other

site-specific regulations and procedures whilst on the Supplier Sites and the auditors / inspectors shall be escorted at all times by Supplier Personnel.

36.4 Co-operation

The Supplier must co-operate fully in any audit and inspection, including by:

- (a) providing appropriate and secure office facilities in the relevant premises;
- (b) providing copies of any documents, records or data;
- (c) making appropriate Supplier Personnel available to answer questions;
- (d) assisting with, and if requested, participating in, joint audits.

36.5 Regulator audits

- (a) If a Regulator considers it necessary, upon notification by ABCD the Supplier must provide a Regulator the same rights which the Supplier has provided to ABCD under this clause 36 (including by providing the Regulator or any auditor appointed by the Regulator with access to things and items referred to in clause 36.2 upon request by the Regulator).
- (b) The Supplier acknowledges that if the Regulator exercises its rights under clause 36.5(a):
 - (i) ABCD will have no obligations to the Supplier for the Regulator's exercise of the right; and
 - (ii) the Regulator may do so without notifying ABCD.
- (c) The Supplier must not:
 - (i) impede the Regulator in fulfilling its duties as regulator; and
 - (ii) disclose or advertise that the Regulator has conducted a visit under this clause 36.5, except as necessary to coordinate with any other institutions regulated by the Regulator which are existing clients of the Supplier.

36.6 Discrepancies

- (a) Without limiting any other rights or remedies of ABCD, if an audit or inspection reveals that the Supplier is not complying with any Law, any audit requirement or otherwise with this Agreement, then the Supplier promptly must take such action as is necessary to remedy the non-compliance and report to ABCD on a monthly basis on the Supplier's progress in remedying the non-compliance.
- (b) If an audit or inspection reveals that the Supplier has overcharged ABCD, then without limiting ABCD other rights or remedies, the Supplier must promptly reimburse ABCD the amount of the overcharge, plus interest on such amount calculated at the Prescribed Rate for the period beginning on the day ABCD paid such amount and ending on the date the amount is reimbursed.

36.7 Costs of the audit

- (a) Subject to clause 36.7(b), each party will bear its own costs associated with audits and inspections.

- (b) Without limiting ABCD other rights or remedies, if an audit or inspection reveals that the Supplier has:
 - (i) overcharged ABCD 5% or more of the Project Price in any month; or
 - (ii) breached this Agreement other than in a minor or inconsequential way,
 then the Supplier must immediately reimburse ABCD for its audit and inspection costs.
- (c) The audit findings will be mutually discussed and agreed between the parties and any inadvertently made errors in the audit findings will be rectified and will not be considered as audit findings.

Part G: Governance and Risk Management

37. Governance and Risk Management

37.1 Compliance

The Supplier must comply with its governance and risk management obligations as detailed in Schedule 8 (Governance and Risk Management).

37.2 No limitation on obligations

The identification of Risks by the Supplier in accordance with this clause 37 (including the identification of Risks that may be affected by the acts or omissions of a ABCD Group member or the Third Party Suppliers) will not limit the Supplier's other obligations under this Agreement.

38. Security

38.1 Data and Information Security Requirements

- (a) The Supplier must:
 - (i) have in place adequate Security Measures to protect ABCD Data;
 - (ii) comply with the ABCD Information Security Requirements and such other security requirements of ABCD communicated and provided in writing to the Supplier from time to time, including security requirements relating to access to, and use of, any data, information systems or ABCD Facilities or Other Resources provided by ABCD or another third party; and
 - (iii) comply with all reasonable directions given by ABCD at any time in relation to the Security Measures including any reasonable direction to change or upgrade the Supplier's security procedures or controls to protect any ABCD Data.
- (b) Without limiting the generality of clause 38.1(a), the Supplier must, where relevant:
 - (i) implement and maintain procedures to appropriately segregate ABCD Data from the Supplier's data and data belonging to the Supplier's other customers;
 - (ii) implement, maintain and enforce security procedures acceptable to [REDACTED] with respect to access to the Premises;

- (iii) ensure that only Personnel of the Supplier that have been authorised by the Supplier to have access to the Premises are given access to the Premises;
- (iv) ensure that its security procedures include the monitoring of persons on the Premises so as to ensure that they are authorised Personnel of the Supplier;
- (v) provide ongoing information security training for all the Supplier's Personnel engaged in the provision of the Supplies.

38.2 **Protection of ABCD Data**

- (a) ABCD will retain exclusive rights and ownership of all ABCD Data.
- (b) The Supplier acknowledges and agrees that all ABCD Data is or will be the property of ABCD and is ABCD Confidential Information for the purposes of clause 34 of the Agreement.
- (c) The Supplier must:
 - (i) not use ABCD Data for any purpose other than directly in relation to the supply of the Supplies in accordance with this Agreement;
 - (ii) not sell, let for hire, or assign any rights in ABCD Data to third parties;
 - (iii) not make ABCD Data available to third parties without the prior approval of ABCD and as agreed on a need-to-know and confidential basis;
 - (iv) not commercially exploit ABCD Data;
 - (v) ensure that, at all times:
 - (A) ABCD Data is protected against misuse, interference, loss, unauthorised or unlawful access, use, modification or disclosure or accidental destruction; and
 - (B) that its Personnel do not attempt to access, or allow access to, ABCD Data to which they are not entitled or that is not required for the provision of the Supplies;
 - (vi) upon ABCD request, produce to ABCD or its nominee evidence of the Supplier's compliance with its obligations under clause 38.2(c)(v); and
 - (vii) establish and maintain all appropriate technical and organisational controls to safeguard against the destruction, loss or alteration of ABCD Data that are no less rigorous than those maintained by the Supplier for the Supplier's own information of a similar nature or otherwise comply with best industry practice, whichever is the higher standard.
- (d) On request by ABCD and at its election (and at no additional cost), the Supplier must:
 - (i) promptly return to ABCD all ABCD Data in the format and on the media as reasonably requested by ABCD;
 - (ii) securely erase or destroy all ABCD Data in the Supplier's possession or control,

and if requested by ABCD to do so, the Supplier will provide ABCD with confirmation in writing signed by a senior executive of the Supplier that it has done so.

38.3 Confidentiality of ABCD Data

The Supplier must not use any ABCD Data for testing purposes unless that ABCD Data has first been masked or de-identified in a manner approved by ABCD.

38.4 Removal for security risks

ABCD may, without limiting its rights or limiting the obligations of the Supplier, if it considers that there is a breach of this clause 38 by any Supplier Personnel or subcontractor, immediately:

- (a) remove the Supplier Personnel or subcontractor from the ABCD Facilities; and
- (b) deny any access to the environments of ABCD by the Supplier Personnel or subcontractor.

38.5 Security Audit

- (a) Every twelve months during the Term, ABCD may audit the Supplier's compliance with Privacy Laws and Security Measures, including its obligations under this clause 38.
- (b) Following the completion of any security audit, if requested by ABCD, the Supplier must:
 - (i) provide ABCD with evidence of its compliance with clause 38.5(a) and a copy of the audit findings, to the extent that those findings relate to the Supplies; and
 - (ii) meet with ABCD as soon as reasonably practicable (and in any event within 30 days) to discuss any issues identified in the security audit and any other concerns ABCD may have in relation to security.
- (c) If the audit identifies a failure by the Supplier to comply with Privacy Laws and Security Measures:
 - (i) the Supplier must, at its own cost, promptly take all steps necessary to remedy the failure including by providing ABCD with a plan to remedy the identified security issues; and
 - (ii) ABCD may conduct a further audit notwithstanding the limit on the number of security audits under clause 38.5(a).
- (d) The Supplier must discuss the plan with ABCD and continue to refine the plan until it is acceptable to ABCD (acting reasonably). Once the plan is acceptable to ABCD, the Supplier must implement the plan as soon as reasonably practicable or within the timeframe agreed between the parties.

39. Governance process

39.1 Parties to establish governance process

The parties will in accordance with Schedule 8 (Governance and Risk Management) establish governance processes and designate decision-makers to govern the strategic

overview operational risks and measures proposed to address such risks and day to day management of the Solution.

39.2 Meetings and reports

The Supplier must attend meetings and submit written reports in accordance with Schedule 8 (Governance and Risk Management).

40. Change Management

- (a) The parties will follow the Change Management Procedure set out in Schedule 9 (Change Management) in respect of any variation to the Agreement proposed by either party.
- (b) The provisions of this Agreement cannot be varied, except by agreement in writing signed by the parties.

41. Disaster Recovery

- (a) The Supplier has established a written plan consistent with Schedule 13 (**Disaster Recovery Plan**) which:
 - (i) is clearly expressed;
 - (ii) complies with all reasonable and relevant provisions of ABCD Policies (where provided to the Supplier) on the contents of such plans;
 - (iii) is fully operational;
 - (iv) is seamless in Supplier's performance of its obligations under this Agreement; and
 - (v) includes provision for immediately finding substitutes for the Supplies or their inputs if required, and for responding to Disasters which affect the Supplier's inputs in the Solution or any ABCD System.
- (b) The Supplier must:
 - (i) periodically execute the Disaster Recovery Plan (as an exercise) in respect of all its processes which relate to the provision of the Supplies at least quarterly per calendar year, or with more frequency if the parties agree;
 - (ii) make available the details of the exercises to ABCD to enable ABCD to review the impact the execution of the Disaster Recovery Plans had on provision of the Supplies;
 - (iii) regularly maintain and update the Disaster Recovery Plan during the Term; and
 - (iv) use all reasonable endeavours to ensure that Supplier Personnel have access to a stable remote/home-based network connection and a device (subject to the parties agreeing a reasonable cost apportionment of complying with this obligation).
- (c) If either the Supplier or ABCD identify any deficiencies or weaknesses as a result of the exercises referred to in this clause, the Supplier must immediately rectify the deficiencies or weaknesses and provide ABCD with evidence of the rectification.

- (d) Any failure of the performance of the Disaster Recovery Plan constitutes a material breach by the Supplier of this Agreement.

Part H: Risk Allocation and Termination

42. Representations and warranties

42.1 General warranties

- (a) Each party represents and warrants to the other party that:
 - (i) it has full power and authority to enter into, perform and observe its obligations under this Agreement, and that its execution, delivery and performance of this Agreement has been duly and validly authorised by all necessary corporate action;
 - (ii) this Agreement does not contravene its constitution or other constituent documents or any Law, regulation, ruling, consent, judgement, order or official directive or any of its obligations or undertakings by which it or any of its assets are bound or cause a limitation on its powers or those of its directors to be exceeded;
 - (iii) its obligations under this Agreement are valid, binding and enforceable;
 - (iv) it has not granted to any other person rights inconsistent with the rights granted under this Agreement; and
 - (v) no litigation, arbitration, mediation, conciliation or administrative proceedings are taking place, pending or threatened which, if adversely decided, could have a material adverse effect on its ability to perform its obligations under this Agreement.
- (b) The Supplier represents and warrants to ABCD that:
 - (i) it will, and the Supplier Personnel will, act lawfully at all times;
 - (ii) it will, and the Supplier Personnel will, not be a party to the doing of any act, matter or thing prejudicial to the goodwill, commercial reputation or overall public image of ABCD or any ABCD Group member;
 - (iii) it will, and the Supplier Personnel will, comply with any reasonable and legal requirements and directions of ABCD including all ABCD Policies and procedures relevant to the Supplies and as provided by ABCD in writing; and
 - (iv) at the date of signing this Agreement, no Conflict of Interest exists or is reasonably foreseeable in relation to the performance of its or the Supplier Personnel's obligations under this Agreement.

42.2 Supplier's warranties regarding the Supplies

The Supplier warrants that:

- (a) it is entitled to, and has the right and power to, supply the Solution and Supplies to ABCD;
- (b) the Supplies (including without limitation, the Solution):

- (i) will be properly installed (including Third Party Software but not including ABCD Systems);
- (ii) will at all times comply with and will perform in accordance with the applicable Documentation, Specifications, in every respect including features, capability, performance, design and durability; and
- (iii) will be of merchantable quality, new (unless otherwise specified);
- (c) the Documentation contains sufficient information to enable ABCD to use the Supplies on the terms set out in this Agreement and for the use contemplated by this Agreement (and in particular, for the purposes of the Solution);
- (d) the Supplier has prepared or examined the Specifications and has determined that the Specifications are viable and sufficiently detailed to enable the Supplies to meet ABCD requirements and business objectives;
- (e) the Deliverables will be compatible and inter-operate with any system, network, hardware, software or service with which it is to be used by ABCD (including the Software and Supplies provided under this Agreement) and will not detrimentally affect the operation or performance of any such system, network, hardware, software or service;
- (f) the Supplies are fit for ABCD purposes (as described in this Agreement, the RFP, a Statement of Work, or otherwise notified by ABCD) and for any purpose for which the Supplies are commonly acquired;
- (g) the Supplies will comply with any applicable Australian standards that are related in any way to those Supplies;
- (h) the Supplies will be capable of use without risk to health or safety; and
- (i) that when title to any Deliverable passes to ABCD under this Agreement or any Statement of Work, such title will pass to ABCD free from any

42.3 Encumbrances. **Supplier's warranties regarding the Supplies**

The Supplier warrants ABCD that the Supplies will:

- (a) correspond to their description in this Agreement;
- (b) be of merchantable quality.

42.4 **Standard of Competence**

The Supplier warrants to ABCD

- ~~(a) that~~ it will perform this Agreement in a good, proper and workmanlike manner and in accordance with Industry Best Practice and using a standard of care, skill, judgement and diligence expected of a contractor experienced in providing the same or similar Supplies;
- (b) both it and its Personnel have the level of skill, knowledge, experience and ability to carry out all the Supplier's obligations under this Agreement, which is no less than the standard that may be expected of a professional organisation experienced in providing services of the same type and complexity as the Supplies; and

42.5 Request for Proposal

The Supplier warrants that the RFP Response is true and accurate.

42.6 Reliance on warranties

The Supplier acknowledges that ABCD has executed this Agreement and agreed to take part in the transactions under this Agreement in reliance on the warranties that are made in it, including in this clause 42. All warranties given in this Agreement are made on the date of this Agreement and on a continuing basis.

42.7 Information provided by ABCD

- (a) The Supplier acknowledges that any information provided by ABCD in connection with this Agreement is provided for the convenience of the Supplier and is not warranted or held out by ABCD to be accurate, correct or adequate.
- (b) ABCD does not accept any liability for, and has not made any representation concerning, the accuracy, sufficiency and completeness of any information provided by ABCD in connection with this Agreement or the use of it by the Supplier.

42.8 Notification

If the Supplier becomes aware of any breach of a warranty it has granted under this clause or elsewhere in this Agreement, the Supplier must immediately notify ABCD in writing.

43. Performance undertaking

43.1 Supplier to provide Parent Company Guarantee

If so specified in the Agreement Details, the Supplier will provide a Parent Company Guarantee from a Related Body Corporate of the Supplier in favour of ABCD, pursuant to which the Related Body Corporate undertakes to fulfil the Supplier's obligations under this Agreement in the event of a default by the Supplier.

43.2 Form of Undertaking

The Parent Company Guarantee provided by the Supplier pursuant to this clause will be in a form approved by ABCD, and must subsist for so long as the Supplier has obligations under this Agreement.

44. Insurance

44.1 Insurance Policies

- (a) The Supplier must ensure it holds the insurances specified in the Agreement Details (or otherwise mutually agreed by ABCD and the Supplier) with a reputable insurer authorised and licensed to operate in Australia or otherwise with an insurer with a security rating of A- or better from AM Best (or equivalent rating organisation available in other geographies), for the Term and for at least 7 years after termination or expiry of this Agreement.
- (b) The Supplier must, before commencing the provision of the Supplies and within 10 Business Days after a request from ABCD, provide ABCD with certified copies of the certificates of currency for the insurance policies that it is required to effect and maintain in accordance with clause 44.1(a). The certificates of currency

must contain sufficient information to verify that the insurance complies with this clause 44 and the Agreement Details.

- (c) The Supplier must notify ABCD within 3 Business Days of any event which does or may affect its compliance with this clause 44, including any cancellation of a policy or reduction of limit of coverage below that required in clause 44.1(a).
- (d) If an insurance policy taken out and maintained by the Supplier provides for an excess or deductible in respect of any loss, that excess or deductible must be borne by the Supplier.
- (e) If the Supplier fails to effect or maintain insurance (or produce evidence of the currency of the insurance) as required by this clause 44, ABCD may effect and maintain such insurance and recover the costs of doing so as a debt due and payable from the Supplier.
- (f) The Supplier must ensure that each subcontractor takes out and maintains insurances of the type and level of cover as the Supplier considers appropriate, having regard to the nature and extent of the Supplies to be undertaken by that subcontractor.

44.2 Insurance claims

The Supplier must cooperate with ABCD and any person representing an insurer providing the insurance required under the Agreement Details in relation to any potential Claim under such insurance, including by providing any information required to make or progress the Claim.

45. Subcontracting

45.1 No Subcontracting Without Consent

- (a) The Supplier must not subcontract or allow an approved subcontractor to subcontract or otherwise arrange for another person to perform any part of this Agreement or to discharge any of its obligations under any part of this Agreement without the prior written consent of ABCD.
- (b) With a request for approval of subcontractors, the Supplier must give ABCD written particulars of the Supplies to be subcontracted and, if requested, the name and address of the proposed subcontractor and details of the proposed subcontractor's quality assurance, environmental and occupational health and safety systems. The Supplier must give ABCD other information which ABCD reasonably requests, including the proposed subcontract documents without prices.
- (c) The Supplier must ensure that all of its subcontracts relating to the Supplies or its other obligations under this Agreement:
 - (i) contain obligations consistent with and no less onerous than the Supplier's relevant obligations in this Agreement, including but not limited to clause 18, clause 20, all of the provisions under Part F (Regulatory, compliance and quality assurance) and clause 38;
 - (ii) prohibit the subcontractor from further subcontracting without ABCD prior consent;
 - (iii) include a right for the Supplier to terminate the subcontract for convenience; and

- (iv) are capable of novation by the Supplier to ABCD (or its nominee) at no cost to ABCD or its nominee.
- (d) If the Supplier wishes to subcontract any of its obligations under this Agreement, then before doing so (and without limiting clause 45.1(a)), the Supplier must:
 - (i) certify to ABCD that the proposed subcontract complies with the requirements set out in clause 45.1(c); and
 - (ii) at ABCD request, procure that the employees and contractors of its subcontractors, prior to performing any Services, sign a confidentiality deed in the form approved by ABCD.

45.2 Termination of Agreement or SOW

If this Agreement or a SOW is terminated, the Supplier must (at ABCD request) procure the novation to ABCD or its nominee of any of the Supplier's subcontracts which related to the Services provided under this Agreement or the terminated SOW (as applicable), and the Supplier consents to such novation.

45.3 Prime Supplier Responsibility

The Supplier will remain primarily liable for the performance of all its obligations under the Agreement and is liable to ABCD in respect of the acts, errors, omissions, defaults and neglects of any subcontractor or any employee or agent of the subcontractor as if they were the acts, errors, omissions, defaults or neglects of the Supplier or the employees or agents of the Supplier.

45.4 Contact with subcontractors

- (a) The Supplier consents to ABCD liaising directly with Supplier's subcontractors, suppliers and licensors as necessary for the successful performance of this Agreement.
- (b) Such direct liaison will not in any way diminish the Supplier's responsibility as prime contractor under this Agreement nor represent a waiver of any ABCD rights under this Agreement or at Law.

45.5 Direct relationship

The Supplier consents to ABCD entering into a direct contract with any approved subcontractor:

- (a) when ABCD deems it necessary in connection with the work the subcontractor in its capacity performs as subcontractor provided that Supplier gives its written consent for the same; or
- (b) if ABCD terminates this Agreement.

45.6 Change of subcontractor requested by ABCD

- (a) ABCD may, by giving reasonable notice to the Supplier and on reasonable grounds, direct the Supplier to cease using a subcontractor or replace a subcontractor as soon as possible if:
 - (i) the subcontractor's performance is deficient or unsatisfactory in any way; or

- (ii) ABCD has concerns about the subcontractor's willingness to comply with the obligations imposed on it under clause 45.1(c).
- (b) On receipt of notice from ABCD directing the removal or replacement of a subcontractor, the Supplier:
 - (i) must promptly cease using or replace that subcontractor in accordance with the notice; and
 - (ii) agrees that it will not charge ABCD for the time taken to bring any replacement subcontractor's project specific knowledge up to the level of the subcontractor it replaces.

45.7 Approved Subcontracting

For the purposes of this clause 45, approval is given to the subcontractors listed in the Agreement Details or applicable Statement of Work.

46. Indemnity

The Supplier indemnifies ABCD and ABCD Personnel against all Loss suffered or incurred by any of them (however arising, including for negligence) with regards to third party claims arising out of or in connection with:

- (a) any personal injury (including sickness or death) caused or contributed to by any act or omission of the Supplier or any Supplier Personnel;
- (b) any loss of, or damage to, any tangible personal property caused by any act or omission of the Supplier or any of Supplier Personnel;
- (c) any breach by the Supplier of its obligations under:
 - (i) clause 34 (Confidential information and publicity);
 - (ii) clause 35 (Privacy); or
 - (iii) clause 38 (Security);
- (d) a breach of any applicable Law by the Supplier or any Supplier Personnel; or
- (e) any workers' compensation claim made against ABCD by or in relation to any personnel employed or contracted by the Supplier to perform work in relation to this Agreement.

46.2 Reduction

The liability of the Supplier to indemnify ABCD or ABCD Personnel will be reduced proportionally to the extent that the Loss is attributable to the negligence or wrongful act or wrongful omission of ABCD or ABCD Personnel.

46.3 Indemnity offered regardless of institution of proceedings

The indemnities referred to in this Agreement will be granted whether or not legal proceedings are instituted and, if such proceedings are instituted, irrespective of the means, manner or nature of any settlement, compromise or determination.

46.4 Survival of indemnities

The indemnities contained in this Agreement continue notwithstanding the expiry or termination of this Agreement.

47. Exclusions and limitations of liability

47.1 Excluded Loss

Neither party will be liable to the other party for Excluded Loss.

47.2 Aggregate liability of Supplier

- (a) Despite any other provision of this Agreement, but subject to clauses 47.2(b) and 47.2(c) and 47.2(d), the aggregate liability of the Supplier to ABCD arising out of or in connection with this Agreement and any Statement of Work (however arising, including for negligence) is limited to the greater of:
 - (i) USD7,000,000; and
 - (ii) an amount equal to the total amount paid or payable under the Agreement (including the aggregate amount under all Statements of Work) for proper performance of the Supplier for the 12 month period prior to the month in which the cause of action first accrued .
- (b) The limitation in clause 47.2(a) does not apply in respect of:
 - (i) any loss of, or damage to, any tangible personal property caused by any act or omission of a party or any of its Personnel;
 - (ii) any personal injury (including sickness or death) caused by any act or omission of a party or any of its Personnel;
 - (iii) fraud, criminal offence, wilful default or wilful misconduct of a party or any of its Personnel; or
 - (iv) the indemnities in clauses 20.6 and 46 with the exception of the indemnities in clauses 46(c)(ii) (Privacy) and 46(c)(iii) (Security).
- (c) Subject to clause 47.2(d), the aggregate liability of the Supplier to ABCD arising out of or in connection with a breach by the Supplier of:
 - (i) clause 34 (Confidential information and publicity);
 - (ii) clause 35 (Privacy); or
 - (iii) clause 38 (Security);is limited to the greater of:
 - (iv) USD14,000,000; and
 - (v) an amount equal to two times the amount paid or payable under the Agreement (including the aggregate amount under all Statements of Work) for proper performance of the Supplier for the 12 month period prior to the month in which the cause of action first accrued.
- (d) The aggregate liability of the Supplier to ABCD arising out of or in connection with a breach by the Supplier of clauses 46(c)(ii) (Privacy) and 46(c)(iii) (Security) limited to the greater of:

- (i) USD14,000,000; and
- (ii) an amount equal to two times the amount paid or payable under the Agreement (including the aggregate amount under all Statements of Work) for proper performance of the Supplier for the 12 month period prior to the month in which the cause of action first accrued.

47.3 Aggregate liability of ABCD

- (a) The aggregate liability of ABCD to the Supplier arising out of or in connection with this Agreement and any Statement of Work (however arising, including for negligence or under any indemnity) is limited to the total amount paid or payable under this Agreement (including the aggregate amount under all Statements of Work) for proper performance of the Supplier for the 12 month period prior to the month in which the cause of action first accrued.
- (b) The limitation in clause 47.3(a) does not apply in respect of:
 - (i) any loss of, or damage to, any tangible personal property caused by any act or omission of ABCD or any ABCD Personnel;
 - (ii) any personal injury (including sickness or death) caused by any act or omission of ABCD or any ABCD Personnel;
 - (iii) fraud, criminal offence, wilful default or wilful misconduct of ABCD or a ABCD Personnel; or
 - (iv) the indemnity in clause 20.6.

47.4 Proportionate liability

To the maximum extent permitted by Law, the parties agree that no principle of proportionate liability, whether under Part 4 of the Civil Liability Act 2002 (NSW), Part 2, Subdivision GA of the Australian Securities and Investments Commission Act 2001 (Cth) or otherwise, will operate to limit or reduce a party's liability for any claim in relation to this Agreement or its subject matter whether in contract, tort (including negligence), in equity, under statute, under an indemnity or on any other basis.

47.5 Australian Consumer Law

Nothing in this Agreement limits the remedies available to ABCD under the Australian Consumer Law with respect to the consumer guarantee regime.

48. Suspension

48.1 No suspension by Supplier

The Supplier must not suspend the performance of this Agreement except where directed to do so by ABCD under clause 48.2 or expressly allowed by Law or in accordance with clause 23.6(d) (suspension for non-payment of undisputed invoices).

48.2 Suspension by ABCD

- (a) If the Supplier is in breach of the Agreement, ABCD may at any time, by notice in writing to the Supplier, suspend any or all aspects of the Agreement by such period as ABCD considers necessary (such period not to exceed 30 calendar days unless otherwise agreed). ABCD will have no obligation to pay for the suspended

Services for the duration of the suspension. The Supplier must recommence the Supplies by the date directed by ABCD.

- (b) ABCD may at any time, by notice in writing to the Supplier specifying the reason for the suspension, suspend any or all aspects of the Agreement by such period as ABCD considers necessary (such period not to exceed 60 calendar days unless otherwise agreed) and ABCD will continue to pay for the suspended Services where ABCD requires the Supplier to continue to hold the Supplier Personnel providing the suspended Services. The Supplier must recommence the Supplies by the date directed by ABCD.

49. **Termination**

49.1 **Termination for convenience**

- (a) ABCD may, by giving at least 180 calendar days notice to the Supplier, terminate this Agreement or a Statement of Work in whole or in part for convenience, effective on the date specified in the notice.
- (b) For the avoidance of doubt, ABCD is not required to provide grounds or reasons to the Supplier for exercising its right under clause 49.1(a).
- (c) If ABCD terminates this Agreement or a Statement of Work in whole or in part under this clause 49.1, then ABCD will pay to the Supplier:
 - (i) any charges owing to the Supplier for the terminated Supplies provided by the Supplier up to the effective date of termination;
 - (ii) all approved expenses that the Supplier has incurred before the effective date of termination;
 - (iii) any Fees owing to the Supplier for Supplies provided by the Supplier with the approval of ABCD after the effective date of termination;
 - (iv) any charges for Disengagement Assistance; and
 - (v) any disputed Fees, but only to the extent that the relevant disputes are resolved in favour of the Supplier.
 - (vi) wind down charges equivalent to three (3) times the "Average Monthly Charge" where the "Average Monthly Charge" is the average of the monthly charge paid by ABCD to Supplier in respect of the particular Service being terminated for convenience in the six (6) months immediately preceding the date of notice of termination;
 - (vii) any unrecovered portion of amortized one-time set-up charges or transition charges or technology charges, any other costs / charges incurred, or investments made by Supplier specifically for rendering Services under this Agreement or the relevant SOW, with such amounts, if any, specified in the relevant SOW; and
 - (viii) recovery of any unrecovered amount of upfront monetization or any advance given by the Supplier to ABCD as a pre-condition for providing Services under this Agreement or any applicable SOW with such amounts, if any, specified in the relevant SOW.
- (d) The Supplier must take reasonable steps to mitigate its loss as a result of any termination for convenience.

- (e) If a purported termination for cause by ABCD is determined not to be a valid termination for cause, then such termination will be deemed to be a termination for convenience under clause 49.1(a).

49.2 Reduction of FTEs

- (a) ABCD may, by giving at least 30 calendar days notice to the Supplier, reduce the number of FTEs providing an Ongoing Service. This mechanism cannot be used by ABCD to terminate the Agreement or a Statement of Work for Ongoing Services in whole.
- (b) For the avoidance of doubt, the exercise of the right under clause 49.2(a):
 - (i) is not a termination for convenience for the purposes of clause 49.1; and
 - (ii) does not require ABCD to provide grounds or reasons to the Supplier.
- (c) Subject to clauses 49.2(d) and 49.2(e), if ABCD exercises the right under clause 49.2(a) it will pay the Supplier the Ramp Down Charges. The Ramp Down Charges are three (3) times the "Average Monthly Charge" for the relevant FTE being reduced, where the "Average Monthly Charge" is the average of the monthly charge paid by ABCD to Supplier in respect of the particular FTE being reduced in the six (6) months immediately preceding the date of the notice under clause 49.2(a).
- (d) Ramp Down Charges are only payable by ABCD as a result of a reduction in FTEs by:
 - (i) 10% or more at one instance; or
 - (ii) 25% or more in aggregate within a six (6) month period; or
 - (iii) 50% or more within a one (1) year period,

of the then total number of all FTEs across all Statements of Work for Ongoing Services at the time of ABCD providing the notice under clause 49.2(a).
- (e) There are no Ramp Down Charges payable by ABCD where the reduction in FTEs under clause 49.2(a) is as a result of productivity and continuous improvement under the Agreement.

49.3 Termination of the Agreement or a Statement of Work by the Supplier

- (a) The Supplier may terminate this Agreement (or part of this Agreement or any Statement of Work) by written notice to ABCD if ABCD commits a material breach of this Agreement which is:
 - (i) incapable of being remedied; or
 - (ii) capable of being remedied, but ABCD fails to remedy the breach within 10 Business Days after receiving notice from the other party to do so.
- (b) The Supplier may terminate this Agreement (in whole or in part) by written notice to ABCD if an Insolvency Event occurs in relation to ABCD, or ABCD takes any step toward, or suffers or experiences any step in relation to, an Insolvency Event.

49.4 Termination of the Agreement for material breach

- (a) ABCD may terminate this Agreement (or part of this Agreement or any Statement of Work) by written notice to the Supplier if the Supplier commits a material breach of this Agreement which is:
 - (i) incapable of being remedied; or
 - (ii) capable of being remedied, but the Supplier fails to remedy the breach within 10 Business Days after receiving notice from the other party to do so.
- (b) For the purposes of this clause, a "material breach" includes any breach by the Supplier which causes ABCD or any member of the ABCD Group to be in breach of its obligations at Law for the specific Services that are provided under this Agreement, and a breach of its obligations in clauses 35 and 38.
- (c) For the avoidance of doubt, the effect of the termination of this Agreement under this clause 49 will be to terminate any outstanding Statement of Work unless ABCD stipulates, when providing notice of termination, that an outstanding Statement of Work is to continue in effect, in whole or in part.

49.5 Termination by ABCD where liability cap is reached

If the Supplier's aggregate liability to ABCD under clause 47.2(a) reaches the limit specified in that clause, and the limit is not increased by written agreement between the parties by at least 10% within 5 Business Days of a written request from ABCD may, by giving written notice, immediately terminate this Agreement.

49.6 Other termination rights

ABCD may terminate this Agreement (in whole or in part) by written notice to the Supplier:

- (a) if an Insolvency Event occurs in relation to the Supplier, or the Supplier takes any step toward, or suffers or experiences any step in relation to, an Insolvency Event;
- (b) if the Supplier undergoes a Change of Control which in the reasonable opinion of ██████ adversely affects ABCD rights or the Supplier's ability to perform its obligations under this Agreement, or is otherwise contrary to ABCD interests;
- (c) if the Supplier breaches clause 34, 35, 38 or 44;
- (d) if the Supplier breaches this Agreement or a particular Statement of Work (as applicable) (but not including Service Level Failures) at least 3 times (**Repeated Breaches**) and fails to remedy all Repeated Breaches within 30 days after ABCD gives a notice to the Supplier specifying the Repeated Breaches;
- (e) if ABCD has terminated at least two Statements of Work for the Supplier's material breach; or
- (f) in accordance with its rights under clauses 26.7 and 20.8.

49.7 Consequences of termination by ABCD

When this Agreement or, in relation to a Statement of Work, that Statement of Work, is terminated (for any reason) or expires,

- (a) the Supplier must:

- (i) unless otherwise directed by ABCD, immediately stop work under this Agreement or the applicable Statement of Work;
 - (ii) if ABCD so directs in writing, remove from ABCD premises all Supplier Personnel and equipment;
 - (iii) promptly cease all use of and return to ABCD all ABCD Data and any other property or documents which ABCD oXYZ or in which ABCD has an interest, including any wholly or partially completed Developed Material; and
 - (iv) use its reasonable endeavours to minimise the cost of ending the Agreement to the parties.
- (b) Where ABCD terminates this Agreement or any or all Statements of Work pursuant to clauses 49.4 or 49.6, without limiting any right or remedy ABCD may have under this Agreement or at Law, ABCD may:
- (i) suspend making any payment due to the Supplier under this Agreement and/or the relevant Statements of Work;
 - (ii) recover from the Supplier all advance money paid to it for Supplies not yet completed or provided;
 - (iii) employ, contract or otherwise engage third parties to complete the remaining Supplies and the Supplier grants ABCD such licence of any Supplier Material as ABCD may require to enable ABCD to do so;
 - (iv) require the Supplier to assign to ABCD all subcontracts in relation to the relevant Supplies which are solely used to provide the Supplies to ABCD and where the Supplier is not prohibited by Law or from doing so.

49.8 **Disengagement assistance**

- (a) On expiry or termination of this Agreement or of one or more Statements of Work, the Supplier will provide disengagement assistance to ABCD as reasonably necessary to facilitate the orderly transition of the relevant Supplies to ABCD or to a ABCD nominated third party contractor (**Disengagement Assistance**). Disengagement Assistance will be provided from the date a valid notice of termination is received under this clause 49 until the date on which Disengagement Assistance is no longer required, such period not to exceed 6 months unless otherwise agreed. Without limiting this general obligation, the Supplier must provide Disengagement Assistance as described in Schedule 10 (Disengagement).
- (b) The Supplier must provide the Disengagement Assistance in a manner that will not materially interrupt, degrade or otherwise adversely impact ABCD business or technical operations, or enjoyment of the Supplies.
- (c) ABCD will pay the Supplier for the Disengagement Assistance in accordance with Schedule 10 (Disengagement).

49.9 **Claims**

The expiry or termination of this Agreement does not affect:

- (a) any claim that a party may have against the other party;

- (b) either party's rights in respect of any breach of this Agreement occurring before expiry or termination; or

the obligations of the parties to make a payment or perform any other act under this Agreement which was due before expiry or termination.

49.10 **Non Solicitation**

Neither party shall solicit for employment, whether directly or indirectly, from the Commencement Date until six months after the termination or expiry of this agreement, any person who is employed by the other party during the Term. This clause does not apply to a person employed by a party as a result of such person responding to positions advertised to the general public.

Part I: General

50. **Dispute resolution**

50.1 **General**

- (a) Any dispute which arises must be dealt with in accordance with this clause 50. The parties must continue to perform their obligations under this Agreement despite the existence of any dispute.
- (b) Nothing in this clause 50 prejudices either party's right to commence legal proceedings to seek urgent injunctive or urgent declaratory relief in respect of a dispute.

50.2 **Negotiation**

- (a) If a dispute arises then either party may, by written notice to the other party, refer the dispute to senior representatives of the parties for resolution (**Dispute Notice**). The Dispute Notice must expressly state that it is a notice under this clause 50.2 and set out reasonable particulars of the dispute.
- (b) The parties must ensure their senior representatives confer with each other in person, by phone or video conference within 10 Business Days after a dispute is referred to them (or such later date as the parties agree in writing) and, acting in good faith, seek to resolve the dispute. Each party must ensure that its senior representative has authority to resolve the dispute.

50.3 **Expert Determination**

- (a) If at any time after a Dispute Notice is issued under clause 50.2, but before arbitration is commenced under clause 50.4, the parties agree in writing that a dispute is appropriate to be determined by expert determination then the process in this clause 50.3 will apply and clause 50.4 will not apply.
- (b) Within 15 Business Days of the date the parties agree in writing to refer the dispute to expert determination, the parties must endeavour to agree on the expert to be appointed to determine the dispute.
- (c) If the parties cannot reach an agreement on the identity of an expert within the timeframe set out in clause 50.3(c), either party may request the President for the time being of the Law Society of the relevant jurisdiction of this Agreement or his or her nominee to, identify an individual to be appointed as the expert to determine the dispute.

- (d) The parties agree that any individual to be appointed as the expert must not have any actual or perceived Conflict of Interest, and must have experience, expertise, skill and training to determine the dispute.
- (e) The expert determination process is to be conducted and administered in accordance with the most recent edition (at the time of the dispute notice) of the "Expert Determination Rules" published by the Resolution Institute from time to time, or any other terms as agreed between the parties.
- (f) The parties agree that the determination of the expert will be final and binding except in the case of manifest error.

50.4 Arbitration

- (a) If any dispute is not wholly resolved within 20 days the dispute is referred to the parties' senior representatives under clause 50.2(a), then either party may refer the dispute for resolution by arbitration in accordance with the ACICA Arbitration Rules which are current as at the date on which the Dispute Notice was given.
- (b) Despite anything to the contrary in the ACICA Arbitration Rules, unless the parties otherwise agree, the following principles will apply in the conduct of an arbitration under this clause 50.4:
 - (i) the number of arbitrators will be one;
 - (ii) the parties will jointly appoint the arbitrator and, if the parties do not agree, the appointing authority will be the Australian Centre for International Commercial Arbitration;
 - (iii) the place of arbitration will be Brisbane, Australia;
 - (iv) all proceedings will be conducted in the English language; and
 - (v) the arbitrator may, after consultation with the parties, appoint one or more experts to assist in resolving a dispute.

51. Conflict of interest

- (a) Subject to clause 51(b), the Supplier confirms that it does not have any Conflict of Interest.
- (b) Clause 51(a) does not apply to the extent that:
 - (i) the Supplier has notified ABCD in writing of the Conflict of Interest; and
 - (ii) ABCD has given written approval for the Supplier to perform or continue to perform the Supplier's obligations under this Agreement notwithstanding the Conflict of Interest.

51.2 Conflicts of Interest during the performance of this Agreement

- (a) If, while performing this Agreement, a Conflict of Interest arises, the Supplier must immediately inform ABCD of it in writing and make all reasonable endeavours to promptly resolve or manage the Conflict of Interest to ABCD satisfaction.
- (b) If the Conflict of Interest is not resolved to ABCD satisfaction, ABCD may either:
 - (i) terminate this Agreement; or

- (ii) give written approval for the Supplier to perform or continue to perform the Supplier's obligations under this Agreement, notwithstanding the Conflict of Interest.

52. Insolvency Event

If an Insolvency Event occurs in relation to a party, it will immediately notify the other party of that Insolvency Event.

53. Change of Control

If the Supplier undergoes a Change of Control, it will immediately notify ABCD in writing of that Change of Control.

54. Force Majeure

54.1 Notice and suspension of obligations

If a party to this Agreement is affected, or likely to be affected, by a Force Majeure Event:

- (a) that party must immediately give the other prompt notice of that fact including:
 - (i) full particulars of the Force Majeure Event;
 - (ii) an estimate of its likely duration;
 - (iii) the obligations affected by it and the extent of its effect on those obligations; and
 - (iv) the steps taken to rectify it; and
- (b) subject to the application of clause 42 (which continues notwithstanding any Force Majeure Event and takes precedence over this clause 55) and the Supplier's obligations under an applicable Disaster Recovery Plan, the obligations under this Agreement of the party giving the notice are suspended to the extent to which they are affected by the relevant Force Majeure Event as long as the Force Majeure Event continues.

54.2 Effort to overcome

A party claiming a Force Majeure Event must use its best endeavours to remove, overcome or minimise the effects of that Force Majeure Event as quickly as possible. However, this does not require a party to settle any industrial dispute in any way it does not want to.

54.3 Alternative supply

During any period in which the Supplier is not performing obligations because of a claimed Force Majeure Event, ABCD may (but need not) obtain all its requirements of items, services or both from any other source and make alternative arrangements for the performance, whether by another person or otherwise, of any obligation which the Supplier is not performing.

54.4 Liability for costs

- (a) The Supplier will not be entitled to be paid any charges that relate to any Supplies for so long as the Supplier is prevented or delayed from providing those Supplies because of a Force Majeure Event.

- (b) The Supplier is responsible for all costs and expenses incurred by it in connection with a Force Majeure Event.
- (c) If ABCD terminates part of this Agreement under clause 54.5, then the charges under the Agreement will be equitably adjusted to reflect those terminated Supplies.
- (d) If ABCD terminates the whole of this Agreement under clause 54.5, then ABCD will be liable to pay the Supplier for any charges for Disengagement Assistance and the fees for the Services provided by the Supplier up till the effective date of termination/expiration of the Agreement.

54.5 Termination

If a Force Majeure Event continues for more than 30 Business Days, ABCD may terminate this Agreement by giving at least 5 Business Days' notice to the Supplier.

55. Notices

- (a) A notice or other communication to a party under this Agreement (Notice) must be in writing, in English, signed by or on behalf of the sending party and addressed using the details set out in the Agreement Details (or alternative details nominated by Notice to the sending party).
- (b) A Notice must be given by one of the methods set out in the table below and is regarded as given and received at the time set out in the table below. However, if this means the Notice would be regarded as given and received outside the period between 9.00 am and 5.00 pm (addressee's time) on a Business Day (**Business Hours Period**), then the Notice will instead be regarded as given and received at the start of the following Business Hours Period.

Method of giving Notice	When Notice is regarded as given and received
By hand to the nominated address	When delivered to the nominated address
By trackable post to the nominated address	At 9.00 am (addressee's time) on the second Business Day after the date of posting
By email to the nominated email address	2 hours after the time the email is sent (as recorded on the device from which the sender sent the email) unless the sender receives, within that 2 hour period, an automated message that the email has not been delivered.

- (c) A Notice must not be given by electronic means of communication, other than email as permitted by this clause 55.

56. **Amendment, assignment and novation**

56.1 **Amendment**

This Agreement can only be amended or replaced by another document signed by the parties.

56.2 **Assignment**

- (a) ABCD may assign all or part of its rights arising out of or under this Agreement, or novate its rights and obligations under this Agreement, to any of its Related Bodies Corporate that has at least an equivalent financial capacity to perform the obligations to be assumed by it (or is guaranteed by a person who does).
- (b) The Supplier must execute any document reasonably required by ABCD to give effect to clause 56.
- (c) The Supplier must not assign, novate or otherwise deal with its rights or liabilities under this Agreement with the written consent of ABCD.

57. **General**

57.1 **Governing Law**

- (a) This document is governed by the Laws of the State of Queensland, Australia.
- (b) Each party submits to the jurisdiction of the courts of that State and of any court that may hear appeals from any of those courts, for any proceedings in connection with this Agreement.
- (c) The Supplier irrevocably waives:
 - (i) any objection to the venue of any proceedings on the ground that they have been brought in an inconvenient forum; and
 - (ii) any immunity from set off, suits, proceedings and execution to which it or any of its property may now or in the future be entitled under any applicable Law.

57.2 **Relationship between the parties**

- (a) ABCD and the Supplier are customer and service provider. Nothing in this Agreement will be taken as making the Supplier or any Supplier Personnel an agent, partner, joint venture partner, employee or servant of ABCD or any ABCD Group member.
- (b) To the extent permitted by Law, the relationship between ABCD and the Supplier is not subject to the terms of any employment related legislation in any jurisdiction.
- (c) Other than as expressly set out in this Agreement neither party has the right to make representations on behalf of or otherwise bind the other party.

57.3 **Liability for expenses**

- (a) Subject to paragraph (b), each party must pay its own expenses incurred in negotiating, executing and registering this Agreement.

57.4 Giving effect to documents

Each party must do anything (including execute any document) and must ensure that its employees and agents do anything (including execute any document), that any other party may reasonably require to give full effect to this Agreement.

57.5 Waiver of rights

A right may only be waived in writing, signed by the party giving the waiver, and:

- (a) no other conduct of a party (including a failure to exercise, or delay in exercising, the right) operates as a waiver of the right or otherwise prevents the exercise of the right;
- (b) a waiver of a right on one or more occasions does not operate as a waiver of that right or as an estoppel precluding enforcement of that right if it arises again; and
- (c) the exercise of a right does not prevent any further exercise of that right or of any other right.

57.6 Operation of this Agreement

- (a) Subject to paragraph (b), this Agreement contains the entire agreement between the parties about its subject matter. Any previous understanding, agreement, representation or warranty relating to that subject matter is replaced by this Agreement and has no further effect.
- (b) Any right that a person may have under this Agreement is in addition to, and does not replace or limit, any other right that the person may have.
- (c) Any provision of this Agreement which is unenforceable or partly unenforceable is, where possible, to be severed to the extent necessary to make this Agreement enforceable, unless this would materially change the intended effect of this Agreement.

57.7 Operation of indemnities

- (a) Each indemnity in this Agreement survives the expiry or termination of this Agreement.

57.8 Clauses which survive expiry or termination

The following clauses survive the expiry or termination of this Agreement;

- (a) any clause that is expressed, or is by its nature intended, to survive the termination or expiry of this Agreement; and
- (b) the following clauses: 20, all of the provisions under Part F (Regulatory, compliance and quality assurance), 38, 42, 44, 46, 47, 49.7, 49.8, 50, 57.1 and this clause 57.8.

57.9 Consents

Where this Agreement contemplates that ABCD may agree or consent to something (however it is described), ABCD may:

- (a) agree or consent, or not agree or consent, in its absolute discretion; and
- (b) agree or consent subject to conditions,

unless this Agreement expressly contemplates otherwise.

57.10 Exclusion of contrary legislation

Any legislation that adversely affects an obligation of the Supplier, or the exercise by ABCD of a right or remedy, under or relating to this Agreement is excluded to the full extent permitted by Law.

57.11 Inconsistency with other documents

If this Agreement is inconsistent with any other document or agreement between the parties, this Agreement prevails to the extent of the inconsistency.

57.12 Counterparts

This Agreement may be executed in counterparts. Delivery of a counterpart of this Agreement by email attachment constitutes an effective mode of delivery.

57.13 Attorneys

Each person who executes this Agreement on behalf of a party under a power of attorney declares that he or she is not aware of any fact or circumstance that might affect his or her authority to do so under that power of attorney.

Schedule 1

Agreement Details

Topic and clause reference	Agreement Details
Commencement Date (cl 5(a))	The date on which the last party executes this Agreement.
Initial Term (cl 5(a)(i))	5 years from the Commencement Date.
Supplier Service Locations (cl 11.1)	As set out in a Statement of Work.
Insurance Policies (cl 51.1)	(a) AUD\$10 million professional indemnity, per claim and in the annual aggregate; (b) AUD\$10 million cyber insurance, per claim and in the annual aggregate; (c) AUD\$20 million public liability insurance (covering liability to any person for death, bodily injury, and consequential loss), per occurrence and in the annual aggregate (including costs and expenses); (d) AUD\$10 million product liability insurance (covering liability to any person for loss of or damage to property and consequential loss), per occurrence and in the annual aggregate (including costs and expenses); (e) employer's liability insurance as required by Law (covering all claims and liabilities in respect of any statute, common law or applicable Law for the death, illness or injury of or to any person employed by, or who is deemed to be an employee or worker of, the Supplier or its subcontractors performing Services at any location in any part of the world under or in connection with the Services); and (f) any other insurances as required by Law. The cyber liability component of the Supplier's insurance under paragraph (a) above (Cyber Liability Insurance) must include coverage for all of the following events if caused by an employee of the Supplier working on behalf of Supplier in performing the Supplies: • network security/data protection liability, covering liabilities for financial loss resulting or arising from acts, errors, or omissions, in rendering technology and professional services or in connection with the Supplies; • violation or unintentional infringement of any right of privacy, including breach of security and breach of security/privacy Laws, rules or regulations globally;

Topic and clause reference

Agreement Details

- data theft, damage, unauthorised disclosure, destruction, or corruption, including without limitation, unauthorised access, unauthorised use, identity theft, theft of personally identifiable information or confidential corporate information in whatever form, transmission of a computer virus or other type of malicious code; and participation in a denial of service attack on third party computer systems; and
- technology/professional liability, including breach of contract, privacy and security liability, privacy regulatory defence and payment of civil fines, payment of credit card provider penalties, and breach response costs (including without limitation, notification costs, forensics, credit protection services, call centre services, identity theft protection services, and crisis management/public relations services);
- loss or denial of service;
- for wrongful acts, claims, and lawsuits anywhere in the world; and
- affirmative contractual liability coverage for the Supplier's indemnities under clause 46(c) for all damages, defence costs, privacy regulatory civil fines and penalties, and reasonable and necessary data breach notification, forensics, credit protection services, public relations/crisis management, and other Data Security Incident mitigation services resulting from a breach of confidentiality or breach of security by or on behalf of Supplier.

The Cyber Liability Insurance must not exclude cyber-terrorism.

Parent Company Guarantee
(cl 43.1)

A Parent Company Guarantee is required and must be executed by the parties to the Parent Company Guarantee within 10 Business Days of the Commencement Date.

Process Discovery Report Out

(Finance & Accounting, ICT, Security, Data)

11-Jan-2023

CO-CREATE TO
OUTPERFORM
WITH WNS™

WNS

Executive Summary

Process Discovery

- Duration: **5.5 weeks** (starting 15th Nov to 22nd December) | Location: Brisbane, Sydney, London, Bradford, Omaha, Hong Kong
- Extensive **5 weeks of face-to-face** meetings conducted with ABCD stakeholders to discover the process and initiate transition planning
- Extensive discussions to assess the **current health of operations** based on which scope finalization could be achieved
- Due to change **communication limitations**, some aspects of process transition could not be completed during process discovery
- A total of **~80** Finance team members, **~25** Data team members, **~20** ICT team members and **3** Security team members were engaged in different discussions during PD across the regions and towers

What we did?

- To-be scope assessment along with FTE carve-out
- Process mapping (where information was available)
- Process health assessment
- High level transition planning

What is pending..

- Scope finalization for ICT and Security
- Volume & AHT based FTE assessment & benchmarking since very limited volume/AHT data was made available
- Detailed knowledge transfer & documentation planning
- Detailed ramp-up planning
- Activity level transition planning

The impact...

- Delayed solution and commercials for ICT
- FTE solution largely based on headcount mapping and not on efforts estimation; FTE numbers to be revalidated post training
- Lack of visibility to CTM trainers / SME availability and any constraints/issues in training & ramp-up
- Additional time needed on planning

Process Discovery Deliverables status

Index

1	FINDINGS – Key findings & observations from Process Discovery exercise
2	ENABLEMENT – Technology enablement for delivering seamless operations
3	FTE - solution for phase 1 and phase 2, across towers and regions
4	HEALTH - Process Health assessment
5	PRODUCTIVITY – FTE and productivity overview
6	STAFFING – shift structure and team structure for delivering FNA services
7	SCOPE – Activity in-scope and out-of-scope

Process Discovery findings for RTR

Key Observations

- Month close on WD+5 in all regions, with no Past Due/Late Adjustments booked
- BSP & ARC reconciliations performed in compliance with strict timelines in all regions
- Different ERPs in each region (ANZ-1, Aisa-1, EU-3, NA-2)
- Overtime observed in all regions, especially during the month close
- Activities require technical accounting skills and industry knowledge and experience

PD Observations

Month close & Journal entries:

- Month close checklist maintained manually in excel; lack of real time tracking of month close status
- Non-standard journal templates due to multiple ERPs
- Lack of Global Journal & Fixed Asset policy
- Lack of standard approval process for manual journals
- Few journals requires access to payroll related sensitive information (For eg, IT Capex)
- Functionality of setting Recurring Entries in ERPs not used.
- Reversing entries are reversed manually in all regions

Balance Sheet reconciliations:

- Global Account Reconciliation policy not in place
- Non-standardized account reconciliation templates
- All Reconciliations performed Monthly. Risk Categorization of GL reconciliations not in place
- Non-standard timelines for reconciliations; Europe completes reconciliations after close as compared to other regions completing during the close
- Definition of Open items, aged items not in place.

ARC reconciliations:

- Reconciliations require industry knowledge and experience
- Strict timelines to complete the ARC reconciliations
- Regular connects required with front office/Operations for error resolution

Risks

Month close & Journal entries:

- Audit and compliance issues due to lack of approvals process
- Journal posting errors will be detected only during Balance sheet and P&L review
- Standard journals postings could be missed due to non-availability of standard month close checklist

Balance Sheet reconciliations:

- Non availability of a Global reconciliation policy may lead to difficulty in managing completion
- Aged Items may not be tracked effectively; may lead to financial loss in books of accounts

ARC reconciliations:

- Financial penalties and loss of reputation in case of non-compliance

Recommendations

Month close & Journal entries:

- Introduce a Global Journal & Fixed Assets policy
- Implement Journal workflow to track approvals.
- Implement XYZ TRAC - eClose solution to track real time status of month close
- Explore ERP functionality of setting up recurring journals for auto posting
- Explore ERP functionality of auto reversing of reversing journals in the systems

Balance Sheet reconciliations:

- Implement Global reconciliation policy
- Risk categorization of accounts and standardize timelines
- Define Open items/aged items and track for resolution
- Implement Reconciliation workflow to track completion and open items

Process discovery findings for Accounts Payable

Key Observations

- Backlog observed in most of AP processes for ANZ & EU
- Multiple Macros/ scripts are being used across all regions and processes , coding/ scripts and handover required
- Limited reporting & process documentation
- Activities requires analytical skills & industry specific experience to manage exceptions

PD Observations

Invoice process:

- Use of Macros/scripts to drive process efficiency in ANZ
- Workflow with limited functionality in ANZ/NA. No workflow in EU&Asia
- Invoices received in GMBs with no reconciliation done between invoice inflow and outflow
- High number of exceptions requiring rework
- Dependency on TC/Ops team for query resolution
- AP Mailbox for chargeback requires clean up ~250K pending items
- Backlog in ANZ – Chargebacks/ agency credit cards and AOT
- Unreconciled items in EU- PL, BSP, VCC recon

Vendor Maintenance:

- Absence of robust vendor screening process

Payments:

- Lack of interface with bank websites
- Lack of robust system to detect duplicate invoices
- Manual identification & allocation of payments against invoices in EU
- ~1700 overdue invoices requires investigation

Expense Accounting:

- Missing receipts & policy non-compliance
- Concur not implemented in HK

Vendor queries & statements:

- Use of Group/personal mail-box to communicate with internal & external stakeholders. Limited usage of JIRA tool

BSP

- Reconciliations require industry knowledge and experience
- Traveller system used in EU is very slow

Risks

Invoice process:

- Risk of missing invoices & late payments
- Data inaccuracies, rework & delay in payment
- High Invoice Turn-around time leading to delayed payments
- Risk of fraudulent activities due to exposure to credit card details
- Probable productivity loss/delayed payments in case of macros breakdown

Vendor Maintenance:

- Risk of dealing with fraudulent suppliers

Payments:

- Risk of data manipulations due to manual interventions in payment file
- Risk of duplicate payment

Expense Accounting:

- Risk of missing & duplicate claims

Vendor queries & statements:

- Missing/ delayed response impact customer satisfaction

Recommendations

Invoice process:

- Deploy Hyper automation XYZ TRAC-AP platform to enable touchless invoice processing, approvals & exceptions driving ~24% productivity benefit
- Establish regular governance with TC/ops team for exception resolution
- Masking of sensitive credit card information to avoid fraudulent usage
- Use of Language Weaver- Translation Tool /cheat sheets to process local language invoices in HK (~30%)

Vendor Maintenance:

- Establish robust vendor screening process to prevent dealing with fraudulent suppliers

Payments:

- Enable auto interface between ABCD systems & bank portals to eliminate manual interventions
- Deploy Doppel-Skanner ,duplicate audit tool, to prevent duplicate payments from day 1 post Go Live

Expense Accounting:

- Implement Concur in HK

Vendor queries & statements:

- Implementation of XYZ TRAC Vendor portal and Case management tool for efficient tracking & management of emails from day 1 post Go Live
- Leverage XYZ TRAC statement reconciliation tool for reconciling statements & tracking open items

Process discovery findings for OTC

- Disparate systems across regions
- Limited process documentation across regions
- Multiple mailboxes are manually managed currently - challenging to track the emails actioned on time
- Power app used for US invoice approvals is a best practice which can be replicated across regions
- Review meetings conducted with Sales and Operations teams – helps to expedite delayed payments

Key Observations

PD Observations

Collections:

- Sales Operations and Travel consultant dependencies in chasing aged debts
- Observed Aged debt in ANZ and EU
- Data interface delay with BI and Tramada for fortnightly statements to the client – ANZ
- AOT process has backlog of over 24 months

Cash Applications:

- Macros are used extensively in the process with limited knowledge on the design of the macros – ANZ
- Manual cash application across regions
- Lack of quality check and audits for cash applied

Billing:

- Multiple input sources for Billing in US – scope to automate the validation
- Lack of quality check and audits for billed invoices and accruals reversal

Credit Management:

- All the Credit Limits are approved by Finance Controller
- No periodic reviews for existing customers in EU

Risks

Collections:

- Lack of standardized Collections and Dunning policy across entities – leads to ineffective collections

Cash Applications:

- Exposure to credit card information - need to evaluate PCI compliance controls requirements
- Manual reconciliation is performed for Cash received v/s applied – error prone and time intensive

Billing:

- Fragmented processes across regions for Billing and lack of controls on end-to-end process

Overall:

- No KPI's tracked across all regions – lack of visibility of process health
- No standard reports to track performance due to system limitation
- Observed language barrier with SMEs in Asia
- Quality audit process is missing across regions – potential of incorrect billing and cash applied

Recommendations

AR:

- Deploy Hyper automation XYZ AR Trac solution to manage Cash Apps, Credit, Collections, and Billing
- Case Management solution to manage multiple mail boxes from day 1

Collections:

- Define the standardized dunning and collection policy
- Implement Follow up process with pre-defined set of priorities such as aged debts, risk profile etc.

Metrics:

- KPIs and SLAs relating to TAT and accuracy for all AR sub-processes should be introduced

Billing:

- Power App used for US Invoice approvals is a best practice that can be replicated across regions. Approval hierarchy will need to agreed with ABCD Team

Changes on Tool recommendation/ Implémentation Post PD

Must have Day 1 Tools			
Process	Recommendation	Challenges Identified	Impact of Non-Implementation
PTP, OTC, RTR	XYZ TRAC case management	• Use of different Group and Personal Mailboxes resulting in ineffective tracking of queries. • No standard approval process in place for Journals and reconciliations	• Delayed/ missed responses to the queries may lead to <u>PTP</u> ○ Missed urgent payments, Refunds ○ Missed Critical queries from Suppliers <u>OTC</u> ○ Incorrect/Delayed Billing ○ Delayed cash allocation & Debt recovery ○ Missed Client queries <u>RTR</u> ○ Tracking approvals of Journals and reconciliation to ensure accuracy and maintain audit trail

Good to have Day 1 Tools		
Process	Recommendation	Challenges Identified
PTP	Doppel Scanner (Duplication Invoice Identification tool)	- Invoices may be paid by both VCC and EFT - Limited system-based controls for duplicate payments
	Language Weaver (Language translation tool)	30% of Invoices in Asia are received in Local language (Chinese-Cantonese and Mandarin)
RTR	XYZ TRAC eClose (Month close tracking tool)	- Close activities tracked manually in all regions - Real time tracking of close status not in place
		Impact of Non-Implementation - Potential Duplicate Payment - Working Capital may impact due to excess payments Dependency on Retained Asia team to process language invoices - Disparate ways of working for month close across regions - No real time tracking of close status - May lead to missing of timelines for different activities

FTE Scope

Phase 1

	OTC		PTP		RTR		Total	
	APQC	PD findings	APQC	PD findings	APQC	PD findings	APQC	PD findings

Asia	14.5	12	10.5	12	1.4	3	26.4	27
EU	30.2	16	9.99	21	5.3	3	45.49	40
US	19.45	13	2.15	2	6.8	7	28.4	22
Total	93.45	73	91.99	105	20.7	27	206.14	205

Note -

- FTE scoping / PD finding post alignment with the regional CFOs after taking into consideration activities that can be outsourced
- As per alignment with regional CFOs critical resources that need to be retained due to complexity, risk, criticality, customer contract compliance and finally ensuring there are SPOCs(Single point of Contact) in the retained organization to liaise with XYZ and Operations/ Supplier relations, Vendors, Clients etc. both internal and external connects
- Observed part time staff and single individuals doing multiple activities hence there is a fraction of FTEs in APQC however fractional FTEs are rounded off in PD findings

FTE Scope Phase 2

Region	FTE scope (APQC)	FTE Scope (PD)	Scope Finalized with CFOs	Scope to be finalized for Phase 2	Identified categories
ANZ	7.2	16	14	2	Month close & reconciliations - 2
Asia	1.4	3	3	0	--
Europe	5.3	17	3	14	Month close & reconciliations – 7 Systems & Finance reporting – 1 FP&A – 3 Bank reconciliations - 3
North America	6.8	12	6.8	5.2	Month close & reconciliations – 2 Bank reconciliations - 1
NA – OTC & PTP	--	4	--	4	OTC (Boeing & Stat of Alaska) – 2 PTP - 2
EU – OTC & PTP	--	4	--	4	OTC – 2 PTP - 2
Total	20.7	56	26.8	29.2	

Note -

RTR scope that was mapped as per PD for all activities for the GL Accounting staff in each region and then finalized post discussions with the Regional CFOs. The nos. were finalized after considering complexity, risk & compliance, activities relating to IFRS, reporting, consolidation etc. These activities can be included in Phase -2 which would be end of YR 1/ post stabilization. Similarly for US & EU we found 4 resources respectively for each region (PTP & OTC combined) that could be outsourced but have been retained due to criticality, client contract (eg for US : State of Alaska, ARC for Boeing etc), SPOC

FTE Changes APQC vs. XYZ PD Observation- ANZ

Tower	APQC (Total Outsourced)	XYZ PD Observation (Total Outsourced)	Comments
Order to Cash (OTC)	29 FTEs	32 (Additional 3FTEs for Gov Contracts) 4 FTEs (to clear aged debt	- Included all the Govt contracts in scope and only client facing and voice related roles to be retained - It was observed during PD that there is aged Debt worth ~12M hence would require additional FTEs for this effort. We have accounted 4 FTEs to start with and efforts to be revalidated post baseline of activity and during transition phase
Procure to Pay (PTP)	69.35 FTEs	69.35 FTEs	- Backlog observed in majorly all business segments - Included all the Govt contracts in scope and only client facing and voice related roles to be retained
Record to Report (RTR)	7 FTEs	14 FTEs: Journal Entries and GL Recons - 6 Daily Bank recons - 3 Weekly BSP Recons - 5	- All Journals in scope by GL team, except Payroll accounting and Revenue Recognition for Events - BSP reconciliations not included in APQC - Financial Reporting is not included as it is automated and only adhoc queries are present - Weekly cash forecast for Corporate included in Daily Bank recons

FTE Changes APQC vs. XYZ PD Observation- Asia

Tower	APQC (Total Outsourced)	XYZ PD Observation (Total Outsourced)	Comments
Order to Cash (OTC)	14 FTEs	12 FTEs (6 HK+4 CH+ 2 SG)	- As per PD analysis and observation, only customer facing roles and areas where there is language dependency such roles to be retained - Only HK and SG in scope considering other Asian countries have language dependencies - Taiwan, Japan and rest of the China resources are out of scope because of language dependencies
Procure to Pay (PTP)	10.51 FTEs	12 FTEs 2 Retain Total - 17 FTEs Hong Kong – 8 (AP – 6 & Refund – 2) Singapore – 4 (AP – 3, Refund - 1) China – 4 (2 Supporting HK & Singapore, 2 China) Taiwan – 1 (Shared) Japan – NA as outsourced	- As per PD analysis and observation, 30% of supplier invoices received are in local language in Hong Kong & Singapore - Only HK and SG in scope considering other Asian countries have language dependencies
Record to Report (RTR)	1.4 FTEs	3 FTEs: Journal Entries and GL Recons Current ABCD Team: Hong Kong – 6 Singapore – 3 China – 2 Taiwan – 1 Japan – N/A as outsourced	- Language requirements for Chinese-Mandarin & Cantonese and Japanese in China, Taiwan and Japan. This is for both accounting and written communication. <i>To be retained</i> - The activities for Month End Close, Consolidation and working with Auditors are complex activities and require technical accounting skills and similar experience. <i>Planned for phase-2</i> - Tax activities will include local tax requirements and communication with local tax authorities for all countries. – <i>To be retained</i> - Japanese entities are currently outsourced to Local Japan based third party for entire end to end accounting. – <i>To be retained</i> - Budget preparation and variance analysis will need FP&A skill set – <i>To be retained</i> - Only Journals, Bank Recs and GL recs may be included in outsourced scope for Hong Kong and Singapore. However, technical accounting skills and experience is required.

FTE Changes APQC vs. XYZ PD Observation- EU

Tower	APQC (Total Outsourced)	XYZ PD Observation (Total Outsourced)	Comments
Order to Cash (OTC)	30 FTEs	16 FTEs	- As per PD analysis and observation, only client facing and voice related roles to be retained 14 FTE variance is included in PTP head count based on Sales Ledger and Purchase Ledger bifurcation within the Europe region
Procure to Pay (PTP)	10 FTEs	21 FTEs	- As per PD analysis and observations, roles responsible for payment approvals , Client facing & voice related roles to be retained. - Increase in FTEs based on Sales Ledger and Purchase Ledger bifurcation within the Europe region
Record to Report (RTR)	5.3 FTEs	3 FTEs - Journal Entries and GL Recons	3 different accounting systems present in Europe - In scope activities includes Manual Journals, GL reconciliations and Bank reconciliations - Activities such as Budget, Departmental reporting and Overrides are highly manual maintained in excel. There is a scope of automation in these activities. However, these activities are retained in ABCD. - Activities such as Audit support, Financial statement preparation and Tax are retained in ABCD. - Reconciliation timelines are not standard across all regions. Reconciliations in EU are performed post book close, whereas for other regions reconciliations are performed during month close

FTE Changes APQC vs. XYZ PD Observation- US

Tower	APQC (Total Outsourced)	XYZ PD Observation (Total Outsourced)	Comments
Order to Cash (OTC)	19.45 FTEs	13 FTEs	- As per PD analysis and observation, only client facing and voice related roles to be retained - Decrease in FTE due to retention complex processes Alaska Billing, ETM Events and approval related actions
Procure to Pay (PTP)	2.15 FTEs	2.15 FTEs	- As per PD analysis and observations, roles responsible for payment approvals , Client facing & voice related roles to be retained. - State of Alaska project activities to be retained due to exposure to traveller's Social Security Number
Record to Report (RTR)	6.8 FTEs	6.8 FTEs: ARC reconciliations – 5 FTEs Journal Entries and GL Recons – 1.8 FTEs	2 different accounting systems present in North America. - Close timelines are not standard across all regions. NA books are closed on WD 3 whereas other regions books are closed by WD4. - ARC process will require relevant industry experience with analytical skills. Errors in the process will lead to financial penalties and loss of reputation. - Some activities have access to sensitive data regarding staff payrolls, incentives etc.

Process Health Assessment - AP

Key Areas	Observations	Recommended actions
Process Performance	- Manual processes due to absence of workflows in EU & Asia - High number of exceptions leading to multiple touches - Use of Group/Personal mailboxes for internal & external communication - No standard reports available to track the performance due to system limitations - No defined governance structure in place - No documentations/DTPs available, agent capabilities are developed using buddy up and on job training methods	- Implementations of XYZ TRAC –AP Platform (OCR and workflow solution) - Implementation of vendor portal and case management solution to track emails - Implementation of vendor reconciliation tool to reconcile statements and track open items - CI initiatives to minimize exceptions - Developing and implementation of multiple reports/metrics to track process performance
Backlogs	- Backlog observed in █████ -Chargeback (mailbox, invoice processing, payments), AOT (invoice processing 9000+, mailbox), Agency Credit card, final backlog data is awaited - In Europe purchase ledger – payment allocation, reconciliations	Details of backlog volumes to be prepared and agree on ownership
Staffing	- Basis discussions with SMEs, lot of teams seemed to understaffed due to high exceptions and manual efforts to resolve - Overtime observed in all regions due to high exceptions	- Staff augmentation - Transformation initiatives to automate & streamline processes
Transformation	- Use of macros/scripts to improve process efficiency and productivity - Different ERPs used across different regions - Workflow with limited functionalities in ANZ &NA. No workflow in Asia and EU	- Transformation initiatives to standardize & streamline processes - Implementations of XYZ TRAC-AP Platform to drive efficiencies and productivity

Process Health Assessment – AR

Key Areas	Observations	Recommended actions
Process Performance	- Highly manual process due to absence of automation and workflow - Disparate systems and manual processes across all regions - High number of exceptions leading to multiple touches - No standard reports available to track the performance due to system limitations - Multiple mailbox used and manual allocation across team members	- Implementations of AI powered OCR/workflow solution - CI initiatives to minimize exceptions
Backlogs	- Backlog observed in Australia on aged debts items, final backlog data to be reviewed during transition - In Europe Sales ledger – payment allocations, reconciliations - No backlog in US – Team clears all application and reconciliation by end of month	Details of backlog volumes to be prepared and agree on ownership
Staffing	- Basis discussions with SMEs, lot of teams seemed to understaffed due to high exceptions and manual efforts to resolve - Overtime observed in all regions due to high exceptions - Appropriate staffing level was observed in US	- Staff augmentation - Transformation initiatives to automate & streamline processes
Transformation	- Different ERPs used across different regions - No workflow & OCR in place, - Manual excel files used across all processes to track the activity - US – Project underway to move from Command Central to TRAMS	- Transformation initiatives to automate & streamline processes - Implementations of AI powered OCR/workflow solution

Process Health Assessment - RTR

Key Areas	Observations	Recommended actions
Process Performance	- Formal Reconciliation policy not available in ANZ, Asia and EU. A brief reconciliation policy exist in NA - Global Fixed Asset Capitalization policy not in place (For e.g. asset for GBP 500 is capitalized in EU) - Close timelines are not standard across all regions. NA books are closed on WD 3 whereas other regions books are closed by WD4. Final close and consolidation completed on WD5 across all regions. - Reconciliation timelines are not standard across all regions. Reconciliations in EU are performed post book close, whereas for other regions reconciliations are performed during month close. - Standard approval process are not in place for Journals and Reconciliations	- Global Standard reconciliation policy to be implemented - Global Fixed Asset policy to be implemented - Global Close calendar to be prepared and followed - Global approval process to be followed for audit trails
Backlogs	Backlogs observed in some ANZ and EU in GL reconciliations	List of all backlog of open items in GL reconciliations to be prepared and agreed upon
Staffing	Overtime observed in all regions during the close period	
Transformation	- Different Accounting systems in different regions/entities: ANZ - 1 Asia - 1 EU - 3 NA – 2 - No interface between sub ledger and General Ledger systems - No workflow tool in place for Journals and Reconciliations - Excel based tracking of month close is maintained at regional level. No real time visibility/dashboards for close status	Implement global standard workflow for journals and reconciliations

FTE & Productivity Summary

Workstream	FTE's						
	In scope	Month 13	Month 25	Month 37	Month 49	Month 61	End State
AP	105	102	87	67	63	63	63
AR	73	70	52	42	41	40	40
GA	27	27	25	22	21	21	21
Total	205	199	164	131	125	124	124
YOY Productivity		6	35	33	6	1	81

Productivity: Total 40% Productivity

Over all 81 FTE (40%) productivity from process consolidation at XYZ & other process improvement initiatives

AP Initiatives: AP Productivity – 40%

- Major Productivity of 24% is planned from Hyper app solution (XYZ TRAC) in Invoice processing area.
- Other improvement lever such consolidation & continuous improvement related to exception reduction would be contributing 17% productivity
- Case Management tool and Duplicate detection tool (Dopple-scanner) to be implemented from day 1.

GA Initiatives: GA Productivity – 23%

- Global Standard recon policy to be implemented (Example - all regions perform recon during the close, EU perform recon after the close, Frequency & risk categorization of GL accounts, standard recon template)
- Global fixed asset policy including defining the Threshold
- Explore system functionality to reduce re-occurring JEs
- Introduce Threshold for Reclass entries (Cost center to cost center)
- Implementation of case management and month end tracking tool (E Close) from Day 1.

AR Initiatives: AR Productivity – 45%

- Major productivity of 25% is planned from Hyper app solution (XYZ TRAC) on Cash app, Billing & collection area.
- Remaining 20% productivity should be contributed from consolidation, continuous improvement initiatives such as input rationalization, Quick process automations
- Case Management tool to be implemented from day 1.

FTE & Productivity Summary

Tower	APQC Stage					PD Observation					Additional initiatives
	Original Scope	RFP Productivity				Revised HC	Productivity Commitment post PD				
		CI	Tools	Total	% Prod		CI	Tools	Total	% Prod	Comments
Account Payable	92	12	28	40	43%	105	17	25	42	40%	• Drop in productivity% as team is mainly working on exceptions
Accounts Receivable	93	14	26	40	43%	73	15	18	33	45%	
General Accounting	20.7	3		3	14%	27	6		6	23%	• Productivity impacted as there is a high % of Judgmental steps in BSP & ARC Recon

ABCD ICT Process Discovery: Objective

The primary objective is to capture a thorough “As Is” perspective of the ICT organization, extracting valuable insights to propel the ABCD team forward. This encompasses an extensive exploration of ICT capabilities and services, facilitated by regional teams across all locations, understanding of the IT processes, activities, and practices performed by the ICT team, guided by the following points:

 Provide succinct overview of ICT capabilities and services, covering all geographical regions and highlighting key ABCD subject matter experts and personnel who have contributed to a collective understanding throughout the process discovery journey.

 Offer contextual information for key findings to deepen comprehension. Illustrate how the discovery aligns with the overarching objectives of ICT. Substantiate our insights by highlighting potential risks, challenges, fair assumptions, and reasonable judgments.

 Engagement of crucial stakeholders during the process discovery phase. Clearly articulate direct contributions or insights from stakeholders that significantly impacted our findings.

 Significance of precise and dependable data sources in substantiating your findings. Illuminate any governance considerations that play a role in ensuring data accuracy and reliability.

 Communicate challenges uncovered in the discovery process, pinpoint opportunities for enhancing current processes, and present actionable recommendations for addressing challenges or process improvements.

 Employ data and interactive elements, such as process flow simulations, to elevate comprehension. Integrate links to pertinent additional resources or documentation for a more comprehensive understanding.

ABCD ICT and XYZ Engagement Overview

  			
• ABCD Project Sponsor - Eleanor Noonan • ABCD IT Director - Karen Janssen		• XYZ Chief Growth Officer - Tarun Tandon • XYZ IT Director - Amarinder Singh

ABCD ICT & XYZ Team Collaboration: Overview

Asia (15 Nov - 1 Dec)

- ICT Asia has 5 different locations and ~550 ABCD users - Hong Kong, Singapore, China, Taiwan, Japan
- Ticket Management tool (Spiceworks) and process of handling of Service Requests
- Voice and Telephony systems used in Asia (Mitel, Avaya, Focalscope Dial Pad, PcVox)
- Network Infrastructure for Asia is more on-premise and less on Cloud
- Two Data Centers – Asia (SG) and China
- Support Language Spoken - Cantoneze (HK, CH), Mandarin (CH), English / Written - Chinese & English

ANZ (4 Dec - 22 Dec)

- ICT ANZ has 11 different locations and apx 1000 ABCD users - BNE, SYD, MEL, HBA, PER, CBR, ADL, DRW, LST, AKL, WEL
- Ticket Management tool (JIRA) and process of handling of Service Requests
- Voice and Telephony systems used in ANZ (Anywhere 365, Enghouse, MS Teams) with no physical phones
- Network Infrastructure for ANZ is more on cloud except few SBCs of BNE
- WFH users are provided VPN access

NA (20 Nov - 22 Dec)

- Demo of JIRA tool and process walkthrough was provided, which is managed by 7-member team
- On-Prem and Cloud infrastructure overview and processes followed were shared
- RingCentral Contact Center (NICE CXone), RingCentral CC Studio Script Engine, RingCentral Office Admin Portal, RingCentral Unified App, RingCentral Engage Digital (Email) platform were showcased
- Review of Activity list along with Service level mapping was conducted with the entire ICT NA team
- MS Dynamics CRM overview was provided
- Multiple Domains exists – ██████████.com (primary), tt.com and radiustravel.com (for legacy systems)

EU (15 Nov - 22 Dec)

- Infrastructure Landscape and critical Projects overview was conducted
- Demo of FreshService tool capturing ServiceDesk, Change Management, Asset Management, Procurement processes and Babble (Sesui) CC platform was provided by the ABCD team
- 11-member team provides ServiceDesk support through FreshService tool
- ServiceDesk team maintains documentation related to KB articles, SOPs, checklists, incident and change management, SLA matrix, etc.
- Multiple Domains exists – redfertravel.com, chamberstravel.com and statemantravel.com. Consolidation of these into global domain (██████████.com) is underway

ABCD - ICT Activity List (All Regions – 1/2)

Under Discussion for ICT Scope

ICT Department	Category	Sub-category	Task/Activity
IT-Service Desk	Ticket/ Request Management	Ticket Logging	Logging ticket and taking it to the closure
			Update Ticket Category and Assignment
	Software- Microsoft	M365/ O365	Creation and deletion of mailbox
			Update distribution list
			Mailbox Query and setup Email Auto-forward
			Email/ Outlook access and MS Application/ One Drive/ One Note Issues
			Audio/ Sound/ Video Issue (MS Team/ Telephony Applications)
			User Onboarding/ Offboarding (Employee/ Contractor), User Asset kit Allocation/ Deallocation, License allocation and deallocation
			Software Installation (Adobe, FileZilla, Sabre, Zoom, etc.)
			Software Access Provisioning (Tramada, Sabre, Amadeus, ADP etc.)
			Software Issues
			Create/Edit/Delete user from On-Prem & Azure AD, Reset Password, PC Login Issue, Unlock Account, Self Service Password reset, group policies
	Access Management and Compliance	User account Management ITSM Tool Administration SharePoint Administration MFA	Jira Service Desk, FreshService, SpiceWorks Access and Changes needed
			SharePoint Access and Changes needed
			MFA Software installation (DUO) & Access related Issues, MFA Setup or Troubleshooting, Microsoft Authenticator Issue
			Mobile Device Issue Accessing ABCD Mail or Apps
			RDP Access Setup, RDP Connection issue
			VDI/ VPN Access Issue
			Employee Change Request and Employee Name Change
			Printer setup
			Patch management, Anti-Virus Updates, Vulnerability Management (including Tickets generated by Security Team*), Software Updates on End user Machine, Drivers and Operating System Issues
			Network Drive Access Mapping, Issue, Request
End User Computing	Hardware	Hardware	VPN Access Support (Employee/ Contractor)
			Endpoint Security management
			Network Monitoring (PRTG)
			YubiKeys Issue, YubiKeys Lost, YubiKeys Programming, Yubikeys Replacement
			Desktop/Laptop & Mobile device setup and support, Headphone/ Microphone issue, Dock Issue, Camera Issue, Keyboard, Mouse, Monitor, Printer support, WIFI Access Point and replacement & shipping of Hardware
			Procurement of Software licenses, Laptops, Desktop, Monitor, Mouse, Keyboard, Headphones, WIFI Access Point etc.
			Asset Onboarding, Tagging, Tracking & Audit, Asset refresh
			ADP Browser Error, Browser Cache Issue, Browser Issue, Internet Connectivity Issue, Internet Issue, Website Access Issue, Browser Bookmark Assistance, WIFI

ABCD - ICT Activity List (All Regions – 2/2)

Under Discussion for ICT Scope

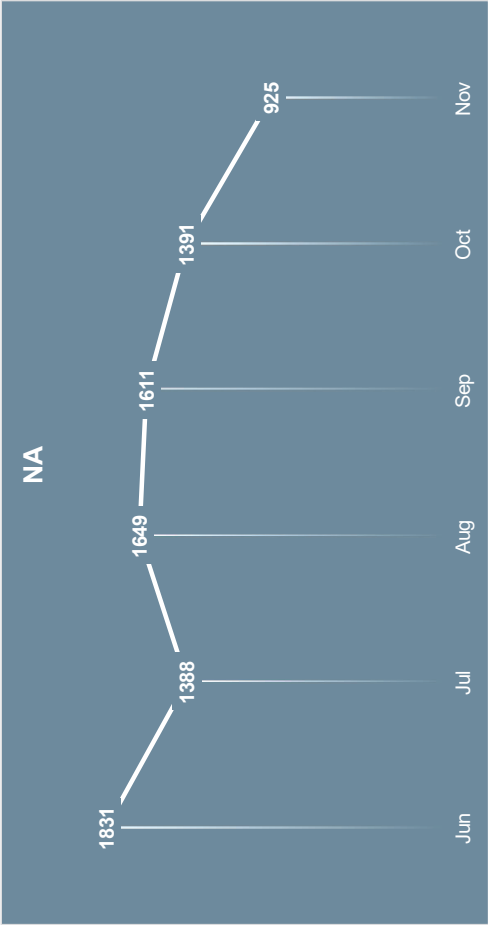

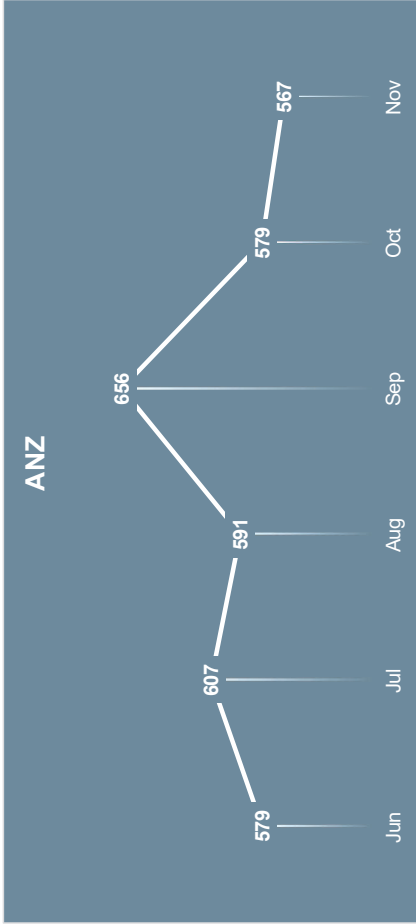

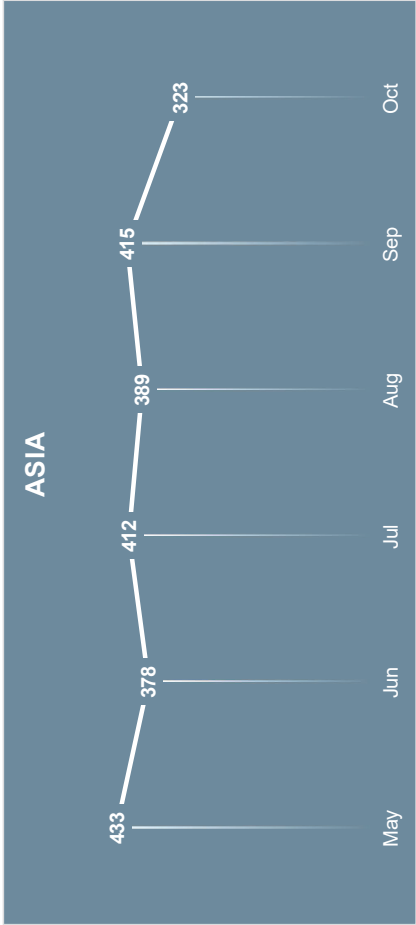

ICT Department	Category	Sub-category	Task/Activity
IT-Service Desk	Ticket/ Request Management	Ticket Logging	Logging ticket and taking it to the closure
			Softphone (Mitel, Avaya, Anywhere 365, Enghouse, RingCentral, Babble (Sesui))
			MS Teams issue Resolution
			SBC Gateway management
ICT Infrastructure	Infrastructure	Voice & Telephony	Add/Remove extension, skill group and queue, Call Routing/ Diverting/ Forwarding and Call Recording Issues and Platform related issues
			Firewall Support
			Networking Infrastructure Provisioning and Support
			Monitoring
		Network	ISP and Internet link Provisioning, monitoring & troubleshooting
			VPN Setup, User Access, Cloud Connectivity- VNET, SD WAN
			Network Drive Provisioning & Access management
			Scheduled Database backup on daily/weekly/monthly
		Servers	File and Print server support (Shared folder, access provisioning & Management, Software Drivers)
			Patch Management, Vulnerability management
			Monitoring
			Cloud PaaS Provisioning and Management (Server related Support, Add disk space, VM Allocation, Access etc.), DB Backup
		Cloud - Azure	Cloud Infrastructure Provisioning and Access Management , DB Backup
		Cloud - AWS (Limited to specific client requirement)	Patch Management, Vulnerability management, Cloud Security monitoring & remediation
		Cloud Security	Monitoring
		Cloud Monitoring	Tenant Setup and Vendor Management
ICT IT Security	IT Security	O365 Cloud Instance	O365 Cloud Monitoring (MS Entra)
		O365 Monitoring	Manage SSL Certificates
		Certificates Management	Pen Test, Vulnerability Assessment Remediation
		Pen Test/ Vulnerability Assessment	
MS Dynamics CRM	CRM	Setup	Workflow Addition/ Changes, Configuration Changes/ New fields addition
		Access	CRM Access Request, Access Changes/ Issues
		SharePoint	SharePoint Access Request/ Changes, New Page Request/ Page Change request
		Others	CRM Report requests, CRM General questions, Smartsheet Access requests

ABCD / XYZ IT High Level Solution

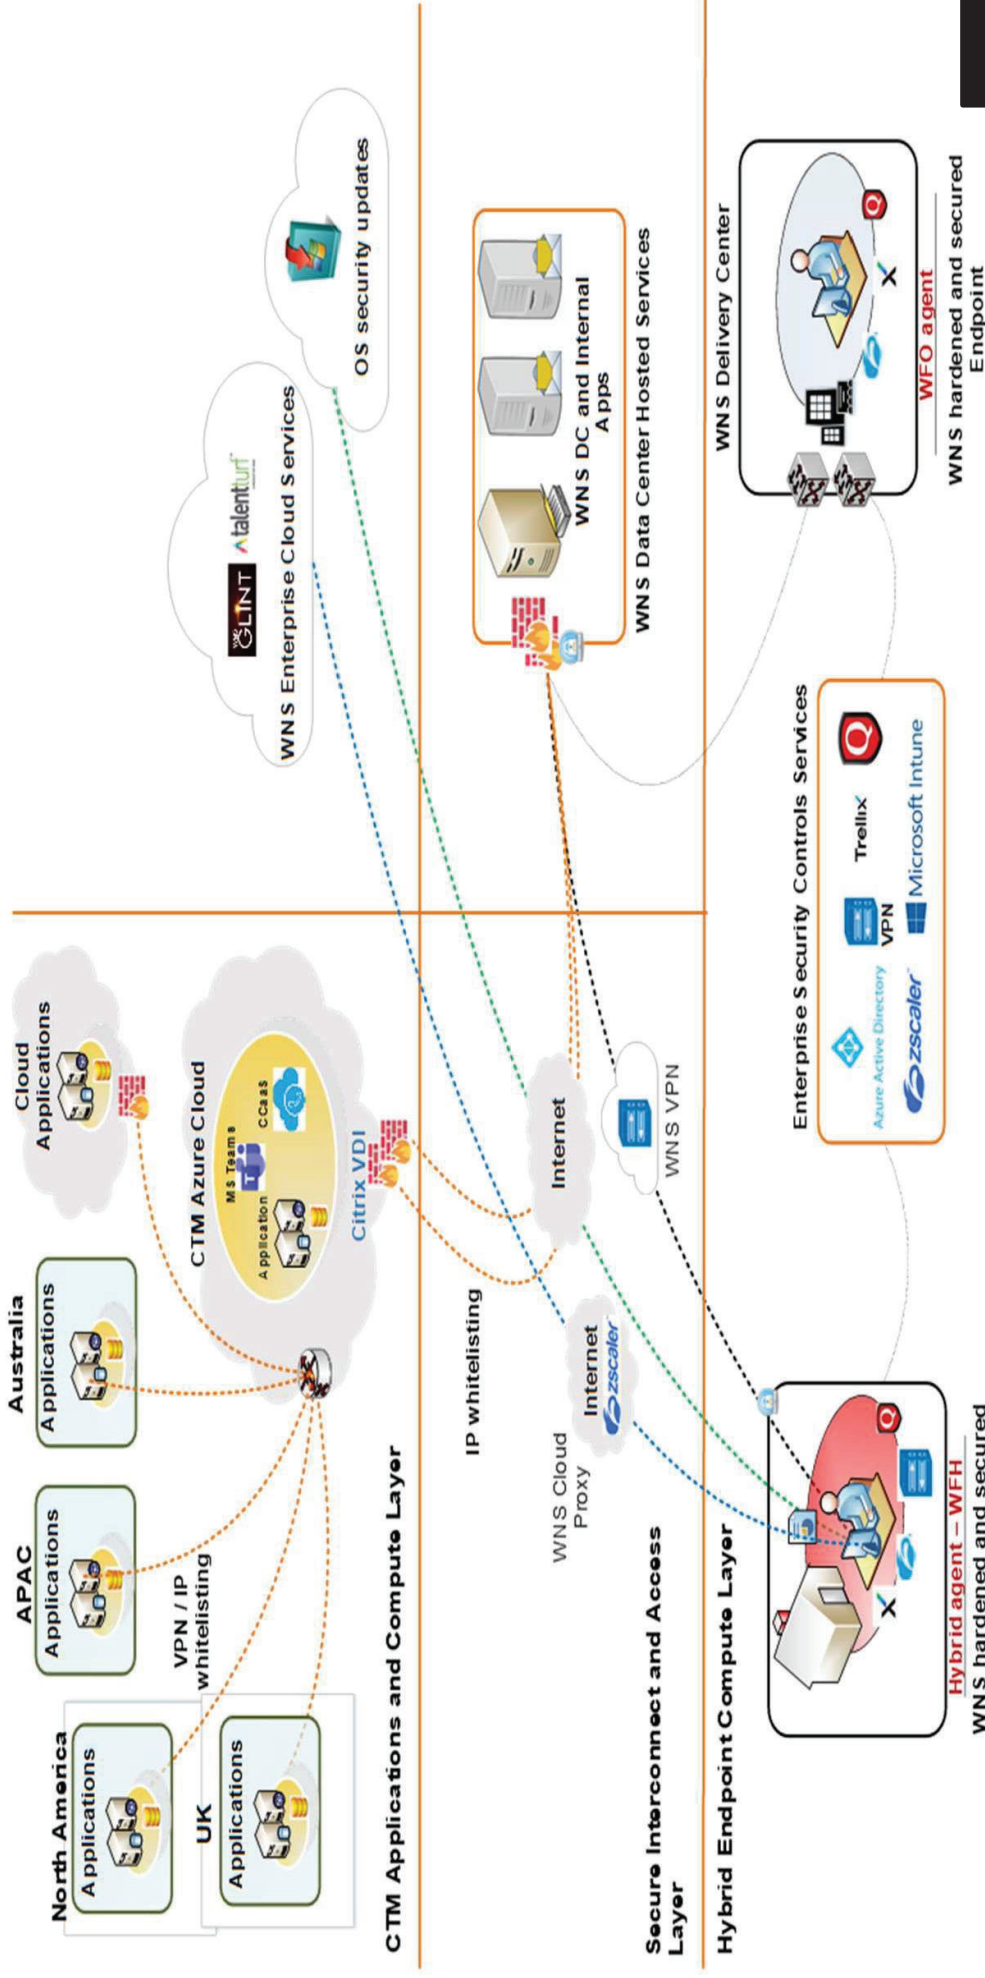

CO-CREATE TO
OUTPERFORM
WITH WINS™

WINS

ABCD / XYZ Proposed High Level Solution Overview

ABCD - ICT Proposed Connectivity Architecture And Logical Control

Risks, Challenges, and Assumptions

Risks	Challenges	Assumptions
• Missing or undocumented / Non-standard Critical IT Processes and Procedures • Lack of Knowledge Base (KBs), Process Flow Maps • Over 10% of service issues not being registered in ITSM Tool • Absence of clearly defined Measurable SLAs and Service Activity Levels • Key Personnel Risk and Dependency – <i>High Potential of Knowledge Loss</i>	• Distributed systems, could impact hiring, learning curve, KT, Defining SLA's, Productivity and Efficiency • Lack of Knowledge Base (KBs), Process Flow Maps • Absence of clearly defined Measurable SLAs and Service Activity Levels • Lack of prescribed Job Descriptions at specific geographies with no clear skill demarcation • Longer KT plan, SLA and process baselining along with additional HC to provide blended resource coverage for global support	• ABCD to standardize critical tools and infrastructure components for long term • All ITSM backlog prior to the Go-Live date to be managed by ABCD ICT retained staff • Defined global process to implement measurable SLA/KPIs • Design missing Job Descriptions to capture desired skillsets

Technology Solution and Assumptions

Technology Solution is based on following assumptions:

- The commercials are based on seat count for Mumbai as per the business scope. Should there be any change in scope of business requirements and/or technical design at any stage of the engagement which will have an impact on the proposed solution and cost, the same will be agreed and discussed separately mutually between ABCD and XYZ. All changes in BAU shall be executed through a “Change Order”.
- For the purposes of this Interim Agreement, the operating model is Work from Office at XYZ delivery centres or ABCD nominated offices for all XYZ resources at all times, unless approved by ABCD in writing to implement Work from Home operating model under exceptional circumstances such as BCP.
- For the Work from Home scenario, the remote-working user will use a XYZ provided Asset and connect using home internet to ABCD VLAN via XYZ provided VPN to access ABCD applications including softphone within Azure Citrix VDI through internet IP whitelisting-based connectivity from XYZ data centre as per agreed design principle.
- Connectivity Overview
 - XYZ is to utilize ABCD Citrix DaaS (Desktop as a Service) VDI single user with persistent desktop for means of accessing any ABCD related service including, but not limited to, servers, applications, networks, databases, email and related Microsoft Office applications. The Azure datacenters chosen will match ABCD designated global regions with consideration to be geographically close to any office or datacenter access where to is required. At this time required licenses for Citrix, Microsoft applications, and third-party applications are to be fulfilled by ABCD. A related business continuity plan is being established.
 - Policies (technical and business) are to be determined by ABCD for means of access to and within the VDI platform. These policies are being documented for ABCD leadership to review and will be subsequently provided to XYZ.
 - The VDI single user persistent desktop utilizes ABCD Microsoft Intune for all configuration and policies. Applications will also be deployed via Intune whenever possible. These policies are being documented for ABCD leadership to review and will subsequently review with XYZ, as well as any known applications with incompatible deployment.
 - Global fact gathering for Azure to site VPN is to be gathered.
 - Internet bandwidth estimated to commence with @1.5 Mbps per session per user will be provisioned to access in scope ICT/business applications including MS teams and CaaS (Contact Centre platform) within ABCD Azure Citrix VDI environment. This bandwidth will be reviewed in conjunction with ABCD based upon usage and ongoing testing during post Go-live, and adjusted accordingly with mutual agreement, in writing. Should there be any deviation identified in the bandwidth utilization which requires additional bandwidth provisioning for the long term, the same shall be discussed and mutually agreed between ABCD and XYZ on the solution and associated commercials as applicable.

Technology Solution and Assumptions (contd..)

- XYZ and ABCD will establish IP whitelisting-based connectivity over the Internet, for dedicated XYZ delivery centers only, to access ABCD applications published on Azure Citrix VDI environment. As additional access controls XYZ will provide unique device name and will require registration of the device with ABCD for certificate creation/deployment (process to be mutually agreed upon between ABCD and XYZ) Additionally, MFA will be provided through YubiKey for Azure Citrix VDI and application authentication.
- For desktops Webcam is provided for video calling through MS Teams for training and team discussion purposes.
- ABCD will provide required access rights/licenses for XYZ associates to access in-scope applications, tools, software including O365 (Office, Email, Teams) and voice licenses required for the current scope.
- Any internet web browsing wherever required as per business requirement will be provided within ABCD Azure Citrix VDI environment. Local internet web browsing from agent desktop will be restricted from production network (VLAN) at XYZ delivery centre.
- Any other software / hardware required over and above the proposed solution in scope will be charged at additional cost.
- XYZ to ensure Citrix Workspace application is locally installed on the endpoint computer for all associates - <https://www.citrix.com/products/receiver.html>, with version to be in line with mutually agreed version outlined in the [solution design document](#).
- Any change to any ICT infrastructure or environment (including the solution design document) will be managed through a change control process between XYZ and ABCD.
- Collaboration Tool - MS Teams
 - ABCD provided MS Office and MS teams is factored for all users' part of LoBs in scope including EnA, ICT, Data and Security as per the business requirement.
 - ABCD provided MS Teams is factored for production agents for audio/Video calling, file sharing and chat only as per the business requirement within ABCD provided Azure Citrix VDI environment.
 - ABCD will publish softphone on Azure Citrix VDI and will ensure to restrict the voice calling (Inbound & Outbound) including WebRTC within the VDI environment only. The cloud telephony access must not be exposed to public internet outside of Citrix VDI which will violate the DOT regulations in India.
 - Citrix VDI access to incumbent regional voice platform
 - MS Teams deployed for Location Based Routing {LBR} calling:
 - It is understood that in India it is illegal to bypass the Public Switched Telephone network (PSTN) provider.

Technology Solution and Assumptions (contd..)

- ABCD will look to deploy Location-Based Routing to restrict toll bypass for a XYZ User based on policy and the geographic location at the time of an inbound or outbound PSTN Call.
- Based on understanding that XYZ falls within the Other Provider Services (OPS) category to adhere to the Telecom regulatory standards in India.
- XYZ Endpoint Configuration

With the use of VDI, ABCD suggests the following specifications for all departments.

- Desktop: form factor of XYZ's choice
- CPU: i5 (lower end GHz is sufficient),
- Memory: 16GB
- Hard Drive: 256 SSD
- Monitors: two 24"
- Keyboard/Mouse
- Ethernet connection (not wifi)
- Bandwidth needed per user: 1.5Mb
- Below when applicable to dept
 - Webcam capable of 1080p
 - Headset

XYZ team will procure the following IT assets and connectivity to deliver the above specified scope of services for ABCD project by XYZ in line with ABCD nominated standards at direct pass-through cost with no mark-up and provide copies of invoices to substantiate the purchase price. For the avoidance of doubt, XYZ will only commence procurement after receiving ABCD written approval to confirm the quantity and pricing of assets purchased.

Technology Solution and Assumptions (contd..)

FNA	Desktop - Dell Optiplex 7010 SFF, i5 CPU, 16 GB RAM, 512 GB SDD HDD, Window 10 OS, Monitor 24" + Second Monitor 24" + Webcam (C930e) + YubiKey"	186
Data (Offshore)	Desktop Dell Optiplex 7010 SFF, i5 CPU, 16 GB RAM, 512 GB SDD HDD, Window 10 OS, Monitor 24" + Second Monitor 24" + Webcam (C930e) + YubiKey"	27
ICT	Desktop Dell Optiplex 7010 SFF, i5 CPU, 16 GB RAM, 512 GB SDD HDD, Window 10 OS, Monitor 24" + Second Monitor 24" + Webcam (C930e) + YubiKey	31
Security	Desktop - Dell Optiplex 7010 SFF, i5 CPU, 16 GB RAM, 512 GB SDD HDD, Window 10 OS, Monitor 24" + Second Monitor 24" + Webcam (C930e) + YubiKey	3

- Any business requirement related to Work from Home/Hybrid operating model for specific LoBs in scope will require to provide Laptops as applicable. Any such changes in business requirement and scope will be dealt on case-by-case basis under respective SOWs. The WFH/Hybrid model will be implemented with prior approval from ABCD.
- USB Headset as specified by ABCD is considered for users to access MS Teams for audio and video calling. It is noted that not all XYZ resources will require audio/video calling, particularly where group meetings that involve all XYZ employees may be able to be provided through conference facilities within XYZ delivery centers.
- Voice Platform: The number of users requiring the ability to make Inbound and Outbound calls will be restricted to users who interact with ABCD through these platforms.
- Voice Platform: Regional numbers will be deployed for Inbound and Outbound calls, call forwarding and routing architecture is still to be designed in collaboration with XYZ and approved by ABCD.
- In the current scope ICT Support person will be using Desktop for meetings wherever required.
- Citrix VDI sessions are based on access to a Domain, therefore the relationship accessing a Domain is 1 to 1. For example, a user will log into the EMEA environment and then if needed to work on the Asia environment they will log out of the EMEA session and log into the Asia session.
- Service Levels for the ICT scope will be delivered in agreement with the Service Level timeframes signed off with mutual agreement between XYZ and ABCD. This will encompass the stabilization period for the purposes of agreed SLA applicable for the current scope.
- XYZ will leverage ABCD provided FreshService tool for Service Desk services, all incidents, and logged requests, including but not limited to Voice, Mobile devices, Operating systems, Hardware, Applications (in-scope), troubleshooting and reporting.
- Voice telephony is not in scope for ICT, FNA, Security and Data. Should there be a change in scope to provide the supplier / vendor / customer / internal calling in future as part of any business requirement, this will have an impact in change in solution and associated commercials. With regards to voice telephony requirement, ABCD will provide required licenses, and the required headsets (with noise cancellation) and additional bandwidth to be provisioned by XYZ.

Data – CRM Support

CO-CREATE TO

WITH WINS™

WINS

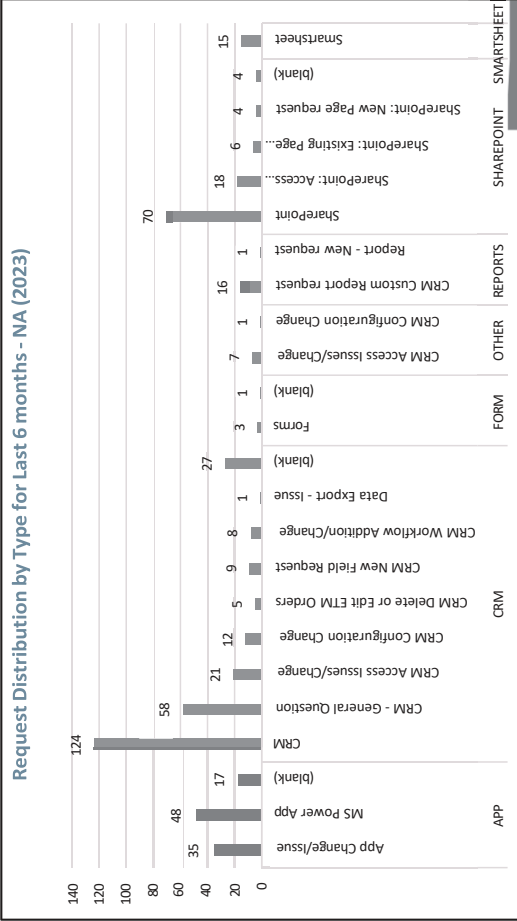

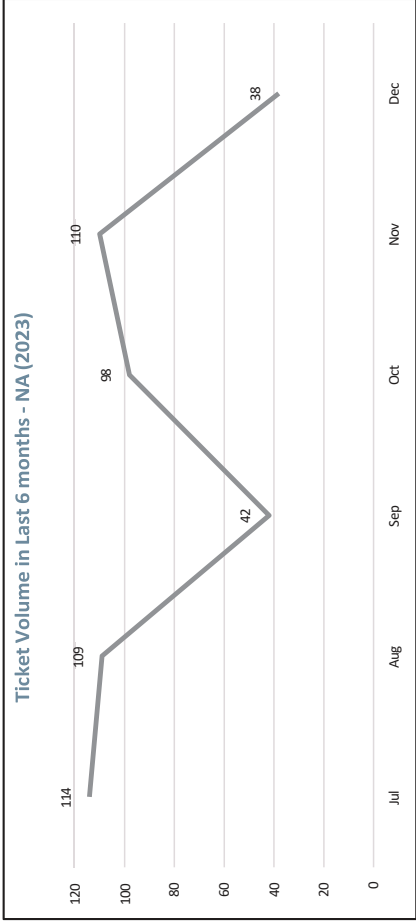

ABCD - ICT MS Dynamics CRM Support Process: Overview

Under Discussion for ICT Scope

- MS Dynamics (MS Dynamic sales enterprise App licenses) is used in three regions: **North America, EMEA & ANZ**
- CRM is single source of truth for all customer relationship requests. CRM is used by following teams: **Sales, Account Manager, PSG (Partner Solution Group - Supplier), Marketing, Event Travel Management, 1000 Mile Travel Group (MTG)**
- The CRM issues/ requests are logged in Jira for North America region & FreshService in EMEA region
- Custom MS Dynamics is used instead of standard out of the box application**, because the License cost of Out of the box is higher

CRM Data Centers		ABCD App
One CRM Production & Sandbox instances are hosted in the American data center		The CRM production environment has ABCD App (Used by NA & Global) and 1000 MTG App (Used by 1000MTG Form)
Another Production instance is hosted in EMEA Crown Environment, which is in the Crown data center that specifically has Government Data		There is a separate CRM production environment for Crown EMEA ABCD App

- 455** users have access to CRM application across all the globe
- Support, Implementation and Change management for CRM is provided by **three key resources** as below:
 - 1 FTE handles CRM Implementation & Technical requests (new user setup, permissions, form design) related to North America & ANZ.
 - 1 FTE works on the Jira Tickets to run reports, check DKs, accounts set up wrong, etc. and keep track of the projects for which team is working on through Jira – sprint planning
 - 1 FTE (EMEA) works only with the Sales and Account Management team for EMEA Implementation Support & Training.
 - EMEA IT Helpdesk team works on MS Dynamics related tickets.
- IT Service Desk support provided limited to User Access related issues & MS Outlook Add In related Issues. In past 6 months the support tickets handled by IT Service Desk are **35 in NA & 7 in EMEA**.
- BeyondCRM** vendor helps with L3 support, troubleshooting on complex issues, they had setup the tool and understand the backend piece of workflow. There is no other IT helpdesk support team that is involved

Index

1	SUMMARY
2	SOLUTION - Process-wise Solution
3	FTE solution
4	ACTIVITY - Activity Overview
5	STAFFING - Shift Structure
6	COE – Center of excellence
7	RISKS

Summary of XYZ Data focus areas in the context of ABCD Data Landscape

XYZ Value Focus	
Q1	Introduce formal DQ process (DQ Boost)
Q2	Accelerate from monthly to weekly
Q3	- Stand up ANZ & Asia SD - Add bandwidth for Hotel Normalization - Add bandwidth for Central Command migration - Evolue SD to address Self service, automation
B1	Reduce time spent by Dev team on L1/L2/L3 activities
B2	Introduce formal QA to reduce risk of defect injection
B3	Accelerate SAP, Tableau, Local PBI to Global PBI Migration
D1	Provide additional bandwidth for DW development (including DQ Boost)
D2	Provide QA support for DW activities
G1	Select Catalog Tool
G2	Complete profiling of CDE

DQ Solution

#	Scope	Counts	Roles	Skills	Rationale
1	Expand Service Desk				
1.1	Expand scope of Service Desk to ANZ	2	Associate	Basic SQL, Communication, DQ and Analytical skills	400 tickets current being resolved by the 3 member ANZ BI dev team. This prevents them from focusing on dev & migration activities and results in high TAT for tickets
1.2	Expand scope of Service Desk to Asia	1	Associate	Basic SQL, Communication, DQ and Analytical skills	Currently there is no SD for Asia, but they must be facing similar issues as other geos, and should benefit from the same standardization
1.3	Increase bandwidth for the EMEA SD for hotel normalization	1	Associate	Basic SQL, Communication, DQ and Analytical skills	There is a backlog for hotel normalization and the current focus is preferred suppliers, thus increasing backlog over time.
1.4	Increase SD bandwidth to address DQ issues related to proprietary + non-Radius partner data load	2	Associate	Basic SQL, Communication, DQ and Analytical skills	Due to lack of DQ checks in proprietary data loads, the DW and BI teams become the L1 desk for tickets due to the resultant issues in BI and DW
1.5	Increase bandwidth of US SD team to accelerate Central Command conversion and orphan debtor code issues	1	Associate	SQL, Communication, DQ and Analytical skills	Only 17% of the customer record migration has been completed so far. Orphan debtor code issues are time consuming and have high impact
2	Accelerate Radius Partner data load				
2.1	Take up DQ issues for Radius Partner Data	2	Associate	SQL	Partner data requires a month to be ingested. This additional team will help ABCD progress towards a weekly refresh process
3.	Lead SD and Partner data load process	1	Process Lead (SD+Partner)	SQL, Design skills, Process skills	Ensure supervision and smooth operation of SD Provide expertise and steer for SD improvement projects to improve TAT of Service Desk
4	Increase DQ coverage (DQ Boost)				
4.1	- Investigate, identify root causes and solutions for - reducing hotel exceptions - Non-Radius partner data loads	1	DQ Lead	SQL, DQ experience, DE/ETL experience	- Improve quality of raw data - Reduce TAT - Help make Partner Load a weekly process
4.2	- Set up structured DQ process for Non-Radius Partner & Proprietary data loads - Articulate automation solution and how specifically the XYZ DQ tool can be used to achieve above objectives	1	DQ Analyst	SQL, DQ experience, DE/ETL experience	
Copyright © 2023 XYZ (Holdings) Ltd. All rights reserved.					Note: For Item 2 above, another FTE may be needed. This will be determined during the Transition

BI Solution

#	Scope	Counts	Roles	Skills	Justification
1	L2/L3 Support for ABCD Reporting				
1.1	Add L2 & L3 support team that receives incidents from global SD and triages the issues	2	1 BI Senior Developer 1 BI Developer	SQL/PBI	Current BI +DW teams are spending up to 60% of time on L2 & L3 activities. Many of the issues can be attributed to: - Lack of DQ checks in non-Radius Partner Data Loads, - Lack of DQ for ABCD Proprietary loads, - Master data updates - Radius Supplier data loads This L2/L3 desk will focus on triaging issues quickly for these areas of high incident density
2	SAP/Tableau/Local PBI to Global PBI Migration				
2.1	- Carry out exercise to identify and prioritise SAP, Tableau, Local PBI reports for migration to Global PBI based on global standardization and rationalization needs - Migrate prioritized reports to PBI	3	1 BI Lead 2 BI Developers	PBI	- A large set of SAP reports need to be migrated to PBI - Other reporting technologies have to be maintained - Duplication across locations for PBI reporting to be removed
3	Report Development	2	2 BI Developers	PBI	Additional bandwidth for report development, based on Kevin's feedback
4	QA Execution	3	1 QA Lead 2 QA Analysts	PBI	Currently there is no formal QA, resulting in risk of defect injection
5	ABCD Data Hub Maintenance	1	1 Senior Developer	NET, React	To take over ABCD Data Hub support
6	Crown Support	1	1 Senior Developer	PBI	Based on Kevin's feedback
7	ANZ WoAG Support	1	1 Senior Developer	PBI	Based on Kevin's feedback
		13			

* Potential of rehiring existing ABCD contractors

DW Solution

#	Scope	Counts	Roles	Skills	Justification
1	Development support for GDW				
1.1	GDW enhancements and bug fixes	4	1 DW Lead 1 Developer	SSIS/TSQL	Currently Vitality spends a lot of time on development, migration and bug fix activities, which takes away time from architecture focus
1.2	DW Support for DQ Boost Implementation - Add rules that elevate DQ issues in Non-Radius Partner Data Loads, Proprietary Data Loads - Add procedures that reinsert remediated records	1	1 Senior Developer	SQL/Python	The XYZ DQ team in Marks' area will identify recurring issues in Non-Radius Partner Data Loads, Proprietary Data Loads and determine the rules needed to elevate the issues whenever loads happen. This team will create the rules in the DW using a DQ tool or custom SQL/Python
2	QA Support				
2.1	Functional testing	3	QA Analysts		This team will ensure minimal bug injection due to ongoing development, bug fix and migration activities. The team will test for new development, regression, integration testing and support UAT
2.2	Test automation	1	1 Test Automation Analyst		For recurring smoke and regression testing, automation is essential
		9			

DG Solution (Project based)

#	Scope	Counts	Roles	Skills	Justification
1	Catalog Tool setup				
1.1	4-month project to: - Execute POCs for Purview - Implement best practices of Purview/Other tool - Set up catalog in Purview/Other tool	2	1 Sr Developer 1 Developer	Purview/DG skills	This team will help accelerate ABCD evaluation of Purview and setup of the initial catalog
2	Data Profiling Tool enhancements				
2.1	4-month project to: - Enhance current Pandas implementation to include PII randomization and other features - Implement web based front-end for the profiling tool	2	1 Python Developer 1 Full stack developer	Python	This team will help remove constraints in the Pandas tool, for which ABCD is currently dependent on the Open-Source community to help resolve
		4			

- The team size for Track 1 may need to right-sized based on the tool selected
- MDM and RDM activities may also be included in scope as the program progresses, with appropriate staff adjustments

FTE Solution Summary across streams

The FTE solution for the scope in the previous pages is summarized below

Ongoing Support

Area	FTEs post PD sessions	Previous estimation	Rationale for deviation
Offshore			
Data Quality	12	12	
BI	11	7	Additional scope based on Kevin's feedback
Data Warehouse	9	9	
Data Governance	0	3	Project based engagement
Project Management	1	0	Stakeholder management & governance across 4 tracks
Onsite			
BI	2	0	For UK Crown and WoAG support
	35	31	

India based staff will work in the India general shift timing: 10:00 AM to 7:00 PM IST (except for DQ area, please refer to page 6 of this document)

Data Governance Project Based Engagements (4 months duration)

Project	FTEs	Roles	Experience
Data Catalog Tool Set Up	0.3	Sr Developer	8-12 Years
	0.3	Developer	5-8 Years
Data Profiling tool enhancement	0.3	Python Developer	5-8 Years
	0.3	Full Stack Developer	5-8 Years

DQ: Activities Performed

#	Area (Sub Process)	Key Activities
1	Service Desk	• Ticket Prioritization • Ticket resolution, assignment to the relevant teams(as required) • Carrying out recurring support activities such as: • New Client Setup • New Debtor code • Report and Dashboard Data Validation • Requests related with ABCD Data Hub, ABCD SMART Data - SSRS Publications, MIS BI, StartUp etc • US specific: Assistance in Central Command Migration • Data Validation, report schedules, data correction • Daily Hierarchy load and setup • Hotel Normalization (ongoing + backlog)
2	Partner Data Load	• Monitoring Auto FAT process • Working with Agency for issue resolution at an FAT level • Data remediation for DQ issues • Hotel Normalization • UAT review in RIQ and data loading to RIQ live environment
3	Increase DQ Coverage	• Run data profiling to identify key issues / challenges • Investigate, identify root causes for • reducing hotel exceptions • partner data load • proprietary data load • Explore and finalise how XYZ DQ tool /framework can help in improving / automating the above areas • Finalize the DQ process for all these areas • Work with DW team to establish automation for the DQ process • Carry out the established DQ process on an ongoing basis
4	Service Desk Continuous Improvement	• Document key issues and resolutions in knowledge base • Work with various team to mitigate recurring issues • Create self-service documentation • Create automated resolutions where possible • Increase L2 content of service desk • Cross-skilling across areas • Support global service desk migration

BI: Activities Performed

#	Area (Sub Process)	Key Activities
1	L2/L3 Support for ABCD Reporting	Ticket Management - Assign tickets routed by Service Desk to team members - Update SD Tool with assignment details - Prioritize assigned tickets based on initial investigation - Update ticket status regularly and close ticket upon resolution L2 Resolution - Investigate and resolve L2 Tickets as: - Data validation and corrections - Report access issues resolution - Assignment to the relevant DW team (if required) L3 Resolution - If L3 (Bug fixes in reporting layer): - Provide ETA to end user for completion of work - Prepare impact analysis document to capture changes required - Make required code changes - Work with DW team for any changes on their side - Integrate and test changes - Deploy changes
2	SAP/Tableau/Local PBI to Global PBI Migration	- In each migration iteration, pick up SAP/Tableau/Local PBI prioritized reports for migration - Walkthrough of prioritized reports and create wireframes for new reports - Complete and document semantic design changes - Develop and test Reports - Deploy reports
3	QA Execution for BI	Iteration specific - In each development iteration, pick up prioritized BI enhancements - Understand requirements and design - Develop functional testing scripts - Complete testing and report out Overall - Develop test strategy - Develop regression scripts and test data for key modules - Execute regression scripts for each release
4	ABCD Data Hub Maintenance	- Prioritise the enhancement and maintenance tickets of the ABCD Data hub web application - Implement and test the code changes - Deploy changes

BI: Activities Performed

#	Area (Sub Process)	Key Activities
5	Report Development	• New reports/ updates to power Bi paginated reports • Work with finance to support bank/credit card reconciliation • Work with finance to support accurate statements/ HFM reporting mapping • Data & report investigation to resolve issues
6	WoAG Support	• Provide Azure logic apps support • Raw data extract & paginated report development support • Customized report development support
7	Crown Support	• Power Apps development maintenance & support-Crown special project & Heart • PBI dashboard development & support- • Power portal development & support for suppliers

DW: Activities Performed

#	Area (Sub Process)	Key Activities
1	Development support for GDW	• In each developmental iteration, pick up enhancements prioritized for XYZ • For each enhancement, document the requirement and design in an impact analysis document • Develop and test enhancements • Deploy enhancements
2	QA Support	Iteration specific • In each development iteration, pick up prioritized enhancements • Participate in sprint planning meetings, scrum activities/daily stand-ups along with the ABCD team • Understand requirements and design • Develop functional testing scripts • Complete testing and report out Overall • Develop test strategy • Develop regression scripts and test data for key modules • Execute regression scripts for each release

DG: Activities Performed

#	Area (Sub Process)	Key Activities
1	Catalog Tool setup	• Develop POC's to validate Azure Purview capabilities covering CDE's metadata setup, Data Asset mapping, Lineage, Standards and Policies validation and other governance features • Implement Data Governance setup for identified CDE's • Create Data Catalog to enable easy search of available CDE's, KPI's and Data assets • Define and track Data Lineage for CDE's • Implement Data Privacy and Security policies
2	Data Profiling Tool enhancements	• Enable Data Profiling capabilities by enhancing Data Masking capabilities in Panda's libraries • Involve in activities managed by GDMO

Service Desk Shift Model of Support

#	IST Shift time	Region Coverage	FTE
1	Service Desk Support		
1.1	6 AM – 3 PM	• Asia (Singapore) 8:30 AM – 5:30 PM • Brisbane 10 AM – 7 PM • UK 8 AM – 12 PM	3
1.2	2 PM – 11 PM	• UK 9 AM – 6 PM • CET 9:30 AM – 6:30 PM • EST 8 AM – 12:30 PM • CST 8 AM – 11:30 AM	3 (Includes the Service Desk Lead)
1.3	9 PM – 6 AM	• EST 10:30 AM – 7:30 PM • CST 9:30 AM – 6:30 PM • Brisbane 8:00 AM – 10:00 AM	2
2	Radius Post Trip Data Load Support		
2.1	2 PM – 11 PM	• UK 9 AM – 6 PM • CET 9:30 AM – 6:30 PM • EST 8 AM – 12:30 PM • CST 8 AM – 11:30 AM	2
3	DQ Boost		
3.1	2 PM – 11 PM	• UK 9 AM – 6 PM • CET 9:30 AM – 6:30 PM • EST 8 AM – 12:30 PM • CST 8 AM – 11:30 AM	2

Integrated XYZ analytics COE to drive ABCD objectives

Value Drivers	Data Quality	BI	Datawarehouse	Data Governance
Drive Program Management and COE outcomes, synergies across Data areas	Program Manager			
Increase bandwidth for transformation by moving L1/2/3 activities from current dev teams	ANZ & Asia Service Desk Team	L2/3 Support Team for ABCD Reporting		
Increase development bandwidth to progress key roadmap items		SAP to PBI Migration Team	Development support for GDW	
		Development Support Team		
Reduce backlog of data quality issues and increase speed to insights	EMEA Hotel Normalization Team			
	US SD Central Command migration support			
	Radius Partner Data Load Team			
Improve long term reliability of data assets	DQ Boost Team (Set up & sustain DQ for ABCD & non-Radius Partner Loads)	QA Team for BI enhancements & migration	QA Team for DW enhancements	Project team for catalog tool selection and catalog creation
	Continuous improvement initiatives by XYZ SD Team			Project team for profiling tool enhancements

Future State Support via the COE model

#	Area	Key Activities
1	DQ	• Support for SD transformation to Global Service Desk • Automation of Service Desk & DQ metrics
2	BI	• Power BI Co-pilot implementation • Radius IQ Report Support • ANZ support activities beyond L2/L3 (including credit card reconciliation) • Support for Crown and WoAG BI • Data science based advanced customer analytics
3	DW	• Semantic model documentation • Exception handling standardization (e.g.: UDID Standardization) • Operational dashboards for load monitoring • Support for lower environment creation
4	DG	• Change Management Process definition and implementation • Expand Catalog for additional CDE (Light and full) • Reference data and master data management • Lineage setup • Rule repository setup • Security and Privacy setup
5	Integration across all streams	• Inputs from Service Desk for CDE prioritization (based on issues of recurring and high priority) • Inputs from Data Governance to DQ Teams for CDE specific business rules • Other cross-stream synergies that increase data reliability and usability

Risks & Mitigation Plan

All Workstreams (Data)

Sl.No.	Risk / Issue Description	Impact Description	Impact	Mitigating actions	Owner	Due Date
1	Lack of documentation	Missing system/ process details	Medium	XYZ will go through the training session and create subsequent documentation	XYZ	TBD
2	ABCD Resource availability for KT	Delay in KT & subsequent go live	High	Ensuing availability of key SMEs for extensive KT	ABCD	TBD
3	Availability of ABCD SMEs beyond KT	Delay in the go live	High	Ensuring availability of identified SMEs as per the plan	ABCD	TBD
4	Delay in infrastructure access (tools, software, application)	Delay in KT	High	Identification of infra in a time bound manner and ensuring due access to XYZ	ABCD	TBD
5	Lack of non prod environment for release/change management	No rollback for any code migration	High	Configuration of new non prod environments Efficient version control management for managing new change requests	ABCD/XYZ	TBD
6	Lack of structured Quality Assurance process	Business impact (data & reporting accuracy)	Medium	XYZ will define the QA strategy along with ABCD and execute QA processes	XYZ	As per plan

ABCD – Technical Connectivity Solution

CO-CREATE TO
OUTPERFORM
WITH WNS™

WNS

Solution Architecture And Logical Security Controls

Solution Summary – ABCD

Data Connectivity

- XYZ will provide internet connectivity to access ABCD applications over internet through IP Whitelisting within ABCD provided Azure Citrix VDI environment.
- Internet bandwidth estimated @2.7 Mbps per session per user will be provisioned to access in scope ICT/business applications including MS teams and CaaS(Contact Centre platform) within ABCD Azure Citrix VDI environment.
- XYZ IT will perform bandwidth utilization and benchmarking activity in the first 3 months of process Go-Live to establish the actual bandwidth provisioning for the long-term engagement. Should there be any deviation identified in bandwidth utilization and if it requires to upgrade or downgrade of bandwidth from the estimated bandwidth @ 2.7 Mbps per seat then the same shall be discussed and mutually agreed between ABCD and XYZ, and the associated commercials will be charged at actuals
- The network performance for the related parameters such as Round-trip Latency, Jitter, and Packet Loss on Internet services can be provided on “Best Effort Basis”. The performance will be monitored over time, and should there be a need to revisit the solution for long term, the same shall be discussed and agreed mutually between ABCD and XYZ

Voice Connectivity

- XYZ agents will register to ABCD cloud contact centre and will access the softphone / webRTC within Azure Citrix VDI environment for voice services and other digital channels
- ABCD will ensure to restrict voice calling (Inbound & Outbound) including webRTC within Azure Citrix VDI environment only. The cloud telephony access must not be exposed to public internet calling which would violate the DOT regulations in India.
- ABCD customers will continue to call ABCD published Toll/Toll free number
- XYZ will provide 200 Kbps internet bandwidth per session per user for Voice services to be accessible within ABCD Azure Citrix VDI environment
- Call recording wherever required is in ABCD scope
- Screen recording is out of scope. In case the need arises in future, additional bandwidth @500 Kbps per session per user will be required.
- Chat, FAX, CSAT tool, email management, Payment gateway integration, any specific application integration is in scope of ABCD as per business requirement.

Application access

- All in scope ICT/business applications hosted on-premise and cloud will be published within ABCD Azure Citrix VDI environment and will be accessible through IP whitelisting. ABCD will be responsible to allow access to the in-scope applications over the connectivity provisioned.
- ABCD Azure Citrix VDI with different group accounts publishing applications for specific regions (NA/EU/AUS/APAC) required to access by XYZ users from offshore delivery centre in India.
- XYZ Desktop/laptop device Hostname/MAC address will be provided which ABCD will use for device binding to allow access Azure Citrix VDI. MFA will be provided through YubiKey for Citrix VDI and application authentication.
- XYZ will utilize ABCD Citrix Daas (Desktop as a Service) VDI single user with persistent desktop for means of accessing any ABCD related service including, but not limited to, servers, applications, networks, databases, email and related Microsoft Office applications. The Azure datacentres chosen will match ABCD designated global regions with consideration to be geographically close to any office or datacentre access where to is required. At this time required licenses for Citrix, Microsoft applications, and third-party applications are to be fulfilled by ABCD.
- ABCD provided MS Office and MS Teams is factored as per the business requirement
- ABCD will provide required access rights /licenses for XYZ associates to access in-scope applications, tools, software including O365 (Office, Email, Teams) and voice licenses required for the current scope
- Any internet web browsing wherever required as per business requirement will be provided within ABCD Azure Citrix VDI environment. Local internet web browsing from agent desktop will be restricted from production network (VLAN) at XYZ delivery centre.

Solution Summary – ABCD

Collaboration Tool

- ABCD provided MS Teams is factored for production agents for audio/Videocalling, file sharing and chat only as per the business requirement within ABCD provided Azure Citrix VDI environment.
- ABCD will provide required access rights /licenses for XYZ associates to access in-scope applications, tools, software including O365 (Office, Email, Teams) and voice licenses required for the current scope
- For some LoBs , XYZ provided MS Teams is also factored Lobs for interoffice communication.
- MS Teams is not to connect to a PSTN network and must not be enabled for calling to mobile or landline outside of Citrix VDI, as the PSTN Calling from MS Teams - Voice over internet is regulated by DOT (Department of Telecommunications) is prohibited in India.

Work From Home

- The WFH user will use a XYZ Provided Endpoint and connect using home internet via XYZ VPN to ABCD VLAN in XYZ Data Centre and access ABCD applications in scope through Internet IP Whitelisting.
- XYZ EIT will provision
 - Antivirus, Host DLP, XYZ VPN with 2FA, cloud proxy agent on the CPA, AD Authentication
 - The WFH solution can be implemented only once the agreed WFH technical solution and a risk signoff specifically to WFH is provided by ABCD.

Hybrid Logical Security Controls

- WFH endpoint would be XYZ AD joined (Active Directory) and user will be authenticated through Active Directory to gain access to ABCD network
- MAC binding will be provided for the Agent desktops/laptops connected to ABCD network (VLAN) within XYZ Service centre
- Hardened end-points with no administrative privileges, no local storage and PowerShell disabled. Disk encryption will be enabled
- Device Management and security controls through Group policies
- Endpoint Security with Adaptive Threat Protection (ATP), EDR Client along with Endpoint Firewall
- Host Data Leakage Prevention for detecting / preventing file transfers
- Vulnerability management solution for vulnerability detection and security update prioritization
- Print screen, On Screen Keyboard, snipping tool, MS Step Recorder, etc. disabled unless required as part of the operational requirements
- Host based VPN (Always ON VPN with certificate , host binding, device posture check and with Windows Integrated MFA login)
- Cloud Proxy for regulating internet access usage and monitoring.
- The remote-working user will use a XYZ provided Asset and connect using home internet to ABCD VLAN via XYZ provided VPN to access ABCD applications and voice systems over Azure Citrix VDI through internet IP whitelisting-based connectivity from XYZ data centre

End User Device

Accounts Payable – Productivity Roadmap

Sr. no	Sub Process	Productivity - APQC		Productivity – PD		Owner	Justification for change
		FTE	Month	FTE	Month		
1	Invoice Processing	2 4 9 9 2 4 1	M13 M19 M25 M31 M37 M49 M61	4 8 8 4.5	M19 M25 M31 M37	XYZ & ABCD	- Consolidation productivity of 2 FTE in M13 is moved to Payments and expense reimbursement - Reduction in scope from 62 FTEs to 51 FTEs since Agency Credit Cards & BSP Recs were initially included in Invoice Processing; now tracked separately - High level of exception management (judgmental activity)
2	Payments	1 1 1	M25 M31 M37	1 1 1 1	M13 M25 M31 M37 M49	XYZ & ABCD	- Consolidation FTE (1 FTE) added in M13. - Additional RPA proposed to automate payments in EU
3	Help Desk	1 1 2 1	M19 M25 M31 M37	1 1.5	M19 M37	XYZ & ABCD	Reduction in FTE benefit due to drop in help desk FTEs from 11 FTEs to 6 FTEs
4	Expense reimbursement	1	M31	1	M13	XYZ	Consolidation FTE to be provided in M13.
5	Agency Credit Card	-	-	1 1 1 1 3	M13 M19 M31 M37 M49	XYZ & ABCD	FTE Benefits are added through CI - Exception reduction & XYZ TRAC (auto recon tool)
6	BSP Recon	-	-	1 1	M31 M37		FTE Benefits are added through CI - Exception reduction
TOTAL		40		42			

OTC– Productivity Roadmap

Sr. no	Sub Process	Productivity - APQC		Productivity – PD		Owner	Justification for change
		FTE	Month	FTE	Month		
1	Customer MDM & Credit Appraisal	1	M31	1	M25	XYZ & ABCD	• FTE release preponed as Two sub activities of CMD and Credit master can be merged and could benefit as CI.
2	Billing	2 4 4 3 2 1	M13 M19 M25 M31 M37 M49	2 3 3 1.5 1 1	M13 M25 M31 M37 M49	XYZ & ABCD	• Levers - Consolidation, XYZ Trac (Billing solution) & CI • FTE benefit reduced due to scope reduction of 6 FTEs (complex billing process in North America)
3	Adjustments and Deduction	1 1	M31 M61	1 1	M31 M61	XYZ & ABCD	• No Change in FTE release
4	Collection	1 2 1	M19 M25 M31	1 2 1.5	M25 M31 M37	XYZ & ABCD	• FTE release pushed due to stabilization required before continuous improvement
5	Cash App	7 6 2	M19 M25 M31	5 4 2	M19 M25 M31	XYZ & ABCD	• Drop in FTE benefit due to reduction in 'In Scope' FTEs and FTEs moved to AP
6	Customer Help Desk	1 1	M13 M19	1 1 1	M13 M19 M31	XYZ & ABCD	• Added 1 more FTE benefit as expected from continuous improvements in M31
TOTAL		40		33			

RTR– Productivity Roadmap

Sr. no	Sub Process	Productivity - APQC		Productivity – PD		Owner	Justification for change
		FTE	Month	FTE	Month		
1	BSP ARC Recon	1	M25	1 1	M37 M49	XYZ & ABCD	- Additional FTE is expected from RPA implementation - Release pushed by 12 months as CI changes would require upstream changes
2	Manual Journal entry & GL Recon	1 1	M31 M37	1 1 1	M25 M31 M37	XYZ & ABCD	Additional productivity expected from Standardization & Continuous Improvement
3	Bank Recon	-	-	1	M25	XYZ & ABCD	Additional productivity expected from Standardization & Continuous Improvement
TOTAL		3		6

Shift Design

All Workstreams (F&A)

F&A Transition Phase shift- Post Go Live				
Time Zone	Actual		Transition	
	Shift 1	Shift 2	Shift 1	Shift 2
IST	7:00 to 16:00	16:30 to 1:30	7:00 to 16:00	16:30 to 1:30
Asia HK/SG	8:00 to 17:00		6:30 to 15:30 IST	~85% coverage
EU	8:00 to 17:00		13:30 to 22:30 IST	~100% coverage
AUS	8:00 to 17:00		5:30 to 14:30 IST	~60% Coverage
US (CST)	8:00 to 17:00		19:30 to 4:30 IST	~66% Coverage

- The above shift design will be jointly reviewed & agreed post go live with ABCD
- Shift will be adjusted as per Day light saving

Standard Metrics Proposal – F&A

Metric Name	Tower	Activity / Process	Metric type	Metric Purpose	Data typically considered for measurement	Category	Reporting Frequency	Reporting Channel
Invoice Processing - TAT	PTP	Invoice processing	TAT	To calculate the percentage of invoices actioned within agreed timeliness. (Actioned would be processed/queried/sent for approval/rejected/escalated)	System generated data referred	SLA	Monthly	Monthly Business Review
Invoice Processing - Accuracy	PTP	Invoice processing	Accuracy	To calculate the percentage of invoices processed accurately based on the predefined quality parameters	CCRP Trackers maintained by XYZ Quality team	SLA	Monthly	Monthly Business Review
Vendor Master data - Creations and Changes - TAT	PTP	Vendor Maintenance	TAT	To calculate the percentage of Vendor Master requests actioned within agreed timelines. (Actioned would be processed/queried)	System generated data referred	KPI	Monthly	Monthly Business Review
Vendor Master data - Creations and Changes - Accuracy	PTP	Vendor Maintenance	Accuracy	To calculate the percentage of Vendor Master Creations/Amendments processed accurately based on the predefined quality parameters	CCRP Trackers maintained by XYZ Quality team	KPI	Monthly	Monthly Business Review

Standard Metrics Proposal – F&A

Metric Name	Tower	Activity / Process	Metric type	Metric Purpose	Data typically considered for measurement	Category	Reporting Frequency	Reporting Channel
AP Helpdesk - TAT	PTP	AP Helpdesk	TAT	To calculate the percentage of helpdesk queries actioned within agreed timelines upon receipt. (Actioned would be resolved/escalated)	System generated data referred	KPI	Monthly	Monthly Business Review
AP Payments	PTP	Payments	TAT	To calculate the percentage of payment runs executed as per schedule.	Payment schedule	SLA	Monthly	Monthly Business Review
Travel and Expense - Processing - TAT	T&E	Travel and Expense	TAT	To calculate the percentage of T&E reimbursements actioned within agreed timelines. (Actioned would be processed/queried/sent for approval/rejected/escalated)	System generated data referred	SLA	Monthly	Monthly Business Review
Travel and Expense - Processing - Accuracy	T&E	Travel and Expense	Accuracy	To calculate the percentage of T&E reimbursements processed accurately within agreed timelines.	CCRP Trackers maintained by XYZ Quality team	SLA	Monthly	Monthly Business Review
BSP Reconciliation-TAT*	PTP	BSP Recon	TAT	To calculate number of BSP statements reconciled within agreed timelines	IATA Portal	SLA	Monthly	Monthly Business Review
ARC Reconciliation-Accuracy*	PTP	ARC Recon	Accuracy	To calculate number of ARC statements reconciled within agreed timelines	IATA Portal	SLA	Monthly	Monthly Business Review

*BSP Recon TAT is applicable for ANZ, HK & EU.

*ARC Recon TAT is applicable for NA

Standard Metrics Proposal – F&A

Metric Name	Tower	Activity / Process	Metric type	Metric Purpose	Data typically considered for measurement	Category	Reporting Frequency	Reporting Channel
Journal Entries - TAT	RTR	Manual Journal entries	TAT	To calculate the percentage of journal entries approved and posted within agreed timelines	System generated data referred	SLA	Monthly	Monthly Business Review
Journal Entries - Accuracy	RTR	Manual Journal entries	Accuracy	To calculate the percentage of journal entries prepared accurately	CCRP Trackers maintained by XYZ Quality team	SLA	Monthly	Monthly Business Review
Balance Sheet Reconciliations - TAT	RTR	Bank, Intercompany & Balance Sheet Reconciliations	TAT	To calculate the percentage of Bank Reconciliations approved and processed by the due date (Workday - WD)	Manual Trackers	KPI	Monthly	Monthly Business Review
Balance Sheet Reconciliations - Accuracy	RTR	Bank, Intercompany & Balance Sheet Reconciliations	Accuracy	To calculate the percentage of Bank, Intercompany and Balance Sheet Reconciliations prepared accurately and sent for approval to the onshore team by the due date (Workday - WD)	CCRP Trackers maintained by XYZ Quality team	KPI	Monthly	Monthly Business Review
Month end Calendar - adherence	RTR	Month end deliverables	TAT	To calculate the percentage of tasks completed as per timelines on the month end calendar	Month end calendar trackers	SLA	Monthly	Monthly Business Review
Fixed Asset - Transaction processing TAT	RTR	Fixed Assets	TAT	To calculate the percentage of Fixed asset transactions processed as per agreed timelines	System generated data referred	SLA	Monthly	Monthly Business Review
Fixed Asset - Transaction processing Accuracy	RTR	Fixed Assets	Accuracy	To calculate the percentage of Fixed asset transactions processed accurately	CCRP Trackers maintained by XYZ Quality team	SLA	Monthly	Monthly Business Review
Master data (Cost objects, Internal orders, WBS) - Creations and Changes - TAT	RTR	Maintenance	TAT	To calculate the percentage of Master requests actioned within agreed timelines. (Actioned would be processed/queried)	System generated data referred	KPI	Monthly	Monthly Business Review

Standard Metrics Proposal – F&A

Metric Name	Tower	Activity / Process	Metric type	Metric Purpose	Data typically considered for measurement	Category	Reporting Frequency	Reporting Channel
Master data (Cost objects, Internal orders, WBS) - Creations and Changes - Accuracy	RTR	Maintenance	Accuracy	To calculate the percentage of Master Creations/Amendments processed accurately based on the predefined quality parameters	CCRP Trackers maintained by XYZ Quality team	KPI	Monthly	Monthly Business Review
Billing - TAT	OTC	Billing	TAT	To calculate percentage of Customer invoices (manual, electronic or intercompany) created and submitted within agreed timelines of receipt (Actioned would be processed/queried/sent for approval/rejected etc.)	System generated data referred	SLA	Monthly	Monthly Business Review
Billing - Accuracy	OTC	Billing	Accuracy	To calculate percentage of Customer Invoices (manual, electronic or intercompany) created and submitted accurately as per predefined quality parameters	CCRP Trackers maintained by XYZ Quality team	SLA	Monthly	Monthly Business Review
Cash Application - TAT	OTC	Cash Application	TAT	To calculate the percentage of Cash application actioned within agreed timelines. (Actioned would be processed/queried)	System	SLA	Monthly	Monthly Business Review
Cash Application - Accuracy	OTC	Cash Application	Accuracy	To calculate percentage of Cash applied accurately as per predefined quality parameters	CCRP Mailbox/Manual Tracker/System	SLA	Monthly	Monthly Business Review
Average days sales outstanding	OTC	Accounts Receivables	DSO	To calculate average days taken to collect account receivables(DSO)	Data extracted from ERP	GPI	Monthly / Quarterly	Monthly Business Review
Collections	OTC	Collections	Cash flow	To calculate the percentage of Cash collected as % of debt on collections	Data extracted from ERP	GPI	Monthly	Monthly Business Review
Customer Master data - Creations and Changes - TAT	OTC	Customer Maintenance	TAT	To calculate the percentage of Customer Master requests actioned within agreed timelines. (Actioned would be processed/queried)	System generated data referred	KPI	Monthly	Monthly Business Review
Customer Master data - Creations and Changes - Accuracy	OTC	Customer Maintenance	Accuracy	To calculate the percentage of Customer Master Creations/Amendments processed accurately based on the predefined quality parameters	CCRP Trackers maintained by XYZ Quality team	KPI	Monthly	Monthly Business Review

- Works collaboratively in a team environment with advanced support teams, account managers, implementation, and development resources to meet expectations regarding the resolution of maintenance issues.
- Ensure that users needs are met. Must have the ability to evaluate the impact of the issue on the user and escalate issues. Act as the lead interface with the users, internal or external, regarding support of our products
- Good time management and priority setting skills are required to be able to manage daily responsibilities and own technical development and growth. Demonstrate sense of urgency for sensitive issues.
- Ensure to deliver the highest level of user service and satisfaction while continuously demonstrating excellent teamwork, interpersonal skills, and commitment.
- Performs ad-hoc tasks assigned by the Leaders, Supervisors, Team Leads or Seniors i.e., onsite support, handling special projects etc.

Behavioral Skills:

- Effective Business Communication both written and verbal
- Attitude to feedback / willing to learn
- Positive attitude to adapt to new technologies / roles
- Team Player
- Active listening and probing skills

Education:

- UG: Any Graduate
- PG: Any Postgraduate

Preferred Experience and Required Skills:

- Min. 5 years of Experience as L1 Remote support
- Provides technical assistance and support for incoming queries and issues related to computer systems, software, and hardware.
- Prior GDS knowledge (Sabre, Galileo, Amadeus) and travel industry knowledge is highly expected.
- Experience in providing customer support using available multi channels: Call-back, Phone, Web- Case, Email and Chat.
- Experience with CRM ITSM tools such as freshservice is desirable.
- Monitors tickets assigned to the queue and process first-in first-out based on priority and redirect issues to correct resource.
- Applies business/technical support concepts to perform Tier 1 and 2 technical support and escalate issues requiring upper 2nd or 3rd level support.
- Manages follow-ups and hand-offs on behalf of the user.
- Experience in remote troubleshooting.
- Experience in software (MS Office, O365, Adobe, Niro, etc), hardware technical support and trouble shooting.
- Provides technical support, configuring and desktop PC's, laptops, peripherals, mobile devices, and software; troubleshooting & resolving hardware, software, connectivity, and other technical problems including documenting steps taken and status in service management tracking systems, following up with end users to ensure the issue has been resolved.
- Ability to analyze, identify key problems, articulate them efficiently and make decisions to solve issues.
- Installs, modifies, and repairs computer hardware and software.
- Manages Service Management software and Knowledgebase.
- Ensures SLA compliance.
- Excellent interpersonal and teamwork skills.
- Ability to extend knowledge in area of new technologies.
- ITIL/ XML/ API/ SQL Programming will be a plus.
- Bachelor's degree or equivalent desired.
- Able to work in 24x7 shift model supporting a global customer base

Industry Type: IT Services & Consulting

Department: IT & Information Security

Employment Type: Full Time, Permanent

Role Category: IT Support

Job Descriptions

EUC Support (L2/L3 Support)

Roles and Responsibilities:

- Support applications built on Microsoft Office 365 (including SharePoint, Exchange, Teams, Autopilot, Intune, MS Dynamics, etc.) and other technology platforms. This includes support and administration of these tools, as well as end-user experience, support, documentation, and training.
- Collaborates closely with desktop support, security, infrastructure, and other technology teams to ensure tasks are completed effectively and efficiently
- Supports diverse mobile devices support, such as iPhone, iPad, Surface, Windows & Apple laptops, and other supported devices.
- Provides direct problem resolution/help desk support to corporate office and remote user systems for tickets/issues related to any M365 products/apps/services
- Strong experience on O365 Administration.
- Experience on Microsoft Exchange Platform Exchange 2010 2013 2016 and Office365.
- Experience in Exchange online.
- Performs remote troubleshooting through diagnostic techniques and pertinent questions
- Utilizes freshservice ITSM tool to resolve technical issues submitted. Continuously updates/documents tickets.
- Knowledge on cloud services such as Azure AD.
- Migration of mailbox One Drive SharePoint data between tenants.
- Strong Knowledge on email routing and email security.
- Experience in managing and administration on Microsoft Exchange 2013 2016 O365 environments.
- Understanding on Exchange High Availability.
- Strong Knowledge on Microsoft Exchange High Availability solutions.
- Knowledge on power Shell scripting.
- Knowledge on Migrating upgrading and Transitioning of mailboxes to different environments servers.
- Works with third-party vendors to offer support
- Identifies and suggests possible improvements on procedures
- Creates, implements, manages (updates and improves), and revises Active Directory/Intune policies
- Extensive successful configuration and management experience in Office 365 products (Exchange, OneDrive, Teams, Intune, SharePoint, MS Dynamics etc.) as well as Active Directory/Intune policy implementation and troubleshooting
- Deep knowledge and understanding of Active Directory, group policies, M365 security and compliance related technologies (including retention policies), and DNS.
- Documents changes made using the IT Change Process

Behavioral Skills:

- Effective Business Communication both written and verbal
- Attitude to feedback / willing to learn
- Positive attitude to adapt to new technologies / roles
- Team Player
- Active listening and probing skills

Education:

- UG: Any Graduate
- PG: Any Postgraduate

Preferred Experience and Required Skills:

- Min. 7 years of Experience as Office 365 administrator
- Administers and champions Microsoft Endpoint Management
- Manages devices
- Maintains Intune and Autopilot environment
- Maintains and monitors application packaging and deployment
- Manages windows patching.
- Defines and maintains hardware specs, etc.
- Promotes teamwork and collaboration. Identifies opportunities to assist other team members with their book of work.
- Coaches and mentors direct reports and peers.
- Implements and troubleshoots Active Directory / Intune policies.
- Serves as the subject matter expert (SME) of Microsoft 365 for the company.
- Ensures that solutions, processes, and business knowledge is documented and communicated to other members of the technology team to mitigate single point of contact risk.

Industry Type: IT Services & Consulting

Department: IT & Information Security

Employment Type: Full Time, Permanent

Role Category: IT Support

Job Descriptions

Voice Remote Support (L1 Support)

Roles and Responsibilities:

- Act as the first point of contact for all voice related issues & requirements.
- Responsible for day to day adds, moves, changes, and user troubleshooting.
- Soft IP phone creation and provisioning.
- IP Extension Creation and configuration, Agent ID creation configuration, Authcode Creation, Basic commands.
- Must be able to add/change Extensions, Hunt-Groups, route table, ARS/AAR table, Route pattern, Announcements etc.
- Hands on experience with User Facing Features support and daily operations health check and monitoring.
- Addition and Deletion of ID's based on the requirements.
- Providing facility to extensions like remote barge-in/ outgoing facility.
- Uploading announcement in systems.
- Inventory management.
- Monitoring of alarms/check list to be performed.
- Monitors ticket queues to ensure customer tickets and service requests are promptly addressed.
- Basic knowledge on call recording solutions
- Independently resolve tickets within SLA, coordinate with internal & external stakeholders

Behavioral Skills:

- Effective Business Communication both written and verbal
- Attitude to feedback / willing to learn
- Positive attitude to adapt to new technologies / roles
- Team Player
- Active listening and probing skills

Education:

- UG: Any Graduate
- PG: Any Postgraduate

Preferred Experience and Required Skills:

- Familiar with either any or more than one of the voice/ UCC platforms i.e. Anywhere 365, or Avaya or Ring Central or Enghouse
- Experienced with working on recording platform
- Basic understanding of H.323 , SIP Endpoint Registration and Troubleshooting
- MS Office
- Experience with remote tools & service desk
- Overall experience in BAU support like User account management, provisioning, call flow creation management, Telephone extensions, mapping, troubleshooting
- In-depth knowledge of MS Windows Desktop OS

Skills required	ASIA	ANZ	NA	EMEA
L1/L2	NA	Enghouse Anywhere 365 MS Teams	Ring Central	Sesui (Babble) cloud telephony platform

Industry Type: IT Services & Consulting

Department: IT & Information Security

Employment Type: Full Time, Permanent

Role Category: IT Support

Job Descriptions

Roles and Responsibilities:

- Call flow creation and management
- Script creation
- Deliver IVR related Change Request/Service Request/Incidents and troubleshooting
- Recording configuration and management
- Voice mail set up and configuration
- Setup in the application for queues, routing, SLAs
- Skill-based auto-routing
- 2nd level of troubleshooting.
- Troubleshoot and resolve complex technical issues related to the telecom systems, including voice quality, connectivity, and integration problems.

Behavioral Skills:

- Effective Business Communication both written and verbal
- Strong analytical and problem-solving skills, with the ability to diagnose and resolve complex technical issues.
- Excellent communication and interpersonal skills, with the ability to effectively collaborate with cross-functional teams and provide user support.
- Positive attitude to adapt to new technologies / roles
- Team Player
- Active listening and probing skills

Education:

- UG: Any Graduate
- PG: Any Postgraduate

Voice Remote Support (L2 Support)

Preferred Experience and Required Skills:

- Familiar with either any or more than one of the voice/ UCC platforms i.e. Anywhere 365, or Avaya or Ring Central or Enghouse or Sesui
- Proven experience with 7-10 years as an Telecom Engineer, working with any of the above mentioned telecom platforms.
- Strong knowledge of Avaya telephony systems, including VoIP, SIP, H.323, ISDN, and digital/analog endpoints.
- Full C/M configuration knowledge, gateway knowledge, IP Extension Creation and configuration, Agent ID creation/configuration
- Route pattern public & private number mapping, SIP/ ISDN trunk creation
- SIP routing creation for incoming calls, SIP routing creation for outgoing calls, Creating SIP extension & configuration, SIP link monitoring
- MS Office
- Experience with remote tools & service desk
- Overall experience in BAU support like User account management, provisioning, call flow creation management, Telephone extensions, mapping, troubleshooting

Skills required	ASIA	ANZ	NA	EMEA
Level 2 support	NA	Enghouse Anywhere 365 MS Teams	Ring Central	Sesui (Babble) cloud telephony platform
Subject matter expertise, hands on experience with configuration, management and telecom related incidents handling				
2nd level of support for issue resolution				
Experienced with creation of new call flow, configuration of DIDs and mapping, recording, skills and priority call routing				

Industry Type: IT Services & Consulting
Department: IT & Information Security
Employment Type: Full Time, Permanent
Role Category: IT Support

Job Descriptions

Network Remote Support (L1 Support)

Roles and Responsibilities:

- Act as the first point of contact for all network related issues & requirements.
- Responsible for day to day adds, moves, changes, and user troubleshooting.
- Knowledge and use of Network Management Tools and integration experience with other Tools.
- Should be able to understand the network setup to troubleshoot the issues.
- Able to log Case with Provider and OEM and follow-up till closure.
- Updating and closing the Service desk ticket which is getting assigned.
- Should be able to basic troubleshooting on Router, Switches and Firewall
- Acknowledge the email which are send to network email id.
- Changing the VLAN as per the Ticket/email
- Inventory management.
- Monitoring of alarms/check list to be performed.
- Monitors ticket queues to ensure customer tickets and service requests are promptly addressed.
- Independently resolve tickets within SLA, coordinate with internal & external stakeholders

Behavioral Skills:

- Effective Business Communication both written and verbal
- Attitude to feedback / willing to learn
- Positive attitude to adapt to new technologies / roles
- Team Player
- Active listening and probing skills

Education:

- UG: Any Graduate
- PG: Any Postgraduate

Preferred Experience and Required Skills:

- Familiar with network concept, basic level network configuration
- Experienced with firewall, switching and routing concept
- Basic understanding of routing protocol
- MS Office
- Experience with remote tools & first level support

Skills required	ASIA	ANZ	NA	EMEA
Level 1	Dell, Fortinet	Dell, Netgear, Fortinet	Juniper/Cisco/ Fortinet	Dell, Aruba edge, Cisco, Juniper ,HP

Industry Type: IT Services & Consulting

Department: IT & Information Security

Employment Type: Full Time, Permanent

Role Category: IT Support

Job Descriptions

Network Remote Support (L2 Support)

Roles and Responsibilities:

- Level 2 support and next level escalation point to L1 support
- Maximise performance by troubleshooting network issues and scheduling networking upgrades
- Update network equipment
- Provide remote support to on-site engineers during network installation
- Handle Severity 1 / Severity 2 escalations calls. Following with TAC engineer for advances level troubleshooting.
- Coordinating with OEM vendors to resolve the issue on time.
- Assist in network implementations as per the business requirement.
- Design and deploy functional networks (LAN, WLAN, WAN)
- Configure and install software, switches, routers, firewall and other network devices
- Monitor network performance and integrity
- Resolve issues by providing support to issues escalated by other functional teams like cloud and local infrastructure
- Mentor team members on technical issues
- Network security. - Understanding on disco varies tools. [like error decoder, config verify, output interpreter so on].
- Scheduling and performing configuration changes on the network devices as per the business requirement

Behavioral Skills:

- Effective Business Communication both written and verbal
- Strong analytical and problem-solving skills, with the ability to diagnose and resolve complex technical issues.
- Excellent communication and interpersonal skills, with the ability to effectively collaborate with cross-functional teams and provide user support.
- Positive attitude to adapt to new technologies / roles
- Team Player
- Active listening and probing skills

Education:

- UG: Any Graduate
- PG: Any Postgraduate

Preferred Experience and Required Skills:

- Product / Architecture and design level understanding of Juniper, FortiGate, Cisco, HP devices.
- Should understand, design and troubleshoot major switching technologies [like STP, RSTP, RPVSTP+, VPC, VDC].
- Good understanding on routing protocol like BGP, OSPF EIGRP.
- Multicasting design, multicast security, advances level multicast troubleshooting.
- Network security. - Should be proficient with firewall technology specially on Fortinet firewalls
- Understanding on cisco, Juniper, FortiGate varies tools. [like error decoder, config verify, output interpreter so on]
- MS Office
- Experience with remote support

Skills required	ASIA	ANZ	NA	EMEA
Level 2 support	Dell, Fortinet	Dell, Netgear, Fortinet	Juniper/Cisco/ Fortinet	Dell, Aruba edge, Cisco, Juniper ,HP
	Subject matter expertise, hands on experience with configuration, management and network devices related incidents handling			
	2nd level of support for issue resolution			
	Experienced with configuration of Layer 2/ Layer 3 switches configuration, management, firewall configuration management and troubleshooting

DG Solution – Job Description

years		
1.1	Senior Developer	1
1.2	Developer	1

- Led the enterprise architecture and solutioning effort in data management and data governance (Azure Purview).
- Register and document data assets, including databases, tables, files, and pipelines in the catalog
- Maintain metadata information, including descriptions, data lineage, data quality, and usage statistics
- Implemented data classification and tagging to ensure proper handling of sensitive data
- Define and monitor data quality rules and policies to maintain data accuracy and consistency.
- Established data governance workflows for data asset approval and stewardship
- Experience in tracking Lineage and Conduct impact analysis to identify doXYZstream effects of data changes.
- Monitoring the health and usage of the Governance platform and perform proactive maintenance
- Generate reports and dashboards to provide insights into data asset usage and catalog performance in azure purview.
- Foster collaboration among data users, data stewards, and data owners to promote a data-driven culture
- Experience with databases technologies like Synapse, SQL Server
- Well versed with defining access policies and security control for Data assets
- Must have experience in interacting with business in setting up the business glossary terms
- Must have implemented at least 2 data governance projects.
- Well versed with handling Data catalog tools and its administration (Azure Purview)
- Well versed with backup and restore, setting up workflows for approvals and integration of multiple data assets including master data
- Well versed with defining the governance policies and security policies inline with business and Domain steward.
- Well versed with business glossary, technical glossary and data governance and security standards
- Strong capability to drive the project and keeps communication clear between relevant parties.
- Deep knowledge of best practices across data related technologies particularly for enterprise wide data architecture, data management, Data governance, data warehousing and analytics (reporting)

4-6 year experience in tools like Collibra

2+ years experience in Azure Purview

Data governance Process, Azure Purview, Azure Cloud, ETL, Azure SQL DB, azure synapse, Architecting, Bigdata technologies, Azure Purview API integration with sources and 3rd party tools.

Minimum Experience – 6 Years

4 year experience in tools like Collibra

1+ years experience in Azure Purview

Data governance Process, Azure Purview, Azure Cloud, ETL, Azure SQL DB, azure Purview

DG Solution – Job Description

2/2

#	Scope / Roles	Count s	Skills	Job Description
2	Data Profiling Tool enhancements			
2.1	Python Sr Developer	1	Minimum Experience – 6-8 Years Python, Pandas, NumPy, Matplotlib, Azure, AWS, containerization technologies knowledge, Unit testing framework knowledge, experience with CI/CD pipelines	• Strong experience in Python programming, including data structures, algorithms, and object-oriented programming. • Experience with data analysis libraries (Pandas, NumPy, Matplotlib etc). • Solid understanding of data profiling concepts and methodologies. • Experience working with various data sources and formats (CSV, JSON, SQL databases). • Ability to identify and troubleshoot data quality issues. • Excellent problem-solving and analytical skills. • Strong attention to detail and a commitment to data quality. • Effective communication and teamwork abilities.
2.2	Full stack Sr Developer	1	Minimum Experience – 6-8 Years .NET, HTML,CSS, JavaScript, React, SQL, NoSQL, Cloud Platform, CI/CD Pipelines,	• Proven experience in .NET C# web development (ASP.NET MVC, ASP.NET Core). • Strong understanding of object-oriented programming (OOP) principles. • Solid knowledge of HTML, CSS, and JavaScript (ES6+). • Proficiency in React JS development with experience in state management libraries like Redux or MobX (a plus). • Experience with RESTful APIs and data access technologies (SQL, NoSQL). • Familiarity with version control systems (Git) and build tools (Visual Studio, MSBuild). • Excellent problem-solving and critical thinking skills. • Ability to work independently and as part of a team in a fast-paced environment. • Strong communication and interpersonal skills. • Experience with cloud platforms (Azure, AWS). • Understanding of containerization technologies (Docker, Kubernetes). • Knowledge of unit testing frameworks

Project Manager - Job Description

#	Scope / Roles	Count s	Skills	Job Description
1	Program Manager	1	Minimum Experience – 12 Years Good Project Management Skills, Team Management, SQL, SSIS, SSRS, SSAS, ADF, Azure components, Service desk experience, Stakeholder Management, Agile Management, MS Project, JIRA, Cloud Knowledge	- Experienced Program Manager to lead, manage and drive the successful delivery of data initiatives within budget, scope and timeline - Expertise in Datawarehouse, EDW, Data Quality and Business Intelligence workstreams - Prior experience in managing SSIS, SSRS, SSAS, ADF and Azure components - Expertise in managing service desk - Expertise in managing, developing, and training the service desk team - Ensuring that all processes used by the service desk are thoroughly documented, consistently audited, and regularly improved. - Conducting and sharing results from service and operation performance reviews - Coordinating and managing all relevant stakeholders, including the support desk team, customers, and other teams that are involved in service desk operations. - Being aware of and managing the costs of running the service desks. - Responsible for planning, organizing, and overseeing the completion of the data workflow project tasks while ensuring the project is on time, on budget, and within scope - OXYZ the project plan for data workflow - Expertise in managing the project using Agile methodology. - Monitor and track progress of data related project tasks and activities based on overall project plan - Coordinate project activities between the customer's internal (Business and IT teams) to ensure completion of activities in line with the project plan - Lead/Coordinate workshops and working sessions to gather business requirements and data validation - Effectively communicate on the progress and status of the project tasks - Perform constant health-checks of the project with stakeholders, identify, report, and propose mitigation approaches for risks to project deliverables and timelines - Adept in using MS Project to plan and/or JIRA for project management - Strong project management, change management and facilitation skills - Good understanding of enterprise applications, business processes and business requirement analysis

Dependencies- ANZ

Tower	Process	Description
Order to Cash (OTC)	Collections	All voice roles and client facing roles are retained not in scope for XYZ
	All	Multiple mailbox used within AR and its manually managed can be challenging to track the emails actioned on time
	Collections	Sales Operations and Travel consultant dependencies in chasing aged debts
	Collections	Data interface delay with BI and Tramada for fortnightly statements to the client
	Cash Application	Exposure to credit card information; need to evaluate PCI compliance controls requirements
	Cash Application	Exposure to credit card information through emails coming in common mailbox
	Cash Application	Macros are used extensively in the process. However, there is limited knowledge on the design of the macros for us to take over
	Collections	Backlogs for AOT is there for over 24 months and will be managed by ABCD team and to be cleared before Feb' 24
	Chargebacks, Payments, ACC	AP process heavily dependent on scripts/macros
	Chargebacks, T&E, ACC	Since there is exposure to Credit Card information, hence this needs to be evaluated as per PCI compliance
Procure to Pay (PTP)	All AP processes	There is frequent dependencies on Travel consultants and operations team for exception resolution
	Chargebacks, Helpdesk, AOT, ACC	Backlog is observed in all AP processes which will be managed by ABCD team and to be cleared before Feb'24
	All AP processes	All internal and external queries/invoice receipt are being managed via Group/personal mail boxes, there is need to assess a Case Management tool to track emails
	Payments	High risk of duplicate payments due to double bookings created by consultants and Invoice being paid by both ACC and EFT. There is no robust control to avoid the same
	T&E	60% of total expense reimbursement request needs rework due to missing details or policy non compliance
Record to Report (RTR)	Month close	Complex activities requiring technical knowledge and skills to be retained in ABCD

Dependencies - HK

Tower	Process	Description
Order to Cash (OTC)	Credit application	All credit applications are to be approved by finance controller
	Collections	Local admin team to assign local staff for cash and cheque collection
	Credit application	Credit Limit and Temp credit limit to be approved by finance controller
	All	Observed SMEs are not fluent in English which makes it difficult to train offshore staff during training phase
	All	Training hands out currently available are also in local language
	Collections	For Unapplied and unidentified the follow ups with Travel Consultant, Client and Bank requires local language requirement
Procure to Pay (PTP)	Reporting	Dependency on IT team for extraction of reports
	Invoice Processing	As per PD analysis and observation, 30% of supplier invoices come in local language in Hong Kong & Singapore
	All	Use of Outlook GMB and personal mail boxes to communicate with Travel consultants, supplier consultants and other stake holders
	All	Dependency on operations team / TCs for exception resolution
	All	Since there is exposure to Credit Card information, hence this needs to be evaluated as per PCI compliance
Record to Report (RTR)	Language Requirements	Change in communication method from Phone calls to Teams/Emails in English in RTR Teams Follow ups with Travel Consultant, Bank and other teams to be in English over Teams/Emails only
	Systems	All systems to be in English language

Dependencies - EU

Tower	Process	Description
Order to Cash (OTC)	Collections	All voice roles and client facing roles are retained not in scope for XYZ
	All	Multiple mailbox used within AR and its manually managed can be challenging to track the emails actioned on time
	Collections	Sales Operations and Travel consultant dependencies in chasing aged debts
	Collections	Data interface and issues observed in Protas and Consta Desperate systems used for North and South
	Cash Application	Exposure to credit card information; need to evaluate PCI compliance controls requirements
	Cash Application	Exposure to credit card information through emails coming in common mailbox
Procure to Pay (PTP)	Credit Management	No periodic review for existing client performed for credit limits
	Invoice Processing	Invoice and payment details are maintained in excel workbooks due to absence of workflow
	Helpdesk	Use of Outlook GMB and personal mail boxes to communicate with Travel consultants, supplier consultants and other stake holders
	Invoice processing/BSP Recon/ VCC Recon	Frequent dependencies on Travel consultants and operations team to resolve exceptions
	Payment allocation, Reconciliation North & South	Backlog is observed in all AP processes which will be managed by ABCD team and to be cleared before Feb'24
	Reconciliation	Latency issues observed in Traveller system which adversely impacts user productivity
Record to Report (RTR)	VCC Reconciliation	Exposure to credit card information; need to evaluate PCI compliance controls requirements
	Systems and reporting	Activities requiring systems knowledge to be retained in ABCD
	System Accesses	There are 3 different GL accounting systems in Europe
	Bank Accesses	Bank accesses require smart phone and card readers for login

Dependencies - US

Tower	Process	Description
Order to Cash (OTC)	Cash Applications	Foreign deposit checks need to be physically deposited in bank by ABCD team
	Cash Applications	Checks received in ABCD office need to be scanned to deposit – will have dependency on ABCD team
	Cash Applications	XYZ Team would need access to Bank Portals /FTP servers used for downloading lockbox statement
	Cash Applications	Dependency on CTS team for reconciling the supplier commission payments received
	Reconciliation	Dependency on Account Manager for POS Monthly reconciliation – exceptions and approving post backs
	All	All internal and external queries/Billing requests are being managed via shared/personal mailboxes, There is need to assess a Case Management tool to track emails
Procure to Pay (PTP)	Monthly Accruals	Dependency on ABCD Leads to be involved for review of Monthly Accruals with Leadership
	Invoice processing	Frequent dependencies on Travel consultants and operations team to resolve exceptions
	Helpdesk	Use of Outlook GMB and personal mail boxes to communicate with Travel consultants, supplier consultants and other stake holders
	VCC Reconciliation	Exposure to credit card information; need to evaluate PCI compliance controls requirements
Record to Report (RTR)	System Accesses	There are 2 different GL accounting systems in North America requiring different accesses
	Month Close	Activities like IT Capex and Sales incentives have exposure to Staff Payroll data which will need additional controls. Onshore SME acts as a point of contact for all the sales team for any sales incentive corrections.
	ARC Recon	Error resolution required detailed industry knowledge and regular connects with business teams for error resolutions.

Exceptions - ANZ

Tower	Process	Description
Order to Cash (OTC)	Contract Management	Anything related to contract management to be managed by ABCD
	Establishing AR policies	Establishing AR policies to be managed by ABCD
	Negotiation with client	Negotiation with client on Payment schedule to be managed by ABCD
	calling client and ops	Calling customer, travel consultant, OPS etc. to be managed by ABCD
	Credit Management	All credit limit approvals to be managed by ABCD
	Refunds	All Credit notes refunds approvals to be managed by ABCD
Procure to Pay (PTP)	Invoice Processing	Updating Debtor Matrix List for █████ Chargeback to be retained by ABCD
	Payments	Payment approval & authorization process to be retained
	Helpdesk / Exception Mgt	All incoming/outgoing calls to be managed by XYZ retained team
	Client data	Any data that involves confidential details like credit card etc. should be masked
	Establishing AP policies	Designing/ updating existing policies and procedures related to AP process to be retained
	Vendor Master Maintenance	Calling supplier for Bank details verification to be retained
Record to Report (RTR)	Journal Entries	Payroll accounting to be managed by ABCD Journals not posted by GL team not included in scope
	Perform financial reporting	Financial reporting to be managed by ABCD
	Bank Reconciliations	Banks for █████ (Client) is not included in scope for RTR

Exceptions - HK

Tower	Process	Description
Order to Cash (OTC)	Invoice customer	Only Singapore citizen can apply for government portal access 60% scope for S2T is govt contracts
	AR cash application	POS AR settlement will be retained as there POS machines are kept onshore which are used for walk in customers
	Establishing AR policies	Establishing AR policies to be managed by ABCD
	Collections	Client facing roles where ABCD team calls customer for debt collection will be retained
	Credit Management	All credit limit approvals to be managed by ABCD
	Refunds	All Credit notes refunds approvals to be managed by ABCD
	All Activities	All activities for Japan, China & Taiwan needs to be retained due to language dependency
Procure to Pay (PTP)	Payments	Payment approval & authorization process to be retained
	Payables/Treasury	Activities like foreign currency Cash on hand report, count of stock of super-market coupons, Bank Guarantee application, Monthly PCI compliance to be retained
	Exception Resolution	There should be a retained team to provide Level 2 support in case XYZ team need guidance on any particular invoice/activity and is not able to resolve a query
	Helpdesk / Exception Mgt	All incoming/outgoing calls to be managed by ABCD retained team
	Credit Card Issue/ Recon	Any data that involves confidential details like credit card etc should be masked
	Establishing AP Policies	Designing/ updating existing policies and procedures related to AP process to be retained
	Month end close	Only Journals, Bank Recs and GL recs to be in scope for Hong Kong and Singapore and will require technical accounting skills and similar experience. Other countries to be retained due to language requirements.
Record to Report (RTR)		Consolidations happen only in Hong Kong for all Asia Countries; It may be included in Phase-2. If included in Phase-1, Consolidation process may be automated as against done currently manually in Excel
	Japan, China and Taiwan	All activities for 3 countries to be retained due to language requirements
	Budget, Tax and Audit	These activities for all countries to be retained

Exceptions - EU

Tower	Process	Description
Order to Cash (OTC)	Establishing AR policies	Establishing AR policies to be managed by ABCD
	Collections	Client facing roles where ABCD team calls customer for debt collection will be retained
	Credit Management	All credit limit approvals to be managed by ABCD
	Refunds	All Credit notes refunds approvals to be managed by ABCD
Procure to Pay (PTP)	Payments	Payment approval & authorization process to be retained
	Helpdesk / Exception Mgt	All incoming/outgoing calls to be managed by XYZ retained team
	VCC Reconciliation	Any data that involves confidential details like credit card etc. should be masked
	Establishing AP policies	Designing/ updating existing policies and procedures related to AP process to be retained
	Exception Resolution	Retained Level 2 support team to assist XYZ with disputes/ new scenarios
	Month Close	Complex activities requiring technical accounting knowledge and skills are retained in ABCD
Record to Report (RTR)	Budget, Tax and Audit support	These activities are to be retained in ABCD
	Overrides	Override process is to be retained in ABCD

Exceptions - US

Tower	Process	Description
Order to Cash (OTC)	Establishing AR policies	Establishing AR policies to be managed by ABCD
	Collections	Client facing roles where ABCD team calls customer for debt collection will be retained
	Cash Application	ABCD to manage cheque scanning and depositing foreign checks in the bank
	Billing	Alaska Billing, E TM Events and approval related actions are kept out of scope for XYZ
	Payments	Payment approval & authorization process to be retained
Procure to Pay (PTP)	Helpdesk / Exception Mgt	All incoming/outgoing calls to be managed by XYZ retained team
	VCC Reconciliation	Any data that involves confidential details like credit card etc. should be masked
	Establishing AR policies	Designing/ updating existing policies and procedures related to AP process to be retained
	Exception Resolution	Retained Level 2 support team to assist XYZ with disputes/ new scenarios
	Invoice Processing/Payments	All activities related to State Of Alaska Project to be retained
Record to Report (RTR)	Month Close	Complex activities requiring technical accounting knowledge and skills are retained in ABCD
	Budget, Tax and Audit Support	These activities are to be retained in ABCD
	ARC reconciliations	ARC reconciliation related to Boeing to be retained in ABCD

Process Discovery Findings & Observations

F&A - RTR

S.No	Category	Key Finding/Observation
1	Policies	Formal Reconciliation policy not available in ANZ, Asia and EU. A brief reconciliation policy exist in NA
2	Policies	Global Fixed Asset Capitalization policy not in place (For e.g. asset for GBP 500 is capitalized in EU)
3	Policies	Close timelines are not standard across all regions. NA books are closed on WD 3 whereas other regions books are closed by WD4. Final close and consolidation completed on WD5 across all regions.
4	Policies	Reconciliation timelines are not standard across all regions. Reconciliations in EU are performed post book close, whereas for other regions reconciliations are performed during month close.
5	Policies	Standard approval process are not in place for Journals and Reconciliations
6	Tools & Technology	Different Accounting systems in different regions/entities: ANZ - 1 Asia - 1 EU - 3 NA – 2
7	Tools & Technology	- No interface between sub ledger and General Ledger systems. - Data upload into HFM via manual excel templates.
8	Transformation	No workflow tool in place for Journals and Reconciliations
9	Transformation	Excel based tracking of month close is maintained at regional level. No real time visibility/dashboards for close status

Process Discovery Findings & Observations

F&A - RTR

S.No	Category	Key Finding/Observation
10	Transformation	Some specific activities in EU is completely manual in excel. There is scope of automating the same which will bring additional efficiencies
11	Language	Language requirements for Mandarin, Cantonese & Japanese in China, Taiwan and Japan. This is used in both for accounting (ERP) and written communication
12	Language	Hong Kong & Singapore also uses Chinese (Mandarin, Cantonese) for internal communication. However, written communication and accounting is in English
13	Process	The activities for Month Close, Reconciliations etc are complex in nature and requires technical accounting skills and industry specific knowledge.
14	Process	In EU, Bank access will be based on Card Readers and Smartphones. Similarly, In NA, bank accesses will be based on hard tokens issued by banks.
15	Process	ARC/BSP process will need relevant industry experience with analytical skills. Errors in the process will lead to financial penalties and loss of reputation with customers
16	Process	Some activities have access to Sensitive data regarding staff payrolls, incentives etc.
17	Process	For Asia, tax activities will include local tax requirements for all the countries. Also, it will require communication with local tax authorities for all countries.
18	Process	Activities includes Consolidation of Financial statements which requires similar experience and technical accounting skills
19	People	Overtime observed in GL accounting team across regions

Process Discovery Findings & Observations

F&A - OTC

S.No	Category	Key Finding/Observation
1	Language	Language requirements for Mandarin, Cantonese & Japanese in China, Taiwan and Japan. This is used in both for accounting (ERP) and written communication
2	Language	Hong Kong & Singapore also uses Chinese (Mandarin, Cantonese) for internal communication. However, written communication and accounting is in English
3	Process	The activities for Month Close, Reconciliations etc are complex in nature and requires technical accounting skills and industry specific knowledge.
4	Process	Outlook Group Mailbox (GMB) and personal mailboxes are being used by ABCD teams to communicate with internal and external stakeholders No tracking of emails routed to TCs/ Internal stakeholders to resolve exceptions Multiple mailbox used for across AR processes
5	Process	Huge dependency on Travel consultants and Operations to resolve booking issues which increases the resolution time, no escalation matrix or KPIs established
6	Process	Process is heavily dependent on scripts/macros, any technical issues can lead to processing & delay in processing
7	Process	Exposure to Credit Card information, needs to be evaluated as per PCI compliance
8	Process	No segregation of duties withing AR sub process in terms of CMD, Billing and Credit Control

Process Discovery Findings & Observations

F&A - OTC

S.No	Category	Key Finding/Observation
9	Technology	No standardisation, customized and unique arrangement for consolidated invoice /manual invoices
10	Technology	MOE and eAccount are not designed for accounting purpose so some functions are not available like extraction of reports etc which need IT dept to retrieve the information
11	Technology	Data interface issue between Protax and Consta which leads to manual reconciliation
12	Technology	Power App used for US Invoice approvals is a best practice that can be replicated across regions. Approval hierarchy will need to agreed with ABCD Team
13	Process	US Billing involves reviewing and validating inputs from 10-12 input sources. This is a complex and manual process which needs to be embedded with controls and audits.

Process Discovery Findings & Observations

(F&A - AP)

S. No	Category	Key Findings/Observations
1	Process	Outlook Group Mailbox (GMB) and personal mailboxes are being used by ABCD teams to communicate with internal and external stakeholders No tracking of emails routed to TCs/ Internal stakeholders to resolve exceptions Single mailbox used for invoice receipt & supplier queries
2	Process	Backlog observed in ANZ ██████ -Chargeback (mailbox, invoice processing, payments), AOT (invoice processing 9000+, mailbox), Agency Credit card and for Europe in purchase ledger – payment allocation, reconciliations
3	Process	Huge dependency on suppliers/consultants to resolve invoice processing exceptions which increases the resolution time, no escalation matrix or KPIs established
4	Tools & Technology	ANZ processes are heavily dependent on scripts/macros, any technical issues can lead to processing & payment delays
5	Process	Exposure to Credit Card information, needs to be evaluated as per PCI compliance
6	Process	No segregation of duties between invoice processing & payments except Chargebacks (ANZ)
7	Process	High risk of duplicate payments due to absence of system-based controls
8	Process	~60% of employee reimbursements needs rework due to missing details/policy non-compliance in ANZ

Process Discovery Findings & Observations

(F&A - AP)

S. No	Category	Key Findings/Observations
9	Process	Manual creation and upload of payment proposal
10	Tools & Technology	Different ERPs used across different regions
11	Language	Language requirements for Mandarin, Cantonese & Japanese in China, Taiwan and Japan. This is used in both for accounting (ERP) and written communication
12	Language	Hong Kong & Singapore also uses Chinese (Mandarin, Cantonese) for internal communication. However, written communication and accounting is in English
13	Language	~30% of supplier invoices come in local language in Hong Kong & Singapore
14	Process	Invoice copies & expense receipts are maintained in hard copies in HK
15	Tools & Technology	No workflow in place for managing invoices and approval process for HK & EU and Corporate AP & QBT in ANZ

Process Discovery Findings & Observations

F&A

S. No	Category	Key Findings/Observations
16	Tools & Technology	Expense reimbursement process managed manually in HK, concur not implemented
17	Tools & Technology	No workflow & OCR in place, invoice processing details & payment status are maintained in excel spreadsheets in EU
18	Process	No reconciliation in place for expenses paid by company corporate card cards in EU
19	Tools & Technology	Latency issues in Traveller system which adversely impacts user productivity in EU
20	People	BSP recon/exception management, virtual card cards reconciliations processes will need relevant industry experience with analytical skills to perform detailed research work and interact with internal & external stakeholders for query resolution

Process Discovery Findings & Observations

Data- Data Quality

S.No	Area	Key Finding/Observation
1	Service Desk	Based on geography, different ticketing tools being used for managing SD activities such as Freshworks, JIRA etc. Single tool can be envisioned for global operations for streamlining operations, improving efficiency and enhance overall service delivery
2	Service Desk	Turnaround time for tickets that need to be resolved by other parties can be improved
3	Service Desk	Automation/standardization for recurring tickets may reduce TAT
4	Hotel Normalization	Daily DWH matching process generate exceptions for missing GIATA codes, Analysis to be done to identify the reasons for mismatches and put right solutions in place to mitigate/reduce no. of mismatches. And there is significant backlog for hotel normalisation for Proprietary and Legacy partners.
5	Hotel Normalization	Currently 2 different datasets being referenced for hotel normalization in Partner(local db) & Proprietary (GIATA). We can think of creating global solution so that common datasets being referred for uniform hotel normalization process.
6	Partner Data Management	Manual data cleansing performed for each QC table, there is a scope to automate these QC checks & cleansing.
7	Partner Data Management	File load status is currently being monitored in excel for all sources, can think of creating automated dashboard.

Process Discovery Findings & Observations

Data-Data Warehouse

S.No	Area	Key Finding/Observation
1	Non Radius/ABCD Partner Data Feeds	Invoice data is processed from different partners using TRX, IBANK and ABCD Internal Spec formats. Need for integrated Data Quality process for validating business rules apart from current file format checks
2	Hierarchy uploads/updates	Hierarchies are maintained at lowest level to enable drill-up/drill-down reporting. ABCD Master Data DB holds the hierarchy details maintained at Standard, Alternate and Default level
3	Enhanced Credit Card feeds	PowerApps based application configuration that enables data extraction from GDW for specific customers in TRX format combined with Credit Card data from backend systems shipped to aggregator(White Sands) for data reconciliation.
4	Radius partner data feeds: Pre-Trip	Pre-trip data is integrated from partners using systems like Compleat(5min interval), Amadeus(5min interval) and ABCD Pretrip file format(daily once for other Partners) and processed into Pretrip ODS. Data from Pretrip ODS is further processed into Radius IQ for analytical consumption
5	Radius partner data feeds: Post-Trip	Post trip data received in TRX & Radius 3.0 formats and processed into Export ODS using legacy partners process, new partner process and TRX format process. The data available in Export ODS is quality checked using a 5-step Data Quality process by Marks team before enabling the data into Radius IQ for analytics
6	Crown Data Process	Crown data holds information specific to EU region and maintained securely. In the current setup, data from Traveller, Conferna, Toolbox and Evolvi are processed into ██████████ DB(MIDAS DW). In the new process, Traveler source is migrated to ProTas(which includes data from all sources) from which data will be enabled into Crown DWH along with other data from Midas DWH. Access to Crown DWH is enabled using secured access controls using Jump servers before accessing the Crown DWH server

Process Discovery Findings & Observations - Contd.

Data-Data Warehouse

S.No	Area	Key Finding/Observation
7	Specialized Data Feeds - My Trip Receipts (MTR)	Customer Invoices/Receipts are accessed using NA ABCD Portal and data for the same is enabled using API's by extracting data from GDW into NA Azure SQL DB using Stored Procedures. Tech Hub team manages the ABCD Portal who managed the API integration
8	Specialized Data Feeds – Expense Data Integration	Expense Management Tools like Workday, Emburse and Expensify integrate invoice data from ABCD using multiple formats(API, XML using SFTP & HTML attachment in email). SSIS ETL process extracts data for requested clients whose information is captured using excel based input file
9	Radius - Supplier data integration: Hotel data process	Hotel master data is maintained by integrating data from Hotels which are part of Radius Program. These data are shared in GBTA format. Data is processed into DW and missing hotels data is validated and manually added by the analyst
10	Radius - Supplier data integration: Hotel data process	Booking data from hotels are integrated into SSAS cube by applying business rules to identify hotels that partners use for booking activities but not part of Radius program
11	Radius - Supplier data integration: PFP and agency payout process	ABCD shares commission to partners based on Paid & Stayed data shared by Hotels to ABCD as part of PFP program. Commission and share data is processed into Radius DW on adhoc basis
12	GDW	Global Data Warehouse is created in Azure which holds data from all regions. Sabre based booking and master data is synced into Staging Schema of Azure SQL DB part of GDW. Regional specific data is maintained in local Azure SQL DB's is integrated into GDW using landing schema before standardizing into Staging schema of GDW. On-prem DW(pre-migrated GDW) is still running in parallel to support on-prem reports Azure Analysis Service based Tabular Semantic model supports all internal and external reporting via ABCD Smart Hub

Process Discovery Findings & Observations

Data-Data Governance

S.No	Area	Key Finding/Observation
1	Org structure	Global Data Governance Office setup is in place led by Data Governance Head (Clay). Current Governance team members – Jolyn, Steve, Shaun, Aldrian
2	DG Process & Framework	Global Data Governance office(formed in July 2023) will drive the overall governance activities. Data Governance Framework is defined consisting of SIDEK(Global Sponsor), GDMC(Global Data Management Council), Advisory Groups(GRAG & GCAG) and Business/Technical Stewards along with Infosec, Security and compliance teams
3	DG Standards	Process and templates for Data Governance Standards are defined and key initial implementation focus is GDW & CRM
4	CDE's(Critical Data Elements)	Framework for identifying Critical Data Elements is defined. 23 CDE's are identified for initial setup. The initial CDE's cover the key KPI's part of the main customer dashboard. CDE's to be configured in Azure Purview to cover key DG activities like Data Dictionary, Profiling, Business & Technical glossaries
5	Change control process	Creation of global Change control process is a high priority. Initial focus is to create the Change control process on CDE's which can be extended for all other entities
6	MDM & Reference Data	Smartsheet's based MDM process in place which is manually maintained and prone for errors. Need for efficient and automated MDM & RDM process

Process Discovery Findings & Observations – Contd.

Data-Data Governance

S.No	Area	Key Finding/Observation
7	Data Catalog	Azure Purview based Data Catalog setup to be enabled. Foundational elements of Data Catalog are defined covering Data asset mapping, Data Lineage, Data Classification along with additional elements like DQ Rule repository & Data Security POC identified for setting up Data Catalog in Azure Purview
8	Metadata Management	Metadata documentation for identified CDE's in progress and further extended to other CDE's based on request Light or Full Metadata capture to be defined based on CDE's
9	Data Profiling	Python based Data Profiling process in place Need for UI driven profiling tool enrichment covering features like Data Classification, Data Masking and improved UI experience

Schedule 3

Template Project Statement of Work

A Statement of Work will detail (as relevant) the following matters:

- (a) the specifications, deliverables and timeframes proposed for the draft Statement of Work;
- (b) a detailed estimate of the fees for the draft Statement of Work which, unless otherwise agreed in writing with ABCD, is to be based on the estimate given under Schedule 10;
- (c) an assessment of the benefits and risks to each party which would result from the implementation of the draft Statement of Work;
- (d) a plan for implementing the draft Statement of Work;
- (e) the responsibilities of the respective parties in relation to implementation of the draft Statement of Work;
- (f) details of any proposed testing associated with implementation of the draft Statement of Work;
- (g) a timeframe for the proposed implementation and the consequences of a failure to comply with that timeframe;
- (h) a description of any disruption to the existing Services which may be caused during the implementation process;
- (i) any consequential changes which may be required to Documentation;
- (j) any training required as a consequence of implementing the draft Statement of Work;
- (k) any acceptance procedure relevant to the draft Statement of Work and the consequences of a failure of the acceptance process;
- (l) the local, interstate and international resources and Personnel allocated under the draft Statement of Work; and
- (m) any other matter required by ABCD to be included in the draft Statement of Work

Schedule 4

ABCD Inputs

ABCD will provide the ABCD Inputs identified in a Statement of Work.

Subject to the Supplier's obligations under clause 16, ABCD will provide the Supplier with access to the software in Schedule 5 which is identified in Schedule 5 as being provided by ABCD at no additional cost to the Supplier (**ABCD Software**). Any changes to the list of ABCD Software (to add or remove ABCD Software) will be agreed by the parties through the Change Request process in Schedule 9 (Change Management).

Support and maintenance for the software will be provide by ABCD in accordance with the PD and any agreed Statement of Work.

Schedule 5

Applications List

XYZ Provided Tools/Technology.

19th January 2024

RTR	eClose	Mange and Tracking status of month close activities	To be implemented in Month 13 post Go Live	One time	37,227						37,227
				Annual Subs.	20,000	29,091	26,818	26,818	26,818	11,174	140,720
				Total	57,227	29,091	26,818	26,818	26,818	11,174	177,946

Notes:

- XYZ AP Trac** will help in Auto invoice verification, Touchless invoice processing, Workflow for managing exceptions & approvals, Vendor Portal to enable Vendors to check invoice status and Auto statement reconciliation. This will also provide in real time reporting of process matrices.
- XYZ AR Trac** will help in Automated billing validations & Invoice creation, Automated cash applications, Workflow for managing exceptions & approvals and collections support. This will also provide in real time reporting of process matrices.
- Language Weaver** will help in translating Invoices in Hong Kong from Chinese (Cantonese & Mandarin) to English.
- Case Management** tool will help in:
 - AP & AR** – Group mailbox management and tracking of queries from Vendors and Customers
 - RTR** - Tracking approvals of Journals and reconciliation to ensure accuracy and maintain audit trail.
- eClose** tool will help in real time tracking of Month Close activities to ensure completeness and prevent missing deadlines of critical activities.
- The Tools will be maintained by XYZ.
- The pricing is based on the volumes of transactions. XYZ Trac AP- The volume at RFP was considered as ~420K/annum which is now ~1.1MM/annum. The pricing is based on volumes of transactions and not based on no. of users.

Schedule 6

Fees and Standard Rates

1. **Fees**

Copy of
ABCD_Finance
Data_Pricing Workbo

2. **Travel and living expenses**

- (a) The Supplier may invoice ABCD for reasonable travel and living expenses which comply with section 2(b) on a pass-through basis (with no additional amount added) only where:
 - (i) Supplier Personnel need to travel to a location outside the city where the Deliverables are predominately to be provided as part of performing this Agreement; or
 - (ii) specialist Supplier Personnel approved by ABCD who need to travel in order to provide the Deliverables.
- (b) Travel and living expenses must be:
 - (i) approved by ABCD in writing in advance, acting reasonably;
 - (ii) incurred in the course of performing this Agreement;
 - (iii) in accordance with the relevant XYZ Policy; and
 - (iv) substantiated by supporting documentation.

Schedule 7

ABCD Information Security

Supplier's obligation to comply with ABCD Information Security Requirements

1.1 In accordance with the terms of this Agreement, the Supplier must, at its own cost, comply with each of the ABCD Information Security Requirements ticked in the table below (and as amended from time to time).

1.2 At any time during the term, ABCD may request a review of the ABCD Information Security Requirements to ensure that:

- (a) the ABCD Information Security Requirements continue to be adequate to protect █████ Data and Information Assets taking into consideration any changes or developments in technology and security practices; and
- (b) if there is any change in the scope of the Services or Deliverables to be provided by the Supplier, that the ABCD Information Security Requirements are appropriate and adequate to protect ABCD Data and Information Assets.

1.3 The Supplier must keep records and must ensure any subcontractors keep records, necessary to demonstrate compliance with the applicable ABCD Information Security Requirements set out in this Schedule.

1.4 All capitalised terms have the meaning given in the Definitions section at the end of the Agreement. The following defined terms applies to the capitalised terms in this Schedule.

Cyber Security Incident is an occurrence that results in actual or potential jeopardy to the confidentiality, integrity, or availability of an information system or the information the system processes, stores, or transmits or that constitutes a violation or imminent threat of violation of security policies, security procedures, or acceptable use policies. It includes:

- DDoS – A Distributed Denial of Service (DDoS), will be defined as, where multiple systems compromise the availability of a system. As opposed to a Denial of Service which is a system compromising the availability of a system.
- Malware – Malware, short for malicious software, consists of programming (code, scripts, active content, and other software) designed to disrupt or deny operation, gather information that leads to loss of privacy or exploitation, gain unauthorised access to system resources, and other abusive behaviour.
- Ransomware – A type of malware that is designed to encrypt and prevent the owner from accessing the computer system and/or data it contains, demanding a ransom for its restoration.
- Insider Threat – A malicious threat to ABCD from individuals within ABCD. An insider threat may take the form of stolen secret, confidential and/or protected information, intellectual property, leaking of secret, confidential and/or protected information or damage to computer systems.
- Data Breach – A data breach incident involves the actual or potential unauthorised access to, or improper alteration or acquisition of, company data.

- Website Defacement – The damage and/or alteration of website from its original form. This may occur due to the compromise of a system which enabled an attacker to manipulate hosted content or content manipulation has occurred using injection techniques or cross site scripting.
- Qualified Threat Intel Reports – All threat reports received from a qualified source, such as ABCD global or ABCD APAC team will be classified as security incidents and treated according to the assigned threat rating.
- Tech Ops INC – A Tech Ops INC which could potentially be a result of a cyber security attack or involves some other potential cyber security aspect like data breach etc.

Relevant Change means any change in the delivery, configuration or arrangement for the provision of any Services, Deliverables or Products to be provided under the Agreement, or any changes to any of the Supplier's Personnel or any internal in-scope processes.

Strong Encryption means the use of encryption technologies with minimum key lengths of 256 bits for symmetric encryption and 1024-bits for asymmetric encryption whose strength provides reasonable assurance that it shall protect the encrypted information from unauthorised access and is adequate to protect the confidentiality and privacy of the underlying information.

B. ABCD Information Security Requirements

The Supplier must comply with each ABCD Information Security Requirements

below. **No. Information Requirement**

1.	Mandatory Requirements (a) The Supplier must conduct and retain appropriate background checks (or evidence that such a check has been carried out) for each such employee or subcontractor before granting any such individual access to ABCD Data. (b) At ABCD request, the Supplier must complete and return any general information security questionnaires within 10 Business Days of receiving the questionnaire from ABCD. (c) The Supplier must provide ongoing training about its security obligations under this agreement for all of Supplier's Personnel engaged to act in connection with this agreement.
2.	Ongoing Assurance and Compliance (a) At ABCD request, the Supplier must undertake penetration tests and periodic security assessments (post discussion on the scope between both the security teams and relevant cost involved if any) ABCD believes is reasonable to evidence the Supplier's compliance with its security obligations under this Schedule and the Agreement. Without limiting the generality of this requirement and ABCD rights under the Agreement, the Supplier must, where relevant:

No. Information Requirement

	(i) co-operate and enable ABCD to audit, test and assess any facilities, systems, platforms or processes the Supplier uses in connection with the Agreement; and (ii) conduct desktop reviews as reasonably directed by ABCD. (b) ABCD will provide the Supplier with a report of any test, audit or other assessment activities, if that report determines that the Supplier has not complied with the Information Security Requirements or any other security provisions in the agreement. On receipt of the report, the Supplier must rectify the non-compliance within 10 Business Days, if the Supplier fails to bring its performance of the requirements into compliance within that time: (i) the Supplier must provide ABCD a written update outlining the steps it has taken to rectify the non-compliance, if the non-compliance continues for more than an additional 5 Business Days, the Supplier will provide ABCD periodically (and at least once a week) with updated information in accordance with this clause; and (ii) ABCD will be entitled to terminate this Agreement immediately for cause by giving the Supplier notice in writing.
3.	Accreditations and Compliance (a) The Supplier must comply with ISO 27001 or similar assessment or security controls assurance reports during the term of the Agreement. (b) At ABCD request, the Supplier must provide ABCD with evidence of accreditation or industry certifications with current versions of PCI-DSS, ISO 27001 or similar assessment or security controls assurance reports. (c) If the Supplier has engaged a subcontractor or third party for the collecting, capturing, processing, accessing, storing or managing of ABCD Data, the Supplier must also provide ABCD with evidence of the same accreditation or industry certification for those subcontractors or third parties as approved by ABCD.
4.	Security Risk Assessment (a) ABCD may conduct a security risk assessment in relation to the Security Measures by giving the Supplier 10 calendar days notice in writing. The Supplier must cooperate and provide ABCD or its representative with all reasonable assistance to complete the security risk assessment, including providing access to Supplier Personnel with appropriate expertise and completing all relevant assessment documentation within 10 Business Days or as otherwise agreed by the parties. (b) If the security risk assessment determines that the Security Measures are inadequate, the Supplier must implement any additional Security Measures as directed by ABCD within 30 days (Additional Security Measures). If the Supplier requires additional time, it may propose a

No. Information Requirement

	timeline for the implementation of Additional Security Measures for ABCD review and approval. (c) If the Supplier fails to implement the Additional Security Measures within 30 days or in accordance with the timeline approved by ABCD will be entitled to terminate this Agreement immediately for cause by giving the Supplier notice in writing. (d) The Supplier may request ABCD approval to adjust the Fees only if the implementation of the Additional Security Measures directly results in the Supplier incurring additional costs and evidence of such cost is provided to ABCD may withhold its approval for any proposed adjustment to the Fees. (e) If the Supplier is unable or unwilling to implement the Additional Security Measures, it will be entitled to terminate this Agreement by giving ABCD 30 days' notice in writing.
5.	Overarching Information and Cyber Security Obligations (a) The Supplier must promptly notify ABCD of any Relevant Change. The Supplier must cooperate with ABCD and undertake penetration tests and or any periodic security assessments (post discussion on the scope between both the security teams and relevant cost involved if any), as directed by ABCD, in relation to the Relevant Change. (b) ABCD will provide the Supplier with a report of any test, audit or other assessment activities, if that report determines that the Supplier's Relevant Change does not comply with the Information Security Requirements or any other security provisions in the Agreement. The Supplier must rectify the non-compliance within 10 Business Days and if it fails to do so within this time the Supplier must provide ABCD a written update outlining the steps it has taken to rectify the non-compliance, if the non-compliance continues for more than an additional 5 Business Days, the Supplier will provide ABCD periodically (and at least once a week) with updated information in accordance with this clause. (c) The Supplier must ensure that all its Personnel and subcontractors execute and deliver a confidentiality agreement that includes obligations consistent with the confidentiality provisions in the Agreement prior to granting these Personnel and subcontractors with access to ABCD Data. (d) The Supplier must have a process in place to promptly identify any violations of the security controls including any Information Security Requirements by its Personnel and subcontractors.
6.	Information Security Governance and Responsibilities (a) The Supplier must provide ABCD, within 30 days of the date of this Agreement, for ABCD review an Operational Information Security Management System (<i>ISMS</i>). The ISMS must set out:

No. Information Requirement

	(i) the Supplier's organisational security measures including operational, administrative, physical and technical security controls and its information security policies; and (ii) the information security roles and responsibilities. (b) The Supplier must ensure that its information security staff have reasonable and necessary experience in information and network and cyber security. (c) The Supplier must take all reasonable steps to prevent a Data Security Incident and any unauthorised physical or electronic access to the services, systems, devices or media containing any ABCD Data. (d) The Supplier must maintain and regularly test its Operational ISMS (and at least once every 12 months) and report back to ABCD with sufficient detail (as required by ABCD) in order for ABCD to confirm the adequacy of that system. If the test determines that the systems are inadequate to protect ABCD Data or systems, the Supplier must remediate those inadequacies within 5 Business Days.
7.	Physical and Environmental Security (a) The Supplier must monitor persons on the Premises to ensure that they are authorised Personnel of the Supplier and limit access to the Premises and other facilities by ensuring that: (i) all visitor access is logged and the log is maintained for three months including the visitor's name, company he/she represents and the name of the employee authorising the physical access to the Premises; (ii) access is restricted to appropriate Personnel, based on job requirements; (iii) access is revoked immediately on the termination of a Personnel and all physical access mechanisms, such as keys, access cards and alike are returned and destroyed or disabled; (iv) it regularly reviews the access rights it has granted to the Premises to ensure that only authorised Personnel have access to the Premises; (v) the data centre and or the computer room is locked, and access limited to only those Personnel requiring access; (vi) video cameras monitor individual physical access to sensitive areas and review such data regularly. Video footage must be stored for a minimum of one (1) month; and (vii) equipment used to store, process or transmit ABCD Data must be physically secured. This includes wireless access points, gateways, handheld devices, networking/communications hardware and telecommunication lines.

No. Information Requirement

	(b) The Supplier must reasonably maintain all hardware assets processing or handling ABCD Data in accordance with third party service provider's recommended servicing requirements. (c) The Supplier must use a variety of industry standard systems to protect against loss of ABCD Data at data centres due to power supply failure or line interference. This can include implementation of protective measures such as heating, cooling, fire suppression, water detection and heat and smoke detection devices.
8.	Identification and Authentication The Supplier must: (a) assign unique user identifications to each user (including each of its staff, contractors and any authorised third party Personnel) and assign authentication mechanisms to each account; (b) use a documented user identification lifecycle management process including, but not limited to, procedures for approved account creation, timely account removal and account modification (e.g., changes to privileges, span of access, functions/roles) for all access to ABCD Data and across all environments (e.g., production, test, development etc); (c) review its documented user identification lifecycle management process at least once every 3 months, including consideration of access privileges and account validity; (d) ensure approvals for access requests have appropriate segregation of duties, e.g. different personnel must perform the access authorisation and access administration roles; (e) require all access to ABCD Data be made using a valid user identification and password which must include at least one of a password, passphrase, two-factor authentication or a biometric value; (f) use industry standard password protection practices across general and administrator (privileged) accounts, including strong password policy and practices designed to maintain the confidentiality and integrity of passwords when they are assigned and distributed and during storage; (g) monitor repeated attempts to gain access to the information system using an invalid password and maintain industry standard procedures to deactivate passwords that have been corrupted or inadvertently disclosed; (h) use an authentication method based on the sensitivity of the relevant ABCD Data; and (i) if the authentication credentials are stored, the Supplier must protect those credentials using Strong Encryption.
9.	Logical Access Control

No. Information Requirement

	(a) The Supplier must: (i) enforce the rule of least privilege (i.e. limiting access to only the commands, information, systems and other resources necessary to perform authorised functions according to one's job function); (ii) maintain reasonable procedures to terminate access to ABCD Data provided for Supplier's Personnel and if relevant, any third parties; (iii) remove access to systems managing ABCD Data and collect provided ABCD assets (including laptops, mobile devices, smartphones, USB sticks, CDs/DVDs) from the individual within 24 hours of an employee, contractor, subcontractor or third party terminating their employment or engagement with the Supplier; (iv) remove access to systems managing ABCD Data within three business days when an employee or contractor changes job responsibilities within the organisation; (v) remove access to systems managing ABCD Data immediately and within one business day when a subcontractor or third party is no longer engaged in connection with the Agreement; (vi) routinely review and approve access to systems managing ABCD Data at least quarterly to remove unauthorised access; (vii) have systems and processes in place to terminate interactive sessions or activate a secure, locking screensaver requiring authentication, after a period of inactivity; and (viii) limit system administrator (also known as root, privileged or super user) access to the operating systems of applications and systems that capture, store or process ABCD Data to individuals requiring such high-level access in the performance of their jobs. (b) When remote connectivity is required for capturing, storing or processing of ABCD Data, the Supplier must use VPN services for the remote access with the following or similar capabilities: (i) connections must be encrypted using Strong Encryption; (ii) connections from ABCD or its customers to Supplier locations will only be established using the ABCD VPN services; or (iii) the use of multi-factor authentication is required. (c) The Supplier must prohibit and employ reasonable Security Measures to ensure that the Supplier and the Supplier's third parties accessing ABCD Data is not able to copy, move or store any information onto local hard drives, cut and paste or print ABCD Data.
--	---

No. Information Requirement

	(d) The Supplier must have a process in place to promptly identify any violations of the security controls including any Information Security Requirements by its Personnel and subcontractors.
10.	Information Systems Acquisition, Development and Maintenance (a) The Supplier must: (i) employ effective application management processes that incorporates applicable information technical and organisational Security Measures into the software development process; and (ii) ensure that information technical and organisational Security Measures, as represented in the Supplier's software development lifecycle or information security policies, standard and procedures are implemented in a timely manner. (b) The Supplier must comply with a standard development procedure that includes: (i) separate non-production information and resources from production information and resources; (ii) separate access and code between non-production and production environments and associated segregation of duties between such environments; (iii) secure coding practices carried out in accordance with industry-recognized leading practices (e.g., OWASP), including appropriate cryptographic controls, protections against malicious code and a peer code review process; and (iv) prohibition on using ABCD Data in any non-production environment without prior ABCD approval. (c) The Supplier must ensure internal information security controls for software development are regularly reviewed and assessed and reflect industry best practices. The Supplier must revise and implement these controls in a timely manner and on a needs basis as a security threat or risk is identified. (d) The Supplier must ensure that software, applications or services (including open source) are subject to a diligent review process whereby code is assessed for flaws, bugs or security issues that may impact data integrity, availability or any Security Measures intended to protect ABCD Data. (e) The Supplier defines the End of Life (EOL)/End of Support processes for all systems and applications which must also include date of EOL/EOS and any business triggers that may result in updated EOL/EOS date (f) Supplier ensures that reliable and approved hardware and software (i.e. open source and/or licensed) are acquired that follow consideration of security requirements.

No. Information Requirement

11.	Security Awareness and Education (a) Supplier shall have a defined program to provide periodic information security awareness training to Supplier's employees and contractors who will have access to ABCD application(s), systems and/or data. Where the Supplier's services include software development, Supplier training must include secure application development training to ensure Supplier developers are programming according to secure coding techniques and principles, and abiding to secure software development practices. (b) The security awareness program to include trainings that discuss key threats and corresponding mitigations in the vendor's industry that may apply to ABCD (c) Supplier's security awareness training program provides verifiable data by way of documentation — including training session attendance lists, certificates of completion, documented proof of teachable moments.
12.	Supplier Management (a) Supplier should operate a formal process to address due care and due diligence in the selection and management of their third-party vendors (i) These third-party vendors to sign agreements that specify the security requirements to be met before commencing work on behalf of vendor that could have an impact on ABCD business operations. (ii) These security requirements are aligned with the provisions expected of ABCD from vendor. (iii) All subcontracted activities involving ABCD information are approved and secured by vendor. (b) Supplier ensures a documented termination of service process is in place that ensures ABCD business data is recoverable if vendor terminates a service agreement with a third-party vendor. (c) Supplier addresses indemnification considerations with their third-party vendors that could have an impact on ABCD business operations with the vendor.
13.	Software and Data Integrity (a) If antivirus software is commercially available for an environment, the Supplier must, to the extent practicable, have appropriate antivirus software installed and operating to scan for and promptly remove or quarantine viruses and other malware from any system or device. (b) The Supplier must ensure all its Personnel use a documented change control process for all system changes, including back-out procedures for all production environments and emergency change processes. This includes testing, documentation and approvals for all system changes and require management approval for material changes.

No. Information Requirement

	(c) All software used, furnished and or supported under the Agreement, must be reviewed by the Supplier regularly (at least once every 6 months and immediately after any material changes) and security vulnerabilities remediated as soon as possible and in any case within 20 days of its identification. (d) The Supplier must perform quality assurance or validation testing for the security controls (e.g., testing of identification, authentication and authorisation functions), as well as any other activity designed to validate the security architecture, during initial implementation and upon any significant modifications and updates.
14.	Application & Platform System Security The Supplier must: (a) actively monitor industry resources for timely notification of all applicable security alerts pertaining to Supplier's systems and other information resources; (b) at least once every 3 months and prior to release for applications and for significant or material changes and any upgrades resulting from risk analyses, scan externally-facing and internally-facing systems and other information resources, with applicable industry-standard security vulnerability scanning software to uncover security vulnerabilities and ensure that such systems and other resources are properly hardened; (c) maintain a risk rating process for vulnerability assessment findings based on industry best practices and potential impact. All assessment findings with a CVSS score of 4 or higher must be addressed via a repeatable process; (d) ensure that all of Supplier's systems and supporting infrastructure and systems are and remain 'hardened' including, but not limited to, removing or disabling unused network and other services and products and installing a system firewall, Transmission Control Protocol (TCP) wrappers or similar technology; (e) deploy one or more Host Intrusion Detection Systems (IDS), Intrusion Prevention Systems (IPS) or Intrusion Detection and Prevention Systems (IDPS) in an active mode of operation that monitors all traffic entering and leaving systems in environments where such technology is commercially available and to the extent practicable; (f) conduct generalised penetration testing internally and externally at least once a year and immediately after any significant infrastructure or application upgrade or modification; (g) remove or disable unauthorised software discovered on Supplier's systems or devices and employ reasonable anti-virus controls, including the installation, regular update and routine use of anti-malware software products on all services, systems and devices that may be used to access to ABCD Data;

No. Information Requirement

	(h) maintain reasonably up-to-date software on all services, systems and devices that may be used to access ABCD Data, including appropriate maintenance of operating systems and successful installation of reasonably up-to-date security patches; and (i) carry out automatic virus and malware scanning checks on all e-mail attachments that are sent to or received from external sources.
15.	Security Gateways (a) The Supplier must have and use documented controls, policies, processes and procedures to ensure that unauthorised users do not have administrative and/or management access to Security Gateways and that user authorisation levels to administer and manage Security Gateways are appropriate. (b) At least once every six months, the Supplier must ensure that Security Gateway rulesets and configurations are reviewed and hardened by selecting a risk-based sample of Security Gateways. (c) The Supplier must ensure that monitoring tools are used to validate that all aspects of Security Gateways (e.g. hardware, firmware and software) are continuously operational.
16.	Network Security (a) At ABCD request, the Supplier must provide to ABCD a logical network diagram documenting systems and connections to other resources including routers, switches, firewalls, IDS, network topology, external connection points, gateways, wireless networks and any other devices that are used in connection with the Agreement. (b) The Supplier must maintain a formal process for approving, testing and documenting all network connections and changes to the firewall and router configurations. (c) The Supplier must configure firewalls to deny and log suspicious packets and implement restrictions to only allow appropriate and authorised traffic, denying all other traffic through the firewall. (d) At least once every six months, the Supplier must ensure that firewall rules and configurations are reviewed. (e) The Supplier must install a firewall at each Internet connection and between any demilitarised zone (DMZ) and the internal network zone. Any system storing ABCD Data must reside in the internal network zone, segregated from the DMZ and other untrusted networks. (f) The Supplier must have a documented process and controls in place to detect and handle unauthorised attempts to access ABCD network, systems and information.
17.	Connectivity Requirements

No. Information Requirement

	(a) If Supplier has or will be provided with connectivity to ABCD Data in connection with the Agreement, then the Supplier must: (i) only use agreed facilities and connection methodologies to interconnect ABCD Data resources with the Supplier's information resources; (ii) not establish interconnection to ABCD Data resources without ABCD's prior written consent; (iii) use equipment provided by ABCD under the Agreement (if any) for connectivity to ABCD Data resources for the purposes of performing the Supplier's obligations under the Agreement; and (iv) implement a Security Gateway and maintain logs of all sessions using such Security Gateway. These session logs must include sufficiently detailed information to identify the end user or application origination IP address, destination IP address, ports/service protocols used and duration of access. These session logs must be retained for a minimum of six months from session creation.
18.	Mobile and Portable Devices (a) The Supplier must use Strong Encryption to protect all ABCD Data: (i) stored, accessed or processed through mobile devices, laptops or removable devices; and (ii) transmitted using or remotely accessed by network-aware mobile or other portable devices. (b) The Supplier must have the following functionality available for mobile or other portable devices (except laptops) that store, access or process ABCD Data: (i) capable of remotely wiping or deleting all stored copies of ABCD Data; (ii) capable to automatically delete all stored copies of ABCD Data after an agreed amount of consecutive failed login attempts. (c) Prior to enabling access to ABCD Data stored on or through a mobile or other portable device, the Supplier must have and use a process to ensure that: (i) the user is authorised for such access; and (ii) the identity of the user has been authenticated. (d) The Supplier must implement a policy that prohibits the use of any mobile or other portable device that are not approved and or managed by the Supplier or ABCD to access and/or store ABCD Data.
19.	Security of information/data in Transit

No. Information Requirement

	(a) The Supplier must use Strong Encryption for the transfer of ABCD Data outside of a ABCD controlled or Supplier controlled network or when transmitting ABCD Data over any untrusted network, including use of email (and embedded attachments). (b) The Supplier must ensure records containing ABCD Data in paper format, microfiche or electronic media are transported by secured courier or other delivery method that can be tracked and packed securely. All ABCD Data must be transported in locked containers.
20.	Security of information/data at rest (a) The Supplier must: (i) use Strong Encryption to protect ABCD Data when stored; (ii) appropriately store and secure records containing ABCD Data in paper format in areas to which access is restricted to authorised personnel; and (iii) ensure that information systems, computers and software involved in the performance of the Supplier's obligations under the Agreement are backed up. Backups must be tested in accordance with operational backup standards. ABCD Data that is stored on backup media, must be encrypted using strong encryption standards. Where applicable, backup media that leaves the Supplier's Premise must be protected against unauthorised access, misuse or corruption during transportation. (b) The Supplier must not store ABCD Data: (i) electronically outside of the Supplier's network environment (■ ■ ■ ■ ■ own secure computer network) unless the storage device (e.g. backup tape, laptop, memory stick, computer disk, etc.) is protected by Strong Encryption; and (ii) on removable media (e.g. USB flash drives, thumb drives, memory sticks, tapes, CDs or external hard drives) except: (A) for backup, business continuity, disaster recovery and data interchange purposes as allowed and required under contract and (B) when using Strong Encryption.
21.	Incident Response and Notification (a) The Supplier must have documented Cyber Security Incident and Data Security Incident response procedures that enable the effective and orderly management of incidents. The procedures must cover the reporting, analysis, monitoring and resolution of incidents. (b) After notifying ABCD in accordance with the Agreement, the Supplier must provide ABCD with regular status updates, including, but not limited to, what ABCD Data has been impacted, actions taken to resolve such incident, at agreed intervals or times for the duration of the incident and as soon as reasonably possible after the closure of the

No. Information Requirement

	incident, provide ABCD with a written report describing the incident, actions taken by the Supplier during its response and Supplier's plans for future actions to prevent a similar incident from occurring.
(c)	In the event of a Data Security Incident, the Supplier must provide █████ with the ABCD Data that was impacted and agree a plan for communication with persons affected by the Data Security Incident. To the extent permissible by Law, the Supplier must not communicate with persons affected by the Data Security Incident without ABCD prior written consent.
(d)	The Supplier must verify any reported Cyber Security Incidents and Data Security Incidents and analyse to determine its impact. All confirmed incidents must be classified, prioritised and logged. Cyber Security Incidents and Data Security Incidents should be handled by a dedicated Cyber Security Incident and Data Security Incident response team or Personnel who are trained in handling and assessing security incidents in order to ensure appropriate procedures are followed for the identification, collection, acquisition and preservation of information.
(e)	The Supplier must regularly (and at least once a year) comprehensively test its Cyber Security Incident and Data Security Incident management plan, this test must review the applicability and effectiveness of the overall process and the detection, prevention and recovery technologies & business processes.
(f)	At ABCD request, the Supplier must provide ABCD with a copy of its Cyber Security Incident and Data Security Incident management plan and evidence that it has been regularly tested from an applicability and effectiveness perspective and has been updated to account for test outcomes (if any). At ABCD request, the Supplier must provide the results of the tests and the remediation plans test outcomes (if any) with ABCD.

Schedule 8

Governance and Risk Management

Forum	Forum Focus and Outcomes	Timing	XYZ Participants	ABCD Participants
Transition Steering Committee	• Provide Written Program Status Report ◦ Outline Progress on Key Deliverables ◦ Outline Next steps ◦ Update Plan on a Page ◦ Outline Interdependencies • Outline Risks and Issues • Outline Decisions Required • Update from Quality Assurance • Discuss Other Business Outcomes: • Agreement on plan • Advise on risks and issue mitigation strategies • Remove roadblocks impacting transition timelines	Weekly for duration of Transition Period, ending on the Final Handover Date	• Service Delivery Manager • Delivery Executive • Transition Manager • Account Executive • Project Manager • Enabling Functions leads	• G/Chief Operating Officer • G/Chief Information Officer • Program Manager • Other Managers (as required)
Transformation Steering Committee	• Align on Digital interventions requirements • XYZ to show their capabilities (new and existing) • Agree on tech architecture on projects • Any roadblocks to be cleared • Timelines for deployments • Outline Risks and Issues • Outline Decisions Required • Discuss Other Business Outcomes: • Agreement on plan	Monthly	• Transformation/Capability Lead • Delivery Lead • Enabling Functions leads • Account executive	• G/Chief Operating Officer • G/Chief Information Officer • Program Manager • Other Managers (as required)

Forum	Forum Focus and Outcomes	Timing	XYZ Participants	ABCD Participants
Executive Review Committee	- Advise on risks and issue mitigation strategies - Align on value delivery on both sides An Executive Review Committee meeting is to occur quarterly and focus on the following: - Review of service delivery against performance standards/SLAs for the past quarter - Update SOW, including adjustment of Service Levels where appropriate - XYZ update on the delivery of key strategic priorities, key operational priorities and continuous improvement activities - Review progress and resolution of significant issues or disputes between the parties, and agree an action plan for issue resolution - Review risks, issues, failed controls, compliance breaches, complaints or incidents and agree mitigation strategies and timeframes - Provide input and guidance on implementation of strategic and operational priorities for the next 6-12-month period - Agree key operational and continuous improvement priorities for the next quarter - Discuss competitive insights, ideas or innovations - Update regarding Business Continuity and Disaster Recovery Plan Update and test results - Discuss the transformation co creation journey - Discuss any Supplier failures to comply with an Approved Process Outcomes: - XYZ prepared Quarterly Executive Review Committee Pack	Quarterly	- Business Unit Head - Horizontal Head Delivery Executive - Account Executive - Service Delivery Manager - Enabling functions executives	- G/Chief Operating Officer - R/CFOs - G/CISO - G/CIO - G/CDO - G/CFO - Program Manager - Other Managers (as required)Other Managers (as required)

Forum	Forum Focus and Outcomes	Timing	XYZ Participants	ABCD Participants
	• Ensure both parties are aligned to strategic goals and plans • Provide leadership and guidance to the relationship • Resolve any conflicts in the context of spirit of partnership			
Executive Review Committee	An Executive Review Committee meeting is to occur annually and focus on the following: Must be completed at least two months before ABCD budget planning cycle: • XYZ provide summary review of performance of Services during the previous 12 months • Discuss assessment and strategic analysis of the Services and the ABCD business environment, including: 1. trend analysis in relation to the Services; and 2. analysis of any significant issues that have been experienced in relation to the Services during the previous 12 months; • ABCD discuss their short term and long-term goals and plans and the expected business outcomes and benefits • ABCD discuss potential budgets, resources and dependencies • Review XYZ forecasts, strategy, competitive insights, issues, and identification of the impact, if any, on the Services; • Review and update Roadmaps for all towers. • Discuss proposed improvements, upgrades and changes to the Services based on the outcomes of the above reviews and analysis, including in relation to the business processes, methodologies, standards, tools, technologies and management processes • Present business case for any recommendations, action items, priorities and approvals that may warrant gain-share. Outcomes:	Annually	• Executive sponsor (CBO) • Business Unit Head • Account Executive • Delivery Executive • Service Delivery Manager • Enabling Units executives	• G/Chief Operating Officer • R/CFOs • G/CISO • G/CIO • G/CDO • G/CFO • Program Manager • Other Managers (as required)

Forum	Forum Focus and Outcomes	Timing	XYZ Participants	ABCD Participants
	- XYZ prepared Annual Executive Review Committee Pack - Bring process maturity - Bring insights and advise on issues and risk mitigation strategies - XYZ's readiness to support ABCD annual business plans - Determine future opportunities with mutual benefits for both parties			
Monthly Operational Management Committee (per tower)	- Monthly operational review of service delivery against the performance standards set out in the Agreement, including volumetrics - Discuss any Supplier failures to comply with an Approved Process - Discuss draft Service Levels with a view to developing the Service Levels which will apply to each Statement of Work - Discuss any failures of ABCD to comply with acceptance process. - Oversee and provide guidance on day to day delivery of services - Plan continuous improvement activities - Discuss and plan legislative and regulatory changes - Determine operational priorities - Provide Change Control Board approvals - Resolve service delivery risks, issues, failed controls, compliance breaches, complaints or incidents and agree mitigation strategies and timeframes - Review Quality Assurance Reports and mitigating actions - Review any failures in Services - Resolve Service Level issues	Monthly	- Account Executive - Service Delivery Manager - Risk & Compliance Manager - Program Manager	As relevant: - R/CFOs - G/CISO - G/CIO - G/CDO Standing invite set for, but not required for all meetings: - G/Chief Operating Officer - G/CFO - Program Manager - Other Managers (as required)

Forum	Forum Focus and Outcomes	Timing	XYZ Participants	ABCD Participants
	- Monitor calendar of scheduled reviews of Policies, Business Rules and Operational Guidelines <i>For ICT Tower:</i> review and update of operational systems/applications SOW Outcomes: - XYZ prepared Monthly Operational Management Committee Pack - Bring maturity in processes to improve operational metrics - Advise on issues and risks mitigation strategies - Ensure continuous improvement as set out in MSA			
Weekly Operations Review	- Weekly operational review of service delivery against performance standards set out in the Agreement, including volumetrics - Review of performance and compliance dashboards resulting from daily operations - Notification, resolution and reporting of service delivery risks, issues, failed controls, compliance breaches, complaints or incidents - Discuss progress on delivery of continuous improvement activities, legislative / regulatory changes - Approval of Operational Change Requests (changes that are not subject to Change Control Board approvals that are contained within Schedule 10 (Projects)) - Oversee and provide guidance on day to day delivery of the Services - Continuously develop and utilise data from live (and manual) reporting platforms (view to build in powerBI)	Weekly	- Service Delivery Manager - Risk & Compliance Manager	- R/CFOs and/or senior leaders - G/CISO and/or senior leaders - G/CIO and/or senior leaders - G/CDO and/or senior leaders - Other Managers (as required) Standing invite set for, but not required for all meetings: - G/Chief Operating Officer

Forum	Forum Focus and Outcomes	Timing	XYZ Participants	ABCD Participants
	Outcomes: • XYZ prepared Weekly Operations Pack • ABCD provide guidance and direction • Ensure operations are smooth and efficient • Ensure issues and risks are identified and addressed in timely fashion • Provide insights on process and knowledge gaps			• Program Manager

Schedule 9

Change Management

1. Definitions

In this Schedule:

- (a) **Change Control Procedure** means the procedures set out in sections 3.1 to 3.6 of this Schedule;
- (b) **Change Request Log** has the meaning given in section 5.2(a) of this Schedule;
- (c) **Detailed Specification Report** means a report on the impact of a proposed Change developed by the Supplier in accordance with section 3.4 of this Schedule;
- (d) **Preliminary Specification Report** means a report on the impact of a proposed Change prepared by Supplier in accordance with section 3.2 of this Schedule; and
- (e) **Project** means Additional Services.

2. General

2.1 Application of Change Control Procedure

- (a) This Schedule describes the process that the parties must follow in order to implement any of the following:
 - (i) a change to the nature, level and/or extent of any Services (including but not limited to changes in the FTEs, volumes, Service Levels or the manner in which the Supplier provides or is to provide the Services;
 - (ii) a change to the nature, level and/or extent of any Service Levels under any annual review process contemplated in section 9 (Annual review) (**Service Level Methodology**); and
 - (iii) a change to implement a Project,(each a "Change" for the purposes of this Schedule).
- (b) The Change Control Procedure applies to all Changes contemplated in paragraph (a). For Projects, the requirements set out in section 4 of this Schedule apply in addition to the requirements of the Change Control Procedure.

2.2 Each party to bear its own costs

Each party shall be responsible for all costs and expenses that it (or any of its Personnel) incurs in participating in, and performing its responsibilities and obligations under, the Change Control Procedure, unless expressly agreed otherwise in writing by both parties.

2.3 Overview of the Change Control Procedure

Without limiting section 3, in summary the Change Control Procedure includes at a minimum:

- (a) reviewing each Change Request to determine whether a proposed Change is appropriate;

- (b) determining whether a proposed Change is expanding, decreasing or otherwise adjusting the scope of the Services;
- (c) preparing a detailed proposal to implement a Change Request;
- (d) prioritising and re-prioritising Change Requests;
- (e) tracking and monitoring Change Requests; and
- (f) creating a cost/price estimate and allocating responsibility for funding by the parties.

2.4 Change control requirements

The Supplier must comply with the following requirements:

- (a) Prior to implementing any Changes to the Services or manner in which the Supplier provides or is to provide the Services, Supplier must ensure that:
 - (i) such Changes comply with ABCD Policies (as contemplated in clause 29.6(a) of the Agreement) and the technical architecture specified by ABCD (if any).
- (b) No Change to the manner in which the Supplier provides or is to provide the Services, or the means used to perform the Services, may be implemented without ABCD prior written approval except as may be necessary on a temporary basis to maintain the continuity of the Services, Supplier shall document and provide to the ABCD Representative a notification of the Change no later than the next Business Day after the Change is made (such notification may be given verbally, provided that any verbal notice must be confirmed in writing to ABCD Representative within 5 Business Days of the Change).
- (c) With respect to Changes, the Supplier must:
 - (i) schedule and implement Changes so as not to unreasonably interrupt ABCD business operations;
 - (ii) prepare and deliver to ABCD each month during the Term a rolling schedule for ongoing and planned Changes for the following three-month period; and
 - (iii) monitor the status of Changes against the three-month rolling schedule.

3. Change Control Procedure

3.1 Change Request

- (a) Either the Supplier or ABCD (or a ABCD Group member) may initiate a Change by delivering to the other's Representative or his/her nominated representative a Change Request that describes the proposed Change and sets out the basis for such Change. The Supplier shall assign a unique number to any such request and shall register the Change Request in the Change Request Log.
- (b) Each party's respective Representative or his/her nominated representatives shall be responsible for reviewing and considering any Change Request.
- (c) If the parties agree, or ABCD requires, that a Change Request be subject to further investigation, then the Supplier must develop and submit to ABCD a Preliminary Specification Report under section 3.2 of this Schedule.

- (d) If the Representatives agree to proceed with a Change prior to the development of a Preliminary Specification Report, the Supplier must in any event prepare a Preliminary Specification Report and other documentation as reasonably required by ABCD to complete the Change Request and submit such Preliminary Specification Report and other appropriate information for ABCD review and approval.
- (e) If the parties agree not to proceed with a Change in accordance with this Schedule, the Representatives shall close the Change Request and update the Change Request Log appropriately.
- (f) The Representatives shall be responsible for keeping the status of each Change Request current in the Change Request Log as the Change Request progresses through the Change Control Process.

3.2 Preliminary Specification Report

- (a) For each Change Request, the Supplier must prepare and submit to ABCD a Preliminary Specification Report within 5 Business Days (or such other period as agreed) of:
 - (i) the parties agreeing, or ABCD requiring, that a Preliminary Specification Report be produced; or
 - (ii) the Representatives agreeing to proceed with a Change,
 whichever is the earlier to occur.
- (b) Such Preliminary Specification Report must contain, to the extent relevant:
 - (i) estimated changes in the Charges, if any and any other costs to ABCD associated with the proposed Change;
 - (ii) estimates of any applicable benefit to ABCD;
 - (iii) ramifications and impacts of such proposed Change on the Services including Service Levels;
 - (iv) a Transition Plan for implementing the Change (if requested by ABCD or otherwise determined by the Supplier to be required);
 - (v) the timeframe for implementing the proposed Change (including any timing constraints);
 - (vi) the preliminary technical or business case for the proposed Change, including any changes, additions, or deviations from policies, standards and procedures of Supplier or ABCD that would be required to implement the proposed Change;
 - (vii) the resources (including human resources, hardware, software and other equipment) required or no longer required for implementing the proposed Change and who is responsible for payment for these; and
 - (viii) an initial analysis of the potential risks (if any) to ABCD or the Supplier if the proposed Change is or is not implemented.
- (c) ABCD must provide any information and cooperation that is reasonably requested by the Supplier and necessary to enable the Supplier to develop a Preliminary Specification Report.

3.3 Preliminary Specification Report Review

- (a) ABCD and the Supplier shall review the Preliminary Specification Report and ABCD shall either:
 - (i) instruct the Supplier to prepare a Detailed Specification Report under section 3.4 of this Schedule;
 - (ii) notify Supplier that it does not wish to proceed with the proposed Change, or
 - (iii) notify the Supplier that it wishes to proceed with the proposed Change, in which case:
 - (A) the Preliminary Specification Report will be attached to, and form part of, the Change Request to which it relates; and
 - (B) the parties must execute the applicable Change Request under section 3.6 of this Schedule.

3.4 Detailed Specification Report

- (a) Where ABCD has instructed the Supplier to prepare a Detailed Specification Report, within 20 Business Days (or such other period as agreed) after receiving such instruction, the Supplier must prepare and submit a Detailed Specification Report including an assessment of its impact on the following elements of the Agreement, to the extent relevant:
 - (i) scope of the affected Services;
 - (ii) the Service Levels, if applicable;
 - (iii) ramifications and impact of such Change on the Services (including details of any expansion, reduction or other variation of scope);
 - (iv) any applicable benefit to ABCD;
 - (v) change to the Charges, if any;
 - (vi) any other costs to ABCD other than the Charges;
 - (vii) the resources (including human resources, hardware, software and other equipment) required or no longer required for implementing the Change and who is responsible for payment for these;
 - (viii) timelines, Milestones and delivery dates for the Change;
 - (ix) evaluation testing, development, acceptance testing period, acceptance testing and acceptance criteria (which must be included in the final Change Request);
 - (x) disaster recovery plan and changes to the Disaster Recovery Plan;
 - (xi) impact to, additions to or deletions of, any third party contracts;
 - (xii) any impact on ABCD, Supplier's or any third party's software, hardware, systems, business operations, personnel requirements or other services;
 - (xiii) any related technical or human resource procedures;

- (xiv) any impact to the Disengagement Assistance;
 - (xv) any additional contractual terms and conditions which would apply to the Change, and/or any changes to the contractual terms and conditions of this Agreement;
 - (xvi) a detailed analysis of the potential risks to ABCD or the Supplier if the Change is not implemented; and
 - (xvii) any other matter reasonably requested by ABCD or reasonably considered by Supplier to be relevant to the evaluation of the Change.
- (b) ABCD must provide any information and cooperation that is reasonably requested by the Supplier and necessary to enable the Supplier to develop a Detailed Specification Report.

3.5 Detailed Specification Report Review

- (a) ABCD shall review each Detailed Specification Report submitted by the Supplier in accordance with section 3.4 of this Schedule and, by no later than 20 Business Days (or such other period as agreed) after receipt of the Detailed Specification Report, will notify the Supplier:
- (i) that it approves the Detailed Specification Report, in which case:
 - (A) the Detailed Specification Report will supersede the Preliminary Specification Report and will be attached to, and form part of, the Change Request to which it relates; and
 - (B) the parties must execute the applicable Change Request in accordance with section 3.6 of this Schedule;
 - (ii) that ABCD does not wish to proceed with the proposed Change, in which case no further action shall be taken in respect of that Change;
 - (iii) that it requires further information before deciding whether to proceed with the Change, in which case the Supplier must provide any additional information reasonably required by ABCD. Following receipt of that information ABCD must review the Detailed Specification Report and issue a further notice to the Supplier in accordance with this clause; or
 - (iv) that it requires changes to the Detailed Specification Report, in which case the Supplier must promptly update the Detailed Specification Report to address those changes and resubmit it to ABCD for review in accordance with this clause.

3.6 Execution of Change Request

- (a) If ABCD:
- (i) notifies the Supplier that it wishes to proceed with the proposed Change following receipt of a Preliminary Specification Report as contemplated in section 3.3(a)(iii) of this Schedule; or
 - (ii) approves a Detailed Specification Report as contemplated in section 3.5(a)(i) of this Schedule,

then each party must ensure the applicable Change Request is executed by its authorised representative. Each executed Change Request will vary and form part of this Agreement.

- (b) Neither party shall have any obligation to commence or comply with any Change Request, perform services that would be covered by any Change Request, or pay any Charges that would be covered by any Change Request, until such time as the parties' authorised representatives have executed the Change Request.

3.7 Change Request Template

A template form to be used for all Change Requests is set out in Appendix 9b (Change Request Template).

4. Projects

4.1 Project requests

- (a) ABCD may request that the Supplier undertake Projects in accordance with this Agreement. A template form of Change Order for Projects is set out in Appendix 9a (Project Change Order Template).
- (b) Requests for Projects will be submitted by ABCD and processed through the Change Control Procedure.
- (c) Upon receipt of the Change Order for Projects, the Supplier must prepare a detailed draft Project SOW in the form set out in Schedule 3 (Template Project Statement of Work) (**Draft Project SOW**) and submit the Draft Project SOW to ABCD within 10 Business Days of the Supplier's receipt of the Change Order for Projects (or such other period as may be agreed). The Draft Project SOW must at a minimum contain the following information:
 - (i) a description of the relevant Additional Services;
 - (ii) a project plan setting out the stages and timing for implementation and any acceptance criteria and processes;
 - (iii) an outline of the fees for the Additional Services based on the fee basis nominated by ABCD (being either fixed price or time and materials based on the Standard Rates);
 - (iv) any ABCD resources or other inputs that are required; and
 - (v) any gainshare model that might apply to the Additional Services.
- (d) ABCD will review the Draft Project SOW provided by the Supplier as promptly as possible and may request changes to the Draft Project SOW. The parties agree to negotiate any changes required by ABCD in good faith.
- (e) The Supplier must work with the ABCD Governance organisation and the Project requestor to ensure the justification and authorisation steps are followed.

4.2 Acceptance Test Plan for Projects

- (a) The Acceptance Test Plan applicable to the Deliverables for a Project must be either:
 - (i) set out in the applicable Change Request; or

- (ii) developed by the Supplier in accordance with clause 26 (Acceptance process) of the Agreement and submitted to ABCD by the due date specified in the Change Request.

4.3 Agreement to proceed

- (a) If ABCD wishes to engage the Supplier for a Project, the parties will promptly sign the agreed SOW following which the Supplier must provide the Additional Services in accordance with the SOW and the rest of this Agreement.
- (b) A SOW will not be binding on ABCD (and ABCD will have no liability to pay any fees for Additional Services described in a SOW) unless that SOW has been signed by

ABCD.

- 4.4 ~~Revised acceptance of Project submitted to ABCD~~ If the Supplier does not respond in writing within the relevant period specified in clause 26 (Acceptance process) of the Agreement, the Supplier may escalate the matter to the appropriate Governance Forum.

5. **Change Management Tracking and Reporting**

5.1 Change Management Reporting

The Supplier must provide ABCD as part of the monthly report specified in Schedule 8 (**Governance and Risk Management**), a summary specifying the status of all pending Change Requests.

5.2 Change Request Log

- (a) The Supplier must maintain a historical record of Change Requests and Changes throughout the Term (**Change Request Log**). The Change Request Log must include the following level of detail:
 - (i) control number and date of the Change Request;
 - (ii) name of the party requesting the Change;
 - (iii) brief description of the Change Request;
 - (iv) current status of the Change Request; and
 - (v) date of the Change Request, as applicable.
- (b) The status of the Change Request at any stage in the Change Control Procedure shall be categorised as one of the following:
 - (i) "Open" (i.e., the Change Request has been created and registered);
 - (ii) "In Review" (i.e., the Change Request has been created and is being reviewed pending approval to proceed);
 - (iii) "Approved" (i.e., the Change Request has been approved and is awaiting implementation);
 - (iv) "On Hold" (i.e., the parties wish to suspend implementation of the Change but anticipate the Change be implemented at a later date);

- (v) "Closed" (i.e., all implementation tasks have been completed and the Change has been implemented); or
- (vi) "Rejected" (i.e., closed and not implemented).

Appendix 9a (Project Change Order Template)

Project Change Order

This Change Order is issued by ABC Management Group Pty Ltd “ABCD” to XYZ Global Services (UK) International Limited “Supplier” in accordance with the Master Services Agreement dated on or around 19 January 2024 (**Agreement**).

Capitalised terms that are used but not defined in this Project Change Order have the defined meaning given to those terms in the Agreement.

PART A – Project Change Order details *[ABCD to populate]*

Title	<i>[Insert title]</i>
Change Order number	<i>[Insert number]</i>
Overview of Project	<i>[Insert a summary of the Project]</i>
Project objectives	<i>[Insert a summary of the reasons for implementing the Project]</i>
ABCD requestor	<i>[Insert title]</i>
Effective Date	<i>[Insert]</i>

PART B – Preliminary Specification Report *[Supplier to populate to the extent not populated by ABCD]*

Scope of Project Services and Deliverables	
Scope of Project Services	<i>[Insert a description of the Services to be performed by the Supplier. It may be convenient to include the scope of work in an Attachment to this Change Order and reference that Attachment here.]</i>
Deliverables	<i>[Insert details of the Deliverables to be delivered by the Supplier, and the requirements that those Deliverables must meet. It may be convenient to include those details in an Attachment to this Change Order and reference that Attachment here.]</i>
ABCD responsibilities	<i>[Insert details of any activities to be performed, or Materials to be supplied, by ABCD.]</i>
Scoping documents	<i>[To the extent not already incorporated above, attach and reference any relevant scoping documents, including:</i> <i>• designs;</i> <i>• specifications/ requirements; and</i>

	• RACIs.]																				
Acceptance Testing	<i>[If an Acceptance Test Plan has been agreed, attach and reference it here. If it hasn't been agreed, specify by when it has to be developed and submitted to ABCD in accordance with clause 26 of the Agreement.]</i>																				
Fees																					
Basis of charging Fees	☐ Fixed Fee ☐ Time and materials

Schedule 10

Disengagement

A Scope of Disengagement Assistance

Disengagement Assistance that ABCD may request under clause 49.8 includes:

- 1.1 the Supplier continuing to perform any or all of the Services;
- 1.2 developing or modifying, together with ABCD, a plan for the continuity and orderly transition of responsibility for the Services to ABCD or another person or the replacement of the Services or some components of the Services by ABCD or another person;
- 1.3 providing technical information about the Services, such as data formats and fields (including database schema), interface specifications and business rules;
- 1.4 providing data conversion assistance, including the extraction, transformation and the loading of the data;
- 1.5 providing access to equipment, systems and documentation;
- 1.6 delivering data, documentation, records or property in the Supplier's possession or control to ABCD or its nominee;
- 1.7 providing reasonable training in relation to the Services to ABCD or its nominee;
- 1.8 arranging or procuring the secondment from time to time of suitably qualified personnel as are reasonably required by ABCD in connection with the transition process;
- 1.9 using its best endeavours to cause any subcontractor of the Supplier or other third parties which are utilised by the Supplier in the provision of the Services, to enter into agreements with ABCD or its nominee on terms and conditions no less favourable than those offered to the Supplier; and
- 1.10 novating or assigning or securing the novation or assignment of any contracts with the subcontractors of the Supplier or other third parties which are utilised by the Supplier in the provision of the Services.

B. Fees for Disengagement Assistance

- 1.1 To the extent that the Supplier can perform the Disengagement Assistance using the Supplier's Personnel assigned to the Services during the period for the performance of the Disengagement Assistance and without adversely affecting the Supplier's ability to meet its performance obligations, then the Supplier will perform such services at no additional charge to ABCD.
- 1.2 If the Disengagement Assistance requested by ABCD cannot be provided in accordance with section 1.1 of this Schedule 10, the Supplier will promptly notify ABCD and ABCD may:
 - (a) withdraw its request for such Disengagement Assistance;
 - (b) forego or delay any work activities or temporarily or permanently adjust the work to be performed by the Supplier or the Service Levels to permit the performance of such Disengagement Assistance, in which case there will be no additional charge; or

- (c) authorise the Supplier to use additional Supplier Personnel not assigned to the Project to perform the Disengagement Assistance, in which case the Supplier may charge time and materials.

- 1.3 Where ABCD terminates this agreement under clause 49.4 (Termination of Agreement for material breach) and clause 49.6 (Other termination rights), the Fees set out in section 1.1 of this Schedule 10 do not apply and the Supplier will provide the Disengagement Assistance at its own expense.

Schedule 11

Parent Company Guarantee

To: ABC Management Group Pty Ltd ABN 52 005 000 895
(**ABCD**)

[insert date]

ABCD entered into the Master Services Agreement dated 19 January 2024 (**Agreement**) with XYZ Global Services (UK) International Limited (**Supplier**). Under the Agreement, the Supplier will provide various services and deliverables (together, the Supplies) upon and subject to the terms and conditions contained in the Agreement and related Statement(s) of Work.

The Supplier has agreed to procure a guarantee from XYZ (Holdings) Limited, a company incorporated in Jersey with company number 82262 whose registered office is at 22 Grenville Street, St Helier, Jersey JE4 8PX, Channel Islands (**Parent Company**) on the terms of this Guarantee. At the request of the Supplier, Parent Company has agreed to guarantee the Guaranteed Obligations as set out in this Parent Company Guarantee (**Guarantee**).

In consideration of ABCD entering into the Agreement and any Statement of Work with the Supplier, Parent Company irrevocably and unconditionally guarantees to ABCD as a primary obligation and not as surety, due performance of the Guaranteed Obligations.

Parent Company indemnifies ABCD against all liabilities, losses, damages, costs and expenses suffered or incurred by ABCD by reason of any act, failure, default or omission on the part of the Supplier in performing and observing its obligations under and in accordance with the Agreement or any Statement of Work.

For the purposes of this Guarantee:

- **"Guaranteed Obligations"** means all obligations of the Supplier under the Agreement and any related Statement of Work, together with all obligations owed by the Supplier to ABCD that are supplemental to, incurred under, ancillary to or calculated by reference to the Agreement or any related Statement of Work. To the extent that the Guarantee relates to Supplier's performance (as opposed to financial) obligations under the Agreement, the Parent Company's obligations shall be to perform, or procure that a member of the Parent Company's Group shall perform, the obligations in respect of performance under the Agreement.
- **"Group"** means, in relation to any company, any other person or entity that directly or indirectly Controls, is Controlled by, or is under common Control with such company (where Control has the meaning provided in the Corporations Act 2001 (Cth))

Parent Company obligations under this Guarantee shall remain in full force and effect and shall not be affected or discharged in any way by (and any right to notice is waived):

- (c) any suspension of the services and/or deliverables, variation to or amendment the Agreement or a Statement of Work or any concession or waiver by in respect of the Supplier's obligations under the Agreement or a Statement of Work;
- (d) any provision of the Agreement or any Statement of Work being or becoming illegal, invalid, void, voidable or unenforceable;
- (e) the termination of the Agreement or any Statement of Work (whether in part or in whole);

- (f) any forbearance or waiver of any right of action or remedy ABCD may have against the Supplier or negligence by ABCD in enforcing any such right of action or remedy; or
- (g) any bond, undertaking, security or other guarantee held or obtained by ABCD for any of the obligations of the Supplier under the Agreement or a Statement of Work or any associated release or waiver.

This Guarantee shall extend to any variation of or amendment to the Agreement or a Statement of Work.

This Guarantee is a continuing guarantee and accordingly shall cover all of the Guaranteed Obligations and remain in full force and effect until all the obligations and liabilities of the Supplier have been carried out, completed and discharged.

This Guarantee is in addition to any other security which ABCD may at any time hold and may be enforced without first having recourse to any such security or taking any steps or proceedings against the Supplier.

Parent Company agrees not to make any claim or threaten to make any claim on any ground whatsoever whether by proceedings or otherwise against the Supplier for the recovery of any sum paid by ABCD pursuant to this Guarantee. Any such claim shall be subordinate to any claims (contingent or otherwise) which ABCD may have against the Supplier arising out of or in connection with the Agreement or any Statement of Work, until such time as such claims shall be satisfied by the Supplier or Parent Company as the case may be. Accordingly, Parent Company shall not claim or have the benefit of any security which ABCD holds or may hold for any monies or liabilities due or incurred by the Supplier in respect of any payment under this Guarantee. Parent Company shall hold such sum in trust for ABCD for so long as any sum is payable (contingently or otherwise) under this Guarantee.

ABCD may assign the benefit of this Guarantee to another member of the ABCD Group at any time without consent.

Any notice required by this Guarantee shall be deemed to be duly given when delivered (in the case of personal delivery) or forty-eight (48) hours after being despatched by prepaid registered post or recorded delivery (in the case of letter) or as otherwise advised by and between the parties.

This Guarantee shall be governed by and construed according to the Laws in the State of Queensland and Parent Company agrees to submit to the exclusive jurisdiction of the courts of Queensland.

Capitalised terms, unless defined in this document, have the meaning given to those terms under the Agreement.

This document may be executed in counterparts. Delivery of a counterpart of this document by email attachment constitutes an effective mode of delivery.

This Guarantee is executed as a deed.

Schedule 12

Supplier Code of Conduct

Supplier Code of Conduct – Global

1. Introduction

At ABCD, we strive to always conduct business safely, with integrity, and in line with principles outlined in this Supplier Code of Conduct (**Code**). ABCD expects:

- its suppliers;
- members of its supply chain; and
- any third parties subcontracted by its suppliers or which otherwise support ABCD suppliers in providing goods or services to ABCD,

to respect and comply with this Code, including where suppliers are providing services to or on behalf of ABCD requires its suppliers to comply with all applicable laws and regulations. For clarity, the expectations in the Code are additional to and do not in any way derogate from or override the suppliers' regulatory, legal, contractual or other obligations.

ABCD suppliers should provide this document to their own suppliers, subcontractors and third parties who support the supplier for the purposes of providing goods or services to ABCD, so that these third parties understand and can comply with this Code.

ABCD may review and amend this Code from time to time. ABCD suppliers must consider and adapt (as necessary) their procedures and activities where this Code is updated from time to time.

ABCD suppliers are encouraged to exceed the standards provided in the Code.

2. Safety

Safety is vital to ABCD expects its suppliers to:

1. comply with all workplace health and safety laws and regulations;
2. at all times provide and maintain a safe working environment;
3. implement appropriate policies and systems aimed to protect health and safety of all persons;
4. appropriately assess, manage and mitigate safety risks and incidents to its personnel and any person that may be impacted by their activities; and
5. keep informed of workplace health and safety legislation and update its policies and ways of working to ensure continued compliance legislation and regulation.

Suppliers performing work at ABCD sites must comply with all safety policies and requirements that ABCD may reasonably request or implement from time to time.

3. Integrity

ABCD expects its suppliers to act honesty and with integrity. ABCD suppliers must:

1. take reasonable steps to ensure that their business and supply chain do not engage in any modern slavery practices;
2. act in a manner that is consistent with recognised international human rights;
3. not support or engage in discrimination;

4. take all reasonable steps to manage conflicts of interest (whether actual or perceived);
5. not participate in or commit bribery, fraud, money-laundering or corruption;
6. ensure that policies and procedures are implemented to prevent bribery, fraud, money-laundering and corruption by the business or its personnel;
7. not take any actions that could result in damage to ABCD reputation;
8. implement a diligent approach to confidentiality and the protection of information and data accessed in the course of its business;
9. treat employees and contractors fairly and respect workers' rights and entitlements; and
10. act, and ensure their personnel act, respectfully towards ABCD employees and contractors as well as third parties when acting on behalf of ABCD.

4. Environment, Sustainability and Culture

ABCD aims to support the environment and welfare of communities. ABCD suppliers must:

1. seek to consider and improve environmental and sustainability outcomes;
2. keep informed and comply with any applicable environmental, sustainability laws and regulations; and
3. be aware of Indigenous communities and cultural heritage.

5. Human rights

ABCD suppliers are expected to provide goods and services in a manner consistent with any applicable human rights obligations.

Consistent with relevant modern slavery legislation, suppliers are expected to proactively identify, address, mitigate and (where required by legislation or by contract) report on risks of modern slavery practices (defined broadly to include all forms of human trafficking, forced labour and slavery-like practices) in their business operations and supply chains.

6. Management

ABCD suppliers must use reasonable efforts to ensure that their suppliers comply with this Code. ABCD suppliers should ensure that their systems and policies are sufficient to comply with this Code.

ABCD has the right to review its suppliers' procedures and policies related to compliance with this Code. ABCD suppliers agree to cooperate with ABCD where ABCD seeks to assess the relevant supplier's compliance with this Code, including providing any relevant information reasonably requested by ABCD.

7. Concerns and breach of this Code

ABCD suppliers must notify ABCD if there is any suspected or actual breach of this Code. Any such notifications or other concerns relating to this Code may be directed to the eligible recipients to receive a whistleblower report under ABCD Whistleblower Policy.

1. Objective of the BCM Program at XYZ

XYZ objective of the BCM program is to minimize the occurrence of disruptive events by making appropriate investments in infrastructure, developing measures for recovering critical infrastructure and resuming clients' critical operations, should such a disruptive event occur.

2. Approach

XYZ has implemented an organization-wide Business Continuity Management ('BCM') framework which includes continual self-assessment, strategy formation, execution, and review cycle. The company's Business Continuity Strategy ('BCS') leverages on its multi-location set up for operational and technological recovery needs in the event of a disaster. XYZ' approach to Business Continuity Planning ('BCP') involves risk avoidance and mitigation measures for disruptive events categorized under High Frequency Low Severity and Low Frequency High Severity.

XYZ' business continuity plans cover both technological and non-technological facets of business recovery, which are devised basis the probability and impact of occurrence. Additionally, XYZ also has the capability to design and implement a business resumption framework for its clients covering both IT and non-IT aspects of operational recovery in the event of a disaster. At XYZ we have categorized the potential events as:

High Frequency Low Severity:

These events are expected to occur frequently, however their nature is such that the impact can be controlled through conscious planning & investment. We have devised redundancy measures and emergency response plans to counter any adverse impact of such events. Such measures include: Emergency response plans (both Global & Local), Crisis management, Redundancies – standard, network and communication; Pandemic response plans. We extend coverage of such measures to our clients and business partners at no additional cost.

Low Frequency High Severity:

These events rarely occur but have serious consequences when they do, like total loss of the primary operating facility. We offer customized BCP solutions against such events post understanding the business models, extent or recovery, recovery time basis process criticality; jointly and in consultation with our clients. Such solutions are provided at an additional cost.

XYZ also focuses on awareness programs to ensure smooth execution of the continuity plan in the event of an emergency, through judicious use of posters and targeted training programs.

3. Risk Avoidance & Mitigations Measures

For critical utilities / equipment which support XYZ' business operations, XYZ has provisioned for the following redundancy measures:

3.1. Independent Delivery Sites

XYZ MPLS network is designed from ground up to provide reliable and robust connectivity from client locations across the world to its delivery centers. Each XYZ delivery center, is well connected with all the locations through the XYZ Global MPLS network via multiple paths from two different service providers to provide complete resiliency and redundancy (refer section on Network). The delivery center set up is carried in a way to ensure that it acts as an independent isolated delivery site. This ensures that any impact or outage at any of the sites does not have a cascading impact at a different location. This is achieved through –

- Global MPLS from two different Global carriers (Tata Communications and British Telecom).
- National Long Distance (NLD) links from diverse service provider between multiple delivery locations within the same geography
- Distributed core routers across multiple delivery locations which act as natural redundancy enabler
- Redundancy built on Internet routers and perimeter firewalls.
- Internet with alternate path and dynamic routing protocol (BGP) with provider

3.2. Uninterrupted Power Supply

For critical utilities / equipment, XYZ has provided for the following redundancy measures:

- Backup power generation capabilities – As a backup to the main raw power source diesel or gas based generator sets are provisioned at all delivery centers. This ensures that XYZ is not reliant solely on any electricity provider and can generate power to run its business operations for an extended period of time.
- Uninterruptible Power Supply ('UPS') units – All computing equipment and other critical equipment (such as fire alarm systems and access control systems) are connected to UPS systems to ensure that no interruption occurs while switching over from raw power source to the backup power source. These UPS systems are able to provide power to the aforementioned equipment for periods extending up to 30 minutes without being fed power from the diesel / gas-based generator sets.
- Component-level redundancies – The backup components specified above have redundant configuration themselves to prevent failure of a single component / unit from affecting the power supply at the delivery center. For example, standby UPS systems are available which are configured in a master-slave configuration and standby generator sets with automatic failover capabilities are available as backup to the primary generator sets.
- Periodic testing and analyses – The backup power equipment is tested on a regular basis to ensure that it can function to meet stated requirements in case of a power outage. Single points of failure analyses are conducted at a component level to ensure that failure of a single component does not lead to any downtime of operations.

3.3. Network Connectivity

3.3.1. Connectivity over XYZ MPLS to XYZ delivery centers

XYZ MPLS is designed, to provide reliable and robust connectivity from client locations across the world to XYZ Delivery centers in India, Europe, US, South Africa, Philippines, Sri Lanka and China. XYZ MPLS is designed on MPLS L3 VPN enabling –

- **Network Consolidation** between all the XYZ Delivery Locations.
- End to End VRF for **Customer isolation**.
- **Fast Convergence** for all Data and Voice Traffic.

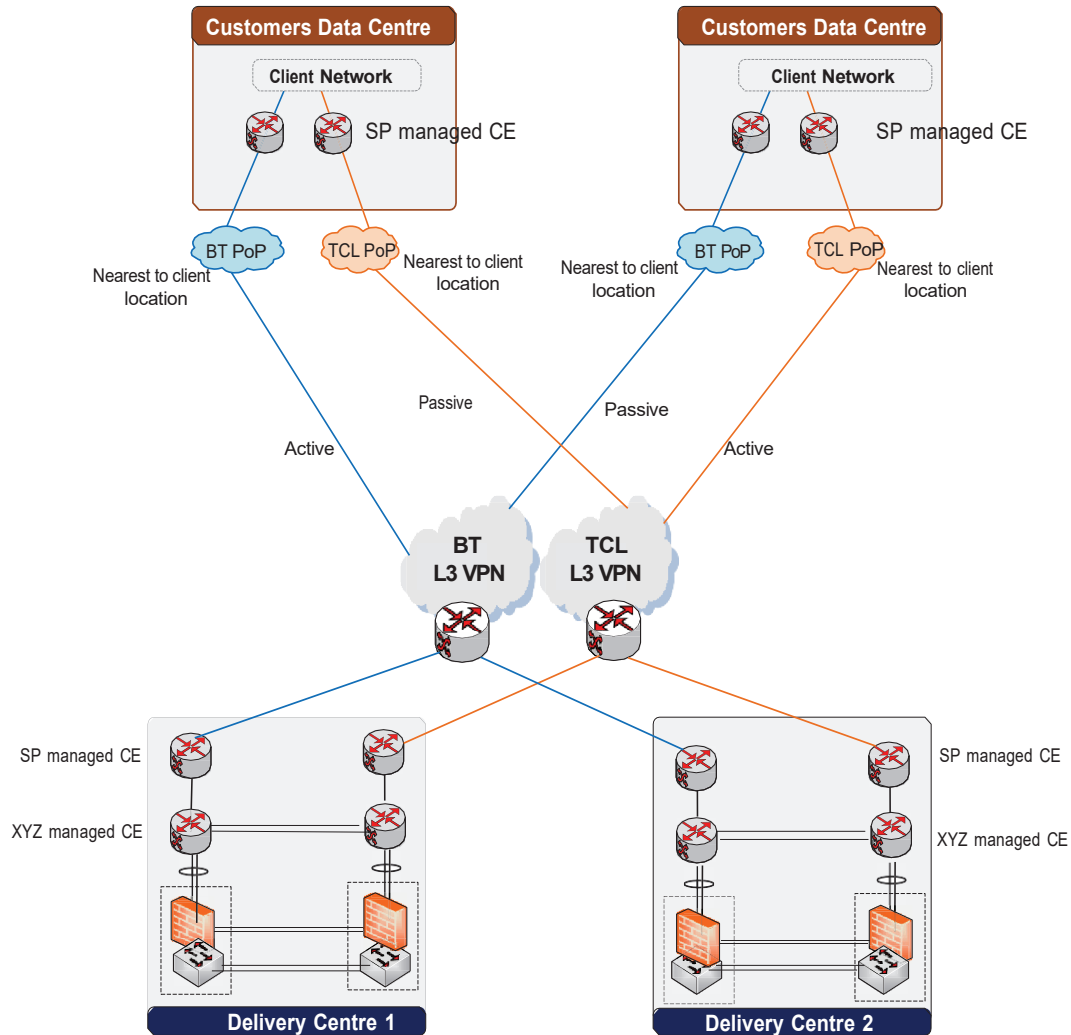

Figure: Client Connectivity

Multiple Points of Presence are available across the world to enable connectivity from client locations to XYZ delivery centre:

Other key features of the XYZ MPLS are:

- For **higher redundancy and resiliency**, MPLS L3VPN services are being provided by two service providers
- XYZ have provisioned dedicated redundant self-managed routers (delivery centre specific) to connect to the providers managed CE router. This router will have multiple VRFs, one per customer.
- **Customer Isolation** is achieved by creating dedicated VRF per customer in service provider cloud.
- For any given customer, the Service provider will be used in Active – Passive mode.
- Routing multiple customers over both links will lead to **effective use of both SPs**.

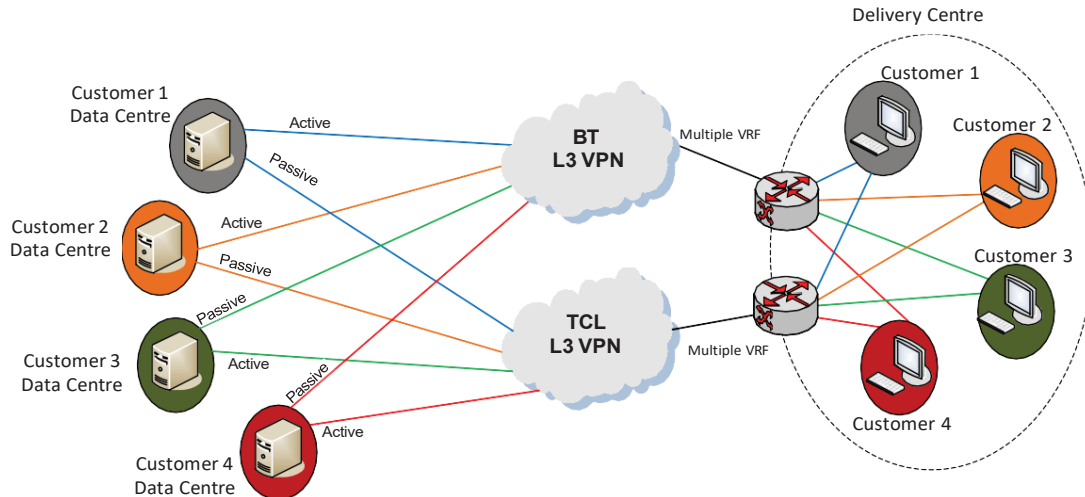

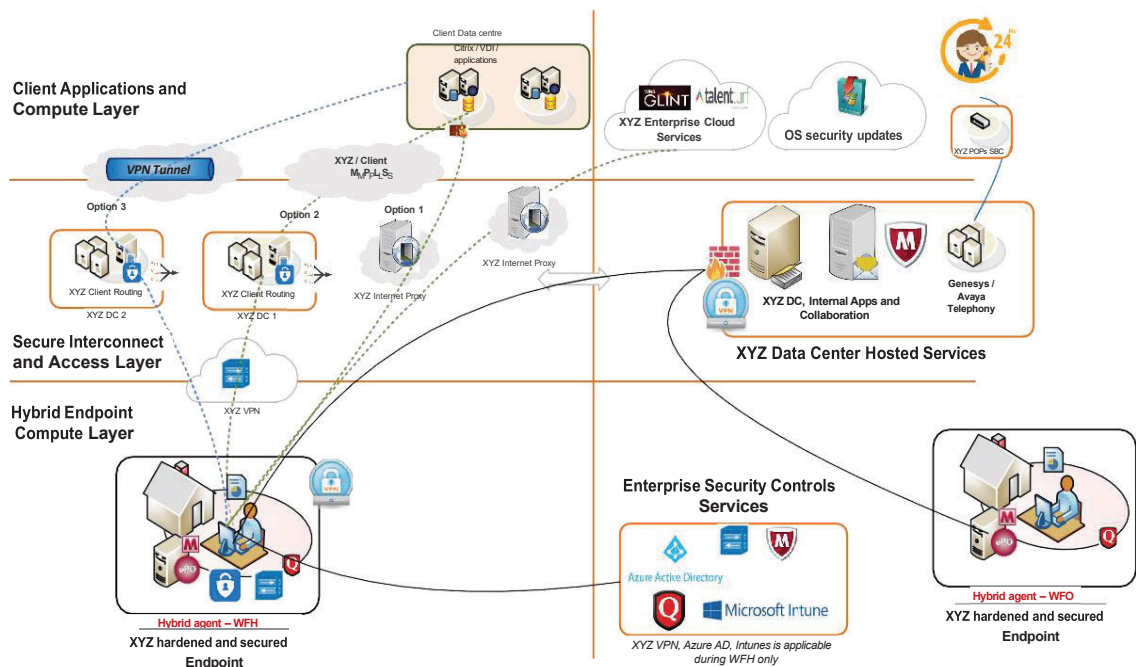

Figure: Multiple VRFs per customer

3.3.2. Hybrid Solution Architecture (Office and Work from Home)

Key features

- The remote-working user use a XYZ Provided Endpoint (WPE) (Thin client/laptop/desktop) and connect using home internet to remote Citrix / VDI platform through XYZ provided VPN and then access production applications via agreed mode like, VPN/MPLS connectivity established between XYZ primary data center and client data center
- WFH endpoint joined to active directory and Host based VPN client and are hardened with no administrative privileges and no local storage
- Device Management is done by including security policies using Group policies and McAfee Host Data Leakage Prevention is implemented for detecting / preventing file transfers (laptops/desktops) on WFH end points.
- Cloud proxy is implemented for regulating internet access usage across WFH end points.

3.4. Core Networking Equipment

XYZ' core switching equipment on XYZ MPLS is fully redundant at all XYZ MPLS sites. XYZ has agreements with principals/OEMs with whom it has agreed SLA's on troubleshooting and restoration of the networking equipment's in the event of a failure.

- XYZ Delivery Centre has a layered architecture. It consists of the Core Switches Layer, XYZ Managed CE Layer, SP Managed CE Layer, SP Managed PE.
- The core switches provide combination of L2/L3 transport.
- This XYZ CE router has separate VRFs per customer and they run VSS & HSRP for default gateway
- Each SP will provide and manage a dedicated CE router to connect the XYZ delivery centre location to the respective SP MPLS cloud.

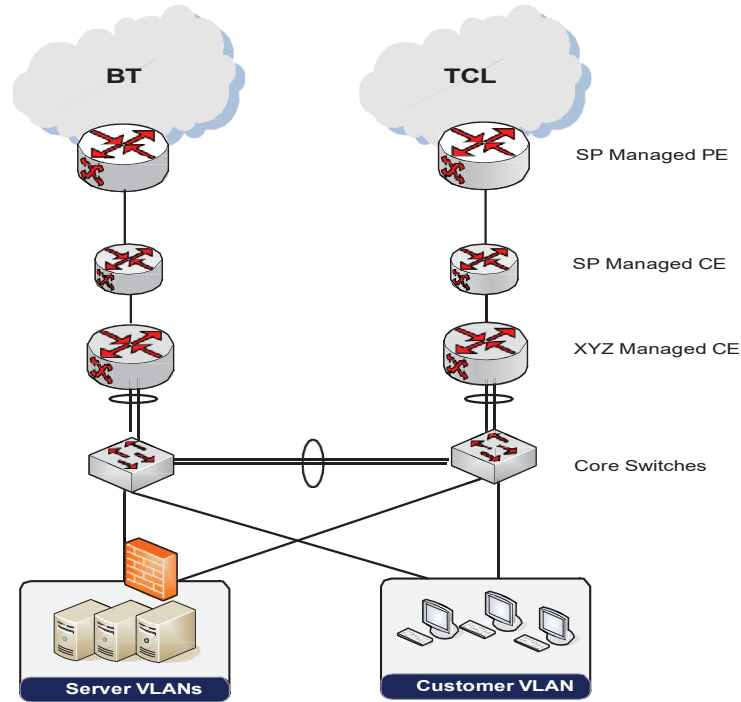

Figure: Client Connectivity

3.5. Risk Assessment

- **At the time of Site Selection** – XYZ Management sponsors and takes cognizance of Risk assessment exercises which are conducted by the infrastructure and business continuity management teams as part of the selection process for new premises to be leased for conducting business operations. These risk assessment exercises cover identification of environmental, political and location-specific risks that could potentially affect continuity of operations. In one such example, XYZ dropped its expansion plan at a lucrative business location in northern India citing proximity to an oil depot of a leading public owned oil company. Several years later, a fire erupted in the depot causing business interruption for 7 consecutive days and significant impact to the assets of the service companies in close vicinity.
- **Ongoing Risk Assessment-** For existing premises, similar exercise is conducted on a periodic basis by the aforementioned teams. Risks are prioritized and ranked on the basis of the probability of their occurrence and the potential impact in the event the risks materialize. Wherever applicable, appropriate measures are recommended and implemented for mitigation of the identified risks.

3.6. Fire Safety & Earthquake Mitigation Measures

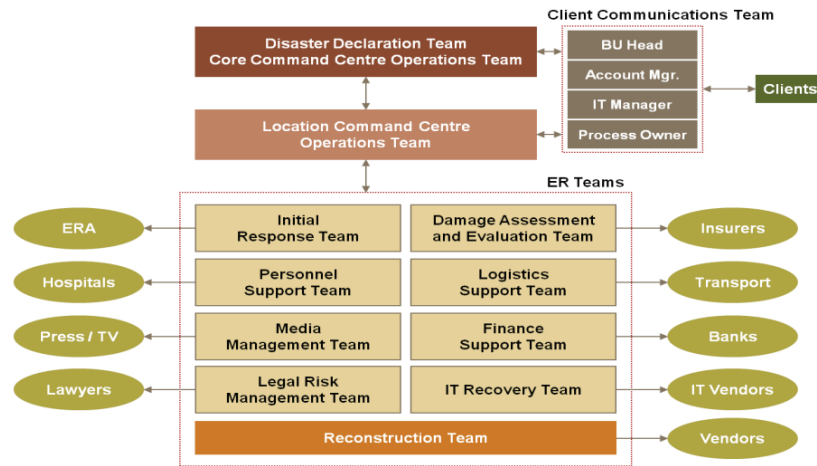

XYZ has implemented and maintains best-in class safety standards across its delivery centers. It has implemented the following measures –

- Gas based fire suppression system installed in all server rooms
- A, B & C Type fire extinguishers deployed across the operating floors
- Trained Fire Wardens across its operating locations; to ensure safe and orderly evacuation of personnel in the event of an emergency
- Focused Emergency Response Awareness Program (eRAP) for employees to deal with emergency situations like fire, bomb threat and earthquake
- Periodic evacuation drills conducted to evaluate the preparedness of response measures
- Fire alarm systems have been integrated with access control systems, and are tested monthly
- PA systems, installed at all operating locations
- For mitigating risk arising from earthquakes, all XYZ premises are certified for their structural stability in their respective seismic zones

3.7. Emergency Response Plans

A mature BCM Framework focuses both on the continuity of operations as well as on the management of a crisis following a business disruptive event.

XYZ has implemented robust Emergency Response Plans for its operating locations, to be activated in the event of a disaster. These plans define communication channels and procedures to be followed at the primary and recovery locations in the event of a disaster, including safe evacuation of personnel, assessment of damage, logistics management and other recovery procedures.

XYZ Emergency Response Teams

3.8. Testing

XYZ conducts regular exercises and tests covered as part of the Standard BCM plans in line with the annual testing calendar prepared and are conducted at a site level to test the in-built standard redundancies. XYZ maintains a schedule to test the standard inbuilt redundancies for all core enabling infrastructure and processes.

The testing frequency ranges between monthly, quarterly, bi-annually or annually depending on the redundancy measures being tested. An indicative list of tests conducted to test the in-built standard redundancies is detailed below:

- Generator Set Load / No Load Test
- Fire Alarm Test
- Emergency Light Test
- UPS Test
- Evacuation Drill
- Risk Assessment
- Paper walk through / Desktop testing exercise

Note - The costs for developing, implementing and maintaining the above measures is borne by XYZ and not separately charged to clients.
