

STATEMENT OF WORK

This Statement of Work is made on the 14th day of May, 2024 ("**SOW**") is made between **ABC** [REDACTED] ("**ABC**" or the "**Supplier**") a company having address at Suite [REDACTED] and [REDACTED] [REDACTED] incorporated under the laws of New South Wales, Australia and having its registered office [REDACTED] Australia ("**EFG**") pursuant to the provisions of Section 1.3 of the **Master Services Agreement dated 10/06/2020 ("**Agreement**")** for BPO Services – Pathology, Imaging and Corporate executed between the Supplier and EFG.

IT IS AGREED:

Unless defined in this SOW, words and expressions defined in the Agreement shall have the same meanings when used in this SOW.

Despite clause 1.1(b) of the Agreement, if there is any inconsistency between this SOW and a clause of the Agreement, this SOW will prevail to the extent of that inconsistency.

For the purposes of clause 4 of the Agreement, references to "EFG" include EFG [REDACTED] and EFG [REDACTED]

Contents:

SOW SCHEDULE 1 – SERVICES DESCRIPTION
SOW SCHEDULE 2 – SERVICES EFG DEPENDENCIES
SOW SCHEDULE 3 – SERVICES CHARGES
SOW SCHEDULE 4 – SERVICES SERVICE LEVELS
SOW SCHEDULE 5 – SERVICES TERM & TERMINATION
SOW SCHEDULE 6 – SERVICES PROJECT MANAGERS

This SOW is signed by **ABC XYZ** and [REDACTED] specified below on the date referred to above.

SOW SCHEDULE 1

SERVICES DESCRIPTION

1. Services Description

EFG provides specialty diagnostic services to Referring Medical practitioners, patients and commercial clients. EFG has selected ABC to provide Business Process Services for the Pathology business operated by other EFG Group Members (including EFG Pathology Pty Ltd). The ABC team will be responsible for:

- the accurate and timely input of data from images of Request Forms into EFG Pathology's Laboratory Information System (Data Entry) for the laboratories listed below across Australia. Data Entry functions to which ABC will assign Personnel include Data Entry Operator functions; Data Entry Validation functions ("Validators"); Team Leaders; Supervisory Roles ("Managers"); and the Data Entry Quality Team. This Data Entry function includes regular (minimum weekly) Team Manager meetings between the ABC Manager and their EFG counterpart in Australia; and KPI/Service Level reporting.

Laboratory / Business Unit (BU)
Queensland Medical Laboratory - QML
Western Diagnostic Pathology - WDP
Dorevitch Pathology - DOR
Laverty Pathology – LAV
Abbott Pathology – ABT

- Procurement/Master Data maintenance. Procurement/Master Data maintenance activities are undertaken at the direction of authorized EFG Procurement team members and in accordance with approved procedures and include:
 - a. Creation of product, material, pricing changes, making payments, co-coordinating with suppliers, warehouse, user, accounts & the onshore procurement team to process these orders.
 - b. Contract creation, updating target value and expiry of contracts details, changes to materials and pricing, vendor transfer, spend analysis, impact analysis on new prices, fixing price discrepancies or product mismatches on PO/Invoices, negotiations with vendors, getting stop-supply lifted, working on payment terms, cost center updates, area definer updates, data cleansing, shopping cart errors, and working on approvals with Leadership team.
- Goods Receipting (into SAP) for LAV BU only, and only for warehouse stock items (not laboratory items), and
- Input of Doctors Stores Orders into SAP. Doctors request Consumables (which are stocked in the warehouse) for testing by accessing the relevant business unit website. ABC team to review the website output and enter the required consumables into SAP. Based on these updates and experience the ABC team to decide which products need to be supplied and create reservations in SAP for the warehouse team to arrange pick up and dispatch of items to doctors.

2. Deliverables

Support Area	Description of Services
Recruiting, Training & Accreditation	ABC will be responsible for: Recruiting of new and replacement personnel, including sourcing, interviews and background checks; New hire on-boarding; Ongoing personnel details management; Pre-process and process training; Refresher training; Accreditation (with support from EFG); ABC domain training and certification; Any other training modules that EFG provides; and Establishing and implementing ongoing employee retention strategies (including training linked to retention).
Risk Governance Framework	ABC will be responsible for maintaining a risk governance framework and at a minimum ensure the risk governance framework encompasses: Self-assessment; Record management; Use of an independent ABC Internal audit function which will, through periodic reviews and application of various methodologies, implement the risk governance framework. ABC and EFG will establish a risk / governance forum to discuss identified operational risks and measures proposed to address these risks. Both parties will nominate member(s) of their risk management team to be represented on the risk / governance forum, which will meet at least on a quarterly basis. Either party can highlight operational risks in the risk / governance forum along with appropriate remedial measures to contain such risks. Both parties, in good faith, will take reasonable measures to remedy any weaknesses in their systems and / or business processes and will discuss and agree on any additional commercial implications arising out of such remedial measures.
Quality assurance	Quality assurance standards in line with ISO 9001 and AS15189 as applicable
Technology	ABC will be responsible for providing IT infrastructure and IT support for all ABC Personnel working from ABC locations on EFG business. ABC IT team will provide local desktops and connectivity to EFG provided platforms over the internet through a VDI solution to enable ABC Personnel to access EFG systems. All access and software licenses required for the VDI solution will be provided by EFG. All other access and software licenses are to be provided by ABC. Per seat bandwidth of 512 Kbps per seat is considered in the solution. ABC will monitor the bandwidth utilization. ABC and EFG will jointly assess the bandwidth requirement during the production phase. EFG IT team will be responsible for providing support in the aforementioned environment (VDI) as well as to provide availability of systems to allow ABC Personnel to process transactions on behalf of EFG from the EFG Bangalore Premises (as defined below) until the conclusion of the Transition Support Period (as defined below). EFG IT will continue to support the Hyderabad operations from the EFG Hyderabad

Support Area	Description of Services
	Premises (as defined below) as it does immediately before the date of this SOW, until the conclusion of the Hyderabad Facility Period (as defined below). Any other additional IT requirements will be mutually agreed and charged at actual cost. A separate detailed IT solution design document as of the date of this SOW will be created and approved by both EFG IT and ABC IT and will be updated as and when required by mutual agreement between both parties. To the extent of any inconsistency between that document and this SOW, this SOW will prevail. Telstra & Optus Connectivity costs for the Hyderabad site (Production Environment), including all relevant software licenses and support pertaining to the Hyderabad site will continue to be owned and managed by EFG for 1 Year.
Information Security	ABC must maintain an information security framework and support environment in ABC offices, in compliance with EFG policies and guidelines (as defined in the Agreement), which addresses: Business information security (employee awareness, training, access entitlements, secure workspace, incident management, etc.); Physical security (guards, access cards, CCTV, baggage checking, removable storage policies and procedures etc.); IT security (network security, antivirus and patches, logical access management, removable storage media management);
Delivery Excellence	ABC will maintain a quality assessment team for the EFG operations managed by ABC that will support a high standard output for key measures. Their activities will include: Feedback sessions, including voice of the customer feedback Calibrations between EFG and ABC Error analysis Focused sampling Quality error root cause analysis.
Transformation / Process Improvement	ABC has an independent Delivery Excellence team which focusses on Process Transformation. This team consists of Six Sigma experts who will work with ABC and EFG delivery teams on ongoing projects as and when required. This team will also train the ABC team members on the EFG account on [e.g. Six Sigma/ Lean concepts] to drive process improvements.

3. Locations and Hours of Operation

ABC will provide the Services under this SOW to EFG from the following Locations in India. Any changes to the location from which the Services are provided will need to be approved by EFG in writing.

a) ABC will provide support from the following ABC delivery centers:

Location name:	ABC – Vishakhapatnam (Vizag)
Country:	India
City:	Vishakhapatnam
Address:	

Location name:	ABC – Bangalore
Country:	India
City:	Bangalore
Address:	

b) EFG Location (until 30 June 2025)

Location name:	EFG – Hyderabad
Country:	India
City:	Hyderabad
Address:	

Responsibility	EFG shall be responsible for all facility services at the EFG Hyderabad Premises during the Hyderabad Facility Period (as defined below), details of which are set out in Paragraph [5] below.
-----------------------	--

c) Work from Home

Location name:	Work from Home
Country:	India
City:	Multiple locations
The solution assumes that 30% of the resources will be working from home.	

Shift hours:

- a. The Core Services will be delivered Monday to Friday, in multiple shifts as agreed between both parties.
- b. There will be limited staffing deployed on Saturdays & Sundays in a roster. Teams that work on Saturdays or Sundays will be given their weekly-offs on weekdays (Monday to Friday).
- c. Deployment of Personnel across the shifts will be decided based upon data entry volumes and arrival patterns.
- d. EFG and ABC will jointly agree on the public holiday calendar for the ABC team along with staffing levels for the India public holidays.
- e. Any additional overtime hours deployed on weekdays or weekend working will be subject to local labor laws as per the delivery location(s). Such overtime will require prior approval by EFG. EFG will reimburse ABC for overtime hours/weekend working hours under specific conditions beyond ABC' control (e.g. EFG IT downtime, BCP events). Such overtime will be applicable only for a period of three months from 1st June 2024. The overtime rate is listed in the commercials section in this SOW. EFG will not reimburse ABC for overtime hours deployed due to ABC' inability to meet service levels. The overtime charges will cease to apply from 1 September 2024, when the commercials are moved to a transaction-based pricing.

4. Co-operation

ABC must subject to applicable laws and ABC policies:

- (a) provide or procure for EFG:
 - (i) any information regarding the operating environment, system constraints, protocol, interfaces, architecture and other operating parameters relevant to the Services reasonably required by EFG;
 - (ii) operational monitoring data;

- (iii) subject to compliance with ABC and EFG relevant policies and procedures, logical access to ABC tools (including network and diagnostic tools) used to perform the Services; and
 - (iv) such other reasonable access to ABC resources used to perform the Services as may be requested by EFG from time to time; and
- (b) assist with acceptance testing and quality assurance services.

5. EFG Locations

- i. **EFG – Bangalore:** EFG shall and shall procure that the relevant EFG Group Member will, provide transition support services with respect to the premises situated at Solitaire, Plot

[REDACTED]

maximum 15 (fifteen) days from June 1, 2024 (or such other period as EFG and ABC may agree in writing (“**Transition Support Period**”). During the Transition Support Period, EFG shall, and shall procure that the relevant EFG Group Member shall, ensure that the EFG Bangalore Premises are made available to the Accepted Pathology Employees (as defined below) such that they are able to continue to operate from the EFG Bangalore Premises in the same manner as they were operating immediately prior to June 1, 2024. Without prejudice to the generality of the foregoing, during the Transition Support Period, EFG shall, and shall procure that the relevant EFG Group Member shall, continue to provide all customary services (including food, electricity, etc.) to the Accepted Pathology Employees to substantively the same extent as provided before the date of this SOW so they can continue to operate without any disruptions within EFG’ reasonable control (provided EFG should have taken all reasonable efforts to mitigate or avoid any such disruptions).. It is agreed that ABC will not be required to pay any additional compensation for the transition services during the Transition Support Period.

- ii. **EFG – Hyderabad:** EFG shall and shall procure that the relevant EFG Group Member shall, ensure

[REDACTED]

Employees for a maximum period of 13 (thirteen) months from 1st June, 2024 (or such other period as EFG and ABC may agree in writing (“**Hyderabad Facility Period**”). During the Hyderabad Facility Period, EFG shall, and shall procure that the relevant EFG Group Member shall, ensure that the EFG Hyderabad Premises are made available to the Accepted Pathology Employees such that they are able to continue to operate from the EFG Hyderabad Premises in the same manner as they were operating immediately prior to 1st June 2024. Without prejudice to the generality of the foregoing, during the Hyderabad Facility Period, EFG shall, and shall procure that the relevant EFG Group Member shall, continue to provide all customary services (including transportation, food, electricity, maintenance etc.) to the Accepted Pathology Employees to substantively the same extent as provided before the date of this SOW so they can continue to operate without any disruptions within EFG’ reasonable control (provided EFG should have taken all reasonable efforts to mitigate or avoid any such disruptions). It is agreed that ABC will not be required to pay any additional compensation for the transition services during the Hyderabad Facility Period.

- iii. With respect to the EFG Bangalore Premises and the EFG Hyderabad Premises (collectively, the “**EFG Premises**”), EFG shall ensure and shall procure the relevant EFG Group Member to ensure that during the Transition Support Period or the Hyderabad Facility Period (as applicable):
 - (i) the relevant EFG Group Member shall pay and discharge all their liabilities in respect of the EFG Premises to owners / landlords of the EFG Premises and any government, municipal or

other authority (including payment of all municipal and/or property taxes) so as to maintain all facilities without interruption whatsoever;

- (ii) all registrations, approvals, consents, etc. required under applicable laws in India (including without limitation registration under the applicable shops and establishment laws) shall be received and maintained with respect to the EFG Premises;
 - (iii) there are no restrictions of any nature whatsoever on Accepted Pathology Employees using all the facilities / amenities / common areas of the EFG Premises such that ABC's usage rights of the building and facilities, amenities and common areas shall be akin to that of the relevant EFG Group Member without any restrictions or limitations; and
 - (iv) the EFG Premises are maintained in good order and working conditions with all structural maintenance for the smooth functioning of Accepted Pathology Employees.
- iv. Without prejudice to the provisions of this SOW and the rights and remedies hereunder, EFG agrees that its obligations under this item 5 shall be deemed to be a "EFG Task" for the purposes of the Agreement and any breach or failure by EFG and/or the relevant EFG Group Member of these provisions shall trigger the consequences for such breach under the Agreement.

6. Pathology Employee Employment

6.1 Offer of employment

- (a) Subject to EFG providing all relevant Pathology Employees' information, including, existing compensation details, to Supplier by the date of execution of this SOW (including identifying any employees in respect of whom EFG is then conducting any continued investigation in connection with potential misconduct), by no later than 31 May 2024, the Supplier or another Supplier Group Member must offer in writing to employ the EFG Employees listed in Annexure I ("**Pathology Employees**") for this SOW:
 - (i) effective from 1 June, 2024 (**Transition Date**); and
 - (ii) on remuneration and other related terms and conditions no less favourable to the Pathology Employees on an overall basis than their remuneration with EFG as at the execution date of this SOW as per the Supplier or Suppliers Group Member policies. Supplier shall ensure that the supplier employees are paid remuneration as per applicable labor laws in the supplier location(s).
- (b) EFG agrees to assist the Supplier or other Supplier Group Member in making offers to the Pathology Employees, including providing the Supplier or other Supplier Group Member with access to such Pathology Employees during the period commencing from the date of execution of this SOW.
- (c) The Supplier or other Supplier Group Member's offer of employment must require a Pathology Employee to advise EFG or the Supplier of the Pathology Employee's acceptance within 2 Business Days of the date of the offer, or, if the Pathology Employee is on leave, within 2 Business Days of the date the Pathology Employee returns from leave.

- (d) If a Pathology Employee advises EFG that the Pathology Employee accepts the Supplier or other Supplier Group Member's offer of employment, then EFG must immediately notify the Supplier of this.
- (e) If a Pathology Employee advises the Supplier or other Supplier Group Member that the Pathology Employee accepts the Supplier or other Supplier Group Member's offer of employment, then the Supplier must immediately notify EFG of this.
 - (f) EFG must use its best endeavours to facilitate the Pathology Employees to accept the Supplier's or other Supplier Group Member's offer of employment, including by (i) providing the Supplier or other Supplier Group Member with access to the Pathology Employees while at EFG's premises during business hours for the purpose of discussing the offer.
- (g) EFG shall not take any action that may be reasonably believed to impede, hinder, interfere or otherwise compete with the Supplier's or other Supplier Group Member's effort to hire any Pathology Employees.
- (h) All the Pathology Employees who accept the Supplier's or other Supplier Group Member's offer of employment shall be collectively referred to as the **"Accepted Pathology Employees"** and the Pathology Employees who do not accept such offer shall be collectively referred to as the **"Retained Pathology Employees"**.

6.2 Release of and payments to Accepted Pathology Employees

- (a) On the Transition Date, EFG must:
 - (i) release the Accepted Pathology Employees from employment with EFG, with effect from the Transition Date; and
 - (ii) pay to each Accepted Pathology Employee all amounts due to or accrued by that Accepted Pathology Employee for the period up to the Transition Date including any entitlement to remuneration, compensation or benefits (including bonuses & retiral benefits) arising out of their employment including any amounts of their leave balance/accruals, and
 - (iii) make all tax deductions and other contributions relating thereto which are due and payable up to Transition Date.
- (b) On and from the Transition Date, the Supplier or other Supplier Group Member (as applicable) is responsible for the remuneration, compensation or benefits of Accepted Pathology Employees due to such Accepted Pathology Employees on or after the Transition Date.
- (c) Notwithstanding anything to the contrary contained in this SOW or the Agreement, EFG shall be responsible for and shall undertake and make payments in relation to all liabilities, claims and obligations relating to the Pathology Employees, whether contractual or as required under applicable law (**Employee Liabilities**), arising from their employment with EFG up to the Transition Date, and the Supplier shall not assume, or in any way be liable or responsible for, any Employee Liabilities for the period up to the Transition Date.

6.3 Responsibility for EFG Retained Pathology Employees

EFG is responsible for the remuneration, compensation or benefits of Retained Pathology Employees. Supplier or Supplier Group Member shall not assume, or in any way be liable or responsible for, any liability, claims or any Employee Liabilities of Retained Pathology Employees.

6.4 Indemnity

- (a) EFG indemnifies the Supplier, each Supplier Group Member and their officers, directors, employees, agents and Representatives (**Supplier Indemnified Persons**) against any Loss or claim suffered or incurred by the Supplier Indemnified Persons in connection with:
 - (i) EFG and any other EFG Group Member's breach of their obligations as provided in this SOW or
 - (ii) any claims or Losses arising due to Accepted Pathology Employees for the period up to the Transition Date, or
 - (ii) for any third party claims or Losses, personal injury or death caused by its Pathology Employees up to the Transition Date.
- (b) The Supplier indemnifies EFG, each EFG Group Member and their officers, directors, employees, agents and Representatives (**EFG Indemnified Persons**) against any Loss or claim suffered or incurred by the EFG Indemnified Persons in connection with: (i) ABC and any other Supplier Group Member's breach of their obligations as provided in this SOW; or (ii) any claims or Losses arising due to Accepted Pathology Employees for the period after and including the Transition Date; or (iii) for any third party claims or Losses, personal injury or death caused by an Accepted Pathology Employee on or after the Transition Date.

6.5 Pathology Employee Retention

The Supplier or other Supplier Group Member may cease using an Accepted Pathology Employee to provide Services to EFG, should the Accepted Pathology Employee terminate their employment contract at their will, or their Contract be terminated due to non-satisfactory performance.

- 6.6 Without prejudice to the provisions of this SOW and the rights and remedies hereunder, EFG agrees that its obligations under this item 6 shall be deemed to be a "EFG Task" for the purposes of the Agreement and any breach or failure by EFG and/or the relevant EFG Group Member of these provisions shall trigger the consequences for such breach under the Agreement.

- 6.7 EFG shall ensure that the relevant EFG Group Member complies with the provisions of this item 6.

7. Miscellaneous terms

- 1. Notwithstanding anything contained in the Agreement (including Clause 1.1 (b) thereof), the parties agree and acknowledge that this SOW has been executed at a later date than the Agreement and to the extent there is any inconsistency between the provisions of this SOW and the Agreement, the provisions of this SOW shall prevail and supersede the provisions of the Agreement.

SOW SCHEDULE 2**SERVICES EFG DEPENDENCIES**

EFG shall perform the following EFG dependencies in respect of the associated Supplier obligations to the extent identified in the table below and elsewhere in this SOW:

S.no.	Category	EFG Dependencies
1.	Forecast	EFG to provide the volume forecast for ABC to plan the required staffing levels
2.	Application access	EFG to provide application access via the VDI solution for ABC users to perform the duties
3.	Performance measurement	EFG to provide an access to create master productivity and accuracy reports
4.	Technology	Support on connectivity to the extent identified in this SOW

- EFG will appoint a governance team to make management decisions and provide information, core services including points of escalation.
- IT infrastructure and system access as outlined in the attached IT solution design document
- EFG shall ensure it has appropriate IT licenses for the VDI software it requires ABC to use to provide the Services. ABC will ensure that ABC Personnel only use the VDI solution provided by EFG for providing to EFG the Services under this SOW.
- Subject to applicable law, EFG shall provide ABC with access to all EFG Data in EFG' possession and/or control that ABC requires to deliver the Services. Access will be provided through the relevant EFG systems; in accordance with EFG security policies and guidelines.

SOW SCHEDULE 3**SERVICES CHARGES****1. Procurement – Back-office Roles**

FTEs	13
Annual FTE rate - AUD #	20,200

#COLA equal to the lesser of the increase in India CPI over the preceding 12 months or 5% will be applicable from first anniversary of the contract and thereafter on each following anniversary.

India CPI shall be referred from the below path (or as otherwise agreed between the parties):

**2. Data Entry Process**

- a. Monthly Baseline Volume - 1.21 M forms,
- b. ABC will bill monthly AUD \$720,000 (Fixed Fee Billing) for initial 3 months following which the parties will jointly agree to move into transaction-based pricing for Data Entry services. In the event there is delay in movement to transaction-based pricing beyond ABC control, ABC will continue to bill as per the above monthly billing schedule. Further information on the transition to transaction-based pricing is set out below at "Data Entry Process".
- c. Both parties have agreed to share productivity improvement through gain share mechanism in the ratio- 30:70 (EFG : ABC). This mechanism will be deployed from the time transaction-based pricing is implemented and be in place for the full duration of the remaining contract period.
- d. COLA equal to the lesser of the increase in India CPI over the preceding 12 months or 5% will be applicable from first anniversary of the contract and thereafter on each following anniversary. COLA will be applied to the transaction-based price incurred in the month prior to the relevant anniversary date (or to the Fixed Fee Billing charge, in case transaction-based pricing was not been agreed between the parties at the relevant time).

3. Credit pass back to EFG on account of ABC use of the EFG Hyderabad Premises for year 1 (one) only amounting to AUD \$35,250 per month (Annualized AUD \$423,000). This annualised amount is capped at EFG' actual facility cost incurred (that is, the amount credited by ABC to EFG will be whichever is lower).

4. One time Billing for Background checks – AUD \$11,900

Estimated Charges for 3 (three) months (before transaction-based pricing is agreed between parties and implemented): -

	Monthly			Total - 3 Months
	Jun'24	Jul'24	Aug'24	
	13	13	13	
	1,683	1,683	1,683	
	21,883	21,883	21,883	65,650
	720,000	720,000	720,000	2,160,000
	11,900	-	-	11,900
	753,783	741,883	741,883	2,237,550
	(35,250)	(35,250)	(35,250)	(105,750)
Total Monthly charges - (d+e)	718,533	706,633	706,633	2,131,800

1. The services will be delivered out of ABC Delivery Centre in Bangalore, Vizag & EFG Hyderabad Premises (for Year 1 only).

2 Data Entry,

- i. The parties will seek to agree to transaction-based pricing post volumes data collection, which will be done in the Baseline Measurement Period (Jun'24 to Aug'24 – see Schedule 4) and calculated in accordance with item 5.d. below, to become effective from 1st Sep'24.
- ii. The per-transaction rate agreed between the parties (in or after Aug'24) will prevail for remainder of the contract period (subject to COLA per above).
- iii. Post the per-transaction rate being agreed, any volume fluctuations of more than 5% reduction in baseline volume (upon which the agreed per-transaction rate is based), will require adjustment of the per-transaction rate. The parties must seek to agree pricing for the tiered reductions and increases set out in item 5.d below, to cover for volume reduction (or increase) of up to 30% from baseline volumes. In the event of such a reduction of more than 5%, the per-transaction rate will be adjusted to the applicable agreed pricing tier. Any reduction beyond 30% will require a commercial re-negotiation. For the avoidance of doubt, the parties agree that despite clause 29.4(d) of the Agreement, any reduction in volume up to 30% will not constitute a deemed partial termination for convenience by

EFG and that the adjusted per-transaction pricing for tiered reductions in volume agreed between the parties will displace any obligation to pay any amount pursuant to either of clauses 29.2 or 29.4 of the Agreement on account of any reduction in volume (such that, for the avoidance of doubt, EFG will not have any obligation under either clause to make any payment to ABC on account of a reduction in volume). However, absent a different agreement resulting from the commercial re-negotiation referred to above, any reduction in volume beyond 30% will entitle ABC to proportionate wind down charges for the volume reduction as provided in clause 29.2 (b) (ii) in the Agreement.

- iv. ABC will achieve a minimum average daily transaction volume of 160 forms per Data Entry employee at the conclusion of the Baseline Measurement Period (ie 31 August 2024).
 - v. ABC will continue to employ Data Entry staff, Validators, Managers and other support staff in a ratio that is required to deliver the required Service Levels, but the ratio of Validators, Managers and other support staff in each case to Data Entry staff will not exceed the corresponding ratios during EFG' own operation of the Services before the Transition Date (as defined in Schedule 1).
 - vi. Forecasting Mechanism:- EFG to provide 6 months rolling forecast to ABC in advance, the detail mechanism will be agreed at the time of conversion to transaction-based pricing model.
 - vii. EFG will provide 3 (three) months' notice to ABC for any major (beyond 10%) volume reductions (e.g. anticipated later in the year for the web portal integration with "Ultra" the core application used for Pathology data entry)
 - v. Any overtime will be charged with the prior approval from EFG at AUD \$11.6 per production hour (for Data Entry) and AUD \$16.8 per production hour (for Procurement Data Role), subject to parameters in Schedule 1, item
- 3 ABC commercials are excluding any taxes, levies eg. Sales Tax, VAT, GST that maybe applicable for rendering services. The same will be part of the invoicing as per local laws.
 - 4 Payment term will be as per the Agreement Part C Section 11.
 - 5 At the conclusion of the Baseline Measurement Period, ABC will calculate a Price per transaction (for Data Entry services only) based on the following;
 - a. The "Price per transaction" will be a fully loaded price, inclusive of all labour and non-labor associated charges (e.g. Facilities, IT, etc).
 - b. The volumes and other metrics calculated and finalized during the baselining period will be used to determine the "Price per transaction."
 - c. Price per transaction will be computed post taking into consideration Monthly baseline charge (AUD \$ 720,000). For the avoidance of doubt, the 30:70 (EFG: ABC) gain-share mechanism will not be included in this per-transaction price, and will only be implemented in respect of productivity improvements realised after transaction-based pricing has been agreed and implemented.
 - d. Using the costs above, ABC will then calculate a cost per transaction for volumes 5%, 10%, 15%, 20%, 25% and 30% below the total number of Data Entry transactions achieved in the month of August 2024, as well the same increments for volumes exceeding that number of transactions.

The parties will then use these per-transaction prices proposed by ABC as a basis for seeking to agree terms (including pricing) for transaction-based pricing to apply during the remaining term.

6. Despite any other provision of this SOW, and irrespective of whether or not transaction-based pricing has been agreed and implemented at the relevant time, in no instance will the fees charged for Data Entry exceed \$720,000 (pre-COLA, if applicable at the relevant time) for the first 1,210,000 forms per month.
7. If the parties are unable to agree the terms for transaction-based pricing (or Service Levels and Service Credits, as contemplated by item 4.2(c) of Schedule 4) during the Baseline Measurement Period (as defined in Schedule 4 item 3.2) and the two months following the conclusion of that period, an SOW Termination Trigger will occur and EFG may terminate this SOW by giving 12 (twelve) months' notice to ABC. If EFG exercises this right to terminate:
 - a) ABC must use all reasonable endeavours (at EFG' cost) to facilitate the transfer of Accepted Pathology Employees back to EFG or to another EFG Group Member or to a third party engaged by either of them; and
 - b) the parties agree that such termination will not be treated as termination by EFG for convenience and accordingly, Supplier will not be entitled to compensation pursuant to clause 29.2 of the Agreement.

SOW SCHEDULE 4

SERVICES -SERVICE LEVELS

1. Definitions

- (a) **Charges** means the monthly invoice amount charged to EFG as part of this SOW;
- (b) **Baseline Measurement Period** means the period described in item 3.2 of this Schedule 4;
- (c) **Measurement Window** means the period during which the Service Level is applicable, being monthly;
- (d) **Minimum Service Level** means the MSL target specified in item 3.1.
- (e) **Service Level Default** means within a Measurement Window, the Supplier has failed to meet the Minimum Service Level target for the month.
- (f) **Service Credit** means a reduction in the fees payable by EFG to the Supplier arising from the occurrence of a Service Level Default or the Supplier's other failure to meet a Service Level or the Services.
- (g) **Service Level** means agreed upon performance level metrics, for the Baseline Measurement Period being as set out in item 3.1 below and after that period being the metrics as agreed between the parties.

2. Overview

- (a) The Service Levels measure whether Supplier is meeting certain agreed, measurable criteria for the Services.
- (b) Subject to EFG systems being capable of providing data required for measuring and reporting Service Levels, Supplier shall be responsible for, and have in place from the Transition Date, all of the measuring, monitoring and reporting capabilities necessary for measuring, monitoring and reporting Supplier's performance against the Service Levels in this SOW. Supplier shall monitor, measure, collect, record and report to EFG its performance beginning on the Transition Date and continuing for the term of this SOW (including any Disengagement Period) against all Service Levels then in effect.
- (c) This section sets out certain Service Levels against which Supplier's performance of the Services shall be measured during the Baseline Measurement Period. Supplier must perform the Services so as to meet or exceed the levels of performance indicated for each Service Level.

3. Service Level Obligations

3.1 Service Level Obligations

LOB – Accuracy Target	Minimum Service Level (MSL)	Expected Service Level (ESL)	Critical Data Level (CDL)	Measurement Period	Service Credit*
Queensland Medical Laboratory – QML	95%	97%	99.5%	Monthly	2% of the applicable invoice charges for QML
Western Diagnostic Pathology – WDP	95%	97%	99.5%	Monthly	2% of the applicable invoice charges for WDP

Dorevitch Pathology – DOR	94%	95.5%	99.5%	Monthly	2% of the applicable invoice charges for DOR
Laverty Pathology – LAV - S1	91%	93%	99.5%	Monthly	2% of the applicable invoice charges for Lav - S1
Laverty Pathology – LAV – S2	94%	96%	99.5%	Monthly	2% of the applicable invoice charges for LAV - S2
Laverty Pathology – LAV – S3	95%	97%	99.5%	Monthly	2% of the applicable invoice charges for LAV - S3

During the Baseline Measurement Period only, the above accuracy target to be considered for the Data Entry staff who are > 90 days in production (BAU Production) for the purposes of Service Credit calculation, with new joiners considered as Non BAU Production and performance to be measured separately. The above accuracy target will be considered for all Data Entry staff (>90 days in production and <90 days in production) for the purposes of the termination right in item 5.2(d) below. Notwithstanding the preceding, ABC recognizes that accuracy takes precedence over productivity for new hires and will ensure a high focus on accuracy.

Quality error measurement will include cases where the data entry was incomplete or inaccurate data was entered.

Existing measures (ie pre-Transition Date) will be used to be measure quality during the Baseline Measurement Period. During the Baseline Measurement Period, ABC will measure both DPU and DPO quality metrics and report them to EFG. Post the Baseline Measurement Period, as part of the process described in item 4.2(c) below, both ABC and EFG will agree on the go-forward mechanism for reporting Quality SLAs (DPO or DPU).

MSL represents the minimum acceptable accuracy standard and trigger for Service Credits. ESL represents EFG' preferred accuracy standard and target for Service Level adjustment following the Baseline Measurement Period – see item 4.2(c) below. CDL represents the minimum acceptable accuracy standard for critical data, including Critical Patient identifiers (including surname, given name, date of birth, Medicare, MRN/UR Number (hospital patients only)), Critical Referrer information (including doctor, copy doctor) and Lab information (panels, instant result info).

* In the event that transaction-based pricing is not implemented on or before 1 September 2024, the monthly \$720,000 Data Entry charge will be allocated to the BUs by reference to their number of forms processed in the relevant month, for the purposes of calculating any Service Credit, until such time as transaction-based pricing is implemented.

3.2 Commencement of Service Level obligations

Subject to the below, the parties agree that with effect on and from the Transition Date, Supplier must:

- (a) monitor, measure, collect, record and report to EFG its performance against the Service Levels relating to the Services;
- (b) use commercially reasonable efforts to perform the Services under the SOW so as to meet or exceed the Service Levels relating to the Services; and
- (c) perform the Services under the SOW so as to meet or exceed the Service Levels relating to the Services.

Notwithstanding the foregoing, the parties agree that Supplier will not be liable for, and EFG will not be entitled to receive, Service Credits with respect to any Service Level Default until after the expiry of the Baseline Measurement Period (September 1st 2024). The Baseline Measurement Period as agreed between both the parties is June 1st 2024 to August 31st 2024.

4. Service Level Defaults and Excused Performance

4.1 Service Level Defaults

Supplier performance that results in a Service Level Default of a Service Level shall:

- (a) entitle EFG to receive a Service Credit; and
- (b) require Supplier to develop and implement an action plan to be shared with EFG within 15 days for EFG' approval,

and may entitle EFG to terminate pursuant to item 5.2(d) below.

4.2 Performance Measures

- (a) Supplier may be excused from a failure to achieve any Service Level to the extent the achievement of the same has been hindered or impacted by any action or inaction by EFG. The same shall be mutually agreed between the parties and documented effectively.
- (b) During the Baseline Measurement Period, the Supplier must measure its performance against the Service Levels and must provide EFG with monthly reports on its performance together with all supporting data.
- (c) KPIs by Function which ABC must achieve (at a minimum) from the conclusion of the Baseline Measurement Period are set out immediately below. By the end of the Baseline Measurement Period the parties will, in good faith, use all reasonable endeavours to agree Service Levels (and as appropriate, Service Credits) in respect of these KPIs that will apply from the end of the Baseline Measurement Period until the end of the term. If the parties are unable to agree such Service Levels and Service Credits during the Baseline Measurement Period and the two months following the conclusion of that period, EFG may terminate this SOW on the same terms set out in item 7 of Schedule 3.

Data Entry:

- i) Forms remaining in queue at end-of-day - all forms scanned by midnight in the State of operation to be completed by 2am (in the relevant State)
- (ii) Accuracy (monthly measure, rolled up data), which will replace the Service Levels outlined in item 3.1 of this Schedule 4
- (iii) Daily (Scanned but not in Ultra)

(iv) Doctor Maintenance - complete on day of new doctor requirement being identified

- (iv) Accuracy (by random audit) of Foreign Forms identified
- (v) For Urgent Entries < 3min Resident time on the Queue
- (vi) For Routine Entries < 10min Resident time on the Queue
- (vii) Minimum productivity of 160 forms per ABC Data Entry operator per day entered into the applicable Laboratory Information System (LIS) from the conclusion of the Baseline Measurement Period,
- (viii) Minimum of 100% of urgent work to be validated and 50% of routine work.. If EFG choses to alter this in the future, this needs to be mutually discussed and agreed through a change request form. ABC will take EFG approvals for exceptions during volume surge periods when the above requirements cannot be adhered to without impacting TAT performance.

Procurement Master data:

Activities	SLA (No of working Days)	Accuracy	Quality Check	Comments
Create new materials, Reactivate existing materials - Co-ordinate on pricing & product details with supplier/user/website after having relevant approvals	2	98%	Yes	SLA for urgent requests is 2 to 4 hrs.
Update Price, UOM, Conversion, Pack size, Part no, Description along with Naming convention, UNSPSC, Planned Delivery time, source list and extend materials to BU's	2	98%	Yes	
Transfer of vendor due to better pricing, ABN change, Change of distribution rights, Product discontinuation, Business Closure, etc	2	98%	Yes	
Creation of new contracts in case of new vendors OR when contract type needs to be changed for existing vendor based on requirement from Procurement	2	98%	Yes	
Review data received from Procurement and update Expiry dates, Target value, Pricing conditions in Contract	2	98%	Yes	
Create and update GL, Cost centre, Area Definers	2	98%	Yes	
Review Price list received from Supplier, co-ordinate on missing details, negotiate, prepare Impact analysis and work with Procurement for approval before loading into records	2	98%	Yes	
Resolve Blocked & Parked Invoices, PO on Hold, Stop supply on Account - Verify price and product invoiced with PO to know the reason for variance, check purchase/invoice history before Negotiating price, Contribute to Cost avoidance, work with supplier in dispatching goods or get credit before working with accounts in releasing it for payment	5	-	-	
Spend analysis - Prepare when Procurement works on Contract negotiation and when there is new price list which needs to be loaded for vendor	2	-	-	

Doctor Stores and Good Receipting:

Activities	SLA (No of working Days)	Accuracy	Quality Check	Comments
Review website output and paper forms from Referring practioners for accuracy. Correspond with teams in Australia to confirm correct input as required. Example - Correct item Unit of	1	98%	Yes	SLA for urgent requests is 1 to 2 hours.
Monitor and categorise email boxes shared with teams in Australia to demonstrate workflow progress	1	98%	Yes	
Create Reservations for consumables supplied to referring	1	98%	Yes	
Replace obsolete reservations with updated material information. Example - Material number is changed as part of	2	98%	Yes	
Goods Receipt of stocked items in the Laverty Warehouse	1	98%	Yes	

5. Service Credits

5.1 Service Credit calculation

Subject to other clauses/items of this SOW, for each Service Level Default EFG will be entitled to the Service Credit as set out in item 3.1 above, which ABC will credit against the Charges due for the month following the month in which the Service Level Default occurred.

5.2 Multiple Defaults

- (a) If more than one Service Level Default has occurred in a Measurement Window, EFG will be entitled to a Service Credit for each Service Level Default.
- (b) For clarity, and consistent with the definition of Service Level Default, a Service Level Default shall occur in respect of a Service Level (and EFG shall only be entitled to corresponding Service Credit) where there has been a failure to meet the Minimum Service Level in the relevant Measurement Window.
- (c) Notwithstanding any other term of this Schedule except the following right of termination in paragraph (d), the maximum aggregate amount of any Service Credits available to EFG in respect of any Measurement Window must not exceed 2% of the total monthly invoice.
- (d) In case of 3 months of consecutive Service Level Defaults, EFG may provide the Supplier with a written notice to cure the breach and put in place arrangements to ensure that the situation does not reoccur. If the breach is not resolved and such arrangements are not implemented, within 30 (thirty) days from the date of notice, then an SOW Termination Trigger will occur and EFG has a right to terminate. The termination shall not be applicable if the Service Level Defaults all occurred due to matters attributable to EFG. In such case parties shall mutually discuss and resolve the matter. For the avoidance of doubt, this item 5.2(d) will apply even if the Service Level Defaults relate to distinct Service Levels or have occurred in respect of distinct EFG BUs in the three consecutive months.

SOW SCHEDULE 5

SOW SERVICES TERM AND TERMINATION

- A. **Initial SOW Term:** This SOW shall commence on 1 June 2024 and shall continue until 31 May, 2029 (5 years) (**Initial SOW Term**). EFG shall not be entitled to suspend the services (clause 28 of the Agreement) or terminate for convenience (Clause 29.2 of the Agreement) or Partial termination (Clause 29.4 of the Agreement) during the Initial SOW Term, except that EFG may terminate for convenience (Clause 29.2 of the Agreement) only if there is a change of law, regulation or policy that makes the provision of the Services the subject of this SOW illegal or impractical. Following the conclusion of the Initial SOW Term both parties have the termination rights as set out in the Agreement. It is also clarified that EFG has right to terminate for cause as provided in clause 29.1 of the Agreement.
- B. **Extended SOW Term:** The parties may mutually agree in writing to extend the term of the SOW for one or more Extended SOW Terms not less than 3 months before the end of the Initial SOW Term or preceding Extended SOW Term (as applicable). Any such extension shall be subject to the operation of clause 11.6 of the Agreement (Cost of living adjustment).
- C. **Non-Compete:** - EFG or EFG Group Member agrees that until the earlier of the last day of the Initial SOW Term or the date on which EFG exercises its rights under clause 29.1 of the Agreement, they will not, directly, indirectly or beneficially, whether by themselves or in association with or through any Person, in any capacity, whatsoever, shall commence, engage in, own, operate or invest in or enter into the business process services for their pathology business in India as covered by this SOW.

SOW SCHEDULE 6

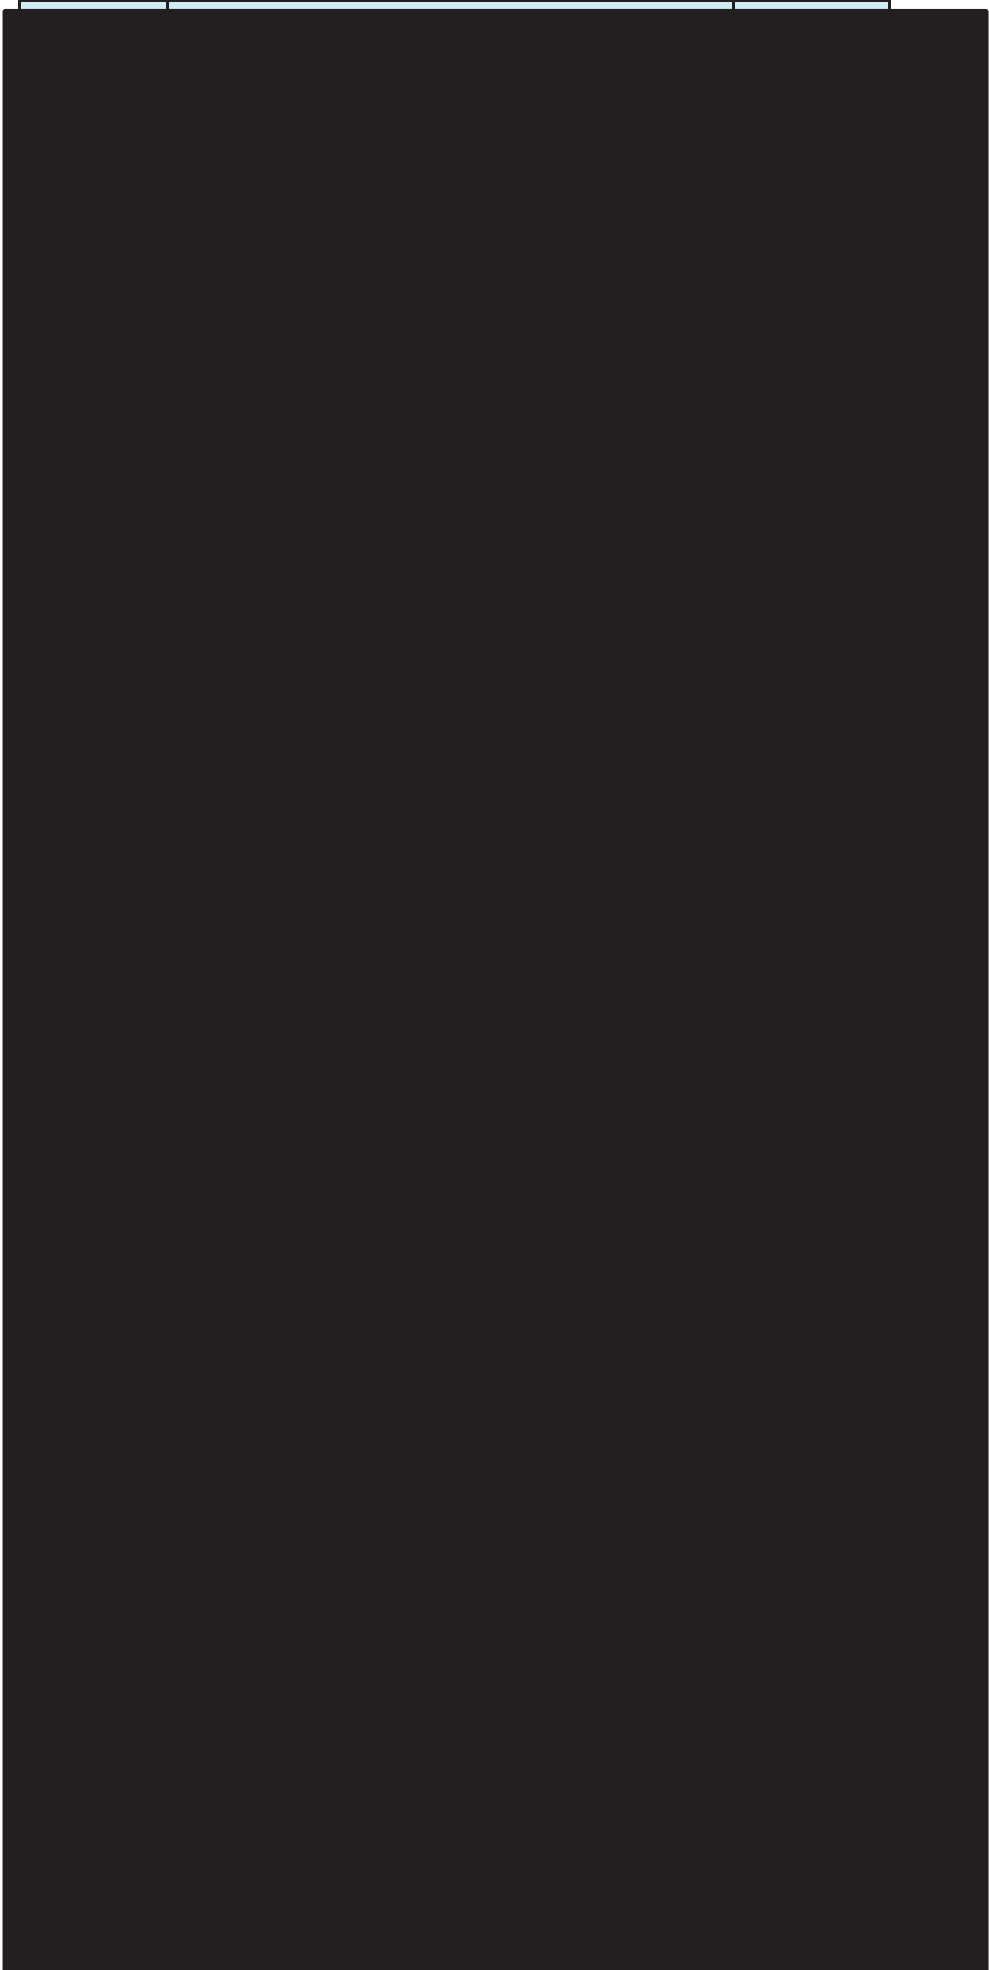

SERVICES PROJECT MANAGERS

Project Managers:

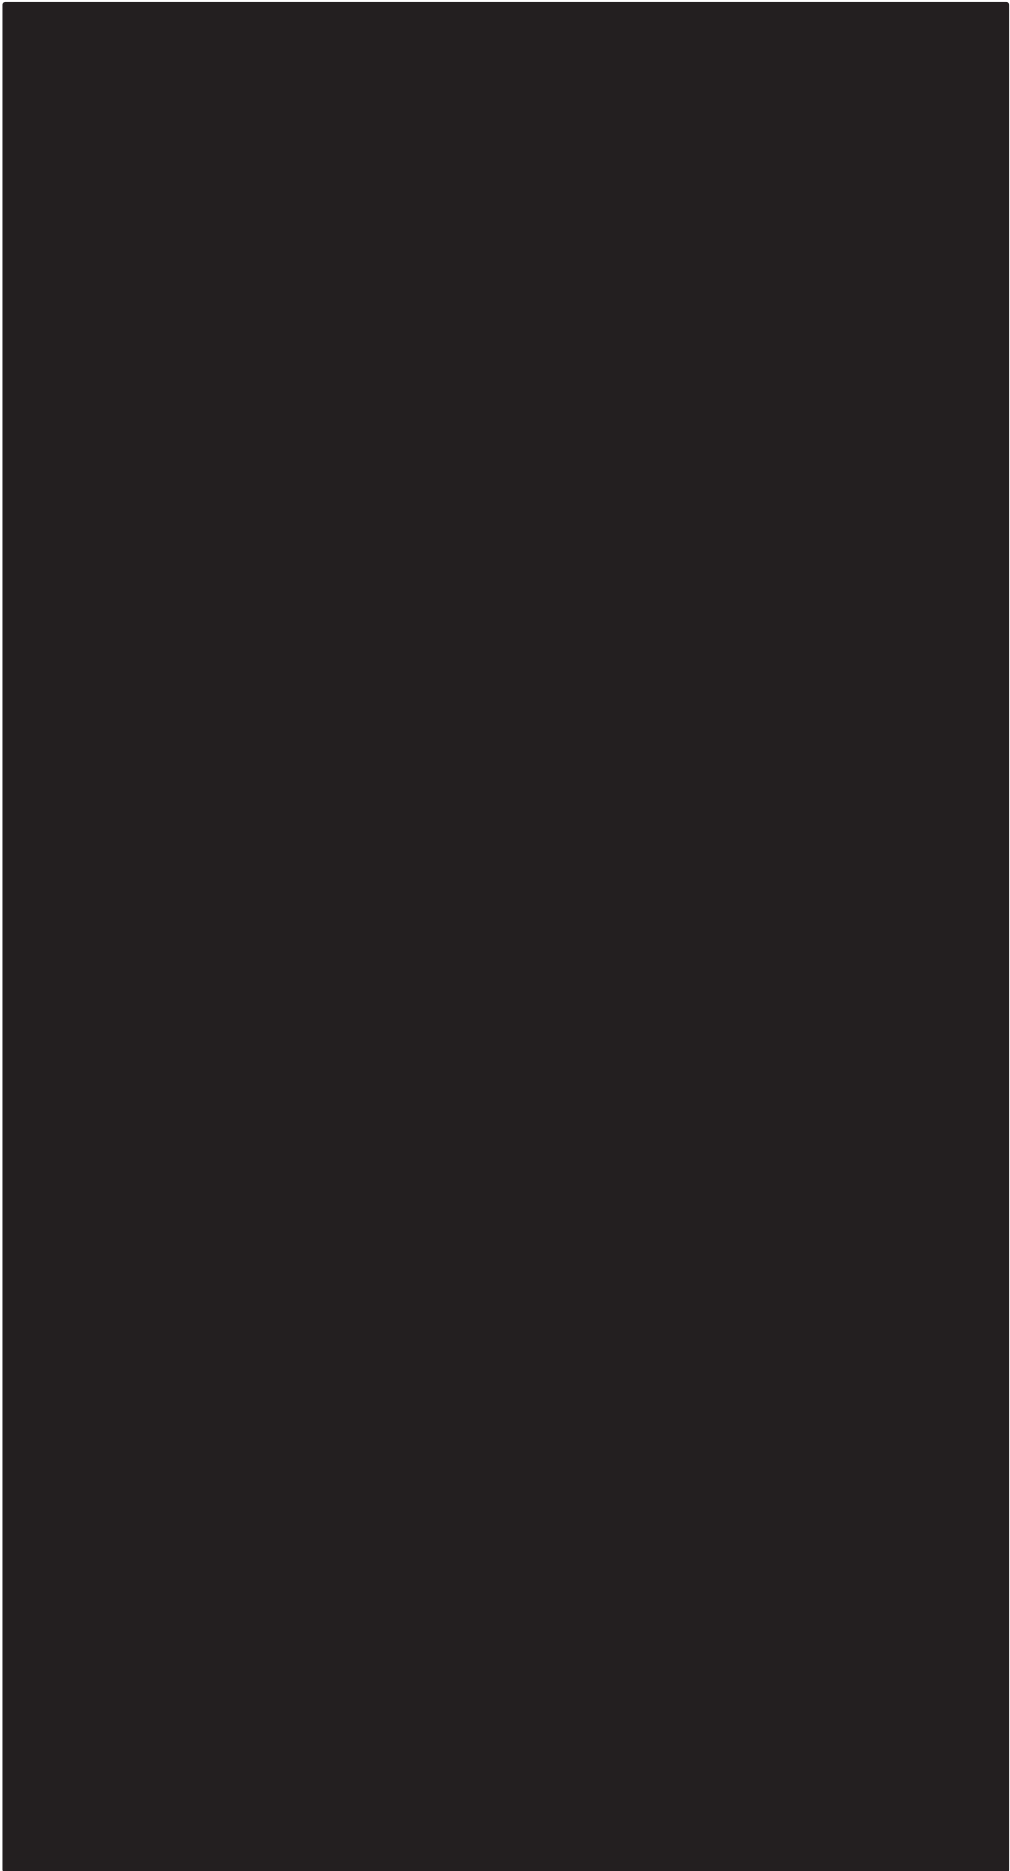

EFG	Service Provider

Abovementioned Project Managers will be the single point of contact for all the matter related to this SOW and shall be authorized to make amendments to this SOW.

Annexure I – Pathology employees

4. Business requirement Summary

A summary of technology requirements

Data and Voice networking

- ABC will provision Internet to establish data connectivity for ABC Manila, Chennai, Vizag & Bangalore delivery Centers over shared firewalls.
- Delivery centers will access applications/data over the VDI which will be provisioned by EFG
- ABC will provision its global telephony platform to enable voice communication for inbound and outbound Voice Communication in Manila
- Hard Phones (Avaya 1616 IP phones) with headsets will be provisioned for the agents in Manila only

Physical/Site security

- Logically separated network

Workstation

- Thin clients will be used for production users at Chennai and desktops at Manila, Vizag & Bangalore.
- 22"/ 24" dual monitors will be used for all users

Application requirements

- Applications to be accessed via VDI over the Internet. MS Authenticator is being implemented for Vizag & Bangalore users.

Shared drive requirements

- Shared drives are provided only for storing reference documents and not for any Health Care data

Printers/ Fax / Others

- There is no requirement of any printer, fax or scanner in the process

Security requirements

- 2 factor authentication will be used for the users to allow to login to the EFG VDI environment at Vizag & Bangalore

5. Overview

Project Name
Type
Industry/Vertical
Client
Processes in scope
Data connectivity
ABC delivery center

Application Access
Total seats (data) in scope
ABC IT Representatives- Delivery center
ABC Program Managers
Account manager
Client Program Manager
Client IT representatives

6. Technology solution description

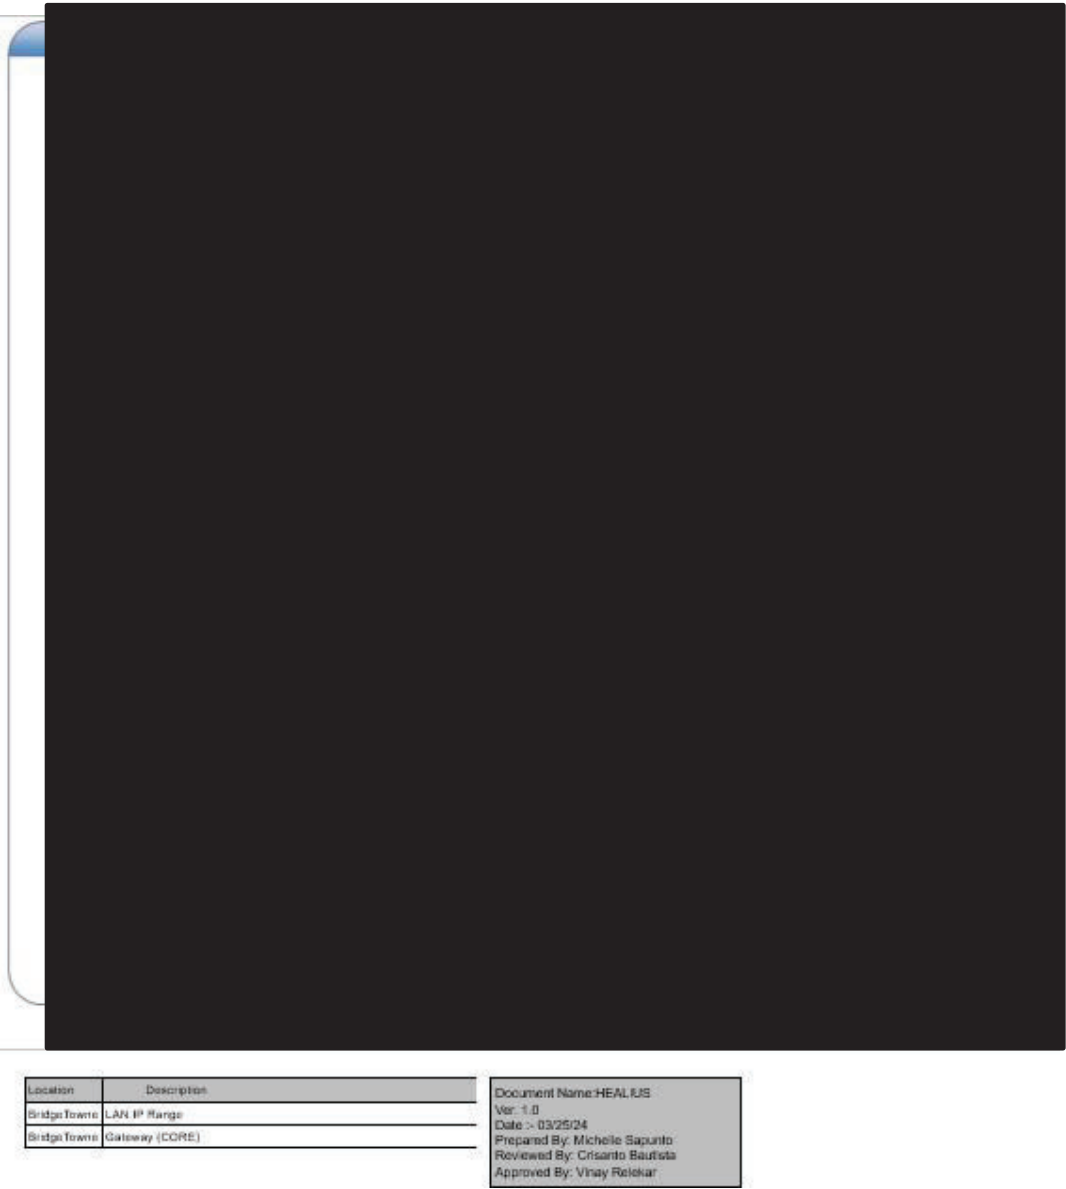

- ABC will provision Internet to establish data connectivity for ABC Manila, Chennai, Vizag & Bangalore delivery Centers over shared firewalls
- It is assumed ABC associates will access EFG proprietary applications via VDI environment
- EFG will provide required access rights ABC associates to access their in-scope applications
- All access rights / licenses will be provided by EFG
- Bandwidth of 1 Mbps per seat is considered for data connectivity (ie. Manila only)
- Email access for vendor agent would be provided by EFG
- Any other software / hardware required will be charged at additional cost
- Local internet access is considered to be provided through the VDI environment by EFG
- Production systems would have with 22"/ 24" dual monitors
- There is no specific business requirement for a local printer or physical fax device at the ABC delivery centers to print any EFG document. Any printing would be done outside EFG production environment

7. Data Connectivity

ABC will provision Internet to the systems in ABC Manila, Chennai, Vizag & Bangalore delivery Centers for accessing the EFG VDI application ‘VMWare Workspace One’ over shared firewalls

7.2. Standard Firewall policy rule base

As a good practice, following firewall policies rules will be configured to define secure policy rules. Exceptional cases where the application ports are dynamic in nature policy will be defined with ANY ports while controlled with restricted source and destination subnets.

- ✓ Policy rules do not allow access from any source
- ✓ Policy rules do not allow access from entire source networks
- ✓ Policy rules do not allow access to any destination
- ✓ Policy rules do not allow access to entire destination networks
- ✓ Policy rules do not allow access to any destination port
- ✓ Policy rules log denied access
- ✓ Policy rules should not reject packets
- ✓ Policy lists end with a deny all and log

7.3. Bandwidth Sizing Calculations

Bandwidth Allocation Details on the shared Internet as below

Manila

Bandwidth sizing calculations					
ABC location	# of seats	bandwidth per seat (Kbps)	Total data bandwidth (Kbps)	Total data Bandwidth (Mbps)	Rounded off (Mbps)
Data					
Zeta, Manila	113	1024	1,15,712	115.712	119
Voice

Voice						
Bangalore	0	0	0	0	0	
Total Additional Bandwidth requirement, Data + Voice (Mbps)					170	

8. LAN Design

- ABC agents will log in to ABC provided Thin clients (Chennai), Desktops (Manila, Vizag, Bangalore)
- ABC agents will authenticate on ABC active directory as a 1st level of authentication
- Single login ID for the End user to enter into ABC domain
- Once the agent signs on to ABC domain, the agent will need to open the browser to access the internet to reach EFG VMWare Workspace One URL (milkyway.EFG.com.au)
- Agent will authenticate on the EFG active directory to access their associated desktop
- All the applications will be published by EFG within VDI environment. VMware Workspace One is the chosen VDI platform
- ABC agent will have no other access on the terminal apart from EFG and ABC applications
- A dedicated secure VLAN will created on the core switches at ABC delivery centre that restricts the inter VLAN communication to ABC shared services like Active directory, end point security and patch management only
- Centralized Management which brings in higher levels of compliance and reporting. All updates and patches will be managed centrally upon successful confirmation of UAT from Operations team
- The Inter VLAN communication between EFG VLAN and other VLANs will be restricted
- There will be MAC binding in place for all EFG systems on EFG dedicated area and network ports so that no other systems can gain access to EFG network with getting the MAC cleared from Networks

LAN Topology

- Dedicated Secure shared VLAN at ABC delivery centres with restricted inter VLAN communication to ABC shared services like Active directory, end point security and patch management
- Authentication to the agent desktops through ABC shared Active Directory (AD)
- The Inter VLAN communication between EFG VLAN and other VLANs will be restricted

9. IP addressing

LAN IP Allocation & VLAN ID

Public IP (Firewall) for VIPL Vizag, India: 49.205.68.180/32 (ACT), 125.20.153.100 (Airtel)

Public IP (Firewall) for RMZ Bangalore, India: *(to be updated)*

SCCM

9.1. CrowdStrike End Point Security

CrowdStrike AV security components is used to detect zero-day threats in near real time. Advanced antimalware and antivirus protection to protect, detect, and correct malware across multiple devices and operating systems. Proactive web security to ensure safe browsing on the web, these are updated as per the ABC Policy document available within the portal

<https://policyportal.ABC.com/UI/Common/Homepage.aspx>

9.2. SCCM server

Microsoft SCCM is used for deployment of MS Patches, OS deployment, Application deployment. MS Patches are installed as per the ABC policy

<https://policyportal.ABC.com/UI/Common/Homepage.aspx>

9.3. Patch Management

ABC will follow the standard patch management process for all the systems deployed in the production environment. As soon as the new patch is released, it is tested on a few UAT machines and a confirmation is taken from the users and/or Operations team. Once UAT is received, this goes in our Change request which a weekly cycle and is approved by our Change Management board. All the deployment on the systems are completed within 1 month of the patch release for production. In case of any immediate upgrade, an Emergency Change request is raised, followed by approval from Change Control Board upon successful UAT on the test machine.

Wyse Management Suite (WMS) will be used by ABC for deployment of patches on the Dell Wyse thin clients

9.4. Shared Drive

Based on approval from ABC Info Sec and Client IT, ABC has provisioned shared storage to EFG process users for storage. Shared drives are provided only for storing reference documents and not for any Health Care data, any Database, Outlook (.ost, .pst), application, video or picture files, as the shared drive is allocated for file sharing only. Management and housekeeping of the data will be performed by shared drive owner (operations).

Shared drives:

Manila : \\WPMEXAVMSSFS1\EFG_Ops

Chennai : \\Hc.int\pa\SDS\Finance National\Pathology Team\24 ABC Shared Folder

Vizag : \\WIVFS1\EFG GBS

10. End user computer

10.1. System configuration

ABC will provide the following **minimum** systems configuration

- For Production users:
 - ✓ For **Chennai** : Wyse 5070 thin client with Intel Pentium Silver Processor J5005, 16G eMMC Intel(R) Pentium(R) Silver Processor J5005 (4 Cores/4MB/4T/up to 2.8GHz/10W Intel(R) Pentium(R) Processor Label. 4GB 1x4GB, 2400MHz DDR4 Memory SATA Flash Included (upgradable to 8 GB). Dell Wired Mouse MS116 Black, US Int Dell KB216 Wired English Keyboard Black
 - ✓ For **Manila, Vizag & Bangalore**: Dell desktops, monitors, KB & mouse.
- BIOS password is used as a standard security norm under hardening checklist of system build. The BIOS password must meet the following standard complexity requirements:
 - ✓ Should contain 6 characters
 - ✓ Should be alphanumeric
 - ✓ Frequency to changing the BIOS password is whenever there is a major hardware configuration re-fresh across the organization
- There will be only one default drive in the thin clients and desktops. Additional partitions won't be created
- All Dell Wyse thin client model has File Based Write Filter Utility which provides a secure environment for thin client computing by protecting the thin client from undesired flash memory writes, due to which Anti-Virus are not been separately needed to be installed on thin clients
- Wyse supports On-premise management. These Thin clients will be on a dedicated and segregated OU's, Users and Computers for EFG. Separate dedicated VLAN's would be created for EFG systems
- No Wi-Fi will be provided on the production floor. It will be Wired connectivity only

10.2. Support structure

The support structure for EFG users are to be clearly defined for the data-to-day incident or issues, which are being reported.

- ABC will be responsible for the support pertaining to Windows Platform. The support will be provided by the local IT team using Zoom or LogMeIn application remotely to check and resolve any issues related to local desktop
- EFG will be responsible for the support pertaining to VDI application. The support will be provided by the EFG IT team using Zoom inside the VDI to check and resolve any issues related to VDI. EFG Pathology IT Service Desk can be reached out at 1300 816 691 or Pathology.ITSupport@EFG.com.au

11. IT Security

11.1. Desktop Hardening

ABC standard desktop hardening policies that will be implemented are as below –

BIOS

- BIOS should be password protected
- Other boot devices should be disabled
- Audio should be disabled
- Only Delete Key (Enter in Setup) should be enabled rest of them should be disabled

Computer Management

- Need to rename built in Administrator account as ABC2kadmin
- Need to set the standard password for ABC2kadmin
- Need to create a Dummy administrator and disable it
- Need to rename Guest account as ABC2kguest and disable it

Domain Configuration

- Need to set the 14 digit hostname as per the asset tag provided for the particular computer eg. BOMWCEN00XXXXX
- Need to add system in Process Shared Services Domain

User Based Policy

- Users have no privileges to save any data in local system (e.g Desktop & My Documents).
- Local drive restriction enabled
- USB / Local drive access restricted
- Print Screen access restricted
- Notepad, Snipping tool, WordPad, MS Paint, Sticky Notes applications are restricted
- Zscaler proxy policy for users (at Manila, Vizag & Bangalore)

11.2. Authentication

The Agents will authenticate against a local domain controller to gain access to the Client dedicated systems. The user ids and passwords will be unique for each user and will be governed by the standard password policies agreed of ABC. Since the local user ids will be on ABC owned domain controllers, from a day to day management point of view they would follow the ABC standard naming conventions.

Authentication policies:

1	Minimum password length	12 characters
2	Change password after first logon	Yes
3	Mandatory password change period	45 days
4	Password composition rules	Passphrases and passwords must contain upper and lower case letters, at least one number, and a special character
5	Logoff/screen saver mode	Automatic after 3 minutes of inactivity
6	Account lockout	After 3 unsuccessful login attempts

Once authenticated against the ABC domain server, the agents will use their assigned user id and password to login to the specific Client systems.

11.3. Security Administration

Thin client Microsoft patches are updated via Windows Management server on a monthly basis or as and when Microsoft releases the patches, they are updated centrally

11.4. Application Access

- Horizon Agents (Primary)
- Alternate option would be Browser based VDI access

11.5. Proxy details

Only EFG whitelisted URL will be allowed through the EFG network. All rest of the whitelisted Internet access will go through the EFG VDI environment

Below are the URL's whitelisted and allowed through the EFG network. The EFG VDI is bypassed in Zscaler proxy. All rest of the whitelisted Internet access will go through the EFG VDI environment

- *EFG.com.au
- *cloudfront.net
- *mercury.EFG.com.au
- *EFG.vmwareidentity.com.au
- *zoom.com
- *EFG.zoom.us
- *neptune.EFG.com.au
- *zoom.us
- *vmwareidentity.com.au
- *microsoft.com
- *vmware.com
- diy.ABC.com (ABC password resetting portal)
- ABC Intranet portal (For Attendance, Rostering, Leave Management, etc.)
- *milkyway.EFG.com.au
- *yizoncv-ap.vmwarehorizon.com
- *ctldl.windowsupdate.com
- *softwareupdate.vmware.com
- *vmwarehorizon.com
- *cdn.hub-services.vmwservices.com
- Akamai-CDN
- Google-Web
- Microsoft-Azure
- crt.usertrust.com
- *softwareupdate.vmware.com
- *vmwareidentity.com.au
- *yizoncv-ap.vmwarehorizon.com

Attached below are the Firewall rules enabled on the local system

Mails sending rights have been whitelisted from ABC end to allowed limited supervisors to send mails to EFG and sub-domains. Domains allowed are:

@EFG.com.au

@primaryhealthcare.com.au

@sdspathology.com

@laverty.com.au

@sdspathology.com.au

@wdp.com.au

Medical Center LOB from Chennai is ramp down – Deactivated the ABC VPN and Azure Access.

RE Medical Centres
- weekly transition

email.ABC.com has been allowed in EFG network Quezon City.

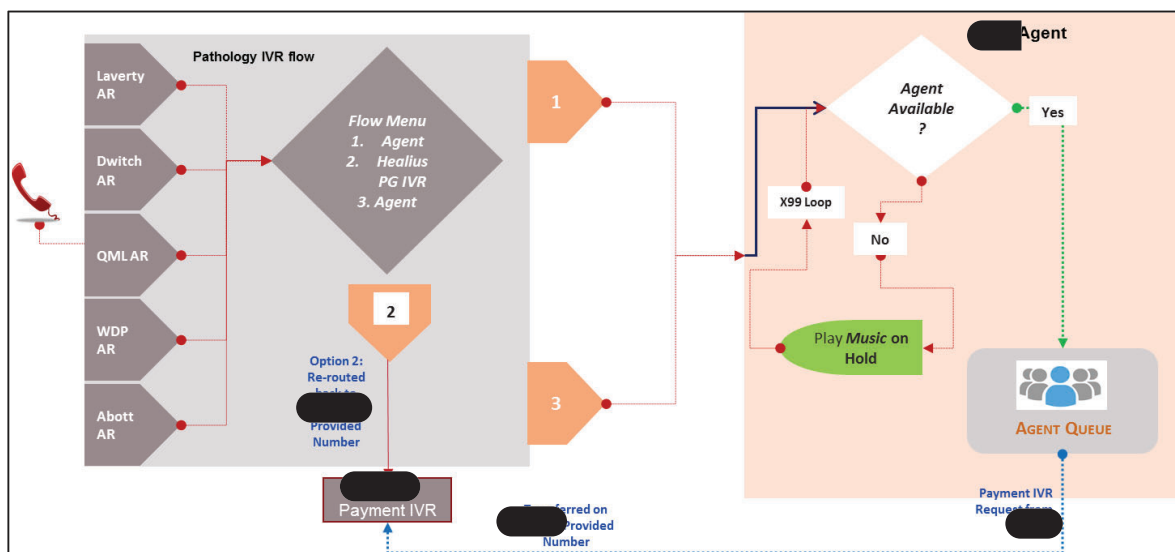

OWA access

12. Voice infrastructure (Manila only)

- ABC will provision its Global Telephony platform i.e. AVAYA Aura Communication Manager to enable communication for inbound and outbound Voice calling
- EFG customers will continue to call the existing toll/ toll free numbers. EFG will forward the calls to ABC provisioned local Australian numbers.
- ABC will collect these calls at their US PoP and route it to its ABC delivery centres over ABC Global MPLS connectivity
- Once the calls is routed to ABC local Australian number, it will traverse through ABC MPLS to delivery centre i.e. Manila and depending on the availability of the agents, the call will be routed to next available representative
- If no agents are available the Caller will hear HOLD music while in queue. Once an agent is available to answer the call, it will get offered to that available agent
- For PCI requirement, if in case caller wishes to make payment over the call, the agent will manually transfer the call back to EFG payment gateway (IVR)
- Outbound calling would be done manually and calls will be enabled via US POP. ABC will configure Australia CLI in system to send Australia CLI to receiver end on best effort basis depending on far end service provider and regulatory norms which cannot be guaranteed. In that scenario, US local number will be displayed at receiver end
- 100% voice call recording will be enabled in the Global Shared NICE systems deployed at ABC
- EFG IVR Payment gateway would be used for Pathology and Imaging
- Voice solution for Chennai, Vizag & Bangalore is not considered in the solution and is out of scope

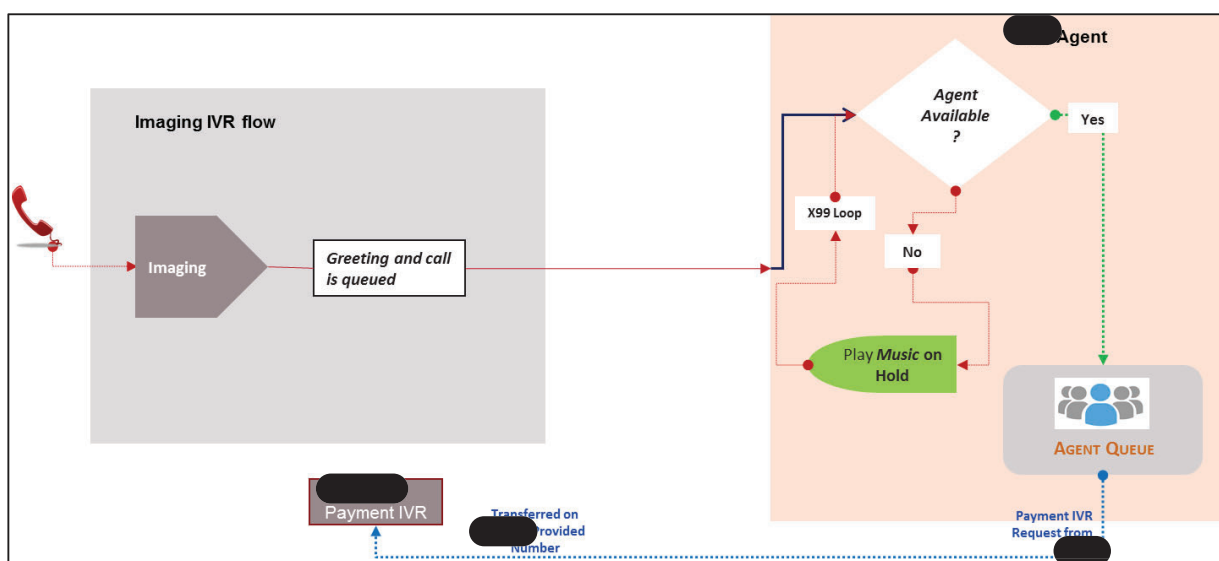

12.3. IVR Flow- Pathology- Diagram 1A

- Sub Option 1 and 3 under each of the Main IVR menu will be defined for Doctors and Collectors option at EFG IVR and calls to be routed to single queue
- Sub option 2 under each of the Main IVR option for Payment IVR service to be re-routed to EFG i.e. transfer the call to Payment by IVR service at EFG.
- ABC ACD system to route calls to agent queue.
- Hold music/queue music will be played to customer while customer is queue.

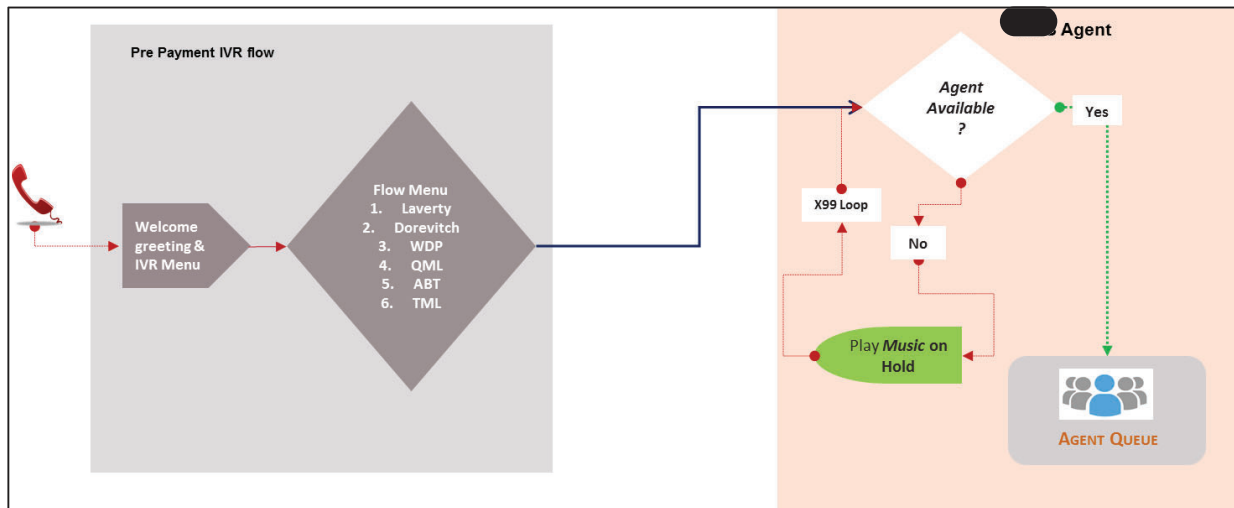

12.4. IVR Flow- Imaging -Diagram 1B

- Under imaging there is no sub menu, only greeting message and call is to be queued.
- ABC ACD system to route call to agent queue.
- Hold music/queue music will be played to customer while customer is queue.

P.S. 1 Australia DID for Medical Centre

12.5. IVR Flow- Pre Payment Line

- EFG IVR for Prepayment line number 1800 328 987 to be transferred onto ABC AUS DID- +612 9157 8983
- Option 1, Option 2, Option 3, Option 4, Option 5 and Option 6 under Pre-Payment IVR menu will be defined for Laverty, Dorevitch, WDP, QML, ABT and TML respectively and call will be routed individual queue.
- ABC ACD system to route call to agent queue.
- Hold music/queue music will be played to customer while customer is queue.

P.S. 1 Australia DID for Pre-Payment line

Process	Campaign	ABC_AUS_DID	VDN name
EFG	Pathology	61291578981	HEA_PATH_LAVERTY

13. Work from Home solution (Manila & Chennai)

Attached below is the approved Work from Home solution

EFG_Work From Home
Solution for C

13.1. Solution Overview – Manila

End-user access

- The remote-working user will use a Company provided Asset (CPA) and connect using home internet to EFG applications via VDI with 2FA over the internet provided by EFG. EFG will whitelist applications for ABC users through ABC Cloud Proxy IP's
- ABC EIT will provision:
 - Desktops with Azure AD authentication, Intune, CrowdStrike AV, CrowdStrike Host DLP, FortiClient VPN, cloud proxy, bitlocker on the CPA, Avaya Softphone
 - Calls will be enabled via the ABC GMPLS and US PoPs

13.2. Solution Overview - Chennai

End-user access

- The remote-working user will use a Company provided Asset (CPA) and connect using home internet to EFG applications via VDI with 2FA over the internet provided by EFG. EFG will whitelist applications for ABC users through ABC Cloud Proxy IP's
- ABC EIT will provision:
 - Laptop or Desktop with Azure AD authentication, Intune, CrowdStrike AV, CrowdStrike Host DLP, Instasafe VPN client, cloud proxy, bitlocker on the CPA

Voice is not considered for Chennai operations

13.3. End User computer

For Manila WFH users, ABC has provided desktop

- ✓ Dell Optiplex with i3 processor desktop, 4 GB RAM, 500 GB HDD with all security controls in place

For Chennai users, ABC has provided a combination of desktop and laptop

- ✓ Dell Optiplex with i3 processor desktop, 4 GB RAM, 500 GB HDD with all security controls in place
- ✓ Dell Latitude with i5 processor laptop, 4 GB RAM, 500 GB HDD will all security controls in place.
(Webcam was enabled for enabling Zoom meetings)
